THE FAMILY BENEFITS ACT, 1966

O. Reg. 102/67.

General.

Made—March 9th, 1967.

Filed—March 21st, 1967.

REGULATION MADE UNDER THE FAMILY BENEFITS ACT, 1966

GENERAL

1.—(1) In this Regulation,

- (a) "liquid assets" means cash, bonds, stocks, debentures and any other assets that can be converted readily into cash and includes the beneficial interest in assets held in trust and available to be used for maintenance but does not include the amount remaining to be paid under a mortgage or agreement for sale, or the cash surrender value of a life insurance policy;
- (b) "married person" means an adult person other than a single person;
- (c) "single person" means an adult person who is a widow, widower, unmarried, deserted, separated or divorced and who is not living with another person as husband or wife.

(2) For the purposes of clause *e* of section 1 of the Act, secondary schools as defined in *The Schools Administration Act*, provincial technical institutes established under *The Department of Education Act*, and schools established under *The Public Schools Act* and *The Secondary Schools and Boards of Education Act* are classes of educational institutions.

(3) For the purposes of subsection 1 of section 7 of the Act, "any person in need" means any person who by reason of disability, age, loss of the principal family provider, or permanent unemployability is found, in accordance with this Regulation, to be unable to provide adequately for himself, or for himself and his dependants, or any of them, but, subject to section 20, does not include a person who is a resident in or a patient in,

- (a) a hospital for chronic patients or a part of a hospital designated for chronic patients;
- (b) an institution under *The Mental Hospitals Act*;
- (c) a psychiatric hospital under *The Psychiatric Hospitals Act*;
- (d) a hospital under *The Children's Mental Hospitals Act*;
- (e) a sanatorium under *The Sanatoria for Consumptives Act*; or
- (f) a sanitarium under *The Private Sanitaria Act*,

after the first month and prior to the last month of any continuous period of residence therein.

(4) For the purposes of the Act and this Regulation,

(a) "blind person" means a person with visual acuity in both eyes which with proper refractive lenses is 20/200 (6/60) or less with Snellen chart or equivalent, or a person having the greatest diameter of the field of vision in both eyes of less than twenty degrees, where the diameter of the field of vision is determined by the use of,

(i) a tangent screen at a distance of one meter using a ten millimeter white test object, or

(ii) a perimeter at a distance of one-third of a meter using a three millimeter white test object;

(b) "disabled person" means a person who has a major physical or mental impairment that is likely to continue for a prolonged period of time and who, as a result thereof, is severely limited in activities pertaining to normal living, as verified by objective medical findings accepted by the medical advisory board;

(c) "permanently unemployable person" means a person who is unable to engage in remunerative employment for a prolonged period of time as verified by objective medical findings accepted by the medical advisory board.

2.—(1) The recipient of a pension under the *Old Age Security Act* (Canada),

- (a) who is resident in Ontario at the date of his application;
- (b) who is a single person with not more than \$1,000 in liquid assets;
- (c) who is a married person where the applicant and spouse have together liquid assets of not more than \$1,500; and
- (d) who is not an Indian within the meaning of the *Indian Act* (Canada) eligible for medical services from the Government of Canada,

may be provided without cost with medical services in accordance with *The Medical Services Insurance Act, 1965* and the regulations thereunder and with hospital services in accordance with *The Hospital Services Commission Act* and the regulations thereunder where,

- (e) his budgetary requirements determined under section 9 exceed his income determined under section 10; or
- (f) his income determined under section 10 exceeds his budgetary requirements determined under section 9 by not more than \$5 monthly for a recipient who is a single person or \$10 monthly for a recipient who is a married person,

provided that where the recipient was at the date that the Act comes into force in receipt without cost to him of the said medical or hospital services he shall continue to receive those services where his annual income does not exceed \$1,260 for a single person or \$2,220 for a married person and where he has liquid assets of not more than \$1,000 for a single person or not more than \$1,500 for a married person, and for the purpose of determining the budgetary requirements of the recipient the maximums set out for shelter in paragraph 6 of subsection 2 of section 9 do not apply.

(2) The wife of a recipient of a pension under the *Old Age Security Act* (Canada),

- (a) who is not otherwise eligible for an allowance under the Act or is not eligible for a pension under the *Old Age Security Act* (Canada);
- (b) who has attained the age of 60 years;
- (c) who is resident in Ontario at the date of application;
- (d) who is living,
 - (i) with her husband,
 - (ii) apart from her husband where he is a patient in an institution under *The Mental Hospitals Act*, a sanatorium under *The Sanatoria for Consumptives Act*, a hospital for the chronically ill or a nursing home or a resident in a home for the aged under *The Homes for the Aged and Rest Homes Act*, or *The Charitable Institutions Act, 1962-63*, and has been a patient or resident therein, as the case may be, for a continuous period of six months or more, or
 - (iii) apart from her husband where he is imprisoned in a penal institution and at the date of application has a term of imprisonment remaining to be served of six months or more, and
- (e) who has liquid assets, together with those of her husband of not more than \$1,500,

is eligible for an allowance calculated in accordance with section 8.

(3) The wife of a recipient or former recipient of an allowance under the Act or a predecessor Act,

- (a) who is not otherwise eligible for a benefit under the Act;
- (b) who has,
 - (i) attained the age of 60 years, or
 - (ii) one or more dependent children;
- (c) is resident in Ontario;
- (d) who is a single person; and
- (e) who has liquid assets of not more than \$1,000, but where she has one or more dependent children, this amount shall be increased by \$200 for each dependent child,

is eligible for an allowance calculated in accordance with section 8.

(4) A child who in the opinion of the Director is impaired as a direct result of his natural mother having used the drug known as thalidomide shall be deemed to be a person in need and shall be eligible for financial aid in such amounts as the Director may determine.

(5) A person received and lodged as a resident within the meaning of *The Homes for Special Care Act, 1964*, in a home for special care established, licensed or approved under that Act,

- (a) who is not otherwise eligible for an allowance; and
- (b) who has liquid assets not in excess of the amounts under section 4,

is eligible for an allowance calculated in accordance with section 8.

3. An applicant may be eligible for an allowance where he is resident in Ontario at the date of his application.

4. An applicant or recipient under section 7 of the Act is not eligible for an allowance where the applicant or recipient is,

- (a) a single person without dependent children, and has liquid assets in excess of \$1,000;
- (b) a single person with dependent children and has liquid assets in excess of \$1,200 for an applicant with one dependent child and \$200 for each additional dependent child;
- (c) a married person with a spouse under the age of sixty years and has together with his spouse liquid assets in excess of \$1,200 for the applicant and spouse and \$200 for each dependent child;
- (d) a married person with a spouse sixty years of age or more and has together with his spouse liquid assets in excess of \$1,500 for the applicant and spouse and \$200 for each dependent child; or
- (e) a foster mother making application for or in receipt of an allowance on behalf of a foster child where the foster child has liquid assets in excess of \$500.

5.—(1) Where an applicant or recipient under section 2, or under clauses *a* to *e* of subsection 1 of section 7 of the Act, or the spouse or a dependent child of the applicant or recipient has an interest or estate in real property other than real property used by the applicant or recipient as his own dwelling place, the applicant or recipient, as the case may be, is not eligible for an allowance unless such arrangement or disposition of the estate or interest is made as is deemed to be advantageous for the care of the applicant's or recipient's family.

(2) Where an applicant or recipient is a foster mother she is not eligible for an allowance on behalf of a foster child who has an interest or estate in real property other than real property used as his own dwelling place by the foster child, unless such arrangement or disposition of the estate or interest is made as is deemed to be advantageous for the care of the foster child.

6. Where, within three years preceding the date of application, or at any date subsequent thereto, an applicant or recipient or the spouse of an applicant or recipient has made an assignment or transfer of liquid assets or real property and, in the opinion of the Director, the consideration for the assignment or transfer was inadequate or the assignment or transfer was made for the purpose of qualifying the applicant for an allowance, the Director may determine that the applicant or recipient is not eligible for an allowance or he may reduce the amount of an allowance granted to compensate for the inadequate consideration.

7. An applicant or recipient under clause *d* of subsection 1 of section 7 of the Act is not eligible for an allowance where she is regularly employed in remunerative employment for more than 120 hours per month.

8.—(1) Subject to subsections 2 and 3, the amount of an allowance shall be equal to the budgetary requirements of the applicant determined in accordance with section 9 after deducting therefrom his income determined in accordance with section 10.

(2) The allowance payable to a recipient shall not exceed a maximum of \$300 per month where the number of beneficiaries does not exceed four, but where there are more than four beneficiaries, this maximum shall be increased by a further \$10 monthly for each beneficiary in excess of four.

(3) The allowances computed in accordance with subsections 1 and 2 shall be reduced by the amount of any benefits paid to or on behalf of an applicant, recipient or beneficiary under the *Pension Act* (Canada), the *Unemployment Insurance Act* (Canada), the *War Veterans Allowances Act* (Canada), the *Civilian War Pensions and Allowances Act* (Canada), the *Workmen's Compensation Act*, and the *Canada Pension Plan* (Canada).

9.—(1) In this section,

(a) "pre-added budget" means that part of the monthly budgetary requirements of an applicant or recipient that is fixed by the Schedule for the purpose of providing food, clothing, utilities, household supplies and personal requirements;

(b) "shelter" means costs for a dwelling place in respect of,

- (i) rent,
- (ii) principal and interest on a mortgage,
- (iii) an agreement for sale,
- (iv) taxes, and
- (v) the preservation, maintenance and use of the property when considered by the Director to be reasonable and necessary.

(2) For the purpose of computing the amounts of allowances, the monthly budgetary requirements of an applicant or recipient other than applicants or recipients under subsections 3, 4 and 5 shall be determined as follows:

1. Where the applicant or recipient receives board and shelter from the same source, an amount for food, shelter, clothing and personal requirements determined in accordance with the following Table:

TABLE

1	During last 3 months of pregnancy	\$ 5.10
2	Gastric-type	\$ 5.10
3	Diabetic	\$10.30

5. Where a duly qualified medical practitioner certifies that a beneficiary included in the allowance requires any type of special diet other than those referred to in paragraph 4 and signs a statement setting out in detail the special diet required, the Director may increase the monthly amount of the pre-added budget for the family determined in accordance with the Schedule to compensate for any additional cost to provide the special diet for the beneficiary.

6. Subject to paragraph 1, for shelter,

- (a) an amount up to a maximum of \$43 monthly for a single person without dependent children;
- (b) an amount up to a maximum of \$85 monthly for a married person living in heated premises without dependent children;
- (c) an amount up to a maximum of \$85 monthly for a single person or married person living in heated premises with dependent children but where there are more than two beneficiaries included in the allowance this maximum amount shall be increased by \$5 per month for each additional beneficiary in excess of two;
- (d) an amount up to a maximum of \$75 monthly for a married person living in unheated premises without dependent children;

- (e) an amount up to a maximum of \$75 monthly for a single person or married person living in unheated premises with dependent children, but where there are more than two beneficiaries included in the allowance, this maximum shall be increased by \$5 per month for each additional beneficiary in excess of two,

provided that any of the amounts determined in this paragraph shall not be less than \$23 monthly for a single person and \$34 monthly for all other persons.

7. For fuel, where the budgetary requirements of an applicant or recipient are determined under clauses *d* or *e* of paragraph 6,

- (a) for the months of August in each year to April in the following year, where the applicant or recipient resides in a territorial district; or

- (b) for the months of September in each year to March in the following year, where the applicant or recipient does not reside in a territorial district,

a monthly amount subject to paragraph 8, up to a maximum of \$32 per month based on the cost of coal locally, as determined by the Director, and calculated on the basis of the number of rooms in column 1 and the number of pounds of coal per month in column 2 or 3 of the following Table:

TABLE

- (c) 40 per cent of the gross income in excess of \$2,000.

11.—(1) Subject to subsections 2 and 3, an allowance shall be paid by cheque, monthly in arrears, computed from the first day of the month following the month in which eligibility of the applicant is determined.

(2) Subject to subsection 3, where eligibility is determined after the last day of the month in which the application was received by the Director and delay in making the payment is caused by circumstances wholly beyond the control of the applicant, the Director may direct that payment shall commence on an earlier date to be set by him, but that date shall not be before the date on which the Director receives the application or more than four months before the date on which he determines the eligibility, whichever is the later.

(3) Where a recipient ceases to be eligible for an allowance and on a new application therefor another person caring for a dependent child or foster-child of the recipient is eligible for an allowance, the allowance to that person shall commence from the first day of the month following the month in which the recipient ceases to be eligible.

(4) Where a recipient ceases to be eligible for an allowance before the 15th day of a month, the Director may direct that only 50 per cent of the allowance be paid for that month.

12.—(1) The Director may determine that a beneficiary is not eligible to receive a benefit or may cancel or suspend a benefit where,

- (a) the applicant or recipient or spouse of the applicant or recipient is unwilling to accept employment and, in the opinion of the Director, suitable employment is available; or
- (b) the applicant or recipient is absent from Ontario.

(2) The Director, having regard to a beneficiary's budgetary requirements and his income, may vary or suspend an allowance where a beneficiary is,

- (a) a patient in a general hospital or a convalescent hospital; or
- (b) serving a term of imprisonment.

(3) The Director may recover from a recipient any sum improperly paid under this or any predecessor Act as a result of non-disclosure of facts, misrepresentation or any other cause by reducing or suspending the allowance or by such other means as the Director considers appropriate.

13.—(1) An application for an allowance shall be made to the Director in Form 1.

(2) An application for any other benefit shall be made to the Director in Form 2.

(3) An application in Form 1 shall be accompanied by a consent to inspect assets in Form 3.

(4) An application received under clauses *c* or *e* of subsection 1 of section 7 of the Act shall be accompanied by a report of a duly qualified medical practitioner in Form 4, but where the applicant is a blind person, the report shall be in Form 5.

(5) Where applicable, an applicant shall furnish, to the satisfaction of the Director,

- (a) proof of the date of birth of the applicant and any beneficiary for whom an allowance would be provided under the application;
- (b) proof of marriage; and
- (c) proof of the death of the spouse or of a parent of a dependent child or foster child in respect of whom an application is made.

(6) Where the applicant by reason of physical or mental disability is unable to make the application in person, the application may be made by the spouse or some other responsible person acting on behalf of the applicant.

14.—(1) A field worker shall fill out and complete the application in the presence of the applicant and the applicant, subject to subsection 6 of section 13, shall sign the application in the presence of the field worker.

(2) The field worker shall immediately send the completed application and any supporting material to the Director.

(3) A field worker shall,

- (a) at the request of the Director,
 - (i) verify any statements in an application for an allowance,

(ii) where any child of an applicant or recipient is receiving or may receive a benefit, review the circumstances under which the child is being cared for, and

(iii) review the capacity of the applicant or recipient to manage an allowance;

(b) at such times as the Director directs, prepare and submit a report on any circumstances of an applicant or recipient that might affect his eligibility for the amount of or continuance of a benefit or any other matter relating thereto; and

(c) counsel and assist any applicant or recipient assigned to him in any matter relating to a benefit.

(4) A field worker shall not charge any fee to or receive any remuneration from or on behalf of any beneficiary or applicant in respect of any duty that he performs or service that he renders under the Act or the regulations.

15.—(1) The Board of Review shall consist of three members and two members constitute a quorum.

(2) A request for a hearing and review by the Board of Review shall be in writing and shall be forwarded to The Chairman, Board of Review, Department of Public Welfare.

16.—(1) A medical advisory board is established, consisting of three or more persons appointed by the Minister, at least one of whom shall be a duly qualified medical practitioner.

(2) The Minister shall designate as chairman of the board a duly qualified medical practitioner appointed under subsection 1.

(3) The medical advisory board shall,

(a) investigate the eligibility of an applicant or recipient under clause *c* or *e* of subsection 1 of section 7 of the Act, and for this purpose shall,

- (i) review medical evidence submitted in support of the application,
- (ii) obtain any additional evidence necessary to make a complete report under clause iii,

(iii) report to the Director as to whether the applicant or recipient is a blind person, a disabled person or a permanently unemployable person or under what conditions he would become employable; and

(b) determine if the spouse of the applicant or recipient is a blind person or disabled person for the purpose of paragraph 9 of subsection 2 of section 9.

17. In addition to those persons eligible under subsection 1 of section 2, a beneficiary, other than a beneficiary who is an Indian within the meaning of the *Indian Act* (Canada) and eligible for medical services from the Government of Canada, is entitled without cost to receive medical services in accordance with *The Medical Services Insurance Act, 1965*, and the regulations thereunder.

18. In addition to those persons eligible under subsection 1 of section 2, a beneficiary is entitled without cost to receive hospital services in accordance with *The Hospital Services Commission Act*, and the regulations thereunder.

19. Any beneficiary or class thereof, other than a beneficiary who is an Indian within the meaning of the *Indian Act* (Canada) and eligible for dental services from the Government of Canada, may be entitled to dental services under any agreement in writing in force from time to time between the Crown in right of Ontario and the Royal College of Dental Surgeons of Ontario.

20. A person who ceases to be eligible for an allowance by reason of imprisonment or by reason of admission as a patient or resident of a hospital or other institution may, as determined by the Director, con-

tinue to be entitled to receive any benefit under sections 17 and 18 that he was entitled to receive before his imprisonment or admission.

21. Ontario shall pay on behalf of a recipient or an applicant the cost of any medical examination or report to determine whether he is a disabled person, a permanently unemployable person or a blind person where he subsequently becomes eligible for a benefit by reason of the examination or report in the amounts of,

(a) \$5 for a report in Form 4;

(b) \$10 for a report in Form 5.

THE PUBLIC HOSPITALS ACT

O. Reg. 103/67.

Special Capital Grant.

Made—March 16th, 1967.

Filed—March 21st, 1967.

REGULATION MADE UNDER THE PUBLIC HOSPITALS ACT

SPECIAL CAPITAL GRANT

1. The Commission shall pay a special capital grant as provincial aid to the Ontario Cancer Institute, Toronto, to be used by the Institute to assist in meeting the cost of a building project to provide additional patient beds, out-patient clinics, research facilities and accommodation and equipment for the education of under-graduate and post-graduate medical and other hospital personnel.

2. The special capital grant shall be paid in instalments as follows:

1. \$1,000,000 forthwith.
2. \$2,000,000 to be placed in a special account held by the Treasurer of Ontario from which instalments shall be paid when the need for each instalment, the amount thereof and the time when the payment is required are certified by the Commission.
3. The balance of the special capital grant, which shall not exceed \$500,000, shall be paid at such time and in such amount as determined by the Commission when the actual cost of the complete project is known and the Commission is satisfied that the new buildings and facilities are furnished, equipped and ready to receive and treat patients, accommodate research scientists and educate students.

3. The Ontario Cancer Institute shall provide the Commission with such facts and figures as the Commission may, from time to time, require in order to administer this Regulation.

4. This Regulation shall be deemed to have come into force on the 1st day of March, 1967 and expires on the 31st day of December, 1970.

1. In this Regulation,

- (a) "adjusted mill rate" means the mill rate for public school supporters levied in a municipality in the year preceding the year the payment is made under this Regulation on the assessment not entitled to benefit from unconditional grants in accordance with the

provisions of sections 294 and 297 of *The Municipal Act* multiplied by the latest provincial assessment equalization factor determined by the Department;

- (b) "approval of the Minister" means the approval of the Minister as signified by his signature on estimates, by-laws, resolutions, conveyances and other records and documents;
- (c) "local board" means any school board, public utility commission, transportation commission, public library board, board of park management, local board of health, board of commissioners of police, planning board or any other board, commission, committee, body or local authority established or exercising any power or authority under any general or special Act with respect to any of the affairs or purposes, including school purposes, of a municipality or of two or more municipalities or portions thereof;
- (d) "mine or mineral work" includes smelters;
- (e) "mining employee" means any person who is in receipt of or entitled to any salary, wages, or other direct compensation for services or labour performed in Ontario at the locations excepted from assessment under subsection 5 of section 35 of the Act, and who is,
- (i) resident in a mining municipality at the time of the making of the last assessment of the mining municipality, or
 - (ii) resident outside a mining municipality and employed at a mine or mineral work in a mining municipality on the 1st day of October in any year;
- (f) "municipal mines assessment" means the total of,
- (i) \$7500 for each mining employee shown in the register of the preceding year as working and residing in the municipality,
 - (ii) \$2500 for each mining employee working in and residing outside the municipality on the 1st day of October in the preceding year as determined under section 19, and
 - (iii) mines profits as calculated under section 3 of *The Mining Tax Act* and set out by the mine assessor in the notice of assessment referred to in section 11 of *The Mining Tax Act* or, where the amount of the mines profits as so calculated is not known at the time the mining payment is computed, the estimated amount of mines profits as set out in the return under section 6 of *The Mining Tax Act* and reported in writing by the mine assessor, and the amount of mines profits so calculated or estimated shall be in respect of all mines or mineral works located in the year of payment in the area comprising the municipality in that year and the amount of such mines profits shall be the greater of those calculated in respect of the year 1956, or those calculated or estimated in respect of the year two years preceding the year of payment, but in this calculation the mine profits earned by a mine or mineral works that last operated on or after the 1st day of January, 1957, shall in each of the five years following the year in which the mine or mineral works last operated be the amount calculated as follows:

- a. in the first year, 100 per cent,
- b. in the second year, 80 per cent,
- c. in the third year, 60 per cent,
- d. in the fourth year, 40 per cent,
- e. in the fifth year, 20 per cent,

of the greater of the mine profits calculated for the mine in respect of the year 1956 or those calculated in respect of the year preceding the year the mine or mineral works last operated, and none of such mine profits of the mine shall thereafter be included;

- (g) "municipality" means a city, town, village, township or improvement district;
- (h) "register" means register provided under subsection 1 of section 18;
- (i) "total of all estimates approved for the purpose of mining payments" in respect of any municipality for any specified year means the total amount that would have been levied in the preceding year for all purposes of the municipality and its local boards if no mining payment for that year had been received.

2.—(1) For the purpose of this Regulation a person shall be deemed to be resident in that municipality in which he is assessed as owner or tenant of a residence in which either his wife or any dependent child resides and, if not so assessed, in that municipality in which he ordinarily eats and sleeps.

(2) For the purpose of subclause iii of clause f of section 1, the date on which any mine or mineral works last operated is that certified by the mine assessor under *The Mining Tax Act*.

3. This Regulation applies to designated mining municipalities only.

DESIGNATION OF MINING MUNICIPALITIES

4. The following municipalities are designated as mining municipalities for the purposes of this Regulation:

1. The City of Sudbury.
2. The towns of Blind River, Caledonia, Capreol, Chelmsford, Cobalt, Geraldton, Goderich, Haileybury, Levack, Matheson, Timmins.
3. The villages of Bancroft, Hagersville, Madoc, Marmora.
4. The Townships of Atikokan, Balfour, Belmont and Methuen, Black River, Blezard, Bucke, Capreol and Hanmer, Cardiff, Casimir, Jennings and Appleby, Coleman, Dowling, Drury, Denison and Graham, Dungannon, Elliot Lake, Falconbridge, Faraday, Hagar, James, Larder Lake, Marmora and Lake, McGarry, Michipicoten, Mountjoy, Neelon and Garson, Oneida, Playfair, Ratter and Dunnet, Rayside, Red Lake, Ross, Seneca, Teck, Tisdale, Waters, Whitney.
5. The improvement districts of Balmertown, Beardmore, Bicroft, Gauthier, Manitouwadge, Onaping, Renabie.

COMPUTATION OF PAYMENT

5.—(1) In each year the Minister shall make a payment to each mining municipality, being the total of,

- (a) the amount produced by applying the adjusted mill rate to the sum of \$5000 for each mining employee shown in the register of the preceding year as resident in and working outside the municipality; and

- (b) the amount in dollars resulting from applying the adjusted mill rate to the municipal mines assessment of the municipality.

(2) Where in determining the amount of a mining payment in any year the amount of the mines profits has been estimated, and the true amount as calculated under section 3 of *The Mining Tax Act*, when known, is greater or less than the estimate, the difference shall be respectively subtracted from or added to the amount of the mines profits used in computing the mining payment in the following year.

6. In any year, the Minister may reduce the total payment to any municipality to an amount equal to 50 per cent of the sum of the total of all estimates approved for the purpose of mining payments for that municipality.

7. In any year that the amount of a payment computed in accordance with section 5 is less than the total of the mines profits tax that would be collectable for that year by the municipality if it were not designated as a mining municipality and the amount the municipality could reasonably expect under a special grant scheme of Ontario, the Minister may increase the payment to an amount equal to 50 per cent of the sum of the total of all estimates approved for the purpose of mining payments.

8. Where in any year by inadvertence an amount has been approved by the Minister in excess of that computed in accordance with this Regulation, the Minister may pay the excess and the excess shall be recovered out of payments made to the municipality under this Regulation in subsequent years, over such term as is determined by the Minister.

9. For the purpose of computing payment to a municipality in the year of designation as a mining municipality, the municipal mines assessment of the municipality referred to in clause b of subsection 1 of section 5 shall be computed in reference to the year in which the designation is made.

10. Notwithstanding clauses a and i of section 1 in the case of a municipality designated as a mining municipality in the year of its incorporation, "adjusted mill rate" for the purpose of computing the payment for the year of incorporation means the mill rate for public school supporters which would have been levied in the municipality in that year on the assessment not entitled to benefit from unconditional grants in accordance with the provisions of sections 294 and 297 of *The Municipal Act* had no mining payment been received, multiplied by the latest provincial assessment equalization factor determined by the Department, and the total of all estimates approved for the purpose of the mining payment is the amount that would have been levied by the municipality in the year of incorporation for all purposes of the municipality and its local boards if no mining payment for that year were received.

11.—(1) Where in any mining municipality the last operating mine closes down, the payment in the first year after the closing and in each year thereafter shall not be computed in accordance with section 5, 6 or 7, but the Minister shall make a payment,

- (a) in the first year equal to 100 per cent;
- (b) in the second year equal to 80 per cent;
- (c) in the third year equal to 60 per cent;
- (d) in the fourth year equal to 40 per cent; and
- (e) in the fifth year equal to 20 per cent,

of the payment made in the year in which the mine closes down, but the Minister may, in his discretion, accelerate any of the payments mentioned in clauses b, c, d and e in respect of a municipality for the dissolution of which an application has been made.

(2) Subsection 1 does not apply where the register of the municipality, for the year in which the mine closed, showed miners resident in and working outside the municipality.

12. Except in the cases to which subsection 1 of section 11 applies, if the amount payable to a mining municipality under this Regulation is less in any year than the amount paid in the preceding year, the Minister may approve an amount not greater than the larger amount.

CONDITIONS OF PAYMENT

13.—(1) Where a mining municipality does not comply with this Regulation or does not obtain the approval of the Minister to,

- (a) the estimates of the municipality and its local boards;
- (b) the amounts to be provided for and included in the estimates, whether to be provided by taxation or otherwise;
- (c) the imposition, rating and levying of all rates, assessments and taxation upon any or all of the rateable property within the municipality;
- (d) the rates, rents and charges imposed, levied or collectable for supply or service of any public utility;
- (e) the imposition and charging of all licence, permit or other fees, charges and expenses; and
- (f) the sale or other disposition of any assets,

the Minister may withhold the whole or any part of a payment from the mining municipality.

(2) Where, in the opinion of the Minister, a mining municipality has not prepared its assessment roll or made its assessment in compliance with *The Assessment Act*, the Minister may withhold the whole or any part of a payment under this Regulation.

(3) When the municipality complies with this Regulation and obtains the approvals under subsection 1 within the year in respect of which the payment is computed, the Minister shall make the payment so withheld.

14. The Minister shall have access at all times to all books, records, papers and documents of a mining municipality and of every local board, including, but without limiting the generality of the foregoing, all assessment rolls, collectors' rolls, by-laws, minute books, books of account, vouchers and other records, papers and documents relating to its and their financial transactions, and may inspect, examine, audit and copy the books, records, papers and documents.

15. Where in any year the amount voted by the Legislature for the payments under this Regulation is insufficient to make the payments in full, the Minister may make a *pro rata* reduction.

EQUALIZATION OF ASSESSMENT

16. For the purpose of making uniform the methods of preparing assessment rolls in mining municipalities and for ascertaining whether the valuations of real property made by the assessor of each mining municipality bear a just relation one to another, the Minister may supervise the assessment and advise the assessors in respect of any particular assessment or omission to assess or generally in respect of all the assessments, or assessments of land only, or of buildings only, or business, included in the roll or rolls.

17. The Minister may ascertain whether the values of all lands and buildings and the amounts of business assessments as set down in the assessment roll or rolls of a mining municipality bear a just relation one to another.

TABULATION OF MINING EMPLOYEES

18.—(1) In each year the assessor of a mining municipality shall enter in a register, provided for the purpose by the clerk of the municipality, the name of every mining employee residing in the municipality, the name of the mine or mineral work at which the person is employed and the name of the municipality in which the mine or mineral work is located.

(2) Where the mine or mineral work is located in an area without municipal organization, the word "unorganized" shall be entered by the assessor after the name of the mine or mineral work.

(3) The register duly completed and certified by the assessor shall be returned to the clerk of the municipality with the assessment roll.

(4) The clerk shall make and certify a return to the Minister showing the number of mining employees,

- (a) residing in and working in the municipality; and
- (b) residing in and working outside the municipality as determined by the register.

19. The Minister may agree with the council of a mining municipality on the total number of non-resident mining employees in the municipality after a reference to the mines or mineral works or to the Ontario Mining Association has disclosed the number in the employ of the mines or mineral works on the 1st day of October in any year.

20. Regulation 31 of Revised Regulations of Ontario, 1960 and Ontario Regulations 130/61, 248/61, 331/61, 50/62, 63/62, 3/63, 11/63, 95/65, 354/65 and 277/66 are revoked.

THE MILK ACT, 1965

O. Reg. 107/67.

Fluid Milk Products—Designation, Containers and Labelling.

Made—March 20th, 1967.

Approved—March 21st, 1967.

Filed—March 23rd, 1967.

REGULATION MADE UNDER THE MILK ACT, 1965

FLUID MILK PRODUCTS—DESIGNATION, CONTAINERS AND LABELLING

INTERPRETATION

1. In this Regulation,

- (a) "buttermilk" means grade A milk from which the milk-fat is removed by churning and includes the product that is obtained by adding a lactic-acid culture, with or without common salt, to skim-milk;
- (b) "cereal cream" means grade A milk that contains not less than 10 per cent and not more than 15.9 per cent of milk-fat;
- (c) "chocolate milk" means grade A milk that contains not less than 3 per cent of milk-fat and to which a chocolate flavouring has been added;

- (d) "chocolate milk drink" means grade A milk that contains not less than 2 per cent and not more than 2.9 per cent of milk-fat and to which a chocolate flavouring has been added;
- (e) "fruit-flavoured milk" means grade A milk that contains not less than 3 per cent of milk-fat and to which a fruit flavouring has been added;
- (f) "fruit-flavoured milk drink" means grade A milk that contains not less than 2 per cent and not more than 2.9 per cent of milk-fat and to which a fruit flavouring has been added;
- (g) "homogenized standard milk" means standard milk that has been subjected to a mechanical treatment that prevents separation of the milk-fat;
- (h) "lactic milk" means grade A milk in which lactic acid has been produced by the aid of a culture and that has an acidity between .75 and .85 per cent and contains not more than 2 per cent of milk-fat;
- (i) "partly-skimmed milk" means grade A milk that contains not less than .1 per cent and not more than 3.24 per cent of milk-fat and not less than 8.25 per cent of milk solids other than milk-fat;
- (j) "skim-milk" means grade A milk that contains less than .1 per cent of milk-fat and not less than 8.5 per cent of milk solids other than milk-fat;
- (k) "special milk" means grade A milk that contains not less than 4 per cent and not more than 9.9 per cent of milk-fat and not less than 8.5 per cent of milk solids other than milk-fat;
- (l) "standard milk" means grade A milk that contains not less than 3.25 per cent and not more than 3.9 per cent of milk-fat and not less than 8 per cent of milk solids other than milk-fat;
- (m) "sterilized milk" means grade A milk that,
 - (i) contains not less than 3.25 per cent of milk-fat and not less than 8 per cent of milk solids other than milk-fat,
 - (ii) has been heated without concentration or appreciable loss of volume to a temperature of at least 212° F. for a length of time sufficient to kill all organisms in the grade A milk, and
 - (iii) is packaged in a container that is hermetically sealed;
- (n) "table cream" means grade A milk that contains not less than 16 per cent and not more than 31.9 per cent of milk-fat;
- (o) "whipping cream" means grade A milk that contains not less than 32 per cent of milk-fat.

DESIGNATION OF FLUID MILK PRODUCTS

2. The following classes of milk and milk products are designated as fluid milk products:

1. Buttermilk.
2. Cereal cream.
3. Chocolate milk.

4. Chocolate milk drink.
5. Fruit-flavoured milk.
6. Fruit-flavoured milk drink.
7. Homogenized standard milk.
8. Lactic milk.
9. Partly-skimmed milk.
10. Skim-milk.
11. Special milk.
12. Standard milk.
13. Sterilized milk.
14. Table cream.
15. Whipping cream.

SUBSTANCES PROHIBITED

3.—(1) No person shall add to a fluid milk product,

- (a) any substance other than,
- (i) chocolate flavouring,
 - (ii) common salt,
 - (iii) fruit flavouring,
 - (iv) lactic acid cultures, or
 - (v) vitamins; or
- (b) any milk solid other than milk-fat.

(2) Notwithstanding clause *b* of subsection 1, a milk solid may be added to,

- (a) buttermilk;
- (b) cereal cream; or
- (c) partly-skimmed milk.

SIZE OF CONTAINERS

4.—(1) A container used for a fluid milk product for retail sale shall be in one of the following sizes:

1. Eight fluid ounces, except in the case of glass containers.
2. Half-pint.
3. Pint.
4. Quart or multiple thereof.

(2) Subsection 1 does not apply to a container that,

- (a) is less than a quarter-pint in size;
- (b) is used for the purpose of sale or distribution of a fluid milk product to pupils in schools; or
- (c) is used for,
- (i) chocolate milk,
 - (ii) chocolate milk drink,
 - (iii) fruit-flavoured milk, or
 - (iv) fruit-flavoured milk drink.

(3) Where a fluid milk product is in a container for the purpose of sale or distribution to pupils in schools, no person shall sell or distribute the fluid milk product for any other purpose.

LABELLING OF CONTAINERS

5.—(1) Every container used for the sale or distribution of a fluid milk product shall have a label imprinted on the container, affixed to the container or imprinted on the cap of the container stating the fluid milk product contained therein and, in the case of fruit-flavoured milk or fruit-flavoured milk drink, the name of the fruit flavouring.

(2) No distributor shall sell or distribute a fluid milk product in a container that has not been labelled in accordance with subsection 1.

(3) No distributor shall sell or distribute in a container a fluid milk product other than the fluid milk product stated on the label of the container.

6. Except where partly-skimmed milk contains not less than 10 per cent of milk solids other than milk-fat, no distributor shall indicate by advertising, labelling or otherwise the addition of milk solids to the partly-skimmed milk.

7. Regulation 431 of Revised Regulations of Ontario, 1960 and Ontario Regulations 51/63, 13/64, 196/65 and 288/65 are revoked.

THE MINING ACT

O. Reg. 108/67.

Sale of Rights to Explore for Minerals.

Made—March 21st, 1967.

Filed—March 28th, 1967.

REGULATION MADE UNDER
THE MINING ACT

SALE OF RIGHTS TO EXPLORE FOR MINERALS

1. Licences of occupation for the purpose of prospecting and exploring for minerals in, upon or under the lands described in the schedules may be granted in the manner and upon the terms and conditions and for the price provided by this Regulation.

2.—(1) The Minister may offer for sale by tender the rights to obtain licences of occupation for the purpose of prospecting and exploring for minerals in, upon or under each of the parcels of land described in the schedules.

(2) The Minister shall give a public notice of the sale by causing not less than one advertisement to be inserted in at least,

- (a) one daily newspaper published in Toronto; and
- (b) one weekly newspaper published in Ontario, having a circulation of not less than 25,000 copies each week.

(3) The notice shall,

- (a) contain a description of the lands;

- (b) state the place at which and the person to whom a tender is to be delivered;
- (c) set the final date and time for the receipt of any tender;
- (d) require,

- (i) each tender be in a sealed envelope properly addressed so as to indicate that it contains a tender submitted as a result of the notice, and
- (ii) the person submitting a tender to attach thereto a certified cheque for 25 per cent of the price of the tender; and

- (e) refer to this Regulation.

(4) Within ten days from the date the Minister accepts the tender he shall notify the person submitting the tender that his tender has been accepted.

(5) Within ten days from the date the Minister notifies the person, whose tender has been accepted, that person shall pay the Minister the balance of the price of the tender and the rent for the first year of the term of the licence of occupation.

(6) The Minister shall refund the money submitted with the tenders to the persons whose tenders are not accepted.

- (7) Where,

- (a) a tender has been accepted; and
- (b) the person submitting the tender has refused, or neglected, to comply with subsection 5,

the Minister may declare that the partial payment of the price of the tender submitted with the tender is forfeited to the Crown and thereupon all rights which the person submitting the tender may have under this Regulation cease.

3.—(1) An exploratory licence of occupation shall be for a term of three years and may contain such conditions as the Minister considers proper.

(2) The fee for the licence shall be 25 cents per acre or \$200, whichever is the greater, payable annually during the term of the licence.

(3) A licensee may surrender his licence at any time upon giving written notice thereof to the Minister at least thirty days before the surrender is to take effect.

(4) The Minister may terminate a licence at any time if he is satisfied that the licensee has not complied with this section and the conditions of the licence.

(5) A licensee shall expend annually in geophysical, geological or other exploratory work of a similar nature, or drilling, a sum equal to \$5 per acre in the first year of the term, \$7 per acre in the second year of the term and \$8 per acre in the third year of the term.

- (6) The licensee shall,

- (a) within thirty days after the anniversary date of the licence, prove to the satisfaction of the Minister that he has expended the amount required in the manner provided in subsection 5;
- (b) within sixty days of completion submit to the Minister full reports and plans of all geological or geophysical examinations, drilling or other exploratory work, including detailed logs of all holes drilled;

- (c) correctly label all drill cores and cuttings; and
- (d) permit the Minister or his authorized agent to examine all drill cores and cuttings at any time not later than six months after the completion of the drilling.

4.—(1) If a licensee finds a deposit of mineral that in the opinion of the Minister is of economic importance, the licensee is entitled to apply for a lease of an area comprising not more than 50 per cent of the area of the lands in the licence.

(2) Section 100a of the Act applies *mutatis mutandis* to a lease issued under this Regulation.

5. Any person may inspect the form of licence of occupation and the form of lease at the office of the Director, Mining Lands Branch, Department of Mines, Parliament Buildings, Toronto, during business hours on any business day from the date of the notice in subsection 2 of section 2 to the final date for the receipt of tenders.

3. The members of the local board shall be deemed to be the shareholders and the directors thereof in the exercise of any of the powers mentioned in section 2.

Schedule

The Farm Products Marketing Act

PLAN

1. This plan may be cited as "The Ontario Greenhouse Vegetable Producers' Marketing Plan".

2. In this plan,

(a) "greenhouse vegetables" means tomatoes, cucumbers and lettuce produced in Ontario in a greenhouse or any other enclosure under glass, plastic or other material used for the purpose of controlling temperature and providing protection for the growing plants;

(b) "producer" means a person engaged in the production of greenhouse vegetables.

3. This plan applies to the control and regulation in any or all respects of marketing within Ontario of greenhouse vegetables, including the prohibition of such marketing in whole or in part.

4. There shall be a local board to be known as "The Ontario Greenhouse Vegetable Producers' Marketing Board".

5. The local board shall be composed of eleven producer-members.

6. Members of the local board shall be elected or appointed in accordance with the provisions of the plan and shall hold office until their successors are elected or appointed.

7. The members of the local board who shall hold office until their successors are elected or appointed are:

1. Marius Ingrassia, R.R. 2, Leamington.
2. John Peterson, Box 51, Ruthven.
3. Vern Toews, R.R. 2, Ruthven.

11. Bob Voorberg, R.R. 1, Kettleby.

8. Producers are divided into four districts as follows:

1. District 1, comprising the counties of Essex, Kent and Lambton.
2. District 2, comprising the counties of Brant, Elgin, Middlesex, Norfolk and Oxford.
3. District 3, comprising the counties of Haldimand, Lincoln, Welland and Wentworth.
4. District 4, comprising the counties of Durham, Halton, Ontario, Peel, Simcoe and York.

9.—(1) The producers in each of the districts named in section 8 form a district group.

(2) A producer in a territorial district or county not included in a district mentioned in section 8 may become a member of the district group of producers nearest to his place of production.

10. There shall be a committee in each district to be known as the "District Greenhouse Vegetable Producers' Committee".

11.—(1) Subject to subsection 2, each District Greenhouse Vegetable Producers' Committee shall be composed of five producer-member representatives.

(2) Where there are more than 200 producers in a district, there shall be one producer-member representative of the District Greenhouse Vegetable Producers' Committee for every fifty producers or part thereof in the district.

12.—(1) Within thirty days after this plan is established, and on or before the 15th day of October in each year thereafter, producers in each district shall elect from their members, representatives to each District Greenhouse Vegetable Producers' Committee and shall elect, from their members, representatives from each district to the local board as follows:

1. District 1, five members.
2. District 2, one member.
3. District 3, three members.
4. District 4, two members.

(2) Subject to section 6, the members of each District Greenhouse Vegetable Producers' Committee and of the local board elected under subsection 1 shall hold office until the 15th day of October in the year next following.

(3) A person may be elected both as a member of the District Greenhouse Vegetable Producers' Committee and as a member of the local board.

13.—(1) When in any year after the year in which this plan is established, the producers in any district fail to elect a member to the local board in accordance with the provisions of section 12, the members of the District Greenhouse Vegetable Producers' Committee may on or before the 30th day of October in that year elect the member or members from the district to the local board.

(2) At its first meeting after the 30th day of October the members elected to the local board may appoint such producer-members as are necessary to complete the local board.

(3) Where a member elected or appointed to the local board dies or resigns before his term has expired, the members of the local board may appoint a producer-member for the unexpired term.

(4) Each producer-member appointed as a member to the local board under subsection 2 or 3 shall be a producer in the district for which he is appointed.

(5) Where the members of the local board fail to appoint a person for the unexpired term of a member under subsection 3 within seven days from the death or resignation of the member, the Board may appoint a person for the unexpired term.

THE FARM PRODUCTS MARKETING ACT

O. Reg. 116/67.

Greenhouse Vegetables—Marketing.
Made—March 31st, 1967.
Filed—April 3rd, 1967.

REGULATION MADE UNDER THE FARM PRODUCTS MARKETING ACT

1. In this Regulation,

- (a) "local board" means The Ontario Greenhouse Vegetable Producers' Marketing Board;
- (b) "greenhouse vegetables" means tomatoes, cucumbers and lettuce produced in Ontario in a greenhouse or any other enclosure under glass, plastic or other material used for the purpose of controlling temperature and providing protection for the growing plants;
- (c) "plan" means The Ontario Greenhouse Vegetable Producers' Marketing Plan;
- (d) "producer" means a person engaged in the production of greenhouse vegetables.

2. This Regulation provides for the control and regulation in any and all respects of the marketing within Ontario of greenhouse vegetables, including the prohibition of such marketing in whole or in part except as hereinafter provided.

3. The Board exempts from this Regulation, other than clauses *a*, *b* and *c* of section 4,

- (a) lettuce produced in Ontario in a greenhouse or any other enclosure under glass, plastic or other material used for the purpose of controlling temperature and providing protection for the growing plants; and
- (b) persons engaged in the producing or marketing of lettuce mentioned in clause *a*.

POWERS OF LOCAL BOARD

4. The Board delegates to the local board the power,

- (a) to require persons engaged in producing or marketing greenhouse vegetables to register their names, addresses and occupations with the local board;
- (b) to require persons engaged in producing or marketing greenhouse vegetables to furnish such information relating to the production or marketing of the greenhouse vegetables as the local board determines;
- (c) to appoint persons to inspect the books, records, lands and premises and any greenhouse vegetables of persons engaged in the marketing of greenhouse vegetables;
- (d) to stimulate, increase and improve the marketing of greenhouse vegetables by such means as it deems proper;
- (e) to co-operate with a marketing board, a local board or a marketing agency of any other province for the purpose of marketing greenhouse vegetables;

- (f) to do such acts and make such orders and issue such directions as are necessary to enforce the due observance and carrying out of the provisions of the Act, the regulations and the plan.

5. The Board delegates to the local board its powers to make regulations with respect to greenhouse vegetables,

- (a) providing for the licensing of any or all persons before commencing or continuing to engage in the producing or marketing of greenhouse vegetables;
- (b) prohibiting persons from engaging in the producing or marketing of greenhouse vegetables except under the authority of a licence;
- (c) providing for the refusal to grant a licence where the applicant is not qualified by experience, financial responsibility and equipment to engage in properly the business for which the application was made, or for any other reason that the local board deems proper;
- (d) providing for the suspension or revocation of, or the refusal to renew, a licence for failure to observe, perform or carry out the provisions of the Act, the regulations, the plan or any order or direction of the Board or local board;
- (e) providing for the fixing of licence fees not exceeding one-half of a cent per pound of tomatoes and two and one-half cents per dozen of cucumbers payable monthly, from any or all persons producing or marketing greenhouse vegetables and the collecting of the licence fees and the recovering of such licence fees by suit in a court of competent jurisdiction;
- (f) prescribing the form of licences;
- (g) subject to section 3, providing for the exemption from any or all of the regulations, orders or directions under the plan of any class, variety, grade or size of greenhouse vegetables, or any person or class of persons engaged in the producing or marketing of greenhouse vegetables or any class, variety, grade or size of greenhouse vegetables;
- (h) requiring the furnishing of security or proof of financial responsibility by any person engaged in the marketing of greenhouse vegetables and providing for the administration and disposition of any moneys or securities so furnished;
- (i) providing for the control and regulation of the marketing of greenhouse vegetables, including the times and places at which greenhouse vegetables may be marketed;
- (j) providing for the control and regulation of agreements entered into by producers of greenhouse vegetables with persons engaged in marketing greenhouse vegetables, and the prohibition of any provision or clause in such agreements;
- (k) requiring any person who produces greenhouse vegetables to offer to sell and to sell greenhouse vegetables to or through the local board;

- (l) prohibiting any person from packing or packaging any greenhouse vegetables that have not been sold to, by or through the local board;
- (m) providing for the making of agreements relating to the marketing of greenhouse vegetables by or through the local board, and prescribing the forms and the terms and conditions of such agreements.

LICENCE FEES

6.—(1) The Board authorizes the local board to use any class of licence fees and other moneys payable to it for the purposes of paying the expenses of the local board, carrying out and enforcing the Act and the regulations and carrying out the purposes of the plan.

(2) The Board authorizes the local board to establish a fund in connection with the plan for the payment of any moneys that may be required for the purposes mentioned in subsection 1.

AGENTS

7. The Board authorizes the local board to appoint agents, to prescribe their duties and terms and conditions of employment and to provide for their remuneration.

MARKETING BY LOCAL BOARD

8.—(1) All greenhouse vegetables shall be marketed by or through the local board.

(2) No person shall market greenhouse vegetables except by or through the local board.

9. The Board vests in the local board the following powers:

1. To direct and control, by order or direction, either as principal or agent, the marketing of greenhouse vegetables, including the times and places at which greenhouse vegetables may be marketed.
2. To determine the quantity of each class, variety, grade and size of greenhouse vegetables that shall be marketed by each producer.
3. To prohibit the marketing of any class, variety, grade or size of greenhouse vegetables.
4. To determine from time to time the price or prices that shall be paid to producers for greenhouse vegetables or any class, variety, grade or size of greenhouse vegetables and to determine different prices for different parts of Ontario.
5. To fix and impose service charges from time to time for the marketing of greenhouse vegetables not exceeding one-half of a cent per pound of tomatoes and two and one-half cents per dozen of cucumbers plus a *pro rata* charge to each producer in an amount equal to the remuneration payable by the local board to an agent of the local board respecting the greenhouse vegetables marketed by the producer.
6. To require the price or prices payable or owing to the producer for greenhouse vegetables to be paid to or through the local board.
7. To collect from any person by suit in a court of competent jurisdiction the price or prices or any part thereof of greenhouse vegetables owing to the producer.

8. To pay from service charges imposed under paragraph 5 its expenses in carrying out the purposes of the plan.

9. To pay to the producer the price or prices for greenhouse vegetables, less service charges imposed under paragraph 5, and to fix the times at which or within which such payments shall be made.

10. To purchase or otherwise acquire such quantity or quantities of greenhouse vegetables as the local board deems advisable.

10. Each payment made under paragraph 9 of section 9 shall be accompanied by a statement showing the classes, varieties, grades of each variety and the quantity of each grade of greenhouse vegetables sold, and the price or prices paid and the particulars of the service charges imposed by the local board.

GREENHOUSE VEGETABLE
INDUSTRY ADVISORY COMMITTEE

11.—(1) In this section,

(a) "retailer" means a person in Ontario engaged in the retail selling of greenhouse vegetables for consumption;

(b) "shipper" means a person in Ontario engaged in purchasing greenhouse vegetables from the producers thereof for resale.

(2) There shall be a committee to be known as the "Greenhouse Vegetable Industry Advisory Committee".

(3) The Greenhouse Vegetable Industry Advisory Committee shall be composed of a chairman and eight members.

(4) On or before the 1st day of March, 1967 and after the 1st day of November and before the 30th day of November in each year thereafter,

(a) the Board shall appoint the chairman;

(b) the local board shall appoint four members;

(c) the shippers shall appoint two members; and

(d) the retailers shall appoint two members,

to the Greenhouse Vegetable Industry Advisory Committee.

(5) Subject to subsection 6, the members of the Greenhouse Vegetable Industry Advisory Committee are and remain members thereof until the 30th day of November in the year next following the year in which they were appointed.

(6) Where a member of the Greenhouse Vegetable Industry Advisory Committee dies or resigns or is unavailable to act before the expiration of his term, the person or persons who appointed him shall appoint a person for the unexpired term of the member who died, resigned or was unavailable to act.

(7) Where the person or persons who are required to appoint any member to the Greenhouse Vegetable Industry Advisory Committee fail to do so in accordance with the provisions of subsection 3 or 5, the Board may appoint such members as are necessary to complete the said committee.

(8) The Greenhouse Vegetable Industry Advisory Committee may advise and make recommendations to the local board or to any person or organization represented on the committee in respect of,

(a) the promotion of harmonious relationships between persons engaged in the production and marketing of greenhouse vegetables;

- (b) the promotion of greater efficiency in the production and marketing of greenhouse vegetables;
- (c) the prevention and correction of irregularities and inequities in the marketing of greenhouse vegetables;
- (d) the improvement of the quality and variety of greenhouse vegetables;
- (e) the improvement of the circulation of market information respecting greenhouse vegetables;
- (f) without limiting the generality of any of the foregoing, any matter with respect to which the Board or the local board may be empowered to make regulations under the Act.

12. The local board shall forthwith provide the Board with full particulars of any recommendations made to the local board by the Greenhouse Vegetable Industry Advisory Committee.

13. The Board authorizes the local board to conduct a pool or pools for the distribution of all moneys received from the sale of greenhouse vegetables and requires the local board, after deducting all necessary and proper disbursements and expenses, to distribute the remainder of the moneys received from the sale in such manner that every producer receives a share of the remainder of the moneys received from the sale in relation to the amount, class, variety, grade and size of greenhouse vegetables delivered by him, and authorizes the local board to make an initial payment on delivery of the greenhouse vegetables and subsequent payments until all of the remainder of the moneys received from the sale is distributed to the producers.

THE APPRENTICESHIP AND TRADESMEN'S QUALIFICATION ACT, 1964

O. Reg. 122/67.

Ironworkers.

Made—March 30th, 1967.

Filed—April 6th, 1967.

REGULATION MADE UNDER THE APPRENTICESHIP AND TRADESMEN'S QUALIFICATION ACT, 1964

IRONWORKERS

1. In this Regulation,

- (a) "ironworker" means a person who,

(i) in the field, fabricates, assembles, installs, hoists, erects, dismantles, reconditions, adjusts, alters, repairs or services all structural ironwork, precast and prestressed concrete, concrete reinforcing materials, ferrous and non-ferrous materials in curtain wall, ornamental and miscellaneous metal work and all other materials used in lieu thereof and applies sealants where applicable thereto, and moves and places machinery and heavy equipment, and

(ii) reads and understands all shop and field drawings, including those taken from original architectural and engineering drawings, that are related to the work operations contained in subclause i;

- (b) "trade" means the trade of an ironworker, but does not include a person employed as a shop-man on the fabrication and assembly of materials in an industrial manufacturing plant.

2.—(1) An apprentice training programme is established for the trade and shall consist of three periods of training and instruction of 2000 hours each,

- (a) at full-time educational day classes provided at a Provincial Institute of Trades in the subjects contained in Schedule 1; and
- (b) in practical training and instruction provided by the employers of the apprentice in the occupational skills contained in Schedule 2.

(2) The total hours of related training and work experience shall be assigned as shown in schedules 1 and 2.

3. Every apprentice in the trade shall be at least seventeen years of age.

4. Every apprentice in the trade shall be in good physical condition and shall provide medical proof thereof.

5. No apprentice shall be permitted to engage in the trade unless he is capable of climbing to and manoeuvring at heights commonly experienced in the trade.

6.—(1) Notwithstanding subsection 2 of section 7 of Ontario Regulation 279/64, every hour worked by an apprentice in excess of his regular daily hours of practical training and instruction shall be included in computing the hours spent in training and instruction.

(2) A progress record book shall be issued by the Department of Labour to each registered apprentice for the purpose of recording work experience and related training time and the apprentice shall be responsible for the safekeeping of this progress record book.

7. The basic rate of wages for an apprentice in the trade, whether for his regular daily hours or hours in excess of his regular daily hours, shall be not less than,

- (a) 60 per cent during the first 1000 hours of training and instruction;
- (b) 70 per cent during the second 1000 hours of training and instruction;

(c) 75 per cent during the third 1000 hours of training and instruction;

(d) 80 per cent during the fourth 1000 hours of training and instruction;

(e) 85 per cent during the fifth 1000 hours of training and instruction; and

(f) 90 per cent during the sixth 1000 hours of training and instruction,

of the basic rate of wages or its equivalent for a journeyman employed by the same employer in the trade and with whom the apprentice is working.

8. The number of apprentices who may be employed by an employer in the trade shall not exceed,

(a) one apprentice for the first journeyman employed by the employer plus one additional apprentice for each additional seven journeymen employed by the employer in the trade; and

(b) one apprentice for the first journeyman employed by the employer plus one additional apprentice for each additional five journeymen employed by the employer in the trade where the employer is engaged solely in paragraph 3 (Curtain Wall) or paragraph 4 (Ornamental and Miscellaneous Ironwork) as contained in Schedule 2.

9. A contract of apprenticeship shall be entered into by every apprentice with the local apprenticeship committee for the trade, established under the Act in the area in which his apprenticeship originates and the apprentice shall be responsible for preparing the reports of his work experience and instruction as prescribed in his progress report book for submission to such local apprenticeship committee.

10. The local apprenticeship committee shall be responsible for periodic review of the progress of each apprentice and for ensuring that the apprentice obtains the prescribed range of work experience and related training as prescribed in the appendix of the progress record book.

ITEM	COLUMN 1	COLUMN 2
	Subject	Instruction to be Given
		Total Hours 636
1.	APPLIED MATHEMATICS	Addition, subtraction, multiplication, and division of whole numbers, fractions, mixed numbers, decimal fractions. Conversion of common fractions to decimals. Averages and percentages, linear measurement, simple equations. Ratio and proportion. Angle measurement. Areas of squares, rectangles, parallelograms, trapezoids, triangles. Volumes of cubes and cylindrical objects. Measurement of regular and irregular shaped forms.
2.	BLUEPRINT READING Architectural Structural Shop Drawings	Types, methods of making, care and handling of prints. Lines and sections. Material symbols. Construction drawing elements, principles, symbols and dimensions. Auxiliary views. Notes and specifications. Steel frame construction members, framing for ore bridges, power houses, highway bridges, factory and office buildings and conveyors. Design and detail drawings. Column, purlin, strut, brace, and beam symbols. Concrete reinforcing drawings for reinforcing bars and concrete reinforced steel accessories. Engineering and placing drawings. Wire mesh drawings. Reinforced concrete design drawings. Welding drawings and symbols, curtain wall, sash and other non-ferrous building trim drawings. Precast concrete drawings. Ornamental drawings for doors, frames, stairs, gratings and grills.
3.	STRUCTURAL IRONWORK Layout and Fabrication Erection and Assembly of Structural Steel Shapes Connecting Hoisting and Installing Care and use of Tools Precast Concrete and Laminated Timbers Safety Regulations	<p>Methods and procedures for drilling, reaming, burning, cutting, assembling and marking steel members.</p> <p>Methods and procedures for performing the functions of hooking-on, tagging, signalling, connecting, fitting, bolting, riveting, guying, plumbing, aligning and shimming.</p> <p>Knowledge of bolting, riveting, pinning, and welding techniques.</p> <p>Knowledge of the care and use of mobile land rigs, cranes, guy derricks, stiff-leg derricks, gin poles, high lines and tuggers. Erecting falsework and scaffolding and a knowledge of the breaking strains and working strengths of cables.</p> <p>Knowledge of chokers, spreaders, chain blocks, rope falls, shackles, riveting guns, bolting machines, air compressors, burning equipment, welding equipment and jacks. Power activated tools and insert setting tools.</p> <p>Methods of handling precast and prestressed members. Hoisting and placing precast columns, beams, roof and floor slabs, architectural precast units, fascia panels and wall panels.</p> <p>Safety regulations and procedures for the performance of structural ironwork.</p>
4.	RIGGING Care and use of Tools Tieing Knots and making Hitches Splicing Handling Ropes Care and use of Slings	<p>Splicing tools.</p> <p>Tieing knots and making bowline hitches, clovehitch, timber hitch, scaffold hitch, barrel hitch, becket hitch, half hitch and rolling hitch.</p> <p>Splicing fibre and wire rope by short splicing, long splicing, crown and back splicing methods.</p> <p>Handling fibre and wire rope, including coiling and uncoiling, cutting, fitting clips and clamps, reeving drums and sheaves.</p> <p>Proper use and positioning of chokers, spreaders, hooks, guy lines and anchorage. Knowledge of the breaking strains and working strengths of hoisting cables.</p>

ITEM	COLUMN 1	COLUMN 2
	Subject	Instruction to be Given
4.	Care and use of Hoisting Equipment	Knowledge of hoisting equipment including block and tackle, reeving or lacing equipment, chain blocks and come-alongs, skids, rollers, jacks, blocking equipment, cribbing gin poles, stiff-leg derricks, mobile cranes, bull-mooses, and tower cranes.
	Care and use of Scaffolding	Knowledge of scaffolding and tower hoists equipment including planking, swinging scaffolds, suspended scaffolds, needle beams, boatswain chairs and safeway scaffolding.
	Safety	Safety requirements and procedures for the performance of rigging operations.
5.	REINFORCING IRONWORK Knowledge of Materials	Knowledge of the specifications for bar size designations and size marks, bar tags and colours, wire mesh, stirrups, slab spacers, slab and beam bolsters, chairs and lapping.
	Placing Steel	Knowledge of the methods of placing steel in floor slabs, beams, columns, walls, piers, footings and stairways.
	Tieing	Knowledge of the method of making snap ties, wrap and snap ties, column ties, wrap and figure eight ties and nail head ties.
	Cutting and Bending	Knowledge of the method of cutting, bending, and fabricating steel bars for columns, beams, floor slabs, and stirrups and a detailed knowledge of bend allowances.
	Tools and Associate Equipment	Knowledge of the care and use of pliers, safety belts and reels, twistors, hickey bars, bolt cutters, bending tables and jigs, power shears and burning equipment.
	Laying of Pans	Methods of installation.
	Post Tensioning of Concrete	Methods of post tensioning.
	Layout Procedures	Knowledge of blueprint reading and bar lists for placing of bars.
	Welding	Knowledge of welding techniques.
	Safety Requirements	Knowledge of the safety regulations and procedures for the performance of reinforcing operations.
6.	ORNAMENTAL IRONWORK AND CURTAIN WALL INSTALLATIONS Layout	Knowledge of the layout methods for doors, frames, gratings and grills, hand rails, stairways, platforms, railings and miscellaneous ironwork.
	Erecting and Fitting	Knowledge of welding, drilling, burning, bending, fabricating, plumbing and alignment.
	Curtain Wall, Window Wall and Sash	Knowledge of the care and handling and fabrication of aluminum, brass, bronze, stainless steel and other ferrous and non-ferrous building trim. Methods for the installation of automatic door mechanisms.
	Installation of Metal Products	Knowledge of the methods for installing extruded aluminum frames, side jambs, head jambs, sash, division and corner bars. Familiarization with plans and specifications establishing lines and levels, setting anchors, assembling and installing curtain wall components, levelling, aligning, securing, and installing adapters, flashing and sealants.
	Care and use of Tools	Knowledge of ordinary hand tools.
	Sealing	Knowledge of the care and use of resin base, silicon base, polysulphide base, mastic base and polybutane base sealants.
	Safety Procedures	Knowledge of the safety regulations and procedures for the performance of ornamental iron and curtain wall work.

ITEM	COLUMN 1	COLUMN 2

1.	STRUCTURAL IRONWORK AND RIGGING Layout and Lines	Total Hours 2652 Transferring lines and grades to structure. Laying out structural steel.
	Selection and use of hand tools —Non-cutting tools	Wrenches, hammers, pins, clamps, leverage tools, air hose clamps, punches.
	—Cutting tools	Cold chisels, handsaws, files, snips, axes, adze, wood boring, wood chisels, flame cutting, carbon arc cutting.
	—Portable air tools	Impact wrenches, drills and reamers, hammers, grinders and brushes, timber saws, rivet passers.
	—Portable electric tools	Drills, grinders, impact wrenches, ventilating equipment, lumber saws.
	—Miscellaneous	High mechanical advantage machines, forges, heating torches.
	Rope and tackle	Selecting rope, installing rope, selecting sheave blocks, installing sheave blocks, installing high line.
	Scaffolds and Falsework	Selecting a hanging scaffold. Hanging a scaffold. Maintaining hanging scaffolds. Selecting a rigid scaffold or walkway, installing and maintaining rigid scaffold or walkway.
	Ladders and Stairways	Selection, erecting, maintaining.
	Barricades and Security	<i>The Construction Safety Act, 1961-62.</i> Maintaining security. Personal safety equipment.
	False work	Erection. Releasing.
	Timberwork	Slinging and handling timber structures.
	Erection Equipment Cranes	Types of and usage. Loading, moving and receiving. Setting up. Lifting with cranes. Maintenance.
	Derricks	Types of and usage. Loading. Erecting. Lifting and maintenance.

Proclamation

(Great Seal of Ontario)

W. EARL ROWE

PROVINCE OF ONTARIO

ELIZABETH THE SECOND, by the Grace of God of the United Kingdom, Canada and Her other Realms and Territories Queen, Head of the Commonwealth, Defender of the Faith.

TO:

THE HONOURABLE WILLIAM DICKENS PARKER,
a Justice of Our Supreme Court of Ontario,

GREETING :

PROCLAMATION

WHEREAS in and by Chapter 323 of The Revised Statutes of Ontario, 1960, entitled "The Public Inquiries Act", it is enacted that, whenever Our Lieutenant Governor in Council deems it expedient to cause inquiry to be made concerning any matter connected with or affecting the good government of Ontario or the conduct of any part of the public business thereof or of the administration of justice therein and such inquiry is not regulated by any special law, he may, by Commission, appoint one or more persons to conduct such inquiry and may confer the power of summoning any person and requiring him to give evidence on oath and to produce such documents and things as the Commissioner or Commissioners deem requisite for the full investigation of the matters into which he or they are appointed to examine;

AND WHEREAS Our Lieutenant Governor in Council of Our Province of Ontario deems it expedient to cause inquiry to be made concerning the matters hereinafter mentioned;

NOW KNOW YE that WE, having and reposing full trust and confidence in you the said William Dickens Parker, a Justice of Our Supreme Court of Ontario, DO HEREBY APPOINT you to be Our Commissioner to:—

Inquire into and report upon allegations made by Doctor Morton P. Shulman, of The Municipality of Metropolitan Toronto, that the Government of Ontario and certain senior civil servants of the Department of the Attorney General for Ontario, or any of them:

(a) unlawfully or improperly,

(i) suppressed investigations or inquests,

(ii) interfered with investigations or inquests,

(iii) suppressed evidence relating to investigations or inquests,

conducted in the office of the Chief Coroner for Metropolitan Toronto during the period when Doctor Shulman served as the Chief Coroner;

(b) discriminated against persons in relation to their appointment as coroners on the basis of race, creed, colour, nationality, ancestry of origin; and

(c) wasted public funds by improper administration under the amendments in relation to the Schedule of Fees and the provisions of Section 21 of The Coroners Act, Revised Statutes of Ontario, 1960, Chapter 69.

AND WE DO HEREBY CONFER on you, Our said Commissioner, the power to summon any person and require him to give evidence on oath and to produce such documents and things as you Our said Commissioner deem requisite for the full investigation of the matters into which you are appointed to examine.

AND WE DO HEREBY FURTHER ORDER that all Our Departments, Boards, Commissions, Agencies and Committees shall assist you, Our said Commissioner, to the fullest extent, and that, in order to carry out your duties and functions, you shall have the authority to engage such counsel, research and other staff and technical advisers as you deem proper.

TO HAVE, HOLD, AND ENJOY the said Office and authority of Commissioner for and during the pleasure of Our Lieutenant Governor in Council for Our Province of Ontario.

IN TESTIMONY WHEREOF We have caused these Our Letters to be made Patent, and the Great Seal of Our Province of Ontario to be hereunto affixed.

WITNESS :

THE HONOURABLE WILLIAM EARL ROWE,
A Member of Our Privy Council for Canada,
Doctor of Laws, Doctor of Social Science,
LIEUTENANT GOVERNOR OF OUR PROVINCE OF ONTARIO,

at Our City of Toronto in Our said Province this thirteenth day of April in the year of Our Lord one thousand nine hundred and sixty-seven and in the sixteenth year of Our Reign.

BY COMMAND

ROBERT WELCH,
Provincial Secretary
and
Minister of Citizenship.

THE BOUNDARIES ACT

NOTICE OF HEARING

TAKE NOTICE that an application has been made by The Municipal Corporation of the Township of Pickering on behalf of certain residents for the purpose of confirming the true location on the ground of the boundaries of each of the properties in the community of Fairport in the areas described as follows:

FIRSTLY:

Bounded on the north by Bay Street, on the east by Liverpool Road and on the south and west by Frenchman's Bay.

SECONDLY:

Bounded on the north by Browning Avenue, on the east by the westerly limit of Registered Plan M-15, on the south by the northerly limit of Registered Plan 65 and its westerly production and on the west by Frenchman's Bay, saving and excepting those properties in this secondly described portion which adjoins Frenchman's Bay;

said areas being included in By-law 3026 of the Township of Pickering.

AND FURTHER TAKE NOTICE that draft plans of survey, M-89 and M-90 made by R. R. Scott, Ontario Land Surveyor, dated February 5th and 24th respectively, 1965, showing the said boundaries are available for inspection at my office, New City Hall, Toronto, at the Land Registration Office, Whitby, and at the Township Municipal Building, 1710 Kingston Road, Pickering, during regular business hours, Monday through Friday.

AND FURTHER TAKE NOTICE that any person desiring to object to the confirmation of the said boundaries as shown on the draft plans is required to deliver to me by registered mail or personal service on or before the 5th day of May, 1967, a written statement setting forth the nature and grounds of the objection and to serve a copy thereof on the applicant. The address of the applicant for service is The Township Municipal Building, 1710 Kingston Road, Pickering, Ontario.

AND FURTHER TAKE NOTICE that I have appointed the 16th day of May, 1967, at 2.00 p.m. to hear this application in my office, at which time any person or persons who have filed an objection may appear or be represented to present evidence in support thereof.

Dated at my office, at the New City Hall, 100 Queen Street West, Toronto, this 17th day of April, 1967.

THE CORPORATIONS ACT

O. Reg. 130/67.

Insider Trading and Proxy Solicitation.

Made—April 11, 1967.

Filed—April 11, 1967.

REGULATION MADE UNDER THE CORPORATIONS ACT

INSIDER TRADING AND PROXY SOLICITATION

INTERPRETATION

1. The words and terms used herein which are defined in the Act are used herein as therein defined unless otherwise defined in this Regulation or the context otherwise requires.

PART I

INSIDER TRADING

2.—The reports required to be filed under subsections 1, 2 and 3 of section 71a of the Act shall be prepared in accordance with Form 1.

3.—The reports required to be filed under subsection 4 of section 71a of the Act shall be prepared in accordance with Form 2.

PART II

INFORMATION CIRCULAR

4.—(1) An information circular shall contain the information prescribed in Form 3.

(2) The information called for by Form 3 shall be given as of a specified date not more than thirty days prior to the date upon which the information circular is first sent to any of the shareholders of the company and the information circular shall be dated as of such specified date.

INSTRUCTIONS FOR COMPLETION OF INFORMATION CIRCULAR

5.—(1) The information contained in the information circular shall be clearly presented and the statements made therein shall be divided into groups according to subject matter and the various groups of statements shall be preceded by appropriate headings.

(2) The order of items set out in Form 3 need not be followed.

(3) Where practicable and appropriate, information presented shall be in tabular form.

(4) All amounts shall be stated in figures.

(5) Information required by more than one applicable item need not be repeated.

(6) No statement need be made in response to any item which is inapplicable and negative answers to any item may be omitted.

6. Information that is not known to the person on whose behalf the solicitation is to be made and that is not reasonably within the power of the person to ascertain or procure may be omitted, if a brief statement of the circumstances rendering the information unavailable is made.

7. There may be omitted from the information circular any information contained in any other information circular, notice of meeting or form of proxy sent to the persons whose proxies were solicited in connection with the same meeting if reference is made to the particular document containing such information.

8.—(1) Every person that distributes an information circular,

(a) to which Part X of *The Securities Act, 1966* is applicable; or

(b) to which sections 75 to 75g of *The Corporations Act* are applicable and that is in respect of a meeting of the shareholders of a company which is a corporation within the meaning of clause i or ii of paragraph a of section 100 of *The Securities Act, 1966*,

shall file with the Commission a copy of such information circular and any other material distributed by such person in connection with such meeting.

(2) The information circular and other material referred to in subsection 1 shall be filed with the Commission within five days after the date such material is first mailed by the person distributing such material.

PART III

BENEFICIAL OWNERSHIP OF SECURITIES

9.—(1) For the purposes of section 71a of the Act, a report filed by a company which includes capital securities beneficially owned by a subsidiary or deemed to be beneficially owned by such subsidiary by virtue of clause c of subsection 2 of section 71 of the Act or which includes changes in such subsidiary's beneficial ownership of capital securities shall be deemed to be a report filed by such subsidiary and such subsidiary need not file a separate report.

(2) For the purposes of section 71a of the Act, a report filed by an individual which includes capital securities beneficially owned or deemed to be beneficially owned by virtue of clause b of subsection 2 of section 71 of the Act by a company controlled by such individual or by an affiliate, if any, of such controlled company or which includes changes in the beneficial ownership of such capital securities by such controlled company or affiliate shall be deemed to be a report filed by such controlled company or by such affiliate and such controlled company and affiliate need not file a separate report.

(3) Where the Act or regulations require the disclosure of the number or percentage of equity shares beneficially owned by an individual and, by virtue of clause b of subsection 2 of section 71 of the Act, one or more companies will also have to be shown as beneficially owning such shares, a statement disclosing all such shares beneficially owned by such individual or deemed to be beneficially owned, and indicating whether such ownership is direct or indirect and if indirect indicating the name of the controlled company or company affiliated with such controlled company through which such shares are indirectly owned and the number or percentage of such shares so owned by such company, shall be deemed sufficient disclosure without disclosing the name of any other company which is deemed to beneficially own the same shares.

(4) Where the Act or regulations require the disclosure of the number or percentage of equity shares beneficially owned by a company and, by virtue of clause c of subsection 2 of section 71 of the Act, one or more other companies will also have to be shown as beneficially owning such shares, a statement disclosing all such shares beneficially owned or deemed to be beneficially owned by the parent company and indicating whether such ownership is direct or indirect and if indirect indicating the name of the subsidiary through which such shares are indirectly owned and the number or percentage of such shares so owned shall be deemed sufficient disclosure without disclosing the name of any other company which is deemed to beneficially own the same shares.

.....

- 8. Additional remarks.....

The undersigned hereby certifies that the information given in this report is true and complete in every respect.

..... (date of report) (signature) (See instruction 11)

It is an offence under *The Corporations Act* to file a false or misleading report.

Instructions:

- 1. File two signed copies of the report with the Ontario Securities Commission, as and when provided by subsection 4 of section 71a of the Act.
- 2. File a separate report with respect to each company of which you are an insider.
- 3. Indicate in what capacity you qualify as an insider, for example, "director", "senior officer", "beneficial owner of such number of shares as carry more than 10 per cent of the votes attached to all equity shares of the company". If you qualify in more than one capacity, so state. In connection with the meaning of the word "insider" see section 71 of the Act.
- 4. State all changes in your beneficial ownership of capital securities of the company during the calendar month for which you are reporting and also your beneficial ownership of capital securities as of the end of the month. Report every transaction involving a change in your beneficial ownership of capital securities during the month, even though purchases and sales during the month are equal or the change involves only the nature of ownership, for example, from direct to indirect ownership.

- 5. Under "Designation of Security", identify each class of capital security beneficially owned, for example, "Common shares", "First preference shares", "5 per cent Debentures due 1975", etc.
- 6. Show the date (day, month and year) of each security transaction opposite the amount or number of securities involved in the transaction and the price per unit or share at which the capital securities were sold or purchased.
- 7. In reporting the amount or number of capital securities acquired, disposed of or beneficially owned, in the case of debt securities give the principal amount thereof and in the case of shares give the number thereof.
- 8. Under "Nature of Ownership", state whether and to what extent your beneficial ownership of capital securities is direct or indirect. To the extent your ownership is indirect, indicate in a footnote or some other appropriate manner the name or identity of the medium through which such capital securities are indirectly owned and state the amount or number so owned by each such medium. Report capital securities owned indirectly on separate lines from capital securities owned directly.

9. If you acquired from or sold to the company of which you are an insider any of its capital securities, so state. If the acquisition of capital securities was through the exercise of an option, so state and give the price per share or unit paid. If any purchase or sale was effected otherwise than in the open market, so state, giving particulars. If the transaction was not a purchase or sale, indicate its character, for example, "gift", "stock dividend", etc., as the case may be. (This information may be set out in Item 8 of this Form.)
10. You may include any additional information or explanation that you deem relevant.
11. If the report is filed on behalf of a company, partnership, trust or other entity, the name of the company or other entity shall appear over the signature of the officer or other person authorized to sign the report. If the report is filed on behalf of an individual, it shall be signed by him or specifically on his behalf by a person authorized to sign for him.
12. If space provided in any item is insufficient, additional sheets may be used and must be cross-referred to the item and properly identified.
13. Form 15 prescribed by Ontario Regulation 101/67 under *The Securities Act, 1966* may be used in lieu of this Form.

Form 3

The Corporations Act

INFORMATION CIRCULAR

ITEM 1. Revocability of Proxy:

State whether the person giving the proxy has the power to revoke it. If any right of revocation is limited or is subject to compliance with any formal procedure, briefly describe such limitation or procedure.

ITEM 2. Persons Making the Solicitation:

(a) If a solicitation is made by or on behalf of the management of the company, so state. Give the name of any director of the company who has informed the management in writing that he intends to oppose any action intended to be taken by the management and indicate the action that he intends to oppose.

(b) If a solicitation is made otherwise than by or on behalf of the management of the company, so state and give the name of the person by whom and on whose behalf it is made.

(c) If the solicitation is to be made otherwise than by mail, describe the method to be employed. If the solicitation is to be made by specially engaged employees or soliciting agents, state,

(i) the material features of any contract or arrangement for such solicitation and identify the parties to such contract or arrangement, and

(ii) the cost or anticipated cost thereof.

(d) State the name of the person by whom the cost of soliciting has been or will be borne, directly or indirectly.

ITEM 3. Interest of Certain Persons in Matters to be Acted Upon:

Give brief particulars of any material interest, direct or indirect, by way of beneficial ownership of capital securities or otherwise, of each of the following persons in any matter to be acted upon other than the election of directors or the appointment of auditors:

- (a) If the solicitation is made by or on behalf of the management of the company, each person who has been a director or senior officer of the company at any time since the beginning of the last completed financial year of the company.
- (b) If the solicitation is made otherwise than by or on behalf of the management of the company, each person on whose behalf, directly or indirectly, the solicitation is made.
- (c) Each proposed nominee for election as a director of the company.
- (d) Each associate of any of the foregoing persons.

Instructions to Paragraph (b):

1. The following persons shall be deemed to be persons by whom or on whose behalf the solicitation is made:

- (a) any member of a committee or group that solicits proxies, and any person whether or not named as a member who, acting alone or with one or more other persons, directly or indirectly, takes the initiative or engages in organizing, directing or financing any such committee or group;
- (b) any person who finances or joins with another to finance the solicitation of proxies except a person who contributes not more than \$250 and who is not otherwise a person by whom or on whose behalf the solicitation is made; or
- (c) any person who lends money, furnishes credit or enters into any other arrangements, pursuant to any contract or understanding with a person by whom or on whose behalf a solicitation is made, for the purpose of financing or otherwise inducing the purchase, sale, holding or voting of capital securities of the company, provided, however, that this clause does not include a bank or other lending institution or a broker or dealer who, in the ordinary course of business, lends money or executes orders for the purchase or sale of capital securities and who is not otherwise a person on whose behalf a solicitation is made.

2. The following persons shall be deemed not to be persons by whom or on whose behalf a solicitation is made:

- (a) any person retained or employed by a person by whom or on whose behalf a solicitation is made to solicit proxies and who is not otherwise a person by whom or on whose behalf a solicitation is made or any person who merely transmits proxy-soliciting material or performs ministerial or clerical duties;
- (b) any person employed or retained by a person by whom or on whose behalf a solicitation is made in the capacity of lawyer, accountant, or advertising, public relations or financial adviser,

and whose activities are limited to the performance of his duties in the course of such employment or retainer;

- (c) any person regularly employed as an officer or employee of the company or any of its affiliates who is not otherwise a person by whom or on whose behalf a solicitation is made; or
- (d) any officer or director of, or any person regularly employed by, any other person by whom or on whose behalf a solicitation is made, if such officer, director, or employee is not otherwise a person by whom or on whose behalf a solicitation is made.

ITEM 4. Voting Shares and Principal Holders Thereof:

(a) State as to each class of equity shares of the company entitled to be voted at the meeting, the number of shares outstanding of each such class and the number of votes to which each share of each such class is entitled.

(b) Give the record date as of which the shareholders entitled to vote at the meeting will be determined or particulars as to the closing of the share transfer register, as the case may be, and, if the right to vote is not limited to shareholders of record as of a specified record date, indicate the conditions under which shareholders are entitled to vote.

(c) If action is to be taken with respect to the election of directors and if the shareholders or any class of shareholders have the right to elect a specified number of directors or have cumulative or similar voting rights, include a statement of such rights and state briefly the conditions precedent, if any, to the exercise thereof.

(d) If, to the knowledge of the directors or senior officers of the company any person beneficially owns, directly or indirectly, equity shares carrying more than 10 per cent of the voting rights attached to all equity shares of the company, name each such person, state the approximate number of such shares beneficially owned, directly or indirectly, by each such person and the percentage of outstanding equity shares of the company represented by the number of shares so owned.

ITEM 5. Election of Directors:

(a) If directors are to be elected, furnish the following information, in tabular form to the extent practicable, with respect to each person proposed to be nominated for election as a director and each other person whose term of office as a director will continue after the meeting:

- (i) Name each such person, state when his term of office or the term of office for which he is a proposed nominee will expire and all other positions and offices with the company presently held by him, and indicate which of such persons are proposed nominees for election as directors at the meeting.
- (ii) State the present principal occupation or employment of each such person, giving the name and principal business of any company or other organization in which such employment is carried on. Furnish similar information as to all of the principal occupations or employments of each such person within the five preceding years, unless he is now a director and was elected to his present term of office by a vote of shareholders at a meeting, the notice of which was accompanied by an information circular.
- (iii) If any such person is or has been a director of the company, state the period or periods during which he has served as such.
- (iv) State the approximate number of shares of each class of equity shares of the company or of a subsidiary of the company beneficially owned, directly or indirectly, by each such person.

(v) If more than 10 per cent of the voting rights attached to all equity shares of the company or of a subsidiary of the company are beneficially owned, directly or indirectly, by any such person and his associates, state the approximate number of each class of such shares beneficially owned by such associates, naming each associate whose shareholdings are substantial.

(b) If any proposed nominee for election as a director is to be elected pursuant to any arrangement or understanding between the nominee and any other person, except the directors and senior officers of the company acting solely in such capacity, name such other person and describe briefly such arrangement or understanding.

ITEM 6. Remuneration of Management and Others:

- (a) If action is to be taken with respect to,
 - (i) the election of directors;
 - (ii) any bonus, profit sharing or other remuneration plan, contract or arrangement in which any director or proposed nominee for election as director or senior officer of the company will participate;
 - (iii) any pension or retirement plan of the company in which any such person will participate; or
 - (iv) the granting or extension to any such person of any options, warrants or rights to purchase any shares or convertible securities other than warrants or rights issued to shareholders as such, or to shareholders as such resident in Canada, on a *pro rata* basis,

furnish the information required by paragraphs (b), (c), (d), (e) and (f), in tabular form if practicable, provided that if the solicitation is made by or on behalf of a person other than the management of the company, the information required by this item need be furnished only as to proposed nominees of the person for election as directors and as to their associates.

(b) State the aggregate direct remuneration paid or payable by the company and its subsidiaries, whose financial statements are consolidated with those of the company, to the directors and the senior officers of the company, during the company's last completed financial year, and as a separate amount the aggregate direct remuneration paid or payable to such directors and senior officers by the subsidiaries of the company whose financial statements are not consolidated with those of the company.

Instructions:

1. Do not include remuneration paid or payable to a partnership in which any person in receipt of remuneration was a partner.
2. The information called for by paragraphs (b), (c) and (d) of this item may be given for all directors and senior officers as a group, without naming them.
- (c) State the estimated aggregate cost to the company and its subsidiaries in the last completed financial year of all pension benefits proposed to be paid under any normal pension plan in the event of retirement at normal retirement age, directly or indirectly, by the company or any of its subsidiaries to the persons mentioned in paragraph (b) or, in the alternative, the estimated aggregate amount of all such pension benefits proposed to be paid in the event of retirement at normal retirement age, directly or indirectly, by the company or any of its subsidiaries to the persons mentioned in paragraph (b).
- (d) State the aggregate of all remuneration payments (other than payments of the type required to be reported under paragraph (b) or (c)) made during the company's last completed financial year and, as a separate amount, proposed to be made in the future, directly or indirectly, by the company or any of its subsidiaries pursuant to any existing plan or arrange-

ment to each person referred to in paragraph (b), provided that information need not be included as to payments to be made for, or benefits to be received from, group life or accident insurance, group hospitalization or similar group benefits or payments.

Instructions:

1. The word "plan" in paragraph (d) includes all plans, contracts, authorizations or arrangements, whether or not contained in any formal document or authorized by any resolution of the directors of the company or its subsidiaries but does not include the Canada Pension Plan or any Government plan similar thereto.
2. In paragraph (d), if it is impracticable to state the amount of remuneration payments proposed to be made, the aggregate amount set aside and accrued to date in respect of such payments shall be stated, together with an explanation of the basis of future payments.
3. In giving information as to aggregate remuneration payments under paragraph (d) of this item include any payments made or proposed to be made with respect to deferred compensation benefits, retirement benefits or other benefits except for such amounts as were paid or would be paid under the normal pension plan of the company and its subsidiaries.

(e) State as to all options to purchase capital securities of the company or any of its subsidiaries that, since the commencement of the company's last completed financial year, were granted to or exercised by all the persons mentioned in paragraph (b) as a group, without naming them, the following particulars:

(A) Options granted, state:

- (i) the description and number of capital securities included,
- (ii) the dates of grant, the prices, expiration dates and other material provisions,
- (iii) the consideration received for the granting thereof, and
- (iv) where reasonably ascertainable, a summary showing the price range of the capital securities in the thirty-day period preceding the date of grant and, if not reasonably ascertainable, a statement to that effect.

(B) As to options exercised, state:

- (i) the description and number of capital securities purchased,
- (ii) the purchase price, and
- (iii) where reasonably ascertainable, a summary showing the price range of the capital securities in the thirty-day period preceding the date of purchase and, if not reasonably ascertainable, a statement to that effect.

Instructions:

1. The word "options" as used in paragraph (e) includes all options, share purchase warrants or rights other than those issued to all shareholders of the same class or to all shareholders of the same class resident in Canada on a *pro rata* basis.
2. The extension of options shall be deemed a granting of options within the meaning of paragraph (e).
3. The information regarding the option price of the capital securities may be given in the form of price ranges for each calendar quarter during which options were granted or exercised.
4. Where the price of the capital securities is not meaningful, it is permissible to state in lieu of such price the formula by which the price of the securities under option will be determined.

(f) In regard to,

- (i) each director and each senior officer of the company;
- (ii) each proposed nominee for election as a director of the company; and
- (iii) each associate of any such director, senior officer or proposed nominee,

who is or has been indebted to the company or its subsidiaries at any time since the beginning of the last completed financial year of the company, state the largest aggregate amount of indebtedness outstanding at any time during the period, the nature of the indebtedness and of the transaction in which it was incurred, the amount thereof presently outstanding, and the rate of interest paid or charged thereon.

Instructions:

1. It is not necessary in the determination of the amount of indebtedness to include amounts due from the particular person for purchases subject to usual trade terms, for ordinary travel and expense advances and for other like transactions.
2. Such information need not be furnished for any person whose aggregate indebtedness did not exceed \$5,000 at any time during the period specified.

ITEM 7. Interest of Management and Others in Material Transactions:

Describe briefly, and where practicable state the approximate amount, of any material interest, direct or indirect, of any of the following persons in any transaction since the commencement of the company's last completed financial year or in any proposed transaction which, in either such case, has materially affected or will materially affect the company or any of its subsidiaries:

- (i) any director or senior officer of the company;
- (ii) any proposed nominee for election as a director of the company;
- (iii) any shareholder named in answer to paragraph (d) of item 4; and
- (iv) any associate or affiliate of any of the foregoing persons,

Instructions:

1. Give a brief description of the material transaction, the name and address of each person whose interest in any transaction is described and the nature of the relationship by reason of which such interest is required to be described.
2. As to any transaction involving the purchase or sale of assets by or to the company or any subsidiary, otherwise than in the ordinary course of business, state the cost of the assets to the purchaser and the cost of the assets to the seller if acquired by the seller within two years prior to the transaction.
3. This item does not apply to any interest arising from the ownership of capital securities of the company where the securityholder receives no extra or special benefit or advantage not shared on a *pro rata* basis by all holders of the same class of capital securities or all holders of the same class of capital securities who are resident in Canada.
4. Information shall be included as to any material underwriting discounts or commissions upon the sale of capital securities by the company where any of the specified persons was or is to be an underwriter who was or is to be in contractual relationship with the company with respect to capital securities of the company or is an associate, affiliate or partner of a person or partnership that was or is to be such an underwriter.

5. No information need be given in answer to this item as to any transaction or any interest therein where,

- (a) the rates or charges involved in the transaction are fixed by law or determined by competitive bids;
- (b) the interest of the specified person in the transaction is solely that of a director of another company that is a party to the transaction;
- (c) the transaction involves services as a chartered bank or other depository of funds, transfer agent, registrar, trustee under a trust indenture or other similar services; or
- (d) the transaction does not, directly or indirectly involve remuneration for services, and

- (i) the interest of the specified person arose from the beneficial ownership, direct or indirect, of less than 10 per cent of any class of equity shares of another company that is a party to the transaction,
- (ii) the transaction is in the ordinary course of business of the company or its subsidiaries, and
- (iii) the amount of the transaction or series of transactions is less than 10 per cent of the total sales or purchases, as the case may be, of the company and its subsidiaries for the last completed financial year.

6. Information shall be furnished in answer to this item with respect to transactions not excluded above which involve remuneration, directly or indirectly, to any of the specified persons for services in any capacity unless the interest of such person arises solely from the beneficial ownership, direct or indirect, of less than 10 per cent of any class of equity shares of another company furnishing the services to the company or its subsidiaries.

7. This item does not require the disclosure of any interest in any transaction unless such interest and transaction are material.

ITEM 8. Appointment of Auditors:

If action is to be taken with respect to the appointment of auditors, name such auditors and, if appointed within the preceding five years, the date when they were first appointed.

ITEM 9. Management Contracts:

Where management functions of the company or a subsidiary are to any substantial degree performed by a person other than the directors or senior officers of the company or subsidiary:

- (a) give details of the agreement or arrangement under which such functions are so performed, including the name and address of any person who is a party to such agreement or arrangement or who is responsible for performing such functions;
- (b) give the names and addresses of the insiders of any company with which the company or subsidiary has any such agreement or arrangement;
- (c) with respect to any person named in answer to paragraph (a) state the amounts paid or payable by the company and its subsidiaries to such person since the commencement of the company's last completed financial year and give particulars with respect thereto; and

(d) with respect to any person named in answer to paragraph (a) or (b) of this item or their associates or affiliates, give particulars of,

- (i) any indebtedness of such person to the company or its subsidiaries that was outstanding, and
- (ii) any transaction or arrangement of such person with the company or subsidiary, at any time since the commencement of the company's last completed financial year.

Instructions:

1. In giving the information called for by this item, it is not necessary to refer to any matter that in all the circumstances is of relative insignificance.
2. In giving particulars of indebtedness state the largest aggregate amount of indebtedness outstanding at any time during the period, the nature of the indebtedness and of the transaction in which it was incurred, the amount thereof presently outstanding and the rate of interest paid or charged thereon.
3. It is not necessary in the determination of the amount of indebtedness to include amounts due from the particular person for purchases subject to usual trade terms, for ordinary travelling and expense advances and for other like transactions.

ITEM 10. Particulars of Matters to be Acted Upon:

If action is to be taken on any matter to be submitted to the meeting of shareholders other than the approval of financial statements, the substance of each such matter, or related groups of matters, should be briefly described, except to the extent described pursuant to the foregoing items, in sufficient detail to permit shareholders to form a reasoned judgment concerning any such matter. Without limiting the generality of the foregoing, such matters include increases or decreases of authorized or issued capital, amendments to letters patent or supplementary letters patent, property acquisitions or dispositions, amalgamations or reorganizations. If any such matter is one that is not required to be submitted to a vote of shareholders, the reasons for submitting it to shareholders should be given and a statement should be made as to what action is intended to be taken by management in the event of a negative vote by the shareholders.

Schedule "A"

All and Singular those certain tracts of land in the Territorial District of Algoma, and being composed of the geographic townships of Ley, Havilland, Tilley, Fisher, Herrick, Tp. 29 Range 14, Tp. 29 Range 15, and part of the geographic townships of Tp. 28 Range 15, Tp. 28 Range 13, Tp. 27 Range 13, Tp. 27 Range 12, Kincaid, Ryan, Palmer, Archibald, and Tupper described as follows:

Beginning at the intersection of the east boundary of the geographic Township of Ryan with the north limit of Mining Location Number 8; thence east along the said north limit and its easterly production a distance of 3 miles; thence north astronomically to the intersection with the north boundary of the geographic Township of Palmer; thence continuing north astronomically a distance of 3 miles; thence east astronomically to the intersection with the water's edge along the westerly bank of the Batchawana River; thence in a southerly, southwesterly, and southeasterly direction following the said water's edge to the intersection with the north boundary of the geographic Township of Fisher; thence easterly along the north boundaries of the geographic townships of Fisher and Tilley to the northwest corner of the geographic Township of Archibald; thence south along the west boundary of the last-mentioned geographic township to the northwest corner of Lot 12 in Concession III; thence east along the north limits of lots 12 and 11 in Concession III to the northeast corner of said Lot 11; thence south along the east limit of Lot 11 in concessions III, II and I to the intersection with the north boundary of the geographic Township of Tupper; thence south along the east limit of Lot 11 in concessions VI, V, IV and III in the geographic Township of Tupper to the southeast corner of Lot 11 in Concession III; thence west along the south limits of lots 11 and 12 in Concession III to the intersection with the east boundary of the geographic Township of Havilland; thence south along that east boundary to the southeast corner of the last-mentioned geographic township; thence west along the south boundaries of the geographic townships of Havilland and Ley to the southwest corner of the last-mentioned geographic township; thence west on the westerly production of the south boundary of the geographic Township of Ley to the water's edge of Lake Superior; thence in a northerly, easterly, northeasterly, northwesterly and northeasterly direction following the water's edge of Lake Superior to the westerly production of the north boundary of geographic Township Tp. 28 Range 15; thence east along the said westerly production and the north boundary of geographic Township Tp. 28 Range 15 to the intersection with the westerly limit of the right-of-way of that part of the

King's Highway known as No. 17; thence southeasterly along that right-of-way to the intersection with a line drawn west astronomically from the intersection of the high-water mark on the northerly bank of the Montreal River with the westerly boundary of the geographic Township of Home; thence east astronomically to a point distant 3 miles measured west astronomically from the said intersection of the high-water mark on the northerly bank of the Montreal River with the westerly boundary of the geographic Township of Home; thence south astronomically to the intersection with the south boundary of geographic Township Tp. 28 Range 15; thence west along the south boundary of the last-mentioned geographic township to the northeast corner of geographic Township Tp. 29 Range 14; thence south along the east boundary of that geographic township to the southeast corner thereof; thence west along the south boundary of that geographic township to the intersection with a line drawn north astronomically from the intersection of the south boundary of the geographic Township of Kincaid with the easterly limit of the A. McDonell Location; thence south astronomically to the said intersection on the easterly limit of the A. McDonell Location; thence south-easterly along the said easterly limit to the south-easterly corner thereof; thence south astronomically to the intersection with the westerly production of the north limit of Mining Location No. 8; thence east along the said westerly production and the said north limit of Mining Location No. 8 to the point of commencement; together with Batchawana Island in Batchawana Bay of Lake Superior.

THE REGISTRY ACT

O. Reg. 139/67.

Surveys, Plans and Descriptions of Land.

Made—April 13th, 1967.

Filed—April 14th, 1967.

REGULATION MADE UNDER
THE REGISTRY ACTSURVEYS, PLANS AND DESCRIPTIONS
OF LAND

INTERPRETATION

1. In this Regulation,

- (a) "compiled plan" means a registrar's compiled plan under subsection 1a of section 88 of the Act;
- (b) "expropriating authority" means the Crown in right of Ontario or any person empowered to acquire land by expropriation;
- (c) "expropriation plan" means a plan under *The Expropriation Procedures Act, 1962-63*;
- (d) "hanging line" means an unclosed traverse in the form of a branch emanating from a main traverse or triangulation;
- (e) "judge's plan" means a judge's plan under section 94a of the Act;
- (f) "lot" means a lot or any other area of land defined and designated by an original survey or by a registered plan;
- (g) "municipal plan" means a plan under section 93a of the Act;
- (h) "original survey" means an original survey as defined by *The Surveys Act*;

- (i) "registered plan" means an expropriation plan, a plan of subdivision, judge's plan, municipal plan, compiled plan or other plan by which lots are created and which is registered under *The Registry Act*;
- (j) "subdivision unit" means any area of land delineated by a survey and includes,
- (i) a township lot, city lot, town lot or village lot, section, block, gore, reserve, common, mining location and mining claim, or
 - (ii) a lot, block, part or other surveyed unit of land shown on a plan registered or deposited under *The Land Titles Act* or under *The Registry Act*.

GENERAL

2. Except as provided by,

- (a) section 3;
- (b) sections 48 and 49, with regard to expropriation plans;
- (c) section 59, with regard to compiled plans;
- (d) section 70, with regard to judges' plans; and
- (e) subsections 3 and 4 of section 87, with regard to municipal plans,

sections 9 to 36, both inclusive, apply in respect of every plan to be registered, whether separately or as a part of or attached to an instrument.

3. This Regulation does not apply,

- (a) to a plan under the *Navigable Waters Protection Act* (Canada);
- (b) except as provided by section 49, to a preliminary plan authorized by an Act of Canada or Ontario;
- (c) to a deed or conveyance given by the Director, the *Veterans' Land Act* (Canada) where the instrument by which the Director acquired title was registered before the 1st day of July, 1964;
- (d) to lots created by a plan under *The Cemeteries Act*;
- (e) to a plan illustrating a gas storage area designated under *The Ontario Energy Board Act, 1964*, or a predecessor thereof;
- (f) to a plan to illustrate land intended to be expropriated under an Act of Canada where the usual practice of the expropriating authority is to register, either separately or as a part of an instrument, a plan of survey of land so expropriated; or
- (g) except section 94, to a sketch under clause *b* of section 86*a* of the Act.

4. The registrar, having regard to the circumstances, may register an instrument or accept a plan that does not comply strictly with the requirements of sections 5, 6, 9, 10, 11, 12, 13, 14, 15, 16, 23, 25, 26, 29, 30, 34 or 42.

PART I

DESCRIPTIONS OF LAND

5.—(1) A description of land in an instrument tendered for registration,

- (a) shall mention every lot affected by the instrument and shall,
 - (i) where the lot is according to an original survey, mention the concession, tract, range, section or other designation in accordance with the original grant from the Crown, or
 - (ii) where the lot is according to a registered plan, mention the registration number of the plan;
- (b) except for an instrument referred to in section 7, shall be in writing;
- (c) except as provided by section 6 or 7, and subject to section 8, shall be by metes and bounds and,
 - (i) where bearings in degrees are included in the description, the origin of the bearings shall be stated in the description,
 - (ii) where the description includes a course along a curved boundary, the arc length, radius and chord length and chord bearing shall be included in the description,
 - (iii) where the description is of part of a lot, the description shall refer to at least one of the corners of the lot of which it is a part, and shall give the distance from that corner to an angle of the part being described,
 - (iv) except as provided in subsection 4, shall not substitute contractions or abbreviations for words, and
 - (v) shall not substitute symbols for "foot", "feet", "inch", "inches" or other linear measurement;
- (d) shall not describe land by exception unless,
 - (i) the same land has been described by exception in an instrument registered before the 1st day of July, 1964,
 - (ii) the land excepted is surrounded by the land described in the instrument,
 - (iii) the land excepted is a designated PART on an expropriation plan,
 - (iv) the land excepted is the whole of the land shown on a registered plan, or
 - (v) the land excepted is the line of railway or right of way of a railway company, or is a public street, road or highway that was laid out by an original survey or shown on a registered plan;
- (e) subject to subsection 6 and section 8, shall not describe any boundary of the land affected by the instrument solely by reference to the registration number of a registered instrument or be dependent upon another instrument, unless the registered instrument is a registered plan;
- (f) shall not define distances by measurements other than feet and decimals of a foot or feet and inches; and
- (g) shall include,
 - (i) the name of the geographic township, if any, in which the land was situated at the time of the original survey or

a subsequent survey made under competent authority as defined in *The Surveys Act* except where the land is within a registered plan of subdivision, municipal plan, compiled plan or judge's plan,

(ii) the name of the municipality and of the county or district in which the land was included at the time of execution of the instrument, and

(iii) where the land was described in the last previously registered deed or conveyance as being included in a municipality other than the municipality referred to in subclause ii, the name of the other municipality.

(2) For the purposes of clause *c* of subsection 1,

(a) a description of a part of a lot lying to one side of a described line; or

(b) a description of a strip of land of uniform width by reference to a described line that is either one of the side lines or between and parallel to the side lines of the strip, where there is attached to the instrument in which the strip is so described a plan of survey, or a print thereof, showing the side lines, with distances between their points of intersection with lot limits and the nearest lot angles, in each instance,

shall, if it otherwise complies with this Regulation, be deemed to be a metes and bounds description.

(3) Subclause ii of clause *c* of subsection 1 does not apply where the course described is the whole of a limit of a lot according to a registered plan.

(4) Subclause iv of clause *c* of subsection 1 does not prohibit the substitution of "N" for "North", "E" for "East", "S" for "South" or "W" for "West" with respect to bearings in degrees.

(5) Subclause v of clause *c* of subsection 1 does not prohibit the substitution of symbols for the words "degrees", "minutes" and "seconds" with respect to bearings.

(6) Clause *e* of subsection 1 does not prohibit the inclusion in a description in an instrument of a reference to the registration number of a registered instrument if the description otherwise complies with this Regulation.

6. Where an instrument tendered for registration affects,

(a) the whole of a lot according to an original survey, the description in the instrument shall be of the lot and the concession, tract, range, section or other designation in accordance with the original grant from the Crown;

(b) the whole of a lot according to a registered plan, the description in the instrument shall be of the lot and the registration number of the plan;

(c) an aliquot part of a lot according to an original survey, the description in the instrument may be of the aliquot part if it was so described in the grant from the Crown or in a registered instrument;

(d) an aliquot part of a lot according to an original survey, where no adjacent part of the lot is owned by the person who owns the aliquot part, the description in the instrument may be of the aliquot part;

(e) half of a lot according to a registered plan, the description in the instrument may be of that half if it was so described in a registered instrument;

(f) land shown as a PART on an expropriation plan which has not been altered by a subsequent plan or by an instrument effecting an abandonment, the description in the instrument shall refer to the registration number of the expropriation plan and to the number of the PART;

(g) a block resulting from a subdivision for abstract purposes under section 88 of the Act or a predecessor of that section, the description in the instrument shall refer to that block;

(h) a part of a street or highway that has been stopped up or closed, the description in the instrument shall also refer to the by-law, or other instrument, by which the street or highway was stopped up or closed and to the registration number of the by-law or other instrument;

(i) a rectangular part of a rectangular lot, the description in the instrument may be of the perpendicular width of the part either through-out or to a given perpendicular depth.

7.—(1) An instrument tendered for registration may describe land by reference to a plan made by a surveyor of which a paper or linen copy is attached to the instrument,

(a) if the dimensions of the plan do not exceed,

(i) 8 inches by 27 inches, or

(ii) 16 inches by 13 inches;

(b) if the original plan or a copy of the plan made on translucent linen or other material approved by the Inspector is in the custody of the registrar when the instrument is tendered for registration; and

(c) if the plan does not assign new identifying numbers, letters or words to subdivision units other than to those affected by the instrument.

(2) Clauses *a*, *b* and *c* of subsection 1 do not apply to a certificate of title under *The Certification of Titles Act* or to a certificate of the master of titles under section 58 of *The Land Titles Act*.

(3) Clause *c* of subsection 1 does not apply to a plan of land acquired by an expropriating authority where the land is acquired other than by expropriation.

(4) Plans and copies of plans received under clause *b* of subsection 1 shall be deposited under PART II of the Act and shall be numbered consecutively in order of receipt under a separate series of numbers that incorporate a prefixing letter or letters of which one shall be "R".

(5) Where an instrument other than an instrument to which subsection 2 applies describes land in accordance with this section, and the instrument does not include a reference to the number assigned under subsection 4, the registrar shall note that number on the instrument or in the abstract index.

8. Where an instrument tendered for registration is,

(a) a certificate of payment of succession duties under subsection 7 of section 58 of the Act in respect of any lands forming part of the

estate of a deceased person, the description in the instrument may substitute contractions or abbreviations for words, or may be in the same form as in a related deed to which clause *d* applies;

- (b) a claim for lien under *The Mechanics' Lien Act* or an assignment, discharge, vacating order or certificate of action in respect thereof or a notice of conditional sale contract under *The Conditional Sales Act*, or a renewal, assignment or discharge thereof, the description in the instrument may describe the land affected by the instrument by reference to the registration number of a previously registered instrument;
- (c) a notice of tax arrears or similar notice under *The Assessment Act*, *The Department of Municipal Affairs Act*, *The Mining Act*, *The Provincial Land Tax Act, 1961-62*, or *The Local Roads Boards Act, 1964*, the description in the instrument,
 - (i) may substitute contractions or abbreviations for words, or
 - (ii) may describe the land affected by the instrument by reference to the registration number of a previously registered instrument;
- (d) is a deed or other conveyance given by an executor or trustee under a will, an administrator or other personal representative of a deceased person, the description in the deed or conveyance may be the same as the description in the instrument by which the deceased person acquired title;
- (e) a certificate of discharge under section 72 of the Act, the instrument may contain an abbreviated description of the land thereby affected instead of a description by metes and bounds; or
- (f) an assignment of a lease or mortgage, the description in the assignment may be the same as the description in the lease or mortgage.

PART II

SURVEYS AND PLANS

9.—(1) Where a surveyor makes a survey and plan of land to which the Act applies, he shall make the survey and plan in accordance with this Regulation and *The Surveys Act* and the regulations made thereunder.

(2) A registrar, with the written approval of the Inspector, may register a plan even though it does not comply strictly with the requirements of this Regulation or *The Surveys Act* and the regulations made thereunder.

(3) The Inspector, upon the request of a registrar, may refer any plan to which this Regulation applies to the Examiner of Surveys appointed under *The Land Titles Act* for examination to ensure compliance with this Regulation, in which case there shall be payable to the Director of Titles appointed under that Act by the person by whom or on whose behalf the plan was presented to the registrar such fee as is established by the Director, but such fee shall not exceed the fee that would be payable for the examination of a comparable plan of land registered under that Act.

(4) A plan examined under subsection 3 shall not be registered, whether separately or as a part of or attached to an instrument, without the approval in writing endorsed thereon of the Examiner of Surveys or the Inspector.

10. Before undertaking a survey, the surveyor shall refer to all documentary evidence related to the land under survey and the land adjoining the land under survey.

11.—(1) Where a monument no longer exists, all evidence concerning its original position shall be considered in the re-establishment thereof.

(2) Where a monument is placed on an existing boundary, the monument shall be placed on the boundary at a point which shall be established from evidence of the boundary line on both sides of the monument so placed.

12. The requirements of all statutes and regulations that effect the boundaries of the land shown on a plan shall be ascertained and complied with before the plan is presented for registration.

STANDARDS OF SURVEY

13.—(1) All boundaries of the land being surveyed shall be measured or shall be determined by closed traverse or triangulation.

(2) Hanging lines shall be verified by two independent measurements of angle and distance.

(3) Where a survey is made of a strip of land of uniform width for the purposes of telephone services, or the transmission of liquid or gaseous hydrocarbons, electricity, water, or for similar purposes, one of the side lines of the strip, or a line between and at a constant distance from one of the side lines may be surveyed, and the location of the side lines may be computed if they are accurately plotted on the plan of the survey and if the plan shows tie distances to lot angles from points of intersection of the side lines with the lot limits.

14.—(1) The error of closure in respect of the perimeter of each subdivision unit shall not exceed,

- (a) for the first 100 feet of perimeter, an error of 0.10 feet;
- (b) for the next 1000 feet of perimeter, an error of 0.02 feet per 100;
- (c) for each succeeding 100 feet of perimeter up to a total perimeter of 1900 feet, an error of 0.01 feet; and
- (d) for a total perimeter of more than 1900 feet an error of 1 in 5000.

(2) Subsection 1 applies to hanging lines.

15. The position of a natural boundary that forms a boundary of the land being surveyed or that governs the position of that boundary shall be determined by,

- (a) periodic offsets at such intervals as the complexity of the natural boundary demands and to such extent as will enable relocation of the natural boundary, said offset measurements to be of not greater length than 250 feet and at not greater intervals than 200 feet along a controlled traverse;
- (b) stadia measurements of not more than 1000 feet in length from stations on a controlled traverse, to such points on the natural boundary as are necessary to determine all its irregularities and to enable its relocation, such points to be of not greater intervals than 200 feet along the natural boundary; or
- (c) controlled photogrammetric methods.

16. Bearings shall be astronomic.

PLANS

17.—(1) An original plan,

(a) shall be drawn on the dull side of durable linen that is not waterproof, or on other translucent material approved by the Inspector, and that is of such quality that opaque or translucent reproductions may be made by either a wet or dry process without damaging the plan;

(b) shall be drawn and executed in black india ink or, where the plan is drawn on approved plastic material, in black etching ink only, and shall show no colouring of any kind whatsoever; and

(c) shall be drawn to a professional standard of draughtsmanship and shall be in a fit condition for making legible reproductions.

(2) The only handwriting to appear on the plan shall be the signatures of those persons required to sign the plan, and under each signature shall be legibly printed the name of the person signing.

(3) Where a plan is a plan of public lands under the jurisdiction of the Minister of Lands and Forests or of the Minister of Mines, a reproducible duplicate of the plan made on linen or other material approved by the Inspector may be registered in lieu thereof.

18.—(1) No part of a plan or of any certificate, approval or other matter required thereon shall be stamped, typewritten, lithographed or engraved, but the title, legend, form of the surveyor's certificate or margin may be printed, if it is machine printed with metallic overprint ink.

(2) Subsection 1 does not apply to the surveyor's seal, the seal of a corporation or to the consent of the Minister of Municipal Affairs under *The Planning Act*.

19. A plan shall be drawn to a scale or scales sufficient for clarity of all particulars on the plan.

20. All linear measurements on a plan shall be shown either in feet and decimals of a foot or in feet and inches.

21.—(1) Directions shall be shown on the plan in quadrantal bearings referred to the cardinal points.

(2) A simple north point accurately plotted shall be placed in a conspicuous position on each plan.

22.—(1) The origin of the bearings shall be stated on the plan in note form.

(2) Bearings may be derived from a line of known astronomic bearing if survey evidence of such line exists on the ground in its original position and is shown on the plan.

(3) Where bearings have been determined by the surveyor by astronomic observations, a note shall be shown on the plan as follows:

Bearings are astronomic, derived from observations on (polaris) (sun) and referred to the meridian.....

23. There shall be shown on a plan clearly and accurately,

(a) by light lines of consistent weight which may be broken, sufficient information to enable the identification of the limits of pre-existing subdivision units or limits defined by,

(i) registered instruments affecting land included within the land surveyed, and

(ii) instruments registered under the Act or under *The Land Titles Act* and affecting land adjoining the land being surveyed; and

(b) the identifying numbers, letters or words of the land in clause a.

24.—(1) Subject to subsection 2, the limits of subdivision units created by a plan and the identifying numbers, letters or words shall be shown on the plan by solid lines of a consistent weight and heavier than the lines referred to in section 23.

(2) The outer limits of the area of land dealt with on a plan shall be shown by lines heavier than the lines of survey or delineation either within or outside the area.

25.—(1) A plan shall show the position and form of all survey monuments and other evidence found, conflicting or otherwise.

(2) Every monument and all other evidence found shall be distinguished by the abbreviation "Fd" together with any surveyor's registration numbers, letters or symbols found on the monument.

26.—(1) The measurements of distances and directions obtained by the surveyor in the course of a survey on the ground shall be reduced to true measurements and shall be shown on the plan.

(2) Where a measurement of distance or direction differs from that shown,

(a) on a registered plan; or

(b) in a registered deed or other registered conveyance,

the measurement shall be followed by the abbreviation "Meas." and the corresponding measurement on the registered plan, or in the registered conveyance shall be noted followed by "Plan (No.)" or "Deed (No.)" or as the case may be.

27. Sufficient data shall be shown on the plan to permit the calculation of a closure of each subdivision unit created by the plan.

28.—(1) A plan shall be certified by a surveyor in Form 1.

(2) Every plan shall contain a true copy of the field notes of the survey.

29.—(1) A plan shall show,

(a) the bearing and length of each straight line forming any surveyed limit or part of any surveyed limit, except that, in the case of a tier of lots that is shown by dimensions to be a series of parallelograms, the direction of each of the side lines of the lots may be indicated by the bearings at both ends of the tier;

(b) the radius, arc length, chord length and chord bearing of each curved line forming any surveyed limit or part of any surveyed limit;

(c) the perpendicular or radial widths of all streets, lanes and public passages of which the limits are parallel or concentric;

(d) the straight line distances and bearings between the points of street intersections on the same side of the street and, where all or part of an intersection is on a curve, the radius, arc length, chord length and chord bearing of the curved portion; and

- (e) the location of the radial centre of an arc that forms the end of a cul-de-sac, clearly defined with reference to the street or streets approaching the cul-de-sac.

(2) Where the arc of a simple curve joins a line that is not tangent to the curve, the junction of curve shall be shown as "not tangential".

(3) Where space does not permit the showing of the chord length and chord bearing in their normal position in respect of a curve, they may be shown in a schedule on the plan.

30.—(1) There shall be shown on a plan all highways, roads, streets, lanes, railway lands, rivers, canals, streams, lakes, ponds and marshes lying within or abutting upon the surveyed land.

(2) Natural boundaries shall be accurately plotted on a plan.

(3) Where a plan shows traverse lines from which natural boundaries were surveyed, complete particulars shall be shown on the plan, including,

- (a) bearings, distances and lengths of offsets and the angles that they make with the respective traverse lines;
- (b) bearings and distances of stadia measurements;
- (c) information relevant to any other method by which a natural boundary is determined; and
- (d) information relating to the boundaries and ties with other surveys and land boundaries.

(4) The particulars required by subsection 3 shall be shown along the appropriate course on the plan or in a schedule on the plan if they are identified and related to the appropriate course on the plan.

31.—(1) Every subdivision unit into which an area of land is subdivided shall be designated on the plan by a number or letter or by words.

(2) Designation by numbers or letters shall be in consecutive order.

(3) Not more than one subdivision unit shall be designated on the plan by the same number, letter or words.

(4) A subdivision unit on a plan shall not be designated as a "parcel".

32. Subject to section 33, a plan other than an expropriation plan shall not contain information describing the purpose for which any portion of the land on the plan is intended to be used.

33. Highways, roads, streets, lanes, commons and reserves shall be so designated on the plan.

34. An easement or other right of way existing at the time of the survey shall be shown on the plan.

35. Every plan,

- (a) shall bear a title showing the designation of every subdivision unit the whole or a portion of which is included within the area to which the plan applies; and
- (b) shall show under the title the scale to which the plan is drawn and, except in the case of a plan that is entirely compiled in accordance with this Regulation, shall show the year in which the survey was completed.

36. An original plan or a copy of a plan drawn on translucent material to be retained in the custody of a registrar shall not be folded, and shall be filed flat, rolled or suspended in the registry office.

PLANS OF SUBDIVISION

37. A plan of subdivision shall not exceed twenty-four inches in width by thirty inches in length, including a margin one-half of an inch in width.

38.—(1) The certificate of every owner in Form 2 shall be endorsed on a plan of subdivision.

(2) Except where an owner is a corporation, the execution of each owner's certificate shall be verified by the affidavit of a subscribing witness in Form 3 and, except as provided by section 46, shall be endorsed on the plan.

39.—(1) The consent of every mortgagee shall be in Form 4 and, except as provided by section 46, shall be endorsed on a plan of subdivision.

(2) Except where the mortgagee is a corporation, the execution of the mortgagee's consent shall be verified by the affidavit of a subscribing witness in Form 5 and, except as provided by section 46, shall be endorsed on the plan.

40.—(1) An affidavit as to the age of every man or woman who, as an owner, executes or who, as a mortgagee, consents to a plan of subdivision shall be in Form 6 and, except as provided by section 46, shall be endorsed on the plan.

(2) Subsection 1 does not apply to a Minister of the Crown or to a person authorized to act on his behalf.

41.—(1) Where an owner or a mortgagee is a corporation, the owner's certificate or mortgagee's consent shall be signed by the proper officers of the corporation, and the official capacity of each officer shall be printed below his signature.

(2) The corporate seal of each corporate owner or mortgagee shall be embossed near the signature of the proper officers.

42. A certificate of registration in Form 7 for completion by the registrar shall be included on a plan of subdivision by the surveyor.

43.—(1) At the time of registration of a plan of subdivision there shall be delivered to the registrar together with the original plan a mounted duplicate and an unmounted duplicate of the plan and the registrar shall,

- (a) endorse the particulars of registration of the plan on the mounted duplicate and on the unmounted duplicate;
- (b) retain the mounted duplicate in his custody; and
- (c) deliver the unmounted duplicate to the clerk of the municipality in which the land subdivided by the plan is situated.

(2) A mounted duplicate plan shall be a mechanical reproduced copy of the plan and shall be on opaque white linen, or on other material approved by the Inspector, and mounted with reinforced corners on a backing of stiff pasteboard of good quality, or other backing approved by the Inspector, and shall be twenty-four inches in width by thirty inches in length.

(3) An unmounted duplicate plan shall be a mechanically reproduced copy of the plan and shall be on transparent linen or other material approved by the Inspector.

44. A mounted duplicate plan may be coloured to distinguish new subdivision units by shading or outlining,

- (a) lots or blocks in pink;
- (b) land dedicated as public highways in light brown; and
- (c) reserves in light green,

if the colouring is executed so as not to obliterate underlying details.

45. Where the title to part of the land shown on a plan of subdivision is subject to a mortgage registered before the plan, the registrar may require a paper print of the plan showing the area affected by the mortgage to be affixed to the reverse side of the mounted duplicate plan.

46.—(1) Where the consent of a mortgagee or any affidavit required by the Act is omitted from a plan of subdivision under subsection 9 of section 86 of the Act, the plan shall be accompanied by a "Plan Document" which shall consist of a statement by the surveyor in Form 8 and where applicable,

- (a) an affidavit of the witness to each owner's certificate, in Form 3;
- (b) a consent of each mortgagee in Form 4;
- (c) an affidavit of the witness to each mortgagee's consent in Form 5; and
- (d) an affidavit as to the age of each owner or mortgagee, other than a corporation, in Form 6.

(2) Each affidavit or consent included in a Plan Document shall commence as follows:

"In the matter of a plan of subdivision of (part of) Lot.....in Concession.....of the Township of.....in the County of..... (or as the case may be) prepared by (name in full), an Ontario land surveyor, and dated"

47. Where a Plan Document accompanies a plan of subdivision, the registrar shall, without fee in addition to the fee for registration of the plan,

- (a) register the Plan Document as a general registration;
- (b) enter the Plan Document in the General Register Index under the name of the subdivision, if any, as appearing in the plan, or, if none, under the name of each owner of the land; and
- (c) endorse the registration number of the plan on the Plan Document.

EXPROPRIATION PLANS

48. Except as provided by section 49, sections 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 29, 30, 33, 34, 35 and 36 apply *mutatis mutandis* to an expropriation plan.

49. Subsection 4 of section 51 and sections 52 and 58 apply to a preliminary plan under subsection 5 of section 4 of *The Expropriation Procedures Act, 1962-63*.

50. Except as provided by section 51, every boundary of every parcel within the area of the land expropriated by an expropriation plan shall be established by actual survey.

51.—(1) The perimeter boundaries of an area of land expropriated by an expropriation plan may be compiled from,

- (a) a plan of an original survey of record in the Department of Lands and Forests; or
- (b) a registered plan or a plan of survey in the custody of the registrar,

insofar as the perimeter boundaries coincide with the boundaries of subdivision units shown on those plans.

(2) In respect of the whole or a part of a parcel described in a registered deed or other instrument under which title purportedly passed, the boundary between that parcel and an adjacent parcel, the whole or a part of which is expropriated by the same expropriation plan, may be compiled from that deed or instrument.

(3) Subsection 2 applies in respect of interior boundaries within an area acquired by an expropriating authority, notwithstanding that the whole or a part of one or more of the parcels included within the perimeter of the area has been or is intended to be acquired by purchase rather than by expropriation.

(4) Where an expropriation plan is partially or entirely compiled in accordance with this section, the sources of the compiled information shall be shown on the plan in relation to the boundaries of the expropriated land.

52.—(1) An expropriation plan shall show,

- (a) the title and section of the Act under which the expropriating authority derives its power to expropriate; and
- (b) the title "*The Expropriation Procedures Act, 1962-63*".

(2) Where, prior to the registration of an expropriation plan, an expropriating authority has exercised its statutory power to expropriate land by the passing of a by-law or otherwise, there shall be shown on the plan,

- (a) in the case of a municipality that exercises its power by passing a by-law, the name of the municipality and the municipal number and date of the passing of the by-law; or
- (b) in the case of any other expropriating authority, a reference to the official publication or public record, if any, in which evidence of such preliminary proceedings is published or recorded.

(3) Except as required by law, no evidence of the exercise of a statutory power to expropriate by a proceeding prior to the registration of an expropriation plan need be registered.

53. Where a limited estate, right or interest in land, or land for a limited time only is expropriated, a definitive statement as to the limitation shall be included on the expropriation plan.

54.—(1) Where an expropriation plan is entirely or partially a plan of survey, the plan shall contain a true copy of the field notes of the survey.

(2) An expropriation plan shall be certified by the surveyor in Form 9.

55. Parcels of land expropriated by an expropriation plan may be designated thereon as consecutively numbered "PARTS".

56.—(1) Notwithstanding clause *a* of section 35, where land has been designated as numbered PARTS on an expropriation plan, the designation of every subdivision unit the whole or a portion of which is expropriated may be set out in a schedule on the plan relating the PARTS expropriated to the subdivision units.

(2) A schedule under subsection 1 may include the names of the owners in relation to the PARTS, and approximate acreage of each PART.

57. Where the expropriating authority is a corporation, including a municipal corporation, the seal of the corporation shall be affixed to the plan, and to the copy required by clause *b* of subsection 1 of section 58.

58.—(1) At the time of registration of an expropriation plan, there shall be delivered to the registrar,

- (a) the original plan, unfolded;
- (b) a mechanically reproduced copy of the plan, made on opaque linen, paper or other material approved by the Inspector;
- (c) two paper prints of the plan; and
- (d) such other copies as are to be endorsed and returned by the registrar.

(2) The registrar shall endorse the particulars of registration of the plan,

- (a) on the original plan and on the mechanically reproduced copy referred to in clause *b* of subsection 1 and shall retain them in his custody; and
- (b) on the paper prints referred to in clause *c* of subsection 1, and distribute them as required for purposes of section 108 of the Act or as directed by the Inspector.

(3) Notwithstanding section 17, where the dimensions of an expropriation plan do not exceed,

- (a) 8 inches by 27 inches; or
- (b) 16 inches by 13 inches,

the plan may be drawn on paper.

REGISTRARS' COMPILED PLANS

59. Sections 17, 18, 19, 20, 21, 23, 24, 31, 34, 35, 36, 37, 42, 43 and 44 apply, *mutatis mutandis*, to a compiled plan.

60.—(1) The title on a compiled plan shall be "Registrar's Compiled Plan, Being a Graphic Index of (Lots, Concessions, Township, etc.)."

(2) The following shall be included in bold printing below the title on a compiled plan:

"CAUTION: THIS PLAN IS NOT A PLAN OF SURVEY—FOR OWNERSHIP AND BOUNDARY INFORMATION SEE PREVIOUSLY REGISTERED INSTRUMENTS"

61. Where a compiled plan is prepared by a surveyor and his name or the name of his firm appears on the plan, the surveyor shall endorse on the plan his certificate in Form 10, or such other certificate, to the like effect, as the Inspector approves.

62. In addition to the certificate of registration in Form 7, the registrar shall endorse on a compiled plan his certificate in Form 11, or such other certificate, to the like effect, as the Inspector approves.

63. Where the name of a surveyor or firm of surveyors does not appear on a compiled plan, the registrar shall include in his certificate in Form 11 the statement that would have been included in the surveyor's certificate in Form 10.

64.—(1) Subject to subsection 2, there shall be included on a compiled plan a schedule relating the new lot numbers to the registration numbers of previously registered instruments.

(2) Where, in the new abstract index prepared in conjunction with a compiled plan, previously registered instruments are re-entered under the new lot headings, the schedule referred to in Form 11, and the reference in that form to the schedule may, with the approval of the Inspector, be omitted.

65. Notwithstanding that separate parcels have apparently been acquired under separate instruments by a common owner, except where the registrar is satisfied as to the common ownership, each parcel shall be shown on a compiled plan as a separate lot.

66. A compiled plan shall not be registered unless the Inspector has endorsed thereon his certificate in Form 12.

67. Where a by-law under section 26 of *The Planning Act*, or a predecessor of that section, was registered in respect of land later included in a compiled plan, the registrar shall enter in red ink in the new abstract index under the heading for each new lot that was previously within the area to which the by-law applied,

"Caution: The previously registered by-law under *The Planning Act* may continue to apply as though this plan had not been registered".

68. A paper print of a registered compiled plan, bearing the completed certificate of registration or a facsimile thereof, shall be forwarded to the Inspector.

69. Where, in the course of preparation of a compiled plan, the descriptions, contained in registered instruments that appear to be intended to affect contiguous parcels, do not coincide in respect of common boundaries, the discrepancies shall be noted on the plan in the manner directed by the Inspector.

JUDGES' PLANS

70. Sections 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 42, 43 and 44 apply, *mutatis mutandis*, to a judge's plan.

71. An application shall not be made under section 94a of the Act except by the Inspector or by his duly authorized agent.

72. The functions of the Inspector under sections 73, 81, 83, 84 and 85 may be performed by a barrister authorized by the Inspector to act as his agent.

73.—(1) Before making an application under subsection 1 of section 94a of the Act, the Inspector shall obtain an appointment for a hearing and shall give notice of the application to the municipal clerk and, subject to subsection 2, to all persons who appear to be owners according to assessment and registry records of the land in respect of which the application is made at the addresses obtained from those records or, if known, at the proper addresses.

(2) Notices shall be,

- (a) published in a newspaper having general local circulation at least twice, and one such published notice shall be at least a week after the first, and the last such notice shall be at least one week before the hearing of which notice is given;

(b) served by registered mail; or

(c) served personally,

as required by the judge.

74. A notice of an application under subsection 1 of section 94a of the Act shall include,

- (a) a complete, or a brief general description of the land in respect of which the application is to be made;
- (b) a brief statement of the purpose of the application; and
- (c) a reference to the manner in which the costs and expenses of and incidental to the preparation and registration of the judge's plan may be apportioned in accordance with the Act.

75. The judge may hear an application under subsection 1 of section 94a of the Act although one or more of the owners or mortgagees do not appear either personally or by counsel.

76. No order shall be made under section 94a of the Act requiring a municipality to pay any portion of the costs and expenses, except where,

- (a) the municipality is represented at the hearing by the municipal clerk or solicitor or by counsel; or
- (b) the municipality has been served with notice of the hearing, in a case where it is not so represented.

77.—(1) Where the Attorney General, under subsection 8 of section 94a of the Act, consents on behalf of the Crown that the Crown shall pay and contribute a definite part of the costs and expenses, the judge shall, in the order under subsection 1 of section 94a of the Act require the Crown to pay and contribute only such part to which the Attorney General consents, and may direct that the remainder of the costs and expenses be borne by the municipality, subject to such remainder being apportioned under subsection 6 of section 94a of the Act.

(2) A statement in writing signed by the Inspector, without proof of the Inspector's signature, is sufficient evidence of the Attorney General's consent under subsection 8 of section 94a of the Act.

78.—(1) At any time after an order is made in accordance with section 77, the Inspector or his agent may apply to the judge for an order requiring an interim payment to the surveyor by the Crown or by a municipality, or by both.

(2) The total amount ordered to be paid under subsection 1 shall not exceed the value of the survey work completed to the date of the order, and the individual amounts shall not exceed the shares of the Crown or the municipality as established by the order made under section 77.

(3) Where an application under subsection 1 is made only for an interim payment of the Crown's share or a part thereof, the application may be made *ex parte*, but where the application is for payment by a municipality, no order shall be made unless notice of the application was served on the municipality at least three days before the application is heard.

(4) No application shall be made by an agent of the Inspector under subsection 1 for payment by the Crown unless the agent has the Inspector's written approval.

(5) The judge may make an order for which an application is authorized by this section, or may decline to make any such order, or may make an order subject to such terms and conditions as he thinks fit.

79.—(1) In the course of survey for a judge's plan, monuments shall be planted as for a plan of subdivision in accordance with the regulations under *The Surveys Act*.

(2) Standard iron bars planted in the course of a survey for a judge's plan shall have securely affixed to them bronze caps approximately three inches in diameter bearing the Provincial armorial bearings, the year, the surveyor's registration numbers, letters or symbols and the words "JUDGE'S PLAN — THE REGISTRY ACT".

80.—(1) The Inspector may require the surveyor to submit his plan for examination at any stage or stages in the course of its preparation and prior to registration to the Examiner of Surveys appointed under *The Land Titles Act*.

(2) The Director of Titles appointed under *The Land Titles Act* may establish fees for the examination of plans under this section which shall not exceed the fees payable for the examination of plans of subdivision of land registered under *The Land Titles Act*, and such fees shall be included as part of the costs under section 94a of *The Registry Act*.

(3) Where the Inspector requires a plan to be examined under this section, the plan shall not be presented to the judge or be registered unless the approval of the Examiner of Surveys or, alternatively, of the Inspector, is endorsed thereon.

81. An order under subsection 1 of section 94a of the Act shall be filed by the Inspector in the office of the clerk of the county or district court before an application is made under subsection 4 of section 94a of the Act.

82. Notwithstanding that separate parcels or existing lots have apparently been acquired by a common owner, each parcel or lot shall be shown on a judge's plan as a separate lot,

- (a) except where the judge is satisfied as to the common ownership; or
- (b) unless the owner consents in writing to the parcels or lots being combined.

83.—(1) When the draft plan has been prepared, the Inspector shall obtain an appointment for an application under subsection 4 of section 94a of the Act.

(2) Notice of the application shall be given in accordance with section 73 of this Regulation.

(3) Notice of an application under subsection 4 of section 94a of the Act shall also be served on all mortgagees of the land within the area of the plan.

(4) Where the judge directs service to be made either personally or by registered mail, he may require the notice to be accompanied by a paper print of the draft plan or a portion thereof.

(5) The judge may hear the application although one or more of the owners or mortgagees do not appear either personally or by counsel.

84.—(1) When the judge has approved the draft plan, a plan, incorporating such amendments, if any, as the judge has ordered, shall be prepared for registration.

(2) A draft order under subsection 4 of section 94a of the Act, fixing and apportioning costs of and incidental to the preparation and registration of the plan, to which a copy of the draft plan as approved by the judge is annexed as an exhibit, shall be prepared by the Inspector and submitted for approval to each party who attended the hearing and who is required to bear a portion of the costs and expenses, or to his

counsel, if any, or in the case of a municipality not represented by counsel to the municipal clerk, and after such approval, and after being signed by the judge, the order shall be filed in the office of the clerk of the county or district court.

(3) Where the Inspector is represented by an agent, two copies of the order referred to in subsection 2 certified by the clerk of the county or district court, shall be forwarded by the agent to the Inspector.

(4) One copy of the order referred to in subsection 2 certified by the clerk of the county or district court shall be registered as a general registration and a note of the registration number shall be endorsed on the plan by the registrar.

(5) An order in Form 13 shall be printed on the plan by the surveyor.

(6) A judge's plan shall not be registered until the judge has signed the order in Form 13.

(7) A true copy of the plan bearing a copy of the order in Form 13 shall be filed in the office of the clerk of the county or district court.

85. In addition to the notices required by the judge, the Inspector shall forward to the Department of Municipal Affairs, Community Planning Branch, Toronto,

(a) a copy of the notice of application under subsection 1 of section 94a of the Act;

(b) a copy of the notice of application under subsection 4 of section 94a of the Act together with a copy of the draft plan; and

(c) a copy of the order referred to in subsection 2 of section 84, together with a copy of the plan, with particulars of its registration.

86. Where a by-law under section 26 of *The Planning Act*, or a predecessor of that section, was registered in respect of land later included in a judge's plan, the registrar shall enter in red ink in the new abstract index under the heading for each new lot within the area to which the by-law applies,

"Caution: The previously registered by-law under *The Planning Act* may continue to apply as though this plan had not been registered".

MUNICIPAL PLANS

87.—(1) With the approval of the Inspector, a municipal plan may be wholly or partially compiled from the records of the registry office and from assessment records.

(2) Subject to subsection 1, a municipal plan shall be prepared from an actual survey.

(3) Sections 9, 10, 11, 12, 13, 14, 15, 16, 22, 25, 26, 27, 28, 29, 30 and 34 apply *mutatis mutandis* to a municipal plan that is prepared from an actual survey.

(4) Sections 17, 18, 19, 20, 21, 23, 24, 31, 32, 33, 35, 36, 37, 42, 43 and 44 apply *mutatis mutandis* to a municipal plan that is compiled under subsection 1 or that is prepared from an actual survey.

88. Notwithstanding that separate parcels have apparently been acquired under separate instruments by a common owner, each parcel shall be shown on a municipal plan as a separate lot except where the Inspector is satisfied as to the common ownership.

89. Where, in the course of preparation of a municipal plan, the descriptions, contained in registered instruments that appear to be intended to affect

contiguous parcels, do not coincide in respect of common boundaries, the discrepancies shall be noted on the plan in the manner directed by the Inspector.

90. The following shall be included in bold printing below the title of a municipal plan that is compiled:

"Caution: This plan is not a plan of survey — For ownership and boundary information see previously registered instruments".

91. A municipal plan shall not be registered unless there are endorsed thereon,

(a) the certificate of the clerk and the head of the municipality, in Form 14;

(b) the certificate of the surveyor in Form 15; and

(c) the approval of the Inspector in Form 16.

92. Where a by-law under section 26 of *The Planning Act*, or a predecessor of that section, was registered in respect of land later included in a municipal plan, the registrar shall enter in red ink in the new abstract index under the heading for each new lot that was previously within the area to which the by-law applied,

"Caution: The previously registered by-law under *The Planning Act* may continue to apply as though this plan had not been registered".

93. A paper print of a registered municipal plan, bearing the completed certificate of registration or a facsimile thereof, shall be forwarded to the Inspector.

PLANS TO ILLUSTRATE DESCRIPTIONS

94. Where the dimensions of an illustration attached to an instrument exceed,

(a) 8 inches by 27 inches; or

(b) 16 inches by 13 inches,

an original translucent tracing or a translucent copy thereof shall also be delivered to and retained in the custody of the registrar.

APPLICATION

95.—(1) This Regulation applies to instruments and plans executed on or after the 1st day of July, 1967.

(2) Ontario Regulation 156/64 continues to apply to instruments and plans executed on or after the 1st day of July, 1964 and before the 1st day of July, 1967.

96. Subject to subsection 2 of Section 95, Ontario Regulation 156/64 is revoked.

THE AMBULANCE SERVICES ACT, 1966

O. Reg. 152/67.

General.

Made—April 20th, 1967.

Filed—April 26th, 1967.

REGULATION MADE UNDER
THE AMBULANCE SERVICES ACT, 1966

1. In this Regulation,

- (a) "Department" means the Department of Health;
- (b) "local board" means a local board as defined in *The Public Health Act*;
- (c) "patient" means a person who requires conveyance by ambulance to a hospital or other place for medical attention;
- (d) "public ambulance service" means an ambulance service operated by,
 - (i) a municipality or local board,
 - (ii) a public hospital that furnishes ambulance services to the public, or
 - (iii) an operator who carries on the business of furnishing ambulance services to the public for compensation;
- (e) "public hospital" means a hospital approved under *The Public Hospitals Act* as a public hospital.

2. The Act and this Regulation do not apply to,

- (a) an ambulance service that is not a public ambulance service; or
- (b) a public ambulance service that uses only ambulances that are not motor vehicles as defined in *The Highway Traffic Act*.

3.—(1) A licence to operate an ambulance service shall be in Form 1.

(2) An application for a licence in Form 1 or a renewal thereof shall be in Form 2.

(3) A licence in Form 1 expires with the 31st day of March next following the date on which it is issued.

(4) An application to renew a licence in Form 1 shall be made before the 1st day of March in the year in which the licence expires.

(5) The fee for a licence in Form 1 or a renewal thereof is \$30.

4. Every ambulance used by the operator of an ambulance service shall be so constructed and equipped that,

- (a) the internal dimensions of the patient's compartment provide a minimum of forty-four inches between the floor and ceiling in ambulances purchased on or after the 1st day of September, 1967;
- (b) the internal dimensions of the patient's compartment provide for,
 - (i) the placement and transport of two stretcher patients or one stretcher patient and two sitting patients,
 - (ii) seating within the compartment of at least one attendant in addition to the accommodation mentioned in sub-clause i unless a reversible seat beside the driver's seat is provided with direct open access to the patient's compartment, and
 - (iii) readily accessible storage space for the first aid and medical equipment and supplies listed in Schedule 3;
- (c) the ambulance ensures,
 - (i) adequate comfort and safety for patients being transported;
 - (ii) adequate temperature regulation and ventilation for all seasons,
 - (iii) lighting adequate for the care of patients when the doors are closed, supplemented by a rear flood-light for use when the rear doors are open,
 - (iv) an opening at least twenty-four inches wide between the patient's compartment and the driver's area that permits direct passage between the driver's area and the patient's compartment,
 - (v) a clear unobstructed view between the driver's area and the patient's compartment,
 - (vi) ready loading of stretcher patients by means of at least one full opening door at the rear of the vehicle and ready loading of ambulant patients by means of a full opening curbside door, and
 - (vii) such other facilities that, in the opinion of the Minister, may be required for the comfort and safety of patients.

5. Every ambulance mentioned in section 4 shall be provided with,

- (a) a rotating light, red and white in colour, consisting of two or four sealed beam units mounted on the roof and visible from the front and rear for at least 500 feet when headlamps are required;
- (b) the accessory equipment mentioned in Schedule 1;
- (c) the accessories mentioned in Schedule 2; and

- (d) the first aid equipment and medical supplies mentioned in Schedule 3.

6.—(1) Every ambulance and its accessory equipment mentioned in Schedule 1 shall be maintained in a safe mechanical condition and in efficient operating order.

(2) The patient's compartment and the accessories mentioned in Schedule 2 and the equipment and supplies mentioned in Schedule 3 shall be maintained in a clean and sanitary condition.

7. Subject to section 11, no operator shall cause an ambulance to respond to a call for service or transport a patient unless,

- (a) the ambulance complies with the regulations; and
- (b) the driver and one other attendant each hold,
 - (i) a current first aid certificate of the St. John Ambulance Association,
 - (ii) a current first aid certificate of The Canadian Red Cross Society, or
 - (iii) a certificate that the Minister deems equivalent to a certificate mentioned in subclause i or ii.

8. Every operator of an ambulance service shall carry insurance in a form approved by the Superintendent of Insurance under *The Insurance Act* against his liability arising from the operation of the service in the following amounts:

1. \$300,000 against liability for damages resulting from injury or death occasioned by accident.
2. \$300,000 for property damage.
3. \$300,000 for passenger hazard insurance.

9. Every operator shall provide each ambulance with a maintenance and service log book and shall maintain such records and submit such reports as the Minister may require.

10. An ambulance may be inspected at any reasonable time by an officer of the Department designated for the purpose.

11. Where due to circumstances beyond the control of the operator an ambulance is temporarily not provided with all the equipment and supplies mentioned in schedules 1, 2 and 3, the operator may cause the ambulance to respond to a call for service and transport a patient if delay might endanger the life of the patient or cause him unnecessary discomfort.

12. Where,

- (a) an operator is operating an ambulance service prior to the date that this Regulation comes into force; and

- (b) the head or clerk of the municipality in which the operator operates the service certifies that the ambulance service is adequate for the comfort and safety of patients,

the Minister may exempt the ambulance service from any provision of this Regulation.

The Mining Act

THE MINING ACT

SALE OF RIGHTS TO EXPLORE FOR MINERALS ON PART OF THE BED OF LAKE NIPISSING AND CERTAIN ISLANDS

DISTRICT OF NIPISSING

Under the authority of Ontario Regulation 108/67, The Ontario Department of Mines invites tenders for the privilege of exploring for minerals on parts of the bed of Lake Nipissing and certain islands, described as follows:

Schedule 1

BEING composed of land and land under water of Lake Nipissing lying south of Nipissing Indian Reserve No. 10, in the Territorial District of Nipissing, containing 7,600 acres more or less, and being composed of 14 acres of land comprising Burritt Island (formerly known as Rabbit Island) and 7,586 acres of land under water of Lake Nipissing which may be more particularly located as lying within the following described limits:

Premising that all bearings are astronomical and are referred to the meridian through the most south-easterly extremity of Burritt Island;

Commencing at a point in Lake Nipissing, which point may be located as follows: Beginning at the most southeasterly extremity of Burritt Island; thence south astronomically 40 chains to the point of commencement; thence west astronomically 60 chains; thence north astronomically 2.5 miles; thence east astronomically 4.75 miles; thence south astronomically 2.5 miles; thence west astronomically 4 miles more or less to the place of beginning.

Schedule 2

BEING composed of land and land under the water of Lake Nipissing lying north of Bertram and Patterson Townships and south and east of Garden Island in the District of Nipissing, having in all an area of 3037 acres more or less and which may be more particularly located as lying within the following described limits;

Beginning at a point in Lake Nipissing, said place of beginning may be located as follows: Starting at a white pine tree marked S. 32 at the southeasterly extremity of Garden Island as shown on a plan and field notes of survey by Ontario Land Surveyor E. L. Moore, dated 1938 of record in the Department of Lands and Forests, Ontario; thence east astronomically a distance of 4.5 miles; thence south astronomically a distance of 65.0 chains to the point of commencement; thence south astronomically a distance of 2.5 miles; thence east astronomically a distance of 2.0 miles; thence north astronomically a distance of 2.5 miles; thence west astronomically a distance of 2.0 miles to the place of beginning.

Saving and Excepting thereout and therefrom Iron Island and the whole or part of any island or islands which have been alienated by the Crown.

TERMS

Offered, in each case, is an exploratory licence of occupation for a term of three years at an annual fee of 25 cents per acre.

The licensee shall expend annually in geophysical, geological or other exploratory work of a similar nature, or drilling, a sum equal to \$5.00 per acre in the first year of the term, \$7.00 per acre in the second year of the term and \$8.00 per acre in the third year of the term to the satisfaction of the Minister and file full reports and plans of all geological or geophysical examinations, drilling or other exploratory work within sixty days of completion.

If a licensee finds a deposit of mineral that in the opinion of the Minister is of economic importance, the licensee is entitled to apply for a lease of an area comprising not more than 50 per cent of the area of the lands in the licence. Section 100a of *The Mining Act* applies *mutatis mutandis* to a lease issued under this regulation.

Any person may inspect a copy of Ontario Regulation 108/67, the form of licence of occupation and the form of lease at the office of the Director, Mining Lands Branch, Department of Mines, Parliament Buildings, Toronto, during business hours on any business day from the date of publication to the final date for the receipt of tenders.

TENDERS

Tenders shall be in plain envelopes addressed to the Deputy Minister of Mines, Parliament Buildings, Toronto, and be plainly marked on the outside "tender for Schedule 1—Ontario Regulation 108/67" or "tender for Schedule 2—Ontario Regulation 108/67" as the case may be. A separate tender is required for each parcel.

A certified cheque payable to the Treasurer of Ontario for 25 per cent of the price offered shall accompany each tender and the balance of the tender-price and the first year's rent for the licence shall be due and payable within ten days of formal acceptance. Failure to make payment within such time may cause forfeiture to the Crown of any partial payment made.

Tenders will be received until 12.00 noon on June 1st, 1967.

The highest or any tender not necessarily accepted.

Dated at Toronto, this 24th day of April, 1967.

D. P. DOUGLASS,
Deputy Minister of Mines.

THE CONSERVATION AUTHORITIES ACT

O. Reg. 162/67.
Conservation Areas—Holland Valley.
Made—December 8th, 1967.
Approved—May 4th, 1967.
Filed—May 8th, 1967.

REGULATION MADE UNDER THE CONSERVATION AUTHORITIES ACT

1. In this Regulation,

(a) "Authority" means the Holland Valley Conservation Authority;

(b) "conservation area" means an area consisting of one parcel or, where two or more parcels are contiguous, the contiguous parcels of land owned by the Authority;

(c) "vehicle" means a vehicle as defined in *The Highway Traffic Act*.

2. This Regulation applies to the use by the public of conservation areas and the works, vehicles, boats, services and things of the Authority.

3. Any person required to issue a permit by this Regulation may refuse to issue the permit where, in the opinion of the issuer, to do so would not be in the interest of,

- (a) the best, safest and most orderly use of the conservation area by the public; or
- (b) the best administration of the conservation area, having regard to the conservation, restoration and development of the natural resources of the conservation area.

4. No person shall,

- (a) deface, remove or damage any property in a conservation area;
- (b) remove, injure, or destroy any tree, shrub, plant, flower or growing thing, or any soil, rock or other material in a conservation area;
- (c) kill, trap, hunt, pursue or in any manner disturb or cause to be disturbed any wild bird or animal within a conservation area, except,
 - (i) in an area set aside by the Authority for the purpose, and
 - (ii) under the authority of a permit issued by the Secretary-Treasurer;
- (d) fire or discharge any torpedo, rocket or other fireworks in a conservation area; or
- (e) perform any act that causes or is likely to cause a danger for other persons using a conservation area.

5. No person shall abandon any refuse or other object or material within a conservation area except in receptacles or pits provided by the Authority for the purpose.

6. No person shall erect, post, paste, fasten, paint or affix any placard, bill, notice or sign in a conservation area unless a permit therefor is first obtained from the Secretary-Treasurer.

7.—(1) No person shall bring a horse, cow or other animal into a conservation area without a permit therefor issued by the Secretary-Treasurer.

(2) No person shall permit a dog, cat or other pet to be in a conservation area unless,

THE CONSERVATION AUTHORITIES ACT

O. Reg. 163/67.

Conservation Areas—Big Creek Region
Conservation Authority.

Made—February 1st, 1967.

Approved—May 4th, 1967.

Filed—May 8th, 1967.

REGULATION MADE UNDER THE CONSERVATION AUTHORITIES ACT

1. In this Regulation,

- (a) "Authority" means the Big Creek Region Conservation Authority;
- (b) "conservation area" means an area consisting of one parcel or, where two or more parcels are contiguous, the contiguous parcels of land owned by the Authority;
- (c) "vehicle" means a vehicle as defined in *The Highway Traffic Act*.

2. This Regulation applies to the use by the public of conservation areas and the works, vehicles, boats, services and things of the Authority.

3. The Secretary-Treasurer may refuse to issue any permit required by this Regulation, where, in his opinion, to do so would not be in the interest of,

- (a) the best, safest and most orderly use of the conservation area by the public; or
- (b) the best administration of the conservation area, having regard to the conservation, restoration and development of the natural resources of the conservation area.

4. No person shall,

- (a) deface, remove or damage any property in a conservation area;
- (b) remove, injure or destroy any tree, shrub, plant, flower or growing thing, or any soil, rock or other material in a conservation area;
- (c) kill, trap, hunt, pursue or in any manner disturb or cause to be disturbed any wild bird or animal within a conservation area, except,

(i) in an area set aside for the purpose, and

(ii) under the authority of a permit issued by the Secretary-Treasurer;

(d) fire or discharge any torpedo, rocket or other fireworks in a conservation area; or

(e) perform any act that causes or is likely to cause a danger for other persons using a conservation area.

5. No person shall abandon any refuse or other object or material within a conservation area except in receptacles or pits provided by the Authority for the purpose.

6. No person shall erect, post, paste, fasten, paint or affix any placard, bill, notice or sign in a conservation area unless a permit therefor is first obtained from the Secretary-Treasurer.

7.—(1) No person shall bring a horse, cow or other animal into a conservation area without a permit therefor issued by the Secretary-Treasurer.

(2) No person shall permit a dog, cat or other pet to be in a conservation area unless,

- (a) the dog, cat or other pet is secured by a leash that does not exceed six feet in length; or
- (b) a permit therefor has been issued by the Secretary-Treasurer.

8. No person shall,

- (a) sell or offer for sale any article or service;
- (b) advertise or carry on any business or commercial enterprise; or
- (c) beg or solicit charity,

within a conservation area without a permit therefor issued by the Secretary-Treasurer.

9. No person shall bring a show of any kind or any equipment for entertainment into a conservation area without a permit therefor issued by the Secretary-Treasurer.

10. No person shall conduct a public meeting or perform any act that congregates or is likely to congregate persons in a conservation area without a permit therefor issued by the Secretary-Treasurer.

11. No person shall wade, bathe or swim in a conservation area except at such times and at such places as are set aside by the Authority for the purpose.

12.—(1) No person shall use an outboard motor of more than ten horsepower in a conservation area.

(2) No watercraft shall be permitted on the Lehman Dam Conservation Area without a permit therefor issued by the Secretary-Treasurer.

13.—(1) No person shall light or maintain a fire in a conservation area in a place other than a fireplace or other location provided by the Authority for the purpose.

(2) No person who lights a fire in a conservation area shall leave the fire unattended or leave the site of the fire before the fire is completely extinguished.

14. Except in conservation areas that have been set aside and posted by the Authority for hunting and archery, no person other than a peace officer shall possess an air-gun, fire-arm, slingshot or archery equipment in a conservation area.

15. No person shall occupy a camp-site except in an area set aside by the Authority for the purpose, or under the authority of a group camp-site permit issued by the Secretary-Treasurer.

16.—(1) Sections 63, 68, 69 and 71 of *The Highway Traffic Act* apply to the operation of vehicles on roads under the jurisdiction of the Authority.

(2) No person shall,

- (a) operate a vehicle within a conservation area except on a roadway or other place set aside by the Authority for the purpose;
- (b) operate a vehicle at a speed in excess of fifteen miles per hour on any road under the jurisdiction of the Authority;
- (c) park a vehicle within a conservation area in a place other than one that has been set aside by the Authority for the purpose; or
- (d) operate a public commercial vehicle as defined in *The Public Commercial Vehicles Act*, within a conservation area for commercial purposes except for the purpose of making deliveries within the conservation area.

17. A conservation area or any part thereof may be closed entirely or closed to certain uses during such specified periods of time as the Authority determines and no person shall enter upon or occupy such conservation area or part thereof during the times posted.

18.—(1) The fees to take a vehicle into a conservation area are,

- (a) for one car or motorcycle, 50 cents a day or \$3. a year; or
- (b) for one bus, \$2. a day.

(2) The fees for camping in a conservation area are,

- (a) for one camp-site \$1.50 a day or \$9 a week; and
- (b) for electrical power, 50 cents a day.

19. The penalty for a breach of this Regulation is a fine not exceeding \$100.

20. Ontario Regulations 255/62 and 115/64 are revoked.

THE ENERGY ACT, 1964

O. Reg. 166/67.

Propane Storage, Handling and Utilization Code.

Made—May 4th, 1967.

Filed—May 9th, 1967.

REGULATION MADE UNDER THE ENERGY ACT, 1964

PROPANE STORAGE, HANDLING AND UTILIZATION CODE

PART I

GENERAL REQUIREMENTS

INTERPRETATION

1. In this Regulation,

1. "accessory" means a part, capable of performing an independent function or functions, certified separately from and contributing to, the operation of the appliance or appliances that it serves;
2. "air shutter" means an adjustable device for varying the size of the primary air inlet or inlets;
3. "air supply" means, with respect to the installation of an appliance, the air for combustion, ventilation and flue gas dilution;
4. "approved" means,
 - i. where applied to a specification, that the specification is authorized by the Minister,
 - ii. where applied to an appliance, that the appliance bears a label issued by the Minister, or bears a label of a designated testing organization, certifying conformance with a specification approved by the Minister or conforming with a laboratory test report accepted by the Minister, or
 - iii. where applied to an installation, that it conforms with this Regulation;
5. "automatic operation" means an operation or sequence or cycle of operations that is performed by a device or combination of devices without manual attention;
6. "bathroom" means a room containing,
 - i. a toilet and a bathtub or shower, or
 - ii. a bathtub;
7. "bleed venting" means the expiration or inspiration of air or propane from or to one side of a diaphragm of a valve or regulator;
8. "boiler" means a heating appliance intended to supply hot water or steam for space-heating, processing or power purposes;

9. "branch line" means the part of a piping system that conveys propane from a common supply line or common header to an appliance or appliances;
10. "B T C" means Board of Transport Commissioners for Canada;
11. "BTU" means British Thermal Unit, being the quantity of heat required to raise the temperature of 1 pound of water through 1 Fahrenheit degree;
12. "BTUH" means the number of British Thermal Units per hour;
13. "burner" means a device for the release of,
 - i. air and propane mixtures,
 - ii. oxygen and propane mixtures, or
 - iii. air and propane separately,
 into the combustion zone for ignition;
14. "burner unit" means one or more burners that can be ignited safely from one source of ignition;
15. "chimney" means a primarily vertical shaft enclosing at least one flue for conducting flue gases to the outside air and may be a,
 - i. factory-built chimney, consisting entirely of factory constructed parts, each designed to be assembled with the others without requiring field fabrication and certified by a designated testing organization,
 - ii. masonry, or concrete chimney, being a field constructed chimney of brick, stone, concrete or approved masonry units, or
 - iii. metal chimney or smoke stack, being a field constructed single walled chimney of ferrous metal;
16. "clothes dryer" means a heating appliance intended to supply heat for the drying of wet laundry;
17. "combustible construction" means combustible materials used in construction and made of or surfaced with wood, compressed paper, plant fibers or other material that will ignite and burn, even though such materials are flame-proofed, fire retardant treated, or plastered;
18. "combustion" means the rapid oxidation of propane accompanied by the production of heat, or heat and light;
19. "combustion chamber" means a metal or refractory chamber located within the fire box and used to contain the combustion flame;
20. "combustion products" means constituents resulting from the combustion of propane in air, including the inerts, but excluding excess air;
21. "combustion zone" means the zone where combustion is intended to occur;

22. "commercial building" means any building used in connection with direct trade with or service for the public;
23. "component" means an essential part of an appliance and may be certified separately from the appliance;
24. "condensate" means the liquid that separates from propane or from combustion products owing to a reduction in temperature;
25. "container" means,
 - i. a propane cylinder, or
 - ii. a propane tank;
26. "conversion burner" means a burner designed to burn propane in an appliance in which another fuel can be burned;
27. "CSA" means the Canadian Standards Association;
28. "cubic foot of propane" means the amount of propane that would occupy 1 cubic foot when at a temperature of 60° Fahrenheit, saturated with water vapour and under a pressure equivalent to that of 30 inches of mercury;
29. "cylinder" means the class of container up to 1,000 pounds WC designed and fabricated in accordance with the specifications of BTC or ICC for the storage and transportation of propane;
30. "damper" means a fixed or movable plate,
 - i. for regulating draft,
 - ii. for controlling the flow of air, or
 - iii. for controlling the flow of flue gases;
31. "domestic or residential building" means any building used as a one or two family dwelling;
32. "draft hood" means a device that is built into an appliance, or made a part of the vent connector from an appliance, and that is designed to,
 - i. assure the ready escape of the combustion products from the combustion chamber in the event of no draft, back draft, or stoppage beyond location of the draft hood,
 - ii. prevent a back draft from entering the combustion chamber of the appliance, and
 - iii. neutralize the effect of stack action of the chimney or vent upon the operation of the appliance;
33. "drip pocket" means a designed pocket placed at a low point in any part of a piping system for the collection of condensate, and designed so that the collected condensate may be removed;
34. "dust pocket" means a designed pocket placed at a low point in any part of a piping system for the collection of dust or dirt and designed so that the collected dust or dirt may be removed;
35. "equipment" means those devices other than appliances or accessories that are connected to a piping system or to propane containers;
36. "excess air" means air supplied to the combustion zone in excess of the air that is theoretically required for complete combustion;
37. "filling density" means the per cent ratio of the weight of the propane in a container to the weight of water the container will hold at 60° Fahrenheit;
38. "filling plant" means the premises of a distributor where the transfer of propane from one container to another is effected and does not include a propane dispensing unit, where a person transfers propane from one container to another container for his own use;
39. "fire box" means a metal enclosure in which propane is burned and forms a portion of the heat exchanger;
40. "flame" means the rapid oxidation of propane, resulting in the production of,
 - i. heat and light, or
 - ii. heat or light,and may be visible or not visible;
41. "flame safeguard" means a safety device that is sensitive to the properties of propane flame, and that detects the presence or non-presence of a propane flame and that causes the propane supply to be shut off in the event of flame or ignition failure;
42. "flue collar" means the portion of an appliance that is designed for the attachment of the draft hood or chimney breeching or vent connector;
43. "flue exhauster" means a device that is installed and made part of a propane vent or vent connector and that will provide an induced draft;
44. "flue gas or flue gases" means the products of combustion and excess air;
45. "gallon" unless otherwise described, means a Canadian gallon, which for the purpose of this Regulation may be considered equivalent to an Imperial gallon;
46. "G P" means general purpose copper tubing having a minimum wall thickness of 0.032 inch;
47. "gas vent" means a conduit or passageway, vertical, or nearly so, for conducting flue gases to the outside air and includes any offset section in the gas vent that inclines not more than 60° from the vertical, and may be,
 - i. type B gas vent, being a double-walled factory prefabricated approved gas vent for use only with approved propane-fired appliances that have been approved for use with such vents, or
 - ii. type BW gas vent, being a double-walled, factory prefabricated approved gas vent kit for use only with approved vented wall furnaces or recessed heaters that have been approved for use with such vent kits;
48. "heat exchanger" means the fire box and any auxiliary heat transfer surfaces within the casing of an appliance;

49. "heating appliance" means an appliance intended primarily to convert propane to heat energy;
50. "ICC" means the Interstate Commerce Commission;
51. "industrial building" means any building used in connection with production or process work or with storage or warehousing;
52. "institutional building" means any building the occupancy or use of which or any portion thereof is by persons harboured or detained to receive medical, charitable or other care or treatment, or by persons involuntarily detained;
53. "limit control" means a device that is sensitive to changes in flow, pressure, temperature or liquid level and that shuts off or allows to be turned on the propane supply to an appliance as a result of such changes;
54. "machine room" means the part of a building that is used solely to house mechanical equipment to service the building;
55. "main burner" means a device or group of devices forming an integral unit for the final release of propane or mixtures of propane and air to the combustion zone for ignition;
56. "manifold" means the conduit of a propane appliance downstream of the last valve in the valve train;
57. "manifold propane pressure" means the propane flow pressure downstream of the valve train, taken at right angles to the direction of flow;
58. "meter" means an instrument that measures the volume of propane delivered through it;
59. "modulating" means the infinite variance of the volume of the flow of propane or air or both between pre-determined minimum and maximum limits;
60. "negative pressure" means less than atmospheric pressure;
61. "orifice" means a machined opening in a cap, plug, spud, plate or other device through which propane is discharged and by which the flow of propane is limited;
62. "pilot" means a small propane flame that is used to ignite the propane at the main burner or burners and may be a,
 - i. continuous pilot, being a pilot that operates at all times, whether the main burner is on or off,
 - ii. intermittent pilot, being a pilot that operates during the ignition cycle of the main burner and continues during main burner operation but is shut off at other times, or
 - iii. interrupted pilot, being a pilot that operates during the ignition cycle of the main burner but is shut off at other times;
63. "pipe fitting" means a pipe elbow, return bend, tee, union, bushing, coupling, cross, reducing coupling, a nipple and similar items;
64. "piping drop" means the vertical pipe that conducts propane down to an appliance;
65. "piping extensions or additions" means additional system piping installed to supply added appliances;
66. "piping riser" means the vertical pipe that conducts propane upwards to one or more floors;
67. "piping system" means the piping that conducts propane from the meter or second stage regulator to each outlet, including a plugged or capped manual propane valve;
68. "primary air" means the air that is introduced into a burner and that mixes with the propane prior to ignition;
69. "propane" means a hydrocarbon product consisting of 95 per cent or more of propane or propylene and for the purposes of this Regulation includes such other hydrocarbons as butane, iso-butane, normal butane and butylene;
70. "propane fitter Class 1" means a person who, in addition to performing the duties of Class 2 and Class 3 fitters,
 - i. installs, services or repairs appliances and works of all types,
 - ii. carries out plant installations and repairs,
 - iii. inspects or supervises, or both, the work of Class 3 fitters, and
 - iv. holds a certificate in Form 310;
71. "propane fitter Class 2" means a person who, in addition to performing the duties of a Class 3 fitter,
 - i. loads and unloads tank trucks and tank cars,
 - ii. installs, services or repairs commercial appliances,
 - iii. inspects or supervises the work of Class 3 fitters, and
 - iv. holds a certificate in Form 311;
72. "propane fitter Class 3" means a person whose work is inspected or supervised by a Class 1 or Class 2 fitter and whose work is not performed in places intended for public gatherings, except for the delivery of cylinders, or bulk propane from a tank truck into a user's container, and who,
 - i. installs and connects cylinders or tanks for appliances with inputs not in excess of 100,000 BTUH,
 - ii. installs, services or repairs appliances with inputs not in excess of 100,000 BTUH, and
 - iii. holds a certificate in Form 317;
73. "propane input" means the amount of propane in cubic feet per hour or in BTUH that an appliance consumes;
74. "psig" means pounds per square inch, gauge;
75. "purge" means to free propane piping or an appliance of air, propane or a mixture of propane and air;

76. "readily accessible" means capable of being reached quickly for operation, renewal, servicing or inspection without requiring the climbing over or removal of obstacles or the use of portable ladders;
77. "relief device" means a safety device designed to forestall the development of a dangerous condition, in the medium being heated, by relieving pressure, temperature or vacuum build-up in the appliance;
78. "relief opening" means the opening provided in a draft hood to permit ready escape to the outside air of the flue gases from the draft hood or to permit inspiration of air into the draft hood;
79. "reversible-flue furnace" means a furnace in which the course of the flue gas is reversed before reaching the vent outlet;
80. "room or space heater" means a self-contained, free-standing, non-recessed, air heating appliance intended for other than central domestic heating;
81. "sealed combustion unit" means an appliance where all the air required for combustion is taken directly from outdoors and the combustion products are exhausted directly outdoors;
82. "secondary air" means the air externally supplied to the flame after ignition;
83. "Specification approved by the Minister" means a Specification the title of which is contained in the List of Specifications approved by the Minister for Use in Ontario;
84. "tank" means the class of container of any size designed and fabricated in accordance with the ASME requirements of *The Boilers and Pressure Vessels Act, 1962-63* for the storage of and transportation of propane;
85. "transfer facility" means,
 - i. a filling plant where the transfer of propane from one container to another is effected on the premises of a propane distributor,
 - ii. service station premises open to the public, where the transfer of propane primarily from one container to the container of a motor vehicle is effected, or
 - iii. dispensing unit where the transfer of propane from one container to another is effected by a person for his own use;
86. "unit heater" means a suspended propane-fired heater, self-contained, automatically controlled and vented and equipped with a fan for circulating heated air;
87. "valve" means,
 - i. automatic input control valve, being a propane valve for controlling the propane supply to the main burner without requiring manual attention,
 - ii. automatic shut-off valve, being a valve designed to shut off the propane flow to the burner without requiring manual attention,
 - iii. automatic shut-off valve of the manual reset type, being an automatic shut-off valve that will automatically shut off the propane flow and remain closed until manually re-opened,
 - iv. fail-safe valve, being an approved, automatic, fast-closing, safety shut-off valve with positive closure against a pressure equivalent to at least 150 per cent of the valve rating in the event of failure of the operating medium or mediums,
 - v. firing test valve, being a manually operated, lubricated plug type, quarter-turn valve that has stops in the open and closed positions and that has an attached handle or loose fitting key or extended handle wrench and that is located downstream of all automatic safety shut-off valves on the valve train and as close to the burner as is practicable,
 - vi. lubricated plug type valve, being a manually operated valve of the plug and barrel type provided with means for maintaining a lubricant between the bearing surfaces and so designed that the lapped bearing surfaces can be lubricated and the lubricant level maintained without removing the valve from service and so constructed that the lubricant can be reservoirized so as to be distributed evenly over the lapped bearing surfaces of the valve when the plug is rotated,
 - vii. pilot valve, being a manual valve to control the supply of propane to a pilot burner,
 - viii. pressure relief valve, being an automatic device that opens or closes a relief vent, depending on whether the pressure is above or below a predetermined setting,
 - ix. safety shut-off valve, being a valve that automatically shuts off the supply of propane through the functioning of a flame safeguard control or safety limiting device,
 - x. shut-off valve, being a valve used in the piping to fully turn on or fully shut off propane supply to any section of a system or piping or to an appliance,
 - xi. temperature relief valve, fusible plug type, being a device that opens, and keeps open, a relief vent by the melting or softening of a fusible plug or cartridge at a predetermined temperature,
 - xii. temperature relief valve, resetting or self-closing type, being an automatic device that opens and closes a relief vent, depending on whether the temperature is above or below a predetermined level;
88. "valve train" means the combination of valves, controls and piping of an appliance through which propane is supplied to the appliance and by which the propane flow is controlled;
89. "vent connector" means a passageway constructed of metal to conduct the flue gases from the flue collar of the appliance to the chimney or gas vent;

90. "venting" means the removal of flue gases to the outside air by means of roof openings, chimneys, gas vents or mechanical exhaust systems;

91. "water heater" means an,

- i. automatic instantaneous water heater, being the type that heats the water as it is drawn, or
- ii. automatic storage water heater, being the type that combines a water-heating element and water-storage tank in which the supply of propane to the main burner is controlled by a thermostat;

92. "W.C." means water column;

93. "WC" means water capacity;

94. "zero governor" means a regulating device that is adjusted to deliver propane at atmospheric pressure within its flow rating.

APPLICATION

2.—(1) This Regulation applies to the installation, storage, handling, transportation and transfer of propane and of such other hydrocarbons as butane, iso-butane, normal butane and butylene, and to the piping of,

- (a) appliances, equipment and containers where these hydrocarbons are to be used for fuel purposes; and
- (b) containers and equipment to be utilized for these hydrocarbons in distribution, filling plants and tank trucks, tank trailers and tank semi-trailers.

(2) This Regulation does not apply to,

- (a) marine or pipe line terminals,
- (b) petroleum refineries;
- (c) propane where used as feedstock in a chemical plant;
- (d) utility pipe line distribution systems, transmission lines or propane/air utility plants;
- (e) refrigerated storage for propane or underground reservoirs for propane; or
- (f) vessels to which the *Canada Shipping Act* applies.

STANDARDS

3.—(1) The composition of commercial propane for fuel purposes shall comply with the test requirements specified in the Canadian Government Specification Board Standard 3-GP-10a, 1966.

(2) The composition of propane for motor fuel applications and other uses requiring more restrictive limits than commercial propane shall comply with the Natural Gas Processors Association of America Specification HD5, Publication 2140-62.

4.—(1) Propane distributed for fuel purposes shall have a distinctive odourant content sufficient to ensure that it is readily detectable in the atmosphere at all concentrations of one-fifth of the lower explosive limit and above, by the use of one pound of ethyl mercaptan, one pound of thiophane or 1.4 pounds of amyl mercaptan per 8300 gallons of propane.

(2) The Chief Inspector may, where he deems it necessary, exempt in writing any person, work, appliance or tank truck, from the provisions of this Regulation for such a period of time as he deems necessary.

APPLIANCES

USE OF APPLIANCES

5.—(1) No person shall use an appliance that uses propane as fuel, if,

- (a) the products of combustion of the appliance are unsafe;
- (b) the appliance is installed in a location where flammable vapours or explosive mixtures are present, unless the appliance is designed for such an installation;
- (c) the appliance is used for a purpose other than that for which it is designed;
- (d) any device, attachment, alteration or deterioration might in any way,
 - (i) impair the combustion within the appliance,
 - (ii) impair the safe venting of the appliance, or
 - (iii) render the products of combustion unsafe;
- (e) a non-compliance with the requirements of the Act or this Regulation concerning the venting of the appliance or the supply of air for combustion exists;
- (f) the operation of an appliance raises the surface temperature of adjacent combustible material in excess of 160° Fahrenheit; or
- (g) the piping material does not comply with the requirements of this Regulation.

(2) No person shall use an appliance or equipment if the installation of the container does not comply with the Act or this Regulation.

APPROVAL OF APPLIANCES, COMPONENTS, ACCESSORIES AND EQUIPMENT

6.—(1) The Canadian Gas Association, the Canadian Standards Association Testing Laboratories and the Underwriters' Laboratories of Canada are designated as organizations to test all propane appliances, appliances designated to burn both propane and fuel oil, either together or separately and appliances using propane or electricity interchangeably to perform the same function to specifications approved by the Minister, and, where the appliances conform with the specifications, to place their label thereon.

(2) The Canadian Gas Association, the Canadian Standards Association Testing Laboratories and the Underwriters' Laboratories of Canada, and the Underwriters' Laboratories Incorporated are designated as organizations to test components, accessories and equipment and, where the components, accessories and equipment are acceptable to the organization, to place their label thereon.

7. Appliances, components, accessories or equipment not referred to in section 6 may be tested by the designated testing organizations referred to in section 6, which organizations shall make reports thereon to the Minister, and if the reports are accepted by the Minister, the label of the designated testing organization may be placed on the appliance, component, accessory or equipment certifying conformance with the report and the label shall constitute approval.

8.—(1) Any person may apply to the Minister for a label in respect of any appliance that does not bear the label of an organization designated in section 6.

(2) When an application has been made under subsection 1 and,

- (a) it is not feasible for an organization designated in section 6 to test the appliance; and
- (b) an inspector tests the appliance, and finds that the appliance conforms to the specifications approved by the Minister,

the Minister shall issue a label for the appliance.

(3) The fee for inspecting and testing an appliance under subsection 2 is \$10 for every hour or fraction thereof spent by an inspector.

APPLIANCE APPROVAL EXEMPTIONS

9.—(1) An appliance that has an input of greater than 50,000,000 BTUH and that has been certified to be in compliance with the Act and this Regulation by a professional engineer registered under *The Professional Engineers Act* is exempt from subsection 2 of section 7 of the Act.

(2) A propane light, bunsen burner or hand torch that has an input of not more than 12,000 BTUH is exempt from subsection 2 of section 7 of the Act.

(3) Subject to section 5, an appliance that is being used for the function for which it was designed and approved, but has been previously used in another location is exempt from subsection 2 of section 7 of the Act.

BASIC REQUIREMENTS FOR FIELD APPROVED APPLIANCES

10. Sections 11 to 17 apply only to those appliances,

- (a) for which there are no approved specifications;
- (b) for which approved specifications offer alternatives;
- (c) for which approved specifications provide requirements only in part; and
- (d) not approved in accordance with section 6.

PROPANE REGULATORS

11.—(1) In an appliance installation where the propane supply pressure is higher or may creep higher than the pressure at which the burner is designed to operate or where pressure fluctuations are such as to cause unsatisfactory operation of the burner, a propane pressure regulator shall be used.

(2) Except for a zero governor used in connection with a propane-air proportioning and mixing system, the propane pressure regulator shall maintain the propane pressure to the burner supply line within 10 per cent above or below the operating pressure from maximum to minimum firing rates.

(3) Propane regulators shall be of the spring-loaded dead-weight, or pressure-balanced type and springs or weights shall be covered by a housing.

(4) Where a propane pressure regulator is required, in subsection 1, the propane supply to the pilot, or the group of pilots, shall be regulated independently of the main burner propane supply by an approved propane pressure regulator.

(5) A propane pressure regulator shall be bled in conformance with section 47.

(6) Subsection 5 does not apply to zero governors used in connection with propane-air proportioning and mixing systems.

(7) Where the failure of a propane pressure regulator could produce hazardous conditions or damage to equipment, either,

- (a) a safety relief device shall be an integral part of the regulator or installed downstream from the regulator and as close as practicable to the outlet of the regulator and the safety relief device shall be set to relieve at a pressure that will prevent hazardous conditions or damage to equipment and the discharge of the device shall be piped separately to a safe outdoor location; or
- (b) a safety control device shall be installed as close as practicable to the burner manifold and shall be set to control at a pressure that will prevent hazardous conditions or damage to equipment.

AIR ADJUSTMENT

12.—(1) Where air shutters are provided, they shall be capable of any desired adjustment and be provided with means for preventing accidental change in setting.

(2) Air shutters shall be constructed and mounted in a manner that provides for proper air-propane mixture.

(3) The air shall be introduced in a manner that assures thorough mixing of the propane and air, in order that complete combustion occurs within the space provided.

(4) Where an automatically operated air control is provided it shall be so installed and protected that, in case of a failure, safe combustion continues or the propane is shut off.

(5) In the case of mechanical air supply, the propane and air supply shall be equipped with controls that will prevent propane from entering the burner until the mechanically produced air flow to the burner is proven and, in the event of failure of an air flow to the burner, will shut off the propane supply.

(6) On installations where the firing rate is automatically changed, the air-propane ratio shall produce stable conditions at all firing rates without manual attention.

IGNITION

13.—(1) All pilot lines shall be firmly secured and connected to the main propane supply line upstream from all propane control valves and supplied with a pilot manual shut-off valve, located as close as practicable to the main supply and where the main propane supply line is horizontal, the pilot line shall be taken from the side or top of the main propane supply line.

(2) The pilot or pilots shall be adequate to assure safe and reliable ignition of the main burner.

(3) Approved flame safeguards shall be provided,

- (a) for appliances equipped for automatic operation;
- (b) for appliances equipped for semi-automatic operation; and
- (c) for appliances equipped for manual operation and not intended for continual supervision while in operation.

(4) Where an approved flame safeguard is required in subsection 3, it shall be so constructed and installed that no propane can flow to the main burner or burners unless safe ignition is assured.

(5) The trial for ignition of,

- (a) other than constant pilots shall not exceed 15 seconds; and
- (b) the main burner equipped with other than a constant pilot shall not exceed 15 seconds.

(6) Flame failure response timing of the flame safeguard device shall de-energize the propane shut-off device in the event of flame failure in,

- (a) not more than 3 minutes for inputs not in excess of 400,000 BTUH; and
- (b) not more than 5 seconds for inputs in excess of 400,000 BTUH.

(7) Electric ignition systems shall ignite only the pilot or pilots unless approved for the specific application by an inspector.

(8) The input to,

- (a) a continuous pilot shall not exceed 3 per cent of the maximum rated input to the main burner; or
- (b) a pilot, other than a continuous pilot, shall not exceed 5 per cent of the maximum rated input to the main burner.

(9) Where a continuous pilot is not used, the combustion zone and appliance flue passages shall, prior to the ignition cycle, be effectively purged so that at least four air changes are made in the combustion zone and appliance flue passages when the air flow is not less than 50 per cent of the air flow required for the maximum input of the appliance.

MANUAL VALVES

14.—(1) Pilot lines shall be independently controlled by means of a manually operated pilot shut-off valve.

(2) In multiple burner installations, a manually operated pilot firing valve shall be provided for each pilot.

(3) Each main burner having an input in excess of 400,000 BTUH shall be equipped with a firing test valve that clearly indicates the open and closed positions and that shall be placed downstream of all automatic safety shut-off valves on the valve train.

(4) The handle of the firing test valve shall be permanently attached or detachable and shall be parallel to the propane flow in the open position.

(5) The firing test valve for each main burner having a maximum input rating exceeding 10,000,000 BTUH shall be equipped with an electrical or pneumatic end switch that will require closing before,

- (a) initial start-up; or
- (b) start-up resulting from an unscheduled shut-down caused by safety limit controls or flame or ignition failure.

(6) On inputs in excess of 50,000,000 BTUH, the firing test valve shall be equipped as required by subsection 5 but shall require closing before any start-up.

AUTOMATIC SAFETY SHUT-OFF VALVES

15.—(1) Automatic safety shut-off valves shall,

- (a) be installed downstream from the main manual shut-off valve and upstream from the firing test valve;
- (b) be of the slow-opening, fast-closing type unless otherwise required and permitted by an inspector;
- (c) subject to subsection 4 of section 17, not be by-passed;
- (d) be capable in normal operation of opening only when activated by an energizing medium and shall be constructed so that they cannot be manually opened or readily blocked in the open position; and
- (e) be of the manual reset type for manually lighted burners and for any burner with an input in excess of 50,000,000 BTUH.

(2) An appliance certified to specifications CSA-B 203.1-T or CSA-B 203.2-T may be equipped with a single automatic safety shut-off valve if the valve is of the fail-safe type.

(3) An appliance, other than an appliance referred to in subsection 2, and with an input in excess of 400,000 BTUH but not in excess of 10,000,000 BTUH shall be equipped with two automatic safety shut-off valves, piped in series and wired in parallel, of which one valve may be of the fast-opening type.

(4) An appliance, other than an appliance referred to in subsection 2, with an input in excess of 10,000,000 BTUH shall be equipped with two automatic safety shut-off valves of the fail-safe type, piped in series and wired in parallel, of which one valve may be of the fast-opening type.

INPUT FLOW RATIO VALVE CONTROL

16. An automatic input flow ratio valve control shall be,

- (a) used on any appliance where a low-fire start is required for smooth and reliable ignition of the main flame; and
- (b) installed downstream of the automatic safety shut-off valve.

GENERAL

17.—(1) Where explosion relief doors or panels are used,

- (a) they shall be so located that, in the performance of their designed function, no potential hazard exists with regard to persons, propane lines, controls or firing equipment;
- (b) firing equipment, controls or propane lines shall not be part of nor attached to them; and
- (c) they shall be so designed that, in the performance of their designed function, they shall remain attached to the fired equipment.

(2) Flexible metal hose connectors of approved construction may be used to connect main burner valve trains to burner manifolds and to connect pilot valve trains to pilot manifolds in order to offset vibration, expansion or contraction but shall not be used to offset torque.

(3) Where the designed outlet pressure of a propane pressure regulator is in excess of ½ psig, a low pressure safety control device shall be installed as close as practicable to the outlet of the propane regulator, or second stage regulator, to shut off the propane in the event of low pressure.

(4) Where continuity of service is important, valved by-passes may be placed around propane pressure regulators and automatic valves, with the written permission of the Chief Inspector.

(5) Every appliance shall be provided with means for observation of the main and pilot flames.

(6) Valves and other control devices shall not be subjected to a pressure greater than that for which they are rated for constant service.

(7) Test points shall be provided for in valve trains downstream of automatic shut-off valves for the purpose of testing the valves for leaks.

(8) Approved automatic devices shall shut down the burners in the event of,

- (a) undue pressure or low water in any steam boiler;
- (b) overheating in any hot water boiler; or
- (c) low water in a hot water boiler with an input in excess of 250,000 BTUH.

(9) All automatically controlled space heating furnaces shall be equipped with an approved high temperature limit control, the maximum setting of which shall be 350° Fahrenheit for a gravity furnace and 250° Fahrenheit for a forced-air furnace.

PART 2

INSTALLATION REQUIREMENTS FOR PROPANE APPLIANCES

GENERAL

18.—(1) Subject to section 9, all propane appliances shall be approved and shall be used for the purpose for which they were approved.

(2) All materials, controls, valves, accessories and components shall be of a type and rating approved for the specific purpose for which they are to be used.

(3) All work shall be done with careful attention not only to the mechanical execution of the work, but also to the arrangement of the installation and to the sequence of operation.

(4) All adjusting, purging, servicing and testing of appliances, containers and piping systems shall be done by a certified propane fitter.

(5) Propane burning appliances shall not be installed in any location where flammable vapours, flammable gases or combustible dust atmospheres are likely to be present, unless approved for such installations.

(6) In checking for propane leaks,

- (a) matches, candles, flame or other sources of ignition shall not be used;
- (b) artificial illumination shall be restricted to battery-operated hand flashlights or to approved explosion-proof equipment; and
- (c) electric switches in or adjacent to the area of leakage shall not be operated unless of the type designed for hazardous locations.

(7) Smoking shall not be permitted when work is being done on piping that contains or has contained propane.

(8) Where an appliance is to be installed in a commercial building, industrial building or institutional building, frequented by persons, the Chief Inspector may require the submission of installation drawings for his approval and, where he so requires, this approval shall be obtained in writing prior to commencement of the installation.

PIPE FITTINGS

SIZE

19.—(1) All piping shall be of sufficient diameter to carry the volume of propane required for the distance to be run.

(2) The size of rigid pipe shall be in accordance with the following Table.

TABLE

MINIMUM STANDARD PIPE SIZE TO BE USED TO STAY WITHIN 0.5 INCH WATER COLUMN PRESSURE DROP

625	250	1	1	1	1	1 1/4	1 1/4	1 1/4	1 1/4	1 1/4	1 1/4

(3) The piping system shall be designed so that the loss in pressure between the meter or last stage regulator and any appliance shall not exceed 0.5 inch W.C. and in no instance shall a piping system be designed or installed to provide an output of less than 15 cubic feet per hour.

PIPING MATERIAL

20.—(1) Piping shall be black or galvanized wrought-iron or steel and, subject to subsection 2, be either schedule 40 or schedule 80 pipe or shall be copper and shall comply with CSA Standard B62-1965 for Welded Genuine Wrought-Iron Pipe ASTM-A120-61T, or CSA Standard B63-1966 for Welded, and Seamless Steel Pipe, ASTM-A-53-61T or such other specification as is acceptable to the Chief Inspector.

(2) Schedule 40 pipe, as set out in the specifications referred to in subsection 1, shall be used,

(a) for pressures up to 125 psig; and

(b) if joints are welded or welded and flanged.

(3) Schedule 80 pipe, as set out in the specifications referred to in subsection 1, shall be used,

(a) for pressures in excess of 125 psig; and

(b) for liquid propane piping where the joints are threaded or threaded and back welded.

INSTALLATION OF PIPE AND FITTINGS

21.—(1) Propane piping and fittings shall be clear and free from cutting burrs and defects in structure or threading, and shall be thoroughly brushed and the scale removed.

(2) When defective pipe or fittings are located in a system, they shall be replaced.

(3) Provision shall be made for expansion, contraction, jarring, vibration, and settling of pipe and fittings.

(4) Piping and fittings shall be coated or wrapped with an approved corrosion resistant material when in contact with material exerting a corrosive action.

(5) All straight runs of unvalved pipe, size $2\frac{1}{2}$ inches and above, that contain three or more joints shall have joints welded, except that the Chief Inspector may authorize the use of threaded pipe and fittings when welding is not practicable.

(6) In the installation of propane piping, no girder, beam, joist or other member of a building shall be cut in such a manner as to reduce the strength of the girder, beam, joist or other member of the building below the strength required for the purpose for which the girder, beam, joist or other member was intended.

(7) All piping systems shall be tested and purged after installation in accordance with sections 46 and 47.

PROPANE SUPPLY PIPING IDENTIFICATION

22.—(1) Propane supply piping in institutional and industrial buildings shall be painted with at least one coat of high visibility yellow-orange paint and shall be marked to clearly identify the type of gas in the pipe and such identification shall be,

(a) applied at intervals on straight pipe runs close to all valves and fittings;

(b) adjacent to all changes of direction; and

(c) where the piping passes through walls and floors.

(2) As an alternative method of identification, referred to in subsection 1, tags, labels or signs attached to or adjacent to the pipe may be used to identify the pipe.

23. Propane piping shall not be supported by any other piping but shall be installed with supports that shall not be spaced at greater distances than those shown in the following Table, and shall be of sufficient strength and quality to support the piping.

TABLE

Iron Pipe Size Inches	Spacing of Supports (feet)

JOINTS AND FITTINGS FOR PIPING

24.—(1) All pipe fittings shall be malleable iron, annealed ductile iron, or steel when used with wrought-iron or steel pipe.

(2) Pipe joints shall be threaded, flanged, welded, brazed, or made with approved steel compression fittings or couplings.

(3) Material used to join any propane handling parts and lines shall have a melting point in excess of 1,000° Fahrenheit.

(4) For operating pressures,

(a) up to 125 psig, fittings shall be designed for a minimum pressure of 125 psig; and

(b) in excess of 125 psig, and for liquid propane applications, fittings shall be designed for a minimum pressure of 250 psig.

(5) Cast iron pipe fittings shall not be used.

(6) Strainers, regulators, meters, compressors, pumps, valves, and sight flow gauges are not pipe fittings.

PIPE AND FITTING THREADS

25. Pipe and fitting threads shall comply with the following Table and with the Standard Pipe Threads, Published as B2. 1-1960 by the American Standards Association and running threads shall not be used.

TABLE
SPECIFICATIONS FOR THREADING PIPE

Iron Pipe Size Inches	Approximate Length of Threaded Portion Inches	Approximate Number of Threads to be Cut

$2\frac{1}{2}$	$1\frac{1}{2}$	12
3	$1\frac{1}{2}$	12
4	$1\frac{5}{8}$	13

GASKETS, COMPOUNDS AND LUBRICANTS

26.—(1) Gasket material shall be of neoprene or other inert material resistant to the action of propane and natural rubber shall not be used as gasket material.

(2) Compounds used in making joints shall be of a type approved for propane.

(3) Lubricants used in valves and controls shall be of a type approved for propane service and capable of withstanding the service conditions to which the lubricants are subjected.

LIMITATIONS ON THE LOCATION OF PIPING

27.—(1) Propane piping shall not be installed in chimneys, flues, elevator shafts, dumb waiters, coal chutes, clothes chutes, or in heating or ventilating ducts and shafts.

(2) Propane piping shall not be run on the ground unless the piping is protected from corrosion and mechanical damage.

(3) Propane piping shall not be concealed in any location where corrosive chemicals are used.

OUTLETS

28.—(1) Appliance outlets within a building shall have a shut-off valve and shall be securely closed and propane-tight with a cap and nipple or threaded iron plug during any period the appliance is not connected to the outlet.

(2) The unthreaded portion of piping outlets shall extend at least 1 inch through finished ceilings and walls, and at least 2 inches through floors.

PROHIBITED PRACTICES

29.—(1) Except in the case of filter screens or filters where supplied with appliances or in the case of an orifice fitting in a valve train to control maximum flow to the burner, no device that will reduce the cross-sectional area, or otherwise obstruct the free flow of propane shall be placed inside the propane piping or fittings.

(2) Bushings shall not be used to reduce piping size.

(3) Except in the case of extra low voltage control, ignition circuits, or electronic flame detection device circuits incorporated as part of an appliance, propane piping shall not be used for an electrical ground, nor shall electric circuits utilize propane piping in lieu of wiring.

(4) Where air or oxygen under pressure is used in connection with the propane supply, an approved device shall be provided to prevent air or oxygen from passing back into the propane piping.

USED PIPE AND FITTINGS

30.—(1) Pipe that has been used for any purpose other than conveying propane or other gas shall not be used for propane piping.

(2) Used propane or other gas pipe, fittings and valves shall not be re-used unless cleaned and inspected and found equivalent to new pipe, fittings and valves.

CONCEALED PIPING

31.—(1) Propane piping shall not be run in inaccessible or concealed spaces where it cannot be inspected and tested for leaks in its final position prior to being concealed or where undetected leakage might cause an accumulation of propane.

(2) Piping installed in solid floors, such as concrete, shall be laid in channels in the floor, covered in a manner to permit access to the piping with a minimum of damage to the building, or alternatively shall be encased in ducts having free air space not less than $\frac{1}{2}$ inch around the propane pipe and such ducts shall be ventilated.

(3) When installing propane piping that is to be concealed, unions, right and left couplings, bushings and swing joints made by combinations of fittings shall not be used.

UNDERGROUND PIPING

32.—(1) Underground piping shall not be installed with threaded fittings.

(2) No underground piping smaller than $\frac{3}{4}$ inch shall be used except to serve propane lights, or outdoor appliances, unless approved by the Chief Inspector.

(3) All underground piping shall be laid not less than 15 inches underground free from sags and where necessary properly graded.

(4) All underground piping shall be inspected and leak tested before being covered in accordance with section 46.

(5) Steel and wrought-iron pipe installed underground shall be investigated for its resistance to external corrosion and if the investigation indicates that protection from external corrosion is needed for public safety, the pipe line shall be protected by any recognized method or combination of methods including coating with protective material, application of cathodic protection or electrical bonding or isolation of sections.

(6) Underground piping shall not pass below foundations, walls, or under buildings or into unfrequented spaces below buildings, except by permission of the Chief Inspector.

(7) Underground piping entering buildings without basements or buildings with inaccessible spaces under the buildings shall rise above grade before entry, except by permission of the Chief Inspector.

(8) At points where underground piping passes through outside walls below ground level, provisions shall be made to ensure water tightness of the wall opening.

(9) Where underground piping is laid, under a covering of pavement, to a building and the entry is made above ground level, a sleeve shall be inserted in the pavement, where the pipe comes through the pavement, to permit free movement to the soil and covering without placing strain on the pipe.

(10) A vent line and inspection test point shall be installed adjacent to buildings where the entire line of underground piping is covered with paving or where paving extends 25 feet or more from the building, unless other provisions have been made for venting the area surrounding the pipe.

SHUT-OFF VALVES

33.—(1) Manual shut-off valves shall be of the type approved for the application.

(2) Manual shut-off valves, where controlling several piping systems, shall be placed at such a distance from each other that they will be easily accessible for operation and shall be installed so as to be protected from physical damage, and they shall be plainly marked with a metal, fibre or plastic tag by the installer so that the piping system they control can be readily identified.

(3) A manual shut-off valve shall be installed at every outlet on the piping system and shall be placed in an accessible location as close as practicable to the appliance to be served.

(4) A manual spring loaded valve shall be installed in such a manner as to prevent its plug being accidentally lifted off its seat.

(5) Quick-disconnect couplings shall not be used as manual shut-off valves.

PRESSURES INSIDE BUILDINGS

34. Subject to section 90 and to sections 121 to 134, the propane piping in any building shall not contain liquid propane or propane pressure in excess of 20 psig except in,

- buildings used exclusively to house equipment for vapourization, pressure reduction, propane mixing, or distribution;
- buildings or separate fire divisions of buildings, used exclusively for housing internal combustion engines or industrial processes requiring liquid propane;
- buildings, or separate fire divisions of buildings, used exclusively for research and experimental laboratories; or
- buildings, structures, or equipment under construction or repair, with the permission of the Chief Inspector.

TUBING AND FITTINGS

35.—(1) Type G P tubing shall be sized to carry the maximum load in thousands of BTUH, or cubic feet per hour, with the pressure at the outlet of the second stage regulator set for 11 inches of pressure so that the pressure drop in the tubing between the second stage regulator and any appliance valve train inlet shall not exceed 0.5 inch W.C. as shown in the following Table:

TUBING MATERIALS

36.—(1) Type G P tubing shall meet the requirements of A.S.T.M. Specification B-75-62 and Type K and L copper tubing shall meet the Standard C.S.A. HC-66.

(2) Tubing shall be of seamless copper, brass or steel.

(3) All tubing shall be capable of withstanding a working pressure of not less than 125 psig.

(4) Tubing which has been used for any purpose other than conveying propane or other gas shall not be used for propane systems.

(5) Used propane or other gas tubing, fittings or valves shall not be re-used unless cleaned and inspected and found equivalent to new tubing, fittings or valves.

TUBING INSTALLATION

37.—(1) For propane services above ground,

(a) Type K or Type L copper tubing up to and including $\frac{3}{4}$ inch size may be used; or

(b) Type G P tubing in $\frac{3}{8}$ or $\frac{1}{2}$ inch sizes may be used.

(2) For propane services underground, Type K copper tubing only shall be used.

(3) Exposed tubing shall be protected from mechanical damage and supported at intervals of at least 4 feet.

(4) Tubing may be run through walls or partitions but unless protected from mechanical damage shall not be run under walls or partitions.

(5) Tubing installed underground where chemical corrosion may be encountered shall be protected with a corrosion-resistant covering.

(6) Joints on above ground tubing shall be,

(a) made by flare fittings;

(b) made by other fittings acceptable to the Chief Inspector; or

(c) brazed with a material having a melting point not less than 1,000° Fahrenheit.

(7) Joints on underground tubing shall be brazed with a material having a melting point not less than 1,000° Fahrenheit.

(8) For pressures of 125 psig or less tubing fittings shall be capable of withstanding a pressure of at least 125 psig and for pressures above 125 psig tubing fittings shall be capable of withstanding a minimum pressure of 250 psig.

GASKETS, COMPOUNDS AND LUBRICANTS

38.—(1) All materials used for valve seats, packings, gaskets or diaphragms, shall be of a type approved for propane.

(2) Compounds used in making joints shall be of a type approved for propane and shall not be applied to the flare portion of a tubing fitting.

(3) Lubricants used in valves and controls shall be of a type approved for propane service and capable of withstanding the service conditions to which the lubricants are subjected.

LIMITATIONS ON THE LOCATION OF TUBING

39.—(1) Propane tubing shall not be installed in chimneys, flues, elevator shafts, dumb-waiter shafts, coal chutes, clothes chutes or in heating or ventilating ducts and shafts.

(2) Propane tubing shall not be concealed in any location where corrosive chemicals are used.

(3) Propane tubing shall not be run on the ground unless protected from corrosion and mechanical damage.

PROPANE SHUT-OFF VALVES

40. An accessible shut-off valve of an approved type shall be installed in the supply tubing at each appliance.

LEAK TESTING AND PURGING

41. All tubing systems shall be tested and purged after assembly in accordance with sections 46 and 47.

PRESSURES INSIDE BUILDINGS

42. Subject to section 90 and to sections 120 to 132, the tubing in any building shall not contain liquid propane or pressure in excess of 20 psig except in,

(a) buildings used exclusively to house equipment for vapourization, pressure reduction, or distribution;

(b) buildings or separate fire divisions of buildings used exclusively for housing internal combustion engines or industrial processes requiring liquid propane;

(c) buildings or separate fire divisions of buildings used exclusively for research and experimental laboratories; or

(d) buildings, structures or equipment under construction or repair, with the permission of the Chief Inspector.

HOSE AND FITTINGS

43. Only hose and hose fittings certified by one of the designated testing organizations listed in subsection 2 of section 6 shall be used.

HOSE AND FITTING INSTALLATION

44.—(1) Where hose is used to connect the propane supply to a portable appliance or to provide a flexible connection between the propane supply and an appliance,

(a) subject to clause b, the hose shall not exceed 6 feet in length and shall not extend from one room to another nor pass through any walls, partitions, ceilings or floors;

(b) the hose connecting the propane supply to a construction heater shall,

(i) be of a type certified for an operating pressure of at least 250 psig,

(ii) be not less than 10 feet in length, and

(iii) be installed in accordance with section 82;

(c) the hose shall not be used where it is to be subjected to temperatures in excess of 125° Fahrenheit;

(d) the use of rubber slip ends shall not be permitted;

- (e) the shut-off valve for an appliance connected by hose shall be in the propane supply piping or tubing and where necessary shall be identified;
 - (f) the hose shall be protected when subject to mechanical damage;
 - (g) the key of the shut-off valve on an independent connection shall not be closer than 6 inches from the key of any other shut-off valve;
 - (h) the shut-off valve shall not be placed at the floor or in any other location where it may be turned on by accident; and
 - (i) the wall outlet to which an appliance is to be connected with hose shall be located where the passage of persons, vehicles or equipment is at a minimum across the hose.
- (2) Where hose is used in transferring liquid propane from one container to another, protection shall be provided to prevent excessive hydrostatic pressure in the hose.

(3) All propane hose systems shall be tested and purged after installation in accordance with sections 46 and 47.

PRESSURE INSIDE BUILDINGS

45. Subject to sections 90 and 121, the hose in any building shall not contain liquid propane or propane pressure in excess of 20 psig except in,

- (a) buildings used exclusively to house equipment for vaporization, pressure reduction or distribution;
- (b) buildings or separate fire divisions of buildings, used exclusively for housing internal combustion engines or industrial process requiring liquid propane;
- (c) buildings or separate fire divisions of buildings used exclusively for research and experimental laboratories; or
- (d) buildings, structures or equipment under construction or repair, with the permission of the Chief Inspector.

LEAK TESTING OF PIPING, TUBING AND HOSE SYSTEMS

46.—(1) Before turning on propane, a check shall be made to ensure that all openings in the piping, tubing or hose system are closed from which propane can escape.

(2) Before a system is put into service it shall be tested to assure that it is gas tight.

(3) Subject to paragraph iii of subsection 5, in testing for tightness, the system shall be filled with propane vapour, air or inert gas only, and oxygen shall not be used.

(4) Where any part of the system is to be enclosed or concealed, the test required by this section shall precede the work of closing in.

(5) All systems shall be tested after assembly either before appliances are connected or after appliances are connected at not less than normal operating pressures, as follows:

- i. the piping, tubing and hose systems shall be tested and shall retain the test pressure for not less than 10 minutes;

- ii. pressure shall be measured with a pressure gauge, mercury manometer, slope gauge, calibrated in increments of 1 inch W.C. or with a water manometer calibrated in increments of 1/10 inch W.C. or with an equivalent device;
 - iii. the source of pressure shall be isolated before the pressure test is made; and
 - iv. systems installed in schools, institutional buildings, or buildings frequented by persons shall be pressure tested by using air or inert gas only.
- (6) In locating propane leaks,
- (a) matches, candles, flame or other sources of ignition shall not be used;
 - (b) artificial illumination shall be restricted to battery-operated hand flashlights, of the safety type, or to approved explosion-proof equipment; and
 - (c) electric switches in or adjacent to the area of leakage shall not be operated, unless of the type designed for hazardous locations.

(7) Smoking shall not be permitted when work is being done on piping, tubing or hose systems that contain or have contained propane.

PURGING OF AIR FROM PIPING, TUBING OR HOSE SYSTEMS

47.—(1) Subject to subsections 2 and 3, after the propane piping, tubing or hose system has been pressure tested and leak tested, the system shall be purged by a certified propane fitter,

- (a) by means of a hose or temporary pipe line to the outside of the building, in which case there shall be a person in attendance at each end of the purging line, and the purging line shall terminate not less than 10 feet from any building or air intake; or
- (b) by means of an approved purge burner,

except that the piping, tubing, or hose supplying an appliance with an open top range burner of inputs under 400,000 BTUH may be purged at the open top burner and the purged propane may be burned at the burner by a lighted taper.

(2) Where piping cannot be safely purged in accordance with subsection 1, the pipe shall be purged with carbon dioxide, nitrogen or a mixture of carbon dioxide and nitrogen.

(3) The piping supplying a domestic appliance having a combustion chamber shall be purged by a certified propane fitter at the outlet of the pilot valve, after the pilot piping has been disconnected.

(4) Each branch supply line shall be purged as close as is practicable to the end of the line that is farthest from the point of entry of the propane.

(5) Where purging is being done,

- (a) smoking shall not be permitted; and
- (b) maximum precaution shall be taken with all sources of ignition and with all potential sources of ignition.

(6) After the propane piping, tubing or hose system has been purged, all appliances shall be purged and the pilots lighted.

VENTILATING AND COMBUSTION AIR

48.—(1) Sections 49 to 54 apply to appliances that are installed in buildings and that require air for combustion, ventilation and, where required, draft hood or barometric dilution and air may come from within the building by natural infiltration or, where infiltration is inadequate, through supplementary air openings from the outside.

(2) Sections 49 to 54 do not apply to,

- (a) sealed combustion system appliances that are constructed, approved and installed so that all air for combustion is derived from outside and all flue gases are discharged to the outside;
- (b) enclosed appliances that incorporate an integral total enclosure and use only outside air for combustion and necessary draft hood or barometric dilution; and
- (c) boiler, furnace or appliance rooms where a make-up air heater supplies adequate air and the boiler or furnace or appliance is interlocked with the make-up air heater.

49.—(1) Appliances shall be so installed in a location where facilities for ventilation permit satisfactory combustion of propane, proper venting and maintenance of ambient temperature at safe limits that,

- (a) appliances are located in such a manner as not to interfere with proper circulation of air within the appliance-containing space;
- (b) when buildings are so tightly sealed that infiltration does not meet the air requirements, outside air is introduced;
- (c) ducts used to convey make-up air from the outdoors are of the same cross-sectional area as the free area of the opening to which they connect and the minimum dimension of rectangular ducts shall not be less than 3 inches; and
- (d) where ducts are used, the inlet air duct terminates in a location where freeze-up, possibility of steam or water pipes, electrical or mechanical equipment is reduced to a minimum.

(2) Where an appliance or number of appliances with a total input not greater than 400,000 BTUH are installed in a single enclosure, air requirements shall be calculated in accordance with sections 50 and 51.

(3) Where an appliance or number of appliances with total input greater than 400,000 BTUH are installed in a single enclosure, or the appliance or appliances have sealed mechanical venting systems with no draft hoods or barometrics within the enclosure, air requirements may be calculated in accordance with section 52.

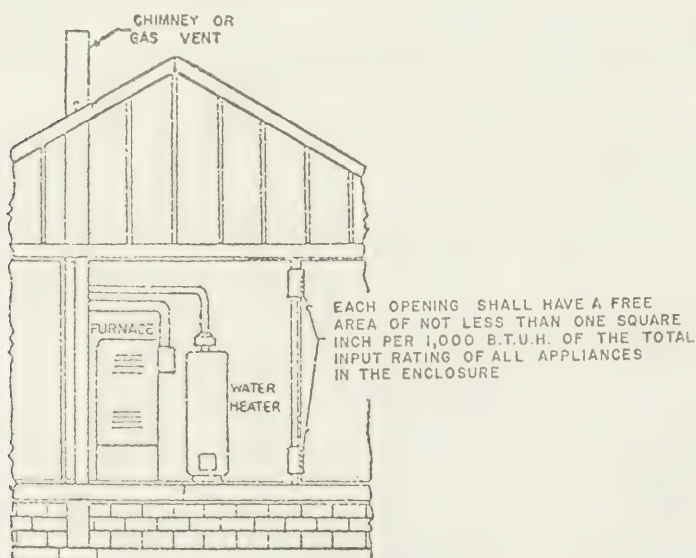

50.—(1) For appliances with inputs not in excess of 400,000 BTUH and located in unconfined spaces in buildings of conventional frame, brick or stone construction, infiltration normally is adequate to provide air for combustion, ventilation and draft hood or barometric dilution.

(2) If the unconfined space referred to in subsection 1 is within a building having insufficient infiltration, the air for combustion, ventilation and draft hood or barometric dilution shall be obtained from outdoors or from spaces freely communicating with the outdoors and a permanent opening or openings, having a total free area of not less than one square inch per 5,000 BTUH of total input ratings of all appliances shall be provided and the minimum dimension of a rectangular opening shall be not less than 3 inches.

51. For appliances with inputs not in excess of 400,000 BTUH and located in confined spaces where,

- (a) all the air is from inside the building, the confined space shall be provided with two permanent openings, the lower of which shall be located not more than 6 inches above the floor level and the other shall be located as near the ceiling as is practical, but not lower than the level of the draft hood or barometric opening and each opening shall have a free area of not less than one square inch per 1,000 BTUH of the total input ratings of all appliances in the enclosure and shall freely communicate with interior areas having in turn adequate infiltration from the outside, as shown in the following Figure:

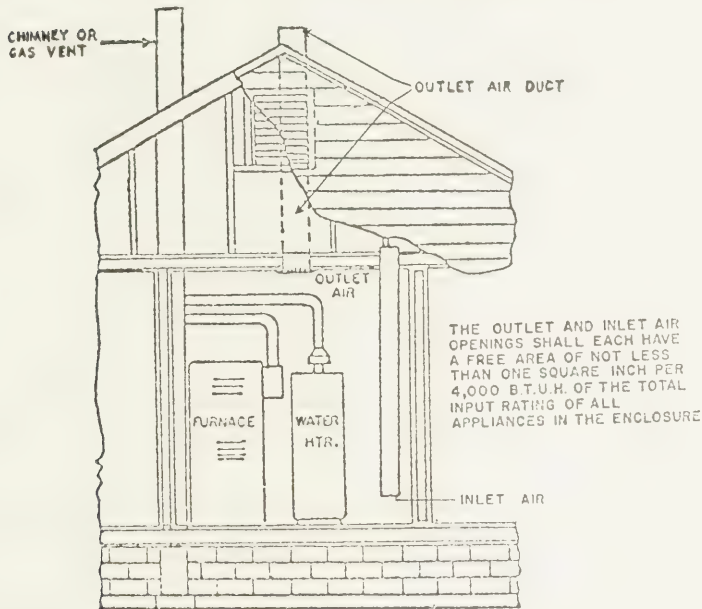

FIGURE
APPLIANCES LOCATED IN CONFINED SPACES
ALL AIR FROM INSIDE THE BUILDING

(b) all the air is from outdoors, the confined space shall be provided with two permanent openings, the lower of which shall be located not more than 18 inches above floor level and the other shall be located as near the ceiling as is practical but not lower than the level of the draft hood or barometric opening and the openings shall communicate directly, or by means of ducts, with outdoors; and

(i) when directly communicating with outdoors, or by means of vertical ducts, each opening shall have a free area of not less than one square inch per 4,000 BTUH of total input rating of all appliances in the enclosure as shown in the following Figure:

FIGURE
APPLIANCES LOCATED IN CONFINED SPACES
ALL AIR FROM OUTDOORS

(ii) when horizontal ducts are used, each opening shall have a free area of not less than one square inch per 2,000 BTUH of total input of all appliances in the enclosure as shown in the following Figure:

FIGURE
APPLIANCES LOCATED IN CONFINED SPACES
ALL AIR FROM OUTDOORS

**If the appliance room is located against an outside wall and the air openings communicate directly with the outdoors, each opening shall have a free area of not less than one square inch per 4,000 BTUH of the total input rating of all appliances in the enclosure.*

TOTAL INPUTS IN EXCESS OF 400,000 BTUH

52.—(1) Ventilation of the space occupied by propane-burning appliances with total inputs in excess of 400,000 BTUH shall be provided with an opening at the highest practicable point communicating with outdoors and the cross-sectional area of the opening shall be equal to 10 per cent of the area of the openings required in subsections 3 and 4 for combustion air, but in no case shall the cross-sectional area be less than 10 square inches.

(2) In no case shall a pressure in the space occupied by the propane appliance or propane appliances at burner elevation be less than,

- (a) atmosphere in the case of atmospheric natural draft burners; or
- (b) minus 0.05 inch of W.C. in the case of mechanical draft burners with sealed venting systems.

(3) Where combustion air is provided for atmospheric burners by natural ventilation from the outside air, there shall be a permanent air supply inlet or inlets, having a total cross-sectional free area of not less than 100 square inches plus 1 square inch for every 14,000 BTUH in excess of 400,000 BTUH.

(4) Where combustion air is provided for mechanical draft burners with sealed venting systems and no barometric damper or draft hood is installed in the

same room, the size of the combustion air opening or openings shall have a total cross-sectional free area of not less than 1 square inch for every 30,000 BTUH.

(5) In calculating free areas in subsections 3 and 4, the blocking effect of louvers, grilles or screens protecting openings shall not be considered free area and screens where used shall have a mesh not smaller than $\frac{1}{4}$ inch.

53. Where an appliance is installed in a location where the operation of exhaust fans, clothes dryers, fireplaces or equivalent may create conditions of unsatisfactory combustion or venting, special provisions shall be made, subject to the approval of the Chief Inspector.

54. The size of combustion air openings specified in section 52 may be waived where special engineering, approved by the Chief Inspector, assures an adequate supply of air for combustion, ventilation and draft hood or barometric dilution.

VENTING OF APPLIANCES

GENERAL

55.—(1) The installer shall be responsible for the proper and adequate venting of appliances.

(2) Venting systems shall be designed, constructed and utilized to develop a positive flow adequate to remove all flue gases to the outside air, as shown in the following two Figures:

FIGURE
BASIC COMPONENTS OF NATURAL DRAFT VENTING SYSTEMS
FOR SINGLE APPLIANCES

FIGURE
BASIC COMPONENTS OF A NATURAL DRAFT VENTING SYSTEM FOR
MULTIPLE APPLIANCES CONNECTED TO A SINGLE VENT

(3) Every appliance shall be connected to an effective B or BW vent or chimney except,

- (a) radiant heaters installed in masonry fireplaces with approved permanent openings that provide venting;
- (b) any domestic appliance that is approved for use without a vent;
- (c) any domestic appliance installed in a building where adequate ventilation, approved by the Chief Inspector, is provided by exhaust fans, natural draft ventilators or by other effective means;
- (d) any appliance that has a sealed combustion chamber and that is so constructed and installed that all air for combustion is derived from outside the space being heated and all flue gases are discharged to the outside air above ground level;
- (e) commercial and industrial appliances, when located in a large and adequately ventilated space which appliances may, subject to the approval of the Chief Inspector, discharge the flue gases directly into the space if the maximum total input to all the appliances in the space does not exceed 30 BTUH for each cubic foot of space in which the appliances are located;
- (f) subject to subsections 4 and 5 of section 76, carbon dioxide generators; and
- (g) as provided in section 63.

(4) Hoods or canopies may be used in place of direct vent or chimney connections, and the design of these venting systems shall be approved.

(5) Chimneys shall be used for venting the following types of appliances:

1. Incinerators, except where they are installed in locations such as open sheds, breezeways or carports, and if metal pipe not less than No. 20 manufacturers' standard gauge galvanized sheet steel or equivalent is used to vent the incinerator and the metal pipe is exposed and readily accessible for examination for its full length and the clearances called for in the Tables to subsections 3 and 5 of section 56 are maintained and where discharge temperatures may exceed 1,000° Fahrenheit factory-built chimneys shall not be used unless approved for the application.
2. Appliances that may be converted to the use of solid or liquid fuels.
3. Combination propane-oil burning appliances.
4. Appliances approved for use with chimneys only.

(6) Type B gas vents shall be used only with approved propane appliances equipped with draft hoods and approved for use with Type B gas vents.

(7) Type BW gas vents shall be supplied and installed only as a complete venting system, or kit and shall be used only with vented recessed heaters.

(8) Types B and BW gas vents shall be tested by a designated testing organization for conformance with the ULC Standard 441-1963, "Gas Vents" and shall bear the label of the designated testing organization.

(9) Factory-built chimneys used for venting propane appliances shall be tested by a designated testing organization for conformance with the ULC Standard 103-1963 "Test Requirements for Factory-Built Chimneys" and bear the label of the designated testing organization.

(10) No device or attachment shall be installed that may in any way impair the combustion or the safe venting of the flue gases.

VENT CONNECTORS

56.—(1) The metal used in a vent connector shall be,

- (a) non-combustible, corrosive resistant and capable of withstanding the flue gas temperatures involved and shall have sufficient strength to withstand physical damage likely to occur under the conditions of use;
- (b) in the case of single wall vent connectors used for appliances having draft hoods not lighter than No. 26 manufacturers' gauge of galvanized steel or 0.022 inch wall thickness aluminum, except that Type B vent material may be used between the draft hood and the vent or chimney; or
- (c) in the case of vent connectors used for appliances without draft hoods and vent connectors for incinerators, constructed of metal having resistance to corrosion and heat and not less than No. 24 manufacturers' standard gauge galvanized steel.

(2) A connector shall be sized so that,

- (a) for an appliance approved with a draft hood that is not integral with the appliance, the connector between the appliance flue collar and the draft hood shall be of a size in conformance with the certification of the appliance;
- (b) for a conversion burner approved for use with a draft hood, the connector between the flue collar of the fired appliance and the draft hood shall have a diameter not smaller than the diameters of the vent connectors shown in the Table to clause *d* and if the diameter is less than that of the flue collar of the fired appliance, the reduction shall be made at the flue collar;
- (c) for a single appliance equipped with a draft hood and connected to a Type B vent that has been sized for that appliance, the diameter of the vent connector shall not be smaller than that of the Type B vent to which it connects;
- (d) for a single appliance equipped with a draft hood and connected to a chimney, the diameter of the vent connector shall not be smaller than that shown in the following Table:

- (e) subject to section 63, for a single appliance having more than one draft hood outlet, and in the absence of the manufacturers' approved instructions, the vent connector shall equal the combined area of the draft hood outlets for which it acts as a common connector to the vent or chimney;
- (f) subject to section 63, for multiple appliances equipped with draft hoods served by a vent connector, the vent connector and all junction fittings shall be of a size adequate for the combined volume of the flue gases;
- (g) for multiple appliances equipped with draft hoods and individually connected to a single Type B vent, the size of the individual Type B material vent connector shall not be less than that shown in the following Table as described in the Figure to clause b of subsection 2 of section 55;

NOTES:

Scale 1,
Appliances located in utility room of single storey building.

Scale 2,
Appliances located in basement of single storey building or basement or utility room on first floor of a two or more storey building.

"E" indicates vertical rise curves for draft hoods with horizontal outlets and no additional rise, or vertical outlets with a 90 degree elbow and no additional rise.

(i) subject to section 63, for an appliance, not equipped with a draft hood, and in the absence of the appliance manufacturer's approved instructions, the vent connector shall be not less than the size of the appliance flue collar and where there is more than one flue outlet from the appliance, the area of the connector shall equal the combined areas of the outlets; and

(j) subject to section 63, for multiple appliances not equipped with a draft hood, served by a common vent connector, the size of the connector and all junction fittings shall be of a size adequate for the combined volume of the flue gases.

(3) Minimum clearances of vent connectors to combustible material shall be in accordance with the following Table:

TABLE
VENT CONNECTOR CLEARANCES FOR
GAS APPLIANCES

Appliances	Minimum Distance from Combustible Material	
	Type "B" Vent Connectors Inches	Other than Type "B" Vent Connectors Inches
Boiler	1*	6
Warm Air Furnace	1*	6
Water Heater	1*	6
Room Heater	1*	6
Floor Furnace	3**	9
Incinerator	Not permitted	18
Conversion Burner (with draft hood)	6	9

*Except as otherwise approved.

**3 inches for a distance of not less than 3 feet from the outlet of the draft hood. Beyond 3 feet the minimum clearance is 1 inch.

(4) Vent connectors of Type B gas vent material shall be securely assembled, using the method shown in the manufacturer's approved instructions.

(5) The clearances from vent connectors to combustible materials may be reduced from that required in subsection 3, where the combustible material is protected as specified in the following Table:

TABLE
CLEARANCES WITH SPECIFIED FORMS OF PROTECTION

Type of Protection	Where the Required Clearance With No Protection is:		
	6 Inches Clearance Reduced to: inches	9 Inches Clearance Reduced to: inches	18 Inches Clearance Reduced to: inches
¼ inch asbestos millboard spaced out 1 inch with non-combustible spacers	3	6	12
28-gauge sheet metal on ¼ inch asbestos millboard.....	2	4	12
28-gauge sheet metal spaced out 1 inch with non-combustible spacers	2	4	9

(6) A single-wall vent connector shall not pass through a ceiling or a floor.

(7) Subject to clause a of subsection 1 of section 59, a vent connector of Type B gas vent material where passing through combustible construction shall be installed so that the clearances in the Table to subsection 3 are maintained.

(8) A vent connector of other than Type B gas vent material shall not pass through any combustible construction unless the construction is guarded at the point of passage by ventilated metal thimbles as follows:

- 1. Subject to paragraphs 2 and 3 for appliances, the thimble shall be 4 inches larger in diameter than the vent connector unless there is a run of not less than 6 feet of vent connector in the open between the draft hood and the thimble, in which case the thimble may be 2 inches larger in diameter than the vent connector.
- 2. For floor furnaces, the thimble shall be 6 inches larger in diameter than the vent connector.
- 3. For incinerators, the thimble shall be 12 inches larger in diameter than the vent connector.

INSTALLATION PRACTICES

57.—(1) The vent connector shall be installed so as to avoid excessive turns or other construction features that create unnecessary resistance to flow of flue gases.

(2) Vent connector sections shall be firmly attached to appliance flue collars, barometrics and draft hoods, where used, and to each other by sheet metal screws or equivalent means but sheet metal screws shall not be used in exhaust ducts from clothes dryers.

(3) Vent connectors shall be installed without dips or sags.

(4) The horizontal run of the vent connector shall be as short as possible and the appliance shall be located as near the gas vent or chimney as practicable.

(5) Vent connectors shall be securely supported by non-combustible hangers suitable for the weight and design of the materials employed.

(6) Where the vent connector used for an appliance having a draft hood must be located in, or passed through, a crawl space or other area that may be cold, the entire vent connector shall be of Type B material.

(7) Subject to clause g of subsection 1 of section 59, where a vent connector vents an appliance to a Type B vent, the connection of the vent connector to the Type B vent shall be an elbow or tee fitting of Type B vent material and construction.

(8) Where a vent connector vents an appliance to a chimney using Type B material as a liner, the connection of the vent connector to the Type B vent liner may be of single-wall construction.

(9) The entry of a vent connector into a chimney shall be sufficiently above the bottom of the chimney to avoid stoppage and means shall be employed that will prevent the vent connector from entering so far as to unduly restrict the space between its end and the opposite wall of the chimney and a thimble shall be used to facilitate removal of the vent connector for cleaning and where a vent connector enters a lined masonry chimney, an adequate seal shall be provided to prevent flue gases from entering the space between the chimney and the chimney liner.

(10) A vent connector shall not be connected to a chimney flue serving a fireplace unless the fireplace opening is permanently sealed.

(11) Manually operated dampers shall not be placed in any vent connector except with the written permission of the Chief Inspector.

(12) Where a fixed damper, baffle or neutral pressure point adjustor is used to limit chimney draft, it shall not be adjustable and shall be provided with a safe minimum opening.

DRAFT CONTROL FOR VENT CONNECTED APPLIANCES

58.—(1) A draft control,

- (a) where it is a part of the appliance or is supplied by the appliance manufacturer shall be installed in accordance with the manufacturer's instructions; and

- (b) shall be installed in the position for which it was designed with reference to the horizontal and vertical planes and shall be so located that the relief opening is not obstructed and is accessible for checking vent operation.

(2) A draft hood,

(a) shall be provided for every vented appliance requiring a zero overfire draft for operation, except for incinerators, dual oven type combination ranges, appliances with sealed combustion chambers and units designed for power burners or for forced venting;
- (b) supplied with or forming a part of an approved appliance shall be used and installed without alteration, as furnished by the appliance manufacturer and as specified in the appliance approval; and

(c) where required with a conversion burner shall be of an approved design consistent with the following three Figures and it shall be sized in accordance with the Table to clause *d* of subsection 2 of section 56;

NOTE

This is only one design of a horizontal to vertical hood and should not be construed as the only design that may be used. A hood of any other design that will meet the Canadian Standard B. 206-2T, Listing Requirements for Draft Hoods, should be satisfactory within the limits of performance specified.

- (d) subject to clause *b*, where the installer determines that special requirements dictate the need for an alternative type of draft hood, the alternative draft hood shall be acceptable to an Inspector prior to its installation;
 - (e) shall be in the same room as the combustion air inlet of the appliance and in no case shall be installed in a false ceiling, in a different room, or in any manner that will permit a difference in pressure between the draft hood relief opening and the combustion air supply; and
 - (f) where required with a conversion burner, shall be located at the proper height to assure zero overfire draft with adequate combustion air supply to ensure safe operation.
- (3) A barometric draft regulator,
- (a) shall not be used as a substitute where a draft hood is required except with the permission of the Chief Inspector; and
 - (b) where used, shall be of the double-acting type, except for incinerators, and shall be located so that the relief opening is not obstructed by any part of the appliance, components or adjacent construction.
- (4) An automatic damper shall be,
- (a) interlocked with the propane burner control system to prevent hazardous operation in the event of mechanical failure; and
 - (b) designed and constructed so that it is provided with a safe minimum opening.
- GAS VENTS
- 59.—(1) A gas vent,
- (a) of Type B or BW shall be installed and used in accordance with its individual certification;
 - (b) of Type B shall be identified by means of a label or stamping reading: "This gas vent is for appliances which burn gas only. Do not connect to solid or liquid fuel burning appliances";
 - (c) of Type B or BW shall be adequately supported and spaced in accordance with its individual certification and such support shall be independent of the appliance or appliances being served;
 - (d) where two or more vent connectors enter it shall have the connection for the smaller connector at the highest level where consistent with available headroom or clearance to combustible material;
 - (e) subject to section 61, shall be installed within the structure housing the appliance or appliances served and where this is impractical, an outdoor vent may be used with the permission of an Inspector;
 - (f) where used with a natural draft venting system extending through an exterior wall and terminating adjacent to the exterior wall is prohibited but this prohibition does not apply to exhaust systems or sealed combustion units; and
 - (g) may connect directly to the outlet of the draft hood of the appliance that it serves if the vent is independently supported and an approved single wall to double wall adaptor is used.
- (2) The size of a gas vent shall be such that,
- (a) subject to section 63, if of Type B, where connected to a single appliance, the diameter shall be not less than that of the flue collar of the appliance it serves or as determined in the following Table, in which case the entire vent system from draft hood outlet to the vent termination, including the vent cowl, shall be of Type B vent material;

- (b) if of Type BW, it shall be of the same internal cross-sectional area as that of the flue collar of the vented recessed heater that it serves;

(c) for multiple appliances equipped with draft hoods and individually connected, using vent connectors of material other than Type B, to a single Type B vent, the area of the common vent shall be not less than the area of the
- largest vent connector plus 50 per cent of the area of additional vent connectors;

(d) subject to section 63, for multiple appliances connected to a single Type B vent through individual vent connectors of Type B material, the diameter of the vent may be sized in accordance with the following Table:

CHIMNEYS

- 60.—(1) A chimney,
- (a) of the factory-built type shall be installed and used in accordance with its individual certification;
 - (b) of masonry or metal construction shall be built and installed in accordance with Part 6 of the National Building Code of Canada, 1965;
 - (c) before the connection of a vent connector to it, shall be examined to ascertain that it is properly constructed and its passageway is clear, free from soot, creosote or other obstructions and will effectively conduct the flue gases to the outer air;
 - (d) where there is connected to it a propane appliance, and where the chimney also serves equipment for the combustion of solid or liquid fuel, the propane appliance shall be equipped with a safety device to shut off the propane supply in event of ignition failure;
 - (e) may have connected to it a propane appliance vent connector and a flue connector from an appliance burning fuel other than propane if the connections are made through separate openings, and if the connector for the propane appliance is on top or the connection may be made through a single opening if the connectors have been joined by a suitable fitting located as close as practicable to the chimney;
 - (f) subject to clause g, shall be provided with a cleanout opening and the cleanout opening shall be of such construction that it will remain tightly closed when not in use and, where tee fittings are used as cleanouts or condensate drains, the tee fittings shall have tight-fitting caps to prevent entrance of air into the chimney at that point;

- (g) of existing masonry construction, intended for the venting of a propane appliance or appliances, shall be safe for the intended application and, where inspection reveals that it is not safe, it shall be lined with an approved liner, rebuilt according to Part 6 of the National Building Code of Canada, 1965, or replaced with a gas vent or chimney suitable for the appliances to be connected;
- (h) where two or more vent connectors enter it, the smaller connector shall enter at the highest level where consistent with available headroom or clearance to combustible material, but vent connectors from incinerators shall always be connected at the lowest level; and
- (i) shall be adequately supported independently of the appliance or appliances being served and, if of the factory-built type, shall be supported and spaced in accordance with its individual certification.

(2) The size of a chimney shall be such that,

- (a) subject to section 63, where connected to a single appliance or multiple appliances through a common vent connector, the effective internal area shall be not less than the area of the vent connector and equivalent effective internal areas of rectangular shapes, as shown in the Tables to clause e of subsection 2 of section 59;
- (b) subject to section 63, for multiple appliances equipped with draft hoods and individually connected to a single chimney, the effective area shall be not less than that of the largest vent connector plus 50 per cent of the additional vent connectors or shall conform with the following Table:

*In the spaces where an asterisk is shown there is a possibility of continuous condensation depending on locality.

(c) for inputs to chimneys, and vent connectors thereto of a greater size than those shown in the Tables to subsection 1 of section 56 and subsection 2 of this section, sound engineering practice, subject to the approval of the Chief Inspector, shall be used to ensure the safe venting of flue gases from an appliance or appliances.

TERMINATION OF GAS VENTS AND CHIMNEYS

61.—(1) Gas vents shall extend a minimum of 2 feet above the highest point where they pass through the roof of a building and shall terminate at least 6 inches higher than any portion of the building or any other building within 10 feet, horizontally, of the top of the vent, and shall be in accordance with the table following subsection 2.

(2) Chimneys shall extend a minimum of 3 feet above the highest point where they pass through the roof of a building and shall terminate at least 2 feet higher than any portion of the building or any other building within 10 feet horizontally, of the top of the chimney and shall be in accordance with the following Table:

TABLE

Minimum Distance Above the Roof for Termination of Vents and Chimneys	
Diameter Inches	Height Above Roof Inches
4	24
5	30
6	36
7	48
8	60
10	60
12 and larger	72

(3) Subject to section 63, gas vents or chimneys shall terminate not less than 5 feet in vertical height above the highest connected draft hood, outlet or flue collar.

(4) The requirement of subsection 3 does not apply to sealed combustion units.

MECHANICAL EXHAUST VENTING SYSTEMS

62.—(1) Gas vent and chimney exhausters of the power type may be used in place of natural draft and, where used with propane appliances requiring venting, provisions shall be made to prevent the flow of propane to the main burner in the event of failure of the exhaust system and, where used with domestic and commercial incinerators, the exhauster shall be of such a type that the flue gases do not come in contact with the moving parts of the exhauster.

(2) Where mechanical flue exhausters or induced or forced draft devices are used, provision shall be made to prevent flow of propane to the burners on failure of the exhauster or device.

ENGINEERED VENT SYSTEMS

63. With the approval of the Chief Inspector, venting practices or formulae other than those required by sections 55 to 62 may be used.

GENERAL REQUIREMENTS FOR APPLIANCES

TYPE OF GAS

64.—(1) It shall be determined from the rating plate or from the manufacturer of the appliance, that the appliance has been designed for use with propane at the intended operating pressure of the system, and the pressure shall be regulated so that it does not exceed the rated pressure for the appliance.

(2) An appliance may be converted from gas to the use of propane with the prior permission of an Inspector.

(3) Where an appliance is converted from one type of gas to propane, the fitter making the conversion shall mark the appliance to indicate that the appliance has been converted to use propane.

APPLIANCE PIPING CONNECTORS

65.—(1) Subject to section 44 appliances shall be connected directly to the propane supply piping or tubing with rigid pipe or tubing.

(2) With the approval of and under the conditions required by the Chief Inspector, appliances used for temporary heating may be connected as described in section 44.

ACCESSIBILITY

66.—(1) The installation of appliances shall be such as to make them accessible for cleaning, inspection, repair, adjustment, lubrication, removal and replacement of components and accessories.

(2) Appliance panels and grilles that require removal for servicing shall not be attached to the building construction.

(3) An access opening of not less than 24 inches by 30 inches shall be provided to the space in which any appliance or accessory is located.

(4) Subject to clause *j* of subsection 2 of section 73, a clear and unobstructed passageway of not less than 36 inches in height and 36 inches in width shall be provided to any appliance.

MISCELLANEOUS INSTALLATION REQUIREMENTS

67.—(1) Before leaving any installation, the installer shall ensure that all appliances installed by him comply with the requirements of this Regulation.

(2) The installing fitter shall instruct the operator or owner in the safe and correct operation of all appliances installed by the installer.

(3) Instructions that are supplied with the appliance by the manufacturer shall be left by the installing fitter with the user.

(4) Where two or more burners are connected to the same manifold they shall be piped in such a manner as to supply the same pressure to each burner.

(5) Valves, regulators and other control devices that require bleeding shall be bled separately by a bleed vent or, where manifolded, the common bleed shall have an area equal to not less than twice the total area of the connected bleed vents.

(6) Relief vents from relief valves shall not be manifolded with bleed vents from other devices, but the relief vents from two or more relief valves may be manifolded together if the common manifold is equal in area to the area of the largest relief valve opening plus 50 per cent of the total area of the other relief valve openings.

(7) Propane pressure regulators shall be bled by a bleed vent to a safe location outdoors.

(8) A means shall be provided to prevent water from entering a bleed vent and to prevent stoppage of a bleed vent by insects or foreign matter.

DAMAGED AND USED APPLIANCES

68.—(1) Appliances that have been exposed to fire, explosion or water or other damage shall not be offered for sale, installed for use, or reconnected to supply lines without the approval of an Inspector.

(2) All used appliances shall be inspected by the installing fitter to ensure conformance with section 5, before connection or reconnection to a supply line.

APPLIANCE CLEARANCES

69.—(1) All clearances shown in sections 72 to 81 shall be minimum where no protection is provided.

(2) Reduced clearances may be approved only for approved appliances with reduced clearances marked on the nameplate or, where protection is provided over combustible material, in accordance with the following Table:

TABLE
CLEARANCE* WITH SPECIFIED FORMS OF PROTECTION**

Type of Protection***	Where the required clearance with no protection is:

(i) ¼ inch cellular asbestos.....	36	36	36	18	18	18	12	12	9	3	3

*All clearance given in inches.

**Except for the protection indicated in (e) above, all clearances shall be measured from the outer surface of the appliance to the combustible construction, disregarding any intervening protection applied to the combustible construction, but in no case shall the clearance be such as to interfere with the requirements for combustion air and for accessibility.

***Applied to the combustible construction unless otherwise specified and covering all surfaces within the distance specified as the required clearance with no protection. Thicknesses are minimum.

NOTE : Spacers shall be of non-combustible construction.

(3) The clearances to the appliances referred to in this section shall not interfere with the requirements for combustion air, draft hood or barometric dilution, relief openings and accessibility for servicing.

OUTDOOR INSTALLATIONS

70.—(1) An appliance to be used outdoors shall be approved for the application.

(2) The appliance, when installed, shall be protected against weather and physical damage.

(3) The appliance shall be readily accessible for inspection and servicing and where an appliance is installed on a roof a fixed means of access shall be provided.

(4) Appliances shall be so spaced as to prevent circulation of the flue gases into the combustion air inlet or circulating air stream of any adjacent appliance.

INSTALLATION OF APPLIANCES IN TRAILERS AND MOBILE VEHICLES

71. Appliances shall be installed in trailers and mobile vehicles in accordance with sections 140 to 148.

INSTALLATION REQUIREMENTS FOR
SPECIFIC APPLIANCES

BOILERS

72.—(1) Central heating boilers shall be installed on a firm, level foundation and, unless approved for installation on a combustible floor, shall be installed on a non-combustible floor.

(2) Unless approved for lesser clearances, central heating boilers shall be installed with a minimum clearance from combustible construction of 18 inches to the side and rear, and 48 inches in front.

FURNACES, SPACE HEATING

73.—(1) Central heating furnaces shall be,

(a) installed on a firm, level foundation and, unless approved for installation on a combustible floor, shall be installed on a non-combustible floor;

(b) subject to clause b of subsection 2 of section 79, unless approved for lesser clearances from combustible construction shall be installed with a minimum vertical clearance of 3 inches from the warm air plenum, 6 inches from the jacket sides and rear, and 24 inches from the front; and

(c) not installed with a cold air return opening located in an enclosed space that contains a forced air furnace.

(2) A floor furnace,

(a) shall not be installed in the aisle or passageway of any auditorium, public hall, place of assembly or in any exit-way from any auditorium, public hall or place of assembly;

(b) shall not be installed closer than 6 inches to the nearest wall;

(c) of the wall register type, shall not be placed closer than 6 inches to a corner;

- (d) shall be located so that doors, drapery, or other similar objects are not within 12 inches of any portion of the register;
 - (e) subject to subsection 6 of section 57, located in a building without a basement, shall have a vent connector made of aluminum or of equivalent corrosion resistive material;
 - (f) shall be installed so that the floor immediately around the furnace is braced and headed with a framework of material not lighter than the existing joists;
 - (g) shall be provided with means to support the furnace when the floor grille is removed;
 - (h) shall be installed so that the lowest portion of the furnace has at least a 12 inch clearance from the general ground level, except that where the lower 6 inch portion of the furnace is sealed by an approved method to prevent entrance of water, the clearance may be reduced to not less than 2 inches;
 - (i) shall be provided with a minimum clearance of 6 inches on all sides, except the control side where the minimum clearance shall be 24 inches;
 - (j) notwithstanding subsection 4 of section 66, shall be provided with a clear and unobstructed passageway of not less than 48 inches in height by 36 inches in width and a trap-door access, where used, shall be, not less than 24 inches by 30 inches; and
 - (k) shall be provided with fixed ventilation, by means of a duct or grille arranged to supply air from a permanently ventilated attic or floor space, to any confined space that encloses the furnace, and the duct or grille shall be screened and have a free area of at least twice the area of the vent collar of the furnace and the duct or grille be installed in such a manner that proper combustion is assured.
- (3) A duct furnace shall be installed so that,
- (a) the ducts connected to the furnace have removable access panels on both upstream and downstream sides of the furnace;
 - (b) where located in a confined space, no circulating air is taken from the confined space;
 - (c) the controls, other than a sensing element, are located outside the duct;
 - (d) where used in conjunction with a refrigeration system, the furnace is not located downstream from the evaporator coil, except where the heat exchanger of the furnace is constructed of corrosion-resistive material approved for such operation;
 - (e) the furnace is supported in such a manner that no weight is carried by the supply piping; and
 - (f) unless approved for lesser clearances, a minimum distance of 6 inches from all combustible construction is provided, except for the control side and filter panels where the minimum clearance shall be not less than 24 inches.

(4) A horizontal furnace,

- (a) may be installed in crawl spaces or suspended from floors or ceilings and, if so approved and so marked, may be installed in attic spaces;

- (b) where installed in an attic space, shall be provided with a permanent and substantial walkway to the control side of the furnace;
 - (c) shall not be installed in an attic space that contains loose shavings or other combustible material used for insulating purposes; and
 - (d) unless approved for lesser clearances, shall be installed not less than 6 inches from all combustible construction.
- (5) A counterflow furnace,
- (a) having a downward warm air discharge and where marked "For Installation on Non-Combustible Floors only", and where installed on, or passing through, a combustible floor, shall be provided with a separate base certified as a component part of the furnace;
 - (b) shall be installed so that there are no open passages in the floor through which flame or hot gases from a fire originating in the area below the floor can travel to a space above;
 - (c) where located in a confined space, the circulating air for the furnace shall not be taken from the same space from which combustion air is supplied to the furnace; and
 - (d) shall be provided with the minimum clearances that conform with the furnace certification.

HEATERS

74.—(1) A sealed combustion unit,

- (a) shall be of the combustion chamber design in space heaters and water heaters that are installed in bathrooms; and
- (b) shall be installed so that the exhaust terminates not less than 9 inches from fresh air intakes, doors, windows that open or from other openings.

(2) A direct fired make-up air heater,

- (a) shall be installed in accordance with the installation provisions contained in CSA-B 203.T, 1966, "Requirements for Direct Gas-Fired, Non-Recirculating Make-Up Air Heaters"; and
- (b) shall be controlled so that the discharge temperature from the heater does not exceed 68° Fahrenheit, except with the permission of the Chief Inspector.

(3) Propane-fired construction heaters shall be used only in conformance with section 82.

(4) A vented recessed heater,

- (a) may be installed in a combustible wall where approved for such an installation;
- (b) where equipped with panels and grilles that must be removed for normal servicing, shall have the panels and grilles attached to the heater and not to the building structure; and
- (c) subject to subsection 1, shall be vented only with an approved BW vent kit, unless the heater is additionally approved as a room heater and used as a room heater, in which case subsection 6 of section 55 shall apply.

(5) A room or space heater,

- (a) where installed in rooms where sleeping accommodation is provided and in areas accessible to persons shall be of the fully

enclosed, automatic temperature controlled and vented type, and shall be equipped with a 100 per cent safety shut-off control;

- (b) whether of the radiant type or not, designed and marked "For Use in Fireplaces of Masonry Construction", shall not be installed elsewhere;
 - (c) of the unvented radiant type, shall be installed only in chimney-connected fireplaces and, where such fireplaces have manual dampers, permanent stops shall be provided on the damper control to prevent closure of the flue outlet;
 - (d) shall be located so as not to cause a hazard to walls, floors, curtains, furniture, doors when open, and to the free movement of persons; and
 - (e) unless approved for a lesser clearance, shall be installed not less than 6 inches from combustible construction and the clearance shall be 2 inches from projecting flue boxes and draft hoods.
- (6) A water heater,
- (a) unless of the sealed combustion chamber design, shall not be installed in bathrooms or in bedrooms or other confined areas in which sleeping accommodation is provided;
 - (b) of the storage type and not equipped with a metal baffle between the burner and combustible construction, shall be located on a solid fire-resistive foundation, the minimum size of which shall be 24 inches by 24 inches;
 - (c) of the instantaneous type and installed on a combustible wall, shall be provided with protection consisting of $\frac{1}{4}$ inch asbestos millboard, or equivalent, that extends the full length and width of the heater and draft hood;
 - (d) shall be equipped with an approved temperature and pressure relief device installed,
 - (i) in the side or top tapping provided by the manufacturer, or
 - (ii) in a vertical position as close as possible to the hot water outlet,
 and the relief opening of the device shall be piped to a level approximately 6 inches from the floor, or to an effective drain, and both temperature and pressure relief functions may be included in a combination type valve; and
 - (e) of the automatic instantaneous type shall have a water supply of sufficient pressure to operate the automatic valve when drawing hot water from a faucet on the top floor.
- (7) A suspended unit heater,
- (a) shall be firmly supported with metal hangers or brackets;
 - (b) ducts attached to the heater shall be so located that a negative pressure is not created in the room in which the heater is located;
 - (c) shall not be attached to inlet or outlet ducts unless approved for use in such an installation;
 - (d) where installed in commercial and public garages, the location of the heater shall be such that the bottom of the heater is not on a lower horizontal plane than the top of the highest vehicle—admitting door opening, un-

less the heater is installed in an out-of-the-vehicle-travelled part of the garage, in which case the clearance to the floor from the bottom of the heater may be reduced to not less than $4\frac{1}{2}$ feet; and

- (e) except where permitted by approved manufacturer's instructions, shall have a minimum of 18 inches clearance from combustible construction.

COOKING EQUIPMENT

75.—(1) A domestic range,

- (a) shall be installed level, and where installed on a combustible floor, it shall be set on its own legs or baffled base;
 - (b) where attached to a flue or vent connector, provisions shall be made by the installer for the protection of the combustible construction adjacent to the flue or vent connector;
 - (c) shall have a vertical clearance above the cooking top of not less than 30 inches to combustible construction, except where the underside of the combustible construction is protected with asbestos millboard that is at least $\frac{1}{4}$ inch thick and covered with sheet metal of not less than No. 28 Manufacturer's Standard Gauge, the vertical clearance may be reduced to not less than 24 inches and the protection shall extend 9 inches beyond the sides of the range; and
 - (d) where installed beneath combustible material or metal cabinets shall have protection provided by a metal ventilating hood, the top of which is not less than 24 inches directly above and is, in width, equal to that of the cooking top, and is insulated with asbestos millboard that is at least $\frac{1}{4}$ inch thick and the protection need not extend beyond the sides of the range.
- (2) Hotplates and laundry stoves,
- (a) shall be connected with tubing or rigid pipe and, where installed on combustible surfaces, shall be set on their own legs or a base and firmly secured to prevent accidental movement;
 - (b) shall not be installed in light-housekeeping rooms or in rooms in which sleeping accommodation is provided;
 - (c) shall be installed so that a minimum horizontal clearance of 6 inches from combustible construction is maintained; and
 - (d) shall be installed so that the vertical clearance between the top of the hotplate or stove and combustible construction is not less than 30 inches.
- (3) Hotel and restaurant ranges, deep fat fryers and unit broilers,
- (a) shall be installed level and on a firm foundation;
 - (b) where installed on unprotected combustible floors, shall have legs that provide a minimum of 4 inches clearance between the metal base and the floor;
 - (c) that do not have legs at least 4 inches high, shall not be installed on a combustible floor except where the floor space thereunder is protected with sheet metal and a 2 inch air space is maintained between the metal base and the sheet metal;

(d) shall be installed so that a minimum clearance of 6 inches from combustible construction is maintained between their ends and sides; and

(e) shall be installed so that any portion of combustible construction located within 18 inches of a cooking top section is protected for a vertical distance of 36 inches above the surface of the cooking top.

(4) A propane counter appliance shall be installed so that,

(a) a minimum vertical distance of 36 inches is provided between the top of the appliance and combustible construction; and

(b) a minimum horizontal clearance of 6 inches from any combustible construction is provided.

MISCELLANEOUS APPLIANCES

76.—(1) A refrigerator shall be installed so that a clearance of not less than,

(a) 2 inches is provided between the back of the refrigerator and the wall; and

(b) 12 inches is provided above the top, unless approved for lesser clearances, or ducts provide ventilation to the top and to the rear.

(2) A clothes dryer,

(a) shall be installed with a clearance of not less than 6 inches from combustible construction, unless approved for lesser clearances;

(b) may be equipped with a moisture exhaust duct and in such case the duct shall not,

(i) terminate immediately above or within 3 feet horizontally of a propane service regulator, or fresh air intake,

(ii) be secured with metal screws, and

(iii) be connected into a vent connector, vent or chimney; and

(c) of that commercial type shall be installed so that,

(i) the front and any accessible side of the dryer is enclosed from the top of the dryer to the ceiling and the enclosure shall be metal screen, expanded metal of not larger than $\frac{3}{4}$ inch mesh and not less than 14 USWG wire or material that is fire-resistive, and

(ii) a minimum clearance in any direction of not less than 18 inches is maintained between the top of the heating unit of the dryer and combustible construction.

(3) An incinerator,

(a) shall be installed as close as practicable to a chimney and shall have a clearance of not less than 12 inches from all combustible construction unless approved for lesser clearance, but in no case shall the clearance be less than 3 inches;

(b) of the wall type shall be installed only in a non-combustible wall that communicates directly with a chimney flue;

(c) shall not be equipped with a draft hood but, where draft control is required, shall be equipped with a barometric damper of the single-acting type;

(d) shall be connected to a chimney by a direct connector through a separate thimble;

(e) shall be chimney connected and the vent connector shall have a clearance of not less than 18 inches from combustible construction, except that the connector may pass through a wall or partition of combustible construction where the wall or partition is guarded at the point of passage with a thimble 12 inches larger in diameter than the vent connector; and

(f) shall be installed so that the clearance above a charging door is not less than 48 inches from combustible construction.

(4) A carbon dioxide generator for a controlled atmosphere warehouse,

(a) shall be certified by a designated testing agency for the application;

(b) shall take its combustion air from outside the warehouse space; and

(c) subject to Regulation 138 of Revised Regulations of Ontario, 1960, shall be used only for producing controlled atmospheres in a warehouse.

(5) A carbon dioxide generator for a greenhouse,

(a) shall be approved for the application;

(b) shall take its combustion air from outside the warehouse space; and

(c) shall not produce a concentration of carbon dioxide in excess of 5,000 parts per million, being 0.5 per cent, within the greenhouse.

(6) An infra-red heater,

(a) of the vented type, shall be installed in accordance with approved manufacturer's instructions;

(b) of the unvented type, shall not be installed in dwellings of single or multiple family occupancy, hotels, motels or buildings for institutional occupancy; and

(c) of the unvented type, installed in a building, other than a building in clause b, shall be installed in accordance with approved manufacturer's instructions and installation drawings shall be submitted to the Chief Inspector for approval prior to the commencement of work.

(7) Propane-fired toilets shall be installed in accordance with manufacturer's approved instructions.

(8) Propane-fired steam bath appliances shall be installed in accordance with approved manufacturer's instructions.

(9) Propane-fired appliances shall not be installed in the areas of dry-cleaning and similar establishments that have atmospheres where vapours corrosive to the appliances may be present.

PROPANE LIGHTING

77.—(1) Pendant type light fixtures shall be firmly supported to remove the direct weight of the fixture from the propane line.

(2) Wall bracket fixtures shall be firmly supported and, if of the swing type, shall be provided with stops to maintain a 5 inch horizontal clearance from combustibles, unless approved for lesser clearances.

- (3) Bracket and pendant fixtures,
- (a) of the enclosed flame type shall have a clearance of not less than 18 inches vertically from combustibles and not less than 5 inches horizontally from combustibles unless approved for lesser clearances; or
 - (b) of the unenclosed flame type shall have a clearance of not less than 18 inches from combustibles.

APPLIANCE INSTALLATION IN GARAGES

78.—(1) An appliance may be installed on the floor of a residential garage if the door opening to the garage is on a level equal to, or lower than, the level of the floor on which the appliance rests and the appliance shall be protected against physical damage.

(2) An appliance may be installed in a commercial storage garage if the appliance is located not less than 18 inches above floor level and protected against physical damage.

(3) An appliance may be installed in a commercial repair garage if the appliance is located not less than 4½ feet above floor level and is protected against physical damage.

CONVERSIONS FROM SOLID OR LIQUID FUELS

79.—(1) Where converting from a solid or liquid fuel,

- (a) equipment to be converted shall be thoroughly cleaned, leak tested where applicable, and examined for serviceability;
 - (b) conversion burners shall be approved; and
 - (c) the burner or burners and their accessories shall be installed according to the manufacturer's instructions and shall be firmly secured in place to maintain correct alignment in normal use and to eliminate direct flame impingement on metal surfaces.
- (2) Clearances from combustible construction in the case of,
- (a) boilers, when converted, shall be not less than 18 inches vertically and not less than 18 inches horizontally at sides and rear and 48 inches in front; and
 - (b) space heating furnaces, when converted, shall be in conformance with the following:
 - (i) not less than 3 inches vertically from the warm air plenum,
 - (ii) not less than 6 inches horizontally from jacket sides and rear, and
 - (iii) not less than 24 inches horizontally from the front.

(3) The conversion to propane of a furnace with reversible flue passes may be carried out only,

- (a) where an atmospheric burner is used,
 - (i) if the centre line of the flue collar outlet is not less than 12 inches above the burner ports, or
 - (ii) if the flue collar outlet is extended to permit installation of the draft hood with its relief opening at least 12 inches above the highest flue pass;

- (b) if a by-pass of at least 1 inch in diameter is connected to the top of any section of the flue passages or combustion chamber where propane may be trapped or pocketed and is extended through the outer casing to terminate in the flue collar outlet extension; and
- (c) if the flue collar outlet extension is gas-tight and constructed of steel that is not less in strength than 20 gauge galvanized steel.

PRESSURE BOOSTERS

80. A pressure booster shall be installed so that,

- (a) the space occupied by the booster is isolated and ventilated and the isolation and ventilation may be accomplished by an enclosure built around the booster or by an enclosing hood vented to the atmosphere;
- (b) the booster or similar apparatus, capable of creating a reduced pressure in the service pipe lower than the pressure acceptable to the propane supplier, is provided with a low-pressure cut-off device; and
- (c) if of the positive displacement type with a mechanical by-pass arrangement, a high pressure switch to cut off propane supply or shut down the booster is installed downstream.

PROPANE ENGINES

81. Propane fuelled engines shall be installed in accordance with sections 122 to 134.

CONSTRUCTION HEATERS

82.—(1) Construction heaters shall,

- (a) not be used for purposes other than the purpose for which they were approved;
- (b) be located so as to prevent physical damage or upsetting of the construction heaters;
- (c) when used in a confined or enclosed space be,
 - (i) provided with a supply of air for combustion, and
 - (ii) provided with a means of ventilating the confined or enclosed space; and
- (d) be kept clear of combustible materials for the clearances shown on the instruction plate attached to the construction heater.

(2) All piping, tubing, hose and equipment shall, where necessary, be supported and secured and be protected from physical damage and strain.

(3) Where the construction heaters are connected to temporary piping, the temporary piping and connections shall conform with sections 19 to 47, and,

- (a) the main propane supply section, including all vertical sections of a piped system shall be of rigid pipe and be secured and supported at each level or floor; and
- (b) each outlet from the main propane supply section shall have a readily accessible shut-off valve that,
 - (i) is equipped with a handle, and
 - (ii) shall be securely closed and the outlet made gas tight by using a pipe cap and a pipe nipple or with the use of a threaded iron plug,

during any period that the line downstream from the shut-off valve is not in service.

(4) The lessor of construction heaters shall, at the time of delivery to the lessee, ensure that,

- (a) the heaters are approved and in safe operating condition; and
- (b) the lessee is instructed in the safe installation and use of the heaters and accessories as set out in subsections 1, 2 and 3 of this section.

(5) The lessee of construction heaters shall ensure that,

- (a) the heaters and accessories are installed and used in accordance with subsections 1, 2 and 3 of this section;
- (b) the installation of piping and the maintenance of heaters and accessories, other than the routine replacement of cylinders, is done by a certified propane fitter;
- (c) the handling and operation of heaters and accessories, including the routine replacement of cylinders and the routine connection and disconnection of the heaters, are done by persons who have been instructed in the handling and operation of heaters and accessories; and
- (d) malfunctioning or damaged heaters or accessories are removed from service and the malfunction or damage is reported to the lessor.

(6) The owner, where he is also the user, of construction heaters and accessories shall ensure that,

- (a) the heaters and accessories are installed and used in accordance with subsections 1, 2 and 3 of this section;
- (b) the installation and maintenance of heaters and accessories, other than the routine replacement of cylinders, are done only by a certified propane fitter;
- (c) the handling and operation of heaters and accessories, including the routine replacement of cylinders, are done by persons who have been instructed in the handling and operation of heaters; and
- (d) malfunctioning or damaged heaters and accessories are removed from service.

ELECTRICAL REQUIREMENTS

83.—(1) Where electrical circuits and devices are employed, they shall be arranged so that the propane is shut off in case of electrical failure.

(2) Electrical safety limit circuits shall use not more than 115 volts nominal, single phase, and shall be isolated circuits such as are provided by a control circuit transformer.

(3) Electrical connections between propane appliances and building wiring shall comply with Ontario Regulation 378/66, being the Ontario Electrical Code made under *The Power Commission Act*.

(4) The circuit employed for operating the automatic main shut-off valves of commercial and industrial installations shall be provided with a readily accessible manual switch, located near the entrance of the room where the appliance is installed.

PART 3

STORAGE AND HANDLING

CYLINDERS

84.—(1) Sections 84 to 96 apply to the fabrication, filling, handling, installation, use and storage of cylinders.

(2) Cylinders equipped for use with propane shall not be used for anhydrous ammonia and cylinders equipped for use with anhydrous ammonia shall not be used for propane without the written permission of the Chief Inspector.

(3) The fabrication and repair of a cylinder shall be such that,

- (a) it is fabricated, tested, re-inspected and marked in accordance with BTC requirements as contained in the Regulations for The Transportation of Dangerous Commodities By Rail as issued by the Board of Transport Commissioners for Canada; and
- (b) where the repair or modification involving welding of a cylinder is required, the cylinder shall be returned to a manufacturer of cylinders of the same type in compliance with the BTC requirements as described in clause a.

CYLINDER VALVES AND ACCESSORIES

85.—(1) Valves in the assembly of multiple-cylinder systems shall be arranged so that replacement of cylinders can be made without shutting off the flow of propane in the system.

(2) Regulators and low pressure relief devices shall be securely attached to the cylinders, cylinder valves, supporting standards or building walls, and shall be installed and protected from the weather.

(3) Valves and connections to the cylinders shall be protected while in storage, in transit and while being moved into position for use,

- (a) by being recessed into the cylinder to prevent the possibility of being damaged if the cylinder is dropped; or
- (b) by a ventilated cap or collar, capable of withstanding a blow from any direction, equivalent to that of a 30-pound weight dropped 4 feet, and the construction shall be such that the effect of the blow will not be transmitted to the valve or other connection.

(4) When cylinders are not connected to the system, all cylinder valves shall be kept tightly closed or plugged.

(5) Cylinders that are recharged at the installation site shall be provided with an excess flow or a back flow check valve.

(6) The cylinder service valve shall be equipped with an attached hand wheel or with a wrench securely attached to the cylinder or cylinder valve by means of a chain, and such hand wheel or wrench shall be capable of turning on or turning off the cylinder service valve.

SAFETY DEVICES

86.—(1) Cylinders shall be provided with the safety relief devices required in the Regulation for the Transportation of Dangerous Commodities by Rail as issued by the Board of Transport Commissioners for Canada.

(2) Subject to section 90 and sections 122 to 134, where the delivery pressure from the final stage regulator is not more than 5 psig, the low pressure side of the regulator shall be equipped with a relief valve, set to start to discharge at not less than twice the delivery pressure or not more than 5 psig above the delivery pressure and, when the delivery pressure is more than 5 psig, the relief valve shall be set to start to discharge at not less than 1¼ times and not more than twice the delivery pressure.

(3) Subject to section 87, where a regulator is installed indoors, the bleed vent shall be vented to the outdoors and terminate not less than 3 feet horizontally from any building opening that is below the terminal end of the vent line and the vent line shall be of a size sufficient to prevent impedance upon the regulator, or be equipped with a regulator suppressor assembly.

(4) Cylinders used for liquid withdrawal shall be equipped with,

- (a) a valve designed for liquid withdrawal;
- (b) an internal excess flow valve; and
- (c) a relief valve,

and the liquid service connection of the valve shall be one equipped with threads that are other than the standard female POL thread.

(5) Excess flow valves shall be designed with a bypass, not larger than a No. 60 drill size.

(6) A hydrostatic safety relief valve shall,

- (a) be installed between each pair of shut-off valves on propane liquid piping so that the released propane is discharged to a safe location in the outer air; and
- (b) when installed in piping connected to cylinders, have a minimum start to discharge setting of 400 psig.

FILLING OF CYLINDERS

87.—(1) Where a distributor fills a cylinder, he shall ensure that the maximum filling density of the cylinder as set out in subsection 2, is not exceeded.

(2) The filling of cylinders shall be only by permission of the cylinder owner and be,

- (a) by weight in accordance with Table 1; or
- (b) by volume in accordance with Table 2, where the cylinder is equipped with an approved liquid level gauge designed for the cylinder;

TABLE 1

MAXIMUM PERMITTED FILLING DENSITY OF CYLINDERS BY WEIGHT

(3) While propane is being transferred from a container to a cylinder, the distributor, or a person authorized by him, shall be in attendance at the cylinder being filled and shall be in possession of at least a Class 3 Licence.

(4) Cylinders authorized as "single trip" or "non-refillable cylinders" by the BTC requirements referred to in subsection 3 of section 84 shall not be refilled with propane.

(5) Where a fixed dip tube gauging device is used on a cylinder, the length of the dip tube shall be,

- (a) expressed in inches, carried out to one decimal place, preceded by the letters "DT" die-stamped on the exterior of the cylinder valve; and
- (b) the vertical distance from the top of the cylinder to the end of the dip tube that is located at the maximum filling level.

(6) Where a liquid level gauging device is fabricated so that the outward flow of propane does not exceed the outward flow of propane that passes through a No. 54 drill size opening, the liquid level gauging device does not require an excess flow valve.

(7) Cylinders damaged, leaking, or corroded beyond BTC limits, shall not be filled by a distributor or his authorized representative, or by any other person, and shall be removed from service.

TRANSPORTATION OF CYLINDERS

88.—(1) Cylinder valves and accessories while in transit shall be protected from physical damage by a ventilated cap or collar.

(2) Cylinders shall not be transported in a heated van unless the van is provided with a separate compartment where the temperature shall not exceed 125° Fahrenheit and the compartment shall be vented to the outside air by means of openings in the top and the bottom of the compartment.

(3) Cylinders in transit shall be kept away from open flame or direct heat.

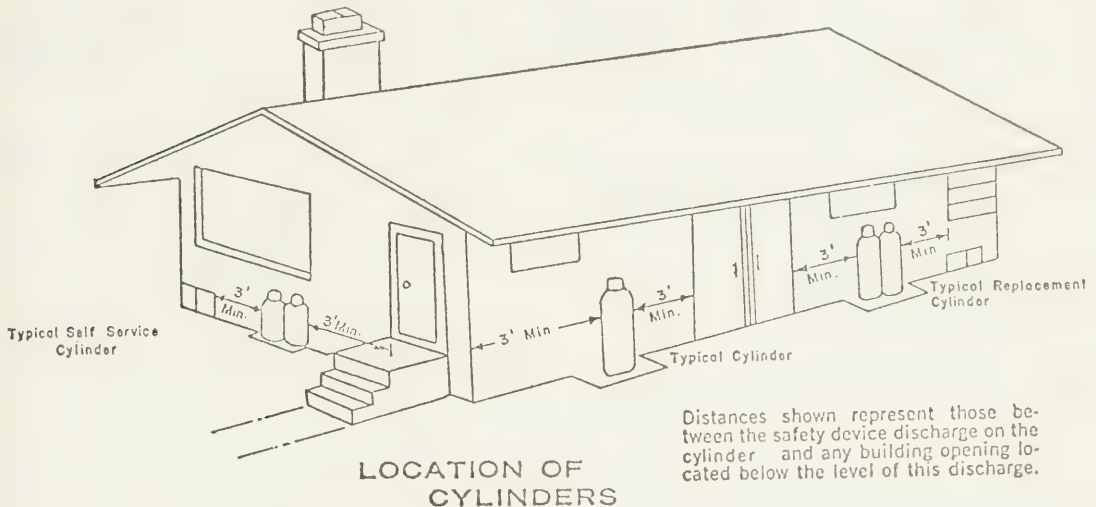

(4) Cylinders in transit shall be so secured as to prevent movement and where a cylinder has a WC in excess of $12\frac{1}{2}$ pounds, the cylinder shall be so secured

that the relief valve is in direct communication with the vapour space of the cylinder at all times.

LOCATION OF CYLINDERS

89.—(1) Subject to subsection 2 and to section 90, every cylinder shall be installed for use in a location outside a building as shown in the following Figure:

FIGURE

(2) A cylinder may be installed for use in a location indoors where,

(a) the cylinder is used for demonstration purposes and,

(i) contains a maximum of 5 pounds by weight of propane, and

(ii) is not manifolded to another cylinder or cylinders except with approval of the Chief Inspector; or

(b) the cylinder is used with a self-contained propane hand torch or similar equipment and has a maximum WC of $2\frac{1}{2}$ pounds.

(3) Where a cylinder is located outdoors, it shall not be buried underground or located below grade level unless,

(a) the cylinder is located in a compartment or recess that is in a slope or terrace wall and that is used for no purpose other than for containing the cylinder; and

(b) the compartment or recess, referred to in clause a, is drained and ventilated horizontally to the outside air from an outlet located,

(i) at the lowest level of the compartment or recess, and

(ii) not less than 3 feet from any building opening.

(4) Every cylinder shall be set upon a firm weather-proof base and where settling may occur, the outlet piping shall be guarded against settling by flexible connection.

(5) The discharge from,

(a) the safety relief valve on a cylinder located outdoors shall be,

(i) not less than 3 feet horizontally from an opening into any building where the opening is below the level of discharge, and

(ii) not less than 5 feet from the air intake of a sealed combustion chamber heater; or

(b) any safety relief valve on other than a cylinder shall not terminate,

(i) in any building,

(ii) beneath any building where the space is not well ventilated to the outside air,

(iii) within 5 feet from the air intake of a sealed combustion chamber heater, or

(iv) less than 10 feet from any container filled on location.

USE OF PROPANE FOR INDUSTRIAL APPLICATIONS

90.—(1) Cylinders may be located for use, but not for storage, inside a building or structure,

(a) where propane is to be used for,

(i) industrial processing, or

(ii) the construction, repair or improvement of a building or structure;

(b) where the cylinders have a WC in excess of $2\frac{1}{2}$ pounds and form part of a system that is equipped with excess flow valves and the excess flow valves,

(i) are integral with the cylinder valves, or

(ii) are in the connections to the cylinder valve outlets, the excess flow valve shall be installed in such a manner that

any strain beyond the excess flow valve will not cause breakage between a cylinder and the excess flow valve;

- (c) where the movement of cylinders from one location to another is necessary, making their location outside the building or structure impracticable;
- (d) if a regulator is used and is directly connected to the cylinder valve or is located on a manifold that is connected to the cylinder valve and the regulator is of a type approved for use with propane; or
- (e) if the total capacity of the cylinders connected to each manifold does not exceed 300 pounds of propane by weight and not more than one such manifold with cylinders is located in the same room, unless separated by at least 50 feet.

(2) Manifolds and fittings connecting cylinders to pressure reducing regulator inlets shall be designed to withstand at least 500 psig.

(3) Cylinders, regulating equipment and manifolds shall be located where they are not subjected to temperatures in excess of 125° Fahrenheit, physical damage or tampering.

(4) Where repair work is being carried out in a building that is not in the process of being constructed and that is occupied by persons, propane equipment used in the repair work shall be attended at all times by the person using the equipment.

DELIVERY TO AND STORAGE OF CYLINDERS FOR USE OR SALE AT OTHER THAN FILLING PLANTS

91.—(1) Sections 91 to 96 apply to the storage of cylinders, filled or partially filled, that are delivered to the user location but not connected for use, or that are delivered to a distributor and are in storage for sale at other than filling plants.

(2) Cylinders in storage,

- (a) shall not be exposed to temperatures in excess of 130° Fahrenheit, physical damage or tampering;
- (b) that are permitted, by section 89 or by the Chief Inspector, to be stored inside a building, shall not be located,

(i) in exits,

(ii) where cylinders may block the entrance to exits,

(iii) in stairways, or

(iv) in areas used or intended for the safe exit of persons;

(c) whether empty or filled and the design of which provides for the use of valve protecting caps shall have the caps in place, other than,

(i) new cylinders having a plug installed in lieu of a cylinder valve, or

(ii) cylinders being processed in a cylinder filling plant;

(d) shall have the service valve closed;

(e) that are empty and have been in service,

(i) shall, subject to subclause ii, be stored outside a building, or

(ii) where stored inside a building, shall be deemed to be full cylinders for the purpose of determining the quantity of propane permitted in section 92;

(f) shall be located on a firm, level base in an upright position with the relief valve in communication at all times with the vapour space of the cylinder;

(g) shall be protected with protective caps or collars against accumulations of ice and snow;

(h) shall be located not less than 10 feet from combustible materials;

(i) shall be provided with "No Smoking" signs conspicuously posted at the cylinder storage area; and

(j) shall be located not less than 25 feet from flammable liquids, combustible gases other than propane, or from oxygen.

STORAGE WITHIN BUILDINGS OR ROOMS

92.—(1) The quantity of propane stored in buildings or rooms shall not exceed 10,000 pounds, except with the approval of the Chief Inspector.

(2) The walls, floors and ceilings of cylinder storage rooms that are within or adjacent to other parts of the building shall be constructed of material having at least a two-hour fire resistance rating.

(3) A portion of the exterior walls or roof, having an area of not less than 10 per cent of the combined area of the enclosing walls and roof, shall be of single strength glass or of other explosion relieving construction.

(4) Each opening from cylinder storage rooms to other parts of the building shall be protected by a 1½ hour listed fire-door, and the openings shall not communicate with those areas of the building that are frequented by persons.

(5) There shall be no open flames or other sources of ignition in cylinder storage rooms.

(6) Cylinder storage rooms shall be adequately ventilated to the outside air with screened vents located at the top and at the bottom of a wall of the room and the openings from the screened vents shall be not less than 5 feet from any other opening into any building and not less than 25 feet from any source of ignition.

(7) The floor of the cylinder storage room shall not be below ground level and any space below a floor shall be filled with firm-tamped earth or adequately ventilated to the outside air.

(8) Cylinder storage buildings or rooms shall be located not less than 50 feet from the adjoining line of property occupied by a school, church, hospital, athletic field or other place of gathering, whether public or private.

(9) The storage required by this section shall not be permitted inside or within 50 feet of buildings frequented by persons, except with the approval of the Chief Inspector.

(10) The electrical installation in cylinder storage buildings or rooms shall be in accordance with "Class I, Division II Hazardous Locations" as contained in Ontario Regulation 378/66, being the Electrical Code.

STORAGE WITHIN BUILDINGS FREQUENTED BY PERSONS

93. Cylinders having a capacity up to 2½ pounds WC when filled in accordance with the Table to clause a of subsection 2 of section 87 may be stored or dis-

played in buildings frequented by persons if the total amount of propane on display and in storage does not exceed 200 pounds by weight.

STORAGE OF CYLINDERS FOR USE, LOCATED OUTSIDE BUILDINGS

94.—(1) The storage of cylinders for temporary applications, including heating at construction sites, shall meet the requirements of subsection 2 of section 91.

(2) The storage of cylinders located on the property of the user, other than cylinders referred to in subsection 1, shall meet the requirements of subsection 2 of section 91 and shall be located away from,

- (a) direct access to open flame or other sources of ignition;
- (b) buildings inhabited by persons or containing combustible material; or
- (c) the property line of the user, in accordance with the following Table:

TABLE

Quantity of Propane in Pounds	Minimum Clearance in Feet
Up to 1,500	10
1,501 to 10,000	25
Over 10,000	50

(3) Cylinder storage shall be located not less than 50 feet from the adjoining line of property occupied by a school, church, hospital, athletic field or other place of gathering whether public or private.

(4) Where cylinders are stored against a building, the discharge from safety relief valves on the cylinders shall be not less than 3 feet horizontally from any building opening that is below the level of discharge.

STORAGE OF CYLINDERS FOR SALE, LOCATED OUTSIDE BUILDINGS

95.—(1) Outside cylinder storage area or dock shall be located not less than 25 feet from,

- (a) direct access to open flame or similar sources of ignition;
- (b) any public thoroughfare;
- (c) any building that is inhabited by persons;
- (d) any building used for storing combustible materials; or
- (e) any property line that can be built upon.

(2) Outside cylinder storage area or dock shall be located not less than 50 feet from the adjoining line of property occupied by a school, church, hospital, athletic field or other place of gathering, whether public or private.

(3) Unless specific exemption is given by the Chief Inspector, cylinders in storage shall be fenced so that,

- (a) the fence,
 - (i) shall be not less than 6 feet in height of which the top foot may consist of 3 strands of barbed wire, spaced 4 inches apart,

- (ii) in respect to height shall be measured from grade level at all points on the perimeter and, where a cylinder dock is used, shall be more than 6 feet in height to extend not less than 1 foot higher than the top of the highest cylinder,

- (iii) shall be of metal wire of not less than 12 gauge and having openings not greater than 2 inches by 2 inches, and

- (iv) posts are of wood, angle iron, pipe, or equivalent, spaced not more than 10 feet apart and set securely; or

(b) the fence,

- (i) shall be not less than 6 feet in height, of which the top foot may consist of 3 strands of barbed wire, spaced 4 inches apart,

- (ii) in respect to height shall be measured from grade level,

- (iii) shall be of metal wire of not less than 12 gauge and having openings not greater than 6 inches by 6 inches,

- (iv) posts are of wood, angle iron, pipe, or equivalent, spaced not more than 10 feet apart and set securely,

- (v) shall enclose all stored cylinders and be located not less than 4 feet from the cylinder dock or storage area, and

- (vi) shall be so located that the valves of cylinders stored within the fence are not less than 4 feet from the fence.

(4) The area beneath a cylinder dock,

- (a) shall be well-ventilated and enclosed to prevent access by persons or the accumulation of combustible material; or

- (b) shall be filled with well-tamped earth.

STORAGE OF CYLINDERS AT FILLING PLANTS

96.—(1) All cylinders shall be stored inside the fenced or enclosed area of a filling plant.

(2) Cylinders shall not be stored within 25 feet of a filling plant property line that can be built upon.

(3) Cylinders may be stored alongside a fence if the openings in the fence material are not greater than 2 inches by 2 inches.

(4) Cylinders shall not be stored with their valves less than 4 feet from the fence if the fence material has openings greater than 2 inches by 2 inches.

(5) Cylinders stored within the filling plant shall not obstruct means of access to the filling plant or roadways within the filling plant.

(6) Cylinders stored in filling plants shall be located not less than 10 feet from weeds, long grass or other combustible material.

TANKS

97.—(1) Sections 97 to 109 apply to the fabrication, design, repair, installation, location and filling of tanks and to the requirements for accessory equipment for consumer installations, filling plants, dispensing units and service stations.

(2) The fabrication and repair of tanks shall be such that,

(a) the tank is designed, fabricated and tested in accordance with *The Boilers and Pressure Vessels Act, 1962-63* and the regulations thereunder, and shall be marked with the WC in pounds or gallons and the tare weight of the tank in pounds;

(b) each storage tank of 2,000 U.S. gallons WC or over is provided with a pressure gauge;

(c) not more than two plugged openings are in a tank of 2,000 U.S. gallons WC or less;

(d) tanks of 2,000 U.S. gallons WC or less, filled on a volumetric basis, and manufactured after the 1st day of December, 1965 are equipped for filling into the vapour space;

(e) tanks of 125 U.S. gallons WC or more, manufactured after the 1st day of December, 1964 are provided with an approved device other than a plugged opening, for liquid evacuation, and the size of which device shall be not less than 3/4 inch standard pipe size;

(f) subject to clause g, the filling connections are fitted with,

(i) a combination of a single back-pressure check valve and an excess flow valve,

(ii) one double or two single back-pressure check valves, or

(iii) a positive shut-off valve used with an internal back-pressure check valve or an internal excess flow valve;

(g) tanks of 480 pounds WC or 200 pounds propane capacity, or less, installed outside buildings and not on mobile equipment may have the filling connection fitted with a single back-pressure check valve;

(h) no welding is done to the shell, or any other part of the tank that is subject to internal pressure, except with the approval of the Boiler and Pressure Vessel Branch of the Department of Labour; and

(i) field welding, where necessary, is made only on saddle plates or brackets that were applied by the manufacturer of the tank.

(3) Every tank installed after the 31st day of August, 1967 shall be equipped with a fixed liquid level gauge.

(4) Excess flow valves are not required on liquid level gauging devices that are so constructed that the outward flow of tank contents does not exceed the flow passed by a No. 54 drill size opening.

(5) Subject to subsections 3 and 4 of section 126, liquid level gauging devices that require bleeding of the propane to the outside air shall be so designed that the bleed valve maximum opening is not larger than a No. 54 drill size.

(6) Liquid level gauging devices shall have a design working pressure of at least 250 psig.

(7) The length of a fixed tube gauging device shall be designed to indicate the maximum level to which the tank may be filled, which level shall be based on the volume of the propane at 40° Fahrenheit at its maximum permitted filling density.

(8) Where a fixed tube gauging device is used on a tank, the length of the dip tube,

(a) shall be expressed in inches carried out to one decimal place; and

(b) shall be preceded by the letters "DT", die-stamped on the exterior of the device,

except where the device is located at or below the maximum permitted filling level of the tank or on a tank where the gauge is positioned at a specific level in which case the marking may be specified in per cent of the total tank contents with the marking stamped on the tank.

(9) Gauging devices of the float or equivalent type that do not require flow for their operation and have connections extending to a point outside the tank are not required to be equipped with excess flow valves, so long as the piping and fittings are designed to withstand the tank pressure and are protected against physical damage and breakage.

(10) Every tank shall be provided with one or more safety relief valves meeting the requirements of *The Boilers and Pressure Vessels Act, 1962-63* and the regulations thereunder.

(11) Safety relief valves on tanks shall be set to start to discharge, with regards to the design pressure of the tank, in accordance with the following Table:

TABLE

Tank	Minimum	Maximum*
ASME Code: Par. U-68, U-69 - 1949 and earlier editions	110%	125%
All other ASME API editions	88	100

*NOTE: A plus tolerance of 10 per cent is permitted.

(12) Safety relief devices used with tanks shall be constructed so as to discharge at not less than the rates shown in the following Table, before the pressure is in excess of 120 per cent of the maximum:

TABLE

MINIMUM REQUIRED RATE OF DISCHARGE FOR SAFETY RELIEF VALVES FOR TANKS

Total Surface Area of the Tank in Square Feet	Air Flow Rate in Cubic Feet per Minute
20	626

(13) Safety relief valve assemblies, including connections shall be of sufficient size to provide the rate of flow required for the tank on which the safety relief valve assemblies are installed.

(14) Every tank safety relief valve shall be connected directly to the relief valve opening in the tank having direct communication with vapour space of the tank.

(15) Shut-off valves shall not be installed between the safety relief valves and the tank, other than a safety relief valve designed to provide at all times the full flow capacity required.

(16) A hydrostatic safety relief valve shall be installed between each pair of shut-off valves located on liquid propane piping so that the hydrostatic safety relief valve relieves to a safe location in the outside air, and the start-to-discharge pressure setting of a hydrostatic safety relief valve shall not be in excess of 500 psig and the minimum setting of a hydrostatic safety relief valve installed in piping connected to a tank shall not be less than 350 psig.

DISCHARGE FROM RELIEF VALVES

98.—(1) The discharge from safety relief valves on tanks not exceeding 125 U.S. gallons WC shall be,

- (a) not less than 5 feet horizontally from an opening into a building, where the opening is below the level of discharge; and
- (b) not less than 5 feet from the air intake of a sealed combustion chamber heater.

(2) Where a tank has a WC of not less than 125 U.S. gallons and not more than 2,000 U.S. gallons, the discharge from the safety relief valves shall,

- (a) be unobstructed and vented vertically upwards to the outside air; and
- (b) be provided with loose fitting rain caps,

in such a manner as to prevent impingement of escaping propane upon the tank or upon adjacent tanks.

(3) Where a tank has a WC of more than 2,000 U.S. gallons the discharge from the safety relief valve shall,

- (a) be unobstructed and vented vertically to the outside air by means of a discharge pipe or pipes that terminate not less than 7 feet above the tank; and
- (b) be provided with loose fitting rain caps,

in such a manner as to prevent impingement of escaping propane upon the tank or upon adjacent tanks.

(4) The safety relief valve discharge pipes shall be so located as to provide protection against physical damage and shall be provided with loose fitting rain caps, and return bends and restrictive pipe fittings shall not be used in the safety relief valve discharge pipes.

(5) The discharge from the safety relief valve of a tank other than a tank as referred to in section 122 to 134, shall not terminate,

- (a) in a building; or
- (b) under a building unless the space under the building is well-ventilated to the outside air.

(6) In other than a propane filling plant the discharge pipe from safety relief valves on liquid propane piping within a building shall discharge vertically upward and shall be piped to a point outside the building not less than 5 feet horizontally from an opening into the building below the level of discharge, and loose fitting rain caps shall be used on the discharge pipe.

(7) Discharge pipes from two or more safety relief valves may be run into a common discharge header, so long as the cross sectional area of the header is at least equal to the sum of the cross sectional areas of the individual discharge lines, and each relief valve shall have the same setting.

EXCESS FLOW AND INTERNAL VALVES

99.—(1) Subject to subsections 2, 7 and 8, all tank openings, other than safety relief valves, gauging devices and plugged openings, shall be equipped with approved excess flow valves.

(2) An excess flow valve is not required in the vapour withdrawal service line where,

- (a) the WC of the tank does exceed 2,000 U.S. gallons; and
- (b) the discharge from the service outlet is controlled by a manually operated shut-off valve that,
 - (i) is threaded directly into the service outlet of the tank,
 - (ii) is an integral part of a substantial fitting, threaded into or on the service outlet of the tank, or
 - (iii) is threaded directly into a substantial fitting, threaded into or on the service outlet of the tank;
- (c) the shut-off valve is equipped with an attached hand-wheel or an equivalent device;
- (d) the controlling orifice between the contents of the tank and the outlet of the shut-off valve does not exceed 5/16 inch in diameter; and
- (e) an approved pressure-reducing regulator,
 - (i) is directly attached to the outlet of the shut-off valve and is rigidly supported, or
 - (ii) is attached to the outlet of the shut-off valve by means of an approved flexible hose connection if the regulator is supported and protected on or at the tank.

(3) Excess flow or back pressure check valves shall be located inside the tank or at a point outside the tank where the line enters the tank and where located outside the tank the installation shall be made in a manner that prevents strain beyond the excess flow or back pressure check valve from causing breakage between the tank and the excess flow or back pressure check valves.

(4) Excess flow valves shall close at their rated flow of vapour or liquid.

(5) To permit equalization of pressures, excess flow valves shall be designed with a by-pass opening that shall not exceed a No. 60 drill size opening.

(6) Liquid propane piping, including valves and fittings, shall be,

- (a) of a sufficient size to permit the tank excess flow valves to function; or
- (b) equipped with line excess flow valves.

(7) Openings from a tank, or through fittings attached directly on a tank to which a pressure gauge connection is made, do not require shut-off or an excess flow valve where the opening does not exceed a No. 54 drill size opening.

(8) In lieu of an excess flow valve, tank openings may be fitted with a quick-closing internal valve that, except during operating periods, shall remain closed, and the internal mechanism for the quick-closing internal valve shall be provided with a secondary control equipped with a fusible plug having a melting point not in excess of 220° Fahrenheit that will cause the internal valve to close in case of fire.

LOCATION OF TANKS

- 100.—(1) Tanks shall be,
- (a) located outside buildings; and
 - (b) located with respect to the nearest building or adjoining property line that can be built upon,

in accordance with the following Table:

TABLE

Tanks Used in Consumer Applications		
Water Capacity per Tank	****Minimum Distance in Feet Between	
U.S. Gallons	Tank(s) and ***buildings or property lines	Adjacent Tanks
Less than 125	None	None
125 to 500	10	3
501 to 2,000	25*	3
2,001 to 30,000	50	10
over 30,000***	75	10

*This distance requirement may be reduced to not less than 10 feet for a single tank of 1,000 U.S. gallons or less WC if the tank is not less than 25 feet from any other propane container of more than 125 U.S. gallons WC.

**The installation of tanks of more than 30,000 U.S. gallons WC is subject to the approval of the Chief Inspector who may increase or decrease the indicated spacing requirement.

***Buildings do not include buildings to house vapourizers.

****The minimum allowable distance shall be not less than 25 feet regardless of the size of the tank, when the tank is used as a dispensing unit.

- (2) Subject to subsection 3, the separation between propane tanks and flammable liquid tanks or containers of combustible gases, including oxygen, shall be not less than 25 feet, and the separation between the shell of a propane tank and the centre line in a dike shall be not less than 10 feet.
- (3) Subsection 2 does not apply to propane tanks of 125 U.S. gallons or less individual WC that are installed adjacent to tanks of 250 Canadian gallons or less individual capacity containing flammable liquids having a flash point of 110° Fahrenheit or greater.

INSTALLATION OF TANKS

- 101.—(1) Tanks shall not be stacked on top of each other.
- (2) Tanks shall not be buried or placed below grade without the prior approval of the Chief Inspector.

- (3) Tanks shall not be located within a diked area used for flammable liquid containers.
- (4) Where piers are required they shall extend below the frost line.
- (5) Tanks and systems shall be protected from damage that may result from vehicular traffic.
- (6) Tanks subject to water displacement shall be securely anchored.
- (7) Where tanks are interconnected, or connected to pumping equipment,
- (a) horizontal tanks shall be mounted on saddles or concrete piers in a manner that permits expansion and contraction;
 - (b) provision shall be made to compensate for expansion, contraction, vibration and settling of the tanks and interconnecting piping;
 - (c) and flexible hose connectors are used, the hose connectors shall be of a type approved for the purpose intended;
 - (d) hose or swing joints shall not be used;
 - (e) and two or more tanks are interconnected, the tops of the tanks shall be on the same horizontal plane; and
 - (f) not installed on a common base or pier, flexible hose connectors shall be used.

(8) All valves, fittings and equipment connected directly to the tank, including primary shut-off valves, shall be approved and may be made of malleable or nodular iron but shall not be made of cast iron.

(9) Subject to subsections 4, 5 and 6 of section 99, all connections to tanks, except safety relief valve connections, liquid level gauging devices, and plugged openings shall have,

- (a) shut-off valves located as close to the tank as practicable;
 - (b) double back-check valves; or
 - (c) combinations of a single back-check valve and a single excess flow valve.
- (10) Subject to subsection 12, tanks of not more than 2,000 U.S. gallons WC may be installed with non-fireproofed ferrous metal supports if,
- (a) the tanks are mounted on concrete pads or footings; and
 - (b) the distance from the outside bottom of the tank shell to the concrete pads or footings or to the ground does not exceed 24 inches,

but in no case shall individual blocks at each corner of the tanks be used.

- (11) Tanks of more than 2,000 U.S. gallons WC shall be supported,
- (a) on not more than two supports to prevent the concentration of excessive loads on the supporting portion of the tank shell;
 - (b) with structural metal supports with the prior approval of the Chief Inspector;
 - (c) with means of preventing corrosion provided on that portion of the tank in contact with the foundations or saddles;
 - (d) in such a manner that a space of not less than 4 inches is provided between the bottom of the tank and the grade level; and

- (e) the footings shall not be placed on unconsolidated ground and shall be designed for a maximum bearing pressure on the soil of not more than 2,000 pounds per square foot, unless otherwise approved by the Chief Inspector.

(12) Tanks with foundations attached and skid tanks, being portable or semi-portable tanks with steel runners or skids, shall be designed, installed and used so that,

- (a) skid tanks shall have fire-resisting foundations or saddles, or ferrous metal supports;

- (b) skid tanks shall be located with the outside bottom of the tank shell not more than 5 feet above the surface of the ground unless fire-resisting supports are provided for the skids;

- (c) the bottom of the skids shall not be less than 4 inches or more than 24 inches below the outside bottom of the tank shell;

- (d) all flanges, nozzles, valves and fittings, having communication with the interior of the tank are protected against physical damage;

- (e) tank piping connections are sufficiently flexible to minimize the possibility of breakage or leakage of connections if the tank settles, moves or is otherwise displaced; and

- (f) skids, lugs and other attachments to tanks are designed to withstand loading, in any direction, equal to four times the weight of the filled tank and the attachments.

(13) Where tanks are installed in pits, the pits shall be equipped with automatic flammable vapour detection devices and mechanical venting.

(14) Dikes, diversion curbs, or grading shall be used to prevent the accumulation under tanks of flammable liquids from containers.

(15) An area of not less than 10 feet in all directions, on a horizontal plane, from every tank shall be kept clear of combustible materials.

FILLING OF TANKS

102.—(1) Where a distributor fills a tank, he shall ensure that the maximum filling density of the tank, as set out in subsection 2, is not exceeded.

(2) The filling of tanks shall be only by permission of the tank owner and be,

- (a) by volume in accordance with Table 1, where the tank is equipped with an approved liquid level gauge designed for the tank; or

- (b) by weight in accordance with Table 2.

(3) Where propane is being transferred from a container to a tank, the distributor, or a person authorized by him, shall be in attendance at the tank being filled and shall be in possession of at least a Class 3 Licence.

(4) Propane shall not be vented to the outside air for the purpose of assisting the transferring of the content of one tank to another other than containers having a maximum WC of 2½ pounds, but venting at the gauging device is permitted to determine the tank content.

(5) Tanks shall be gauged and filled only in the outside air or in buildings especially provided for the gauging or filling of tanks.

(6) Tanks shall not be filled by a distributor, his authorized representative or by any other person, where the tank is damaged, corroded or not installed in accordance with these regulations.

FILLING PLANTS

103.—(1) Plans shall be submitted in duplicate for approval to the Chief Inspector prior to the construction of, or alteration to, or addition to the storage or transfer equipment in a filling plant.

(2) Tanks used in filling plants shall be,

- (a) located outside buildings; and
- (b) located with respect to the nearest building or adjoining property line that can be built upon, in accordance with the following Table:

TABLE

Tanks Used in Filling Plant Applications		
Total Water Capacity of Tank(s)	Minimum Distance in Feet Between	
U.S. Gallons	***Tank(s) and Buildings or Property Lines	Adjacent Tanks
Up to 2,000	25	3**
2,001 to 10,000	50*	3**
over 10,000	100*	5*

* These distances are subject to the prior approval of the Chief Inspector who may increase or decrease the indicated spacing requirement.

**If tanks of a multiple tank installation are installed on a common base or pier, this clearance may be waived.

***Buildings do not include container filling or storage buildings or pump rooms or buildings housing vapourizers.

(3) All electrical wiring and equipment located within 25 feet, in a horizontal direction, from tank valves, filling buildings, pumps, compressors, points of transfer or similar locations in a filling plant shall be of the type approved for use in Class I, Group D, Hazardous Locations, and the installation of the electrical wiring and equipment shall be in accordance with "Class I, Division II, Hazardous Locations" as contained in Ontario Regulation 378/66, being the Ontario Electrical Code.

(4) All tanks shall be stored inside the fenced or enclosed area of a filling plant.

CONTAINER FILLING OR STORAGE BUILDINGS OR PUMP OR COMPRESSOR BUILDINGS

104.—(1) Container filling or storage buildings or pump or compressor buildings shall,

- (a) be constructed of non-combustible materials, except that the rafters, floor and studding may be of wood construction;
- (b) be ventilated with openings to the outside air in at least 2 walls, exclusive of doors,
 - (i) at floor level and at or near the ceiling,
 - (ii) with each opening not less than 1 square foot for every 500 square feet of floor space, and
 - (iii) with the openings, if possible, in opposite walls;
- (c) have the area beneath the floor,
 - (i) well-ventilated and enclosed to prevent access by persons or the accumulation of combustible materials, or
 - (ii) filled with well-tamped earth;

(d) have two or more exits where the distance to an exit is more than 15 feet, and where there are two or more exits, the distance between two exits in the same wall shall not be more than 75 feet and,

(i) exit doors shall be hinged to open outwards, and

(ii) any latch on an exit door shall be of the magnetic or friction type; and

(e) have explosion relief to the outdoors of not less than 1 square foot for each 50 cubic feet of building volume and the type of explosion relief venting shall be,

(i) an open area,

(ii) an outwardly opening sash, or panels with explosion relief venting latches, or

(iii) of glass of the non-reinforced type.

105.—(1) Unless the Chief Inspector otherwise permits, a fence shall be erected and shall enclose and be located not less than 10 feet from,

(a) a dock of a container filling room or building;

(b) container filling equipment;

(c) open storage area occupied by containers;

(d) loading and unloading outlets;

(e) pumps and compressors;

(f) storage tanks; and

(g) a truck parking area for cargo tank trailers or tank trucks or container delivery trucks loaded with containers.

(2) The fence required by subsection 1 shall be not less than 6 feet in height of which the top foot may consist of three strands of barbed wire spaced 4 inches apart, and the fence shall be of metal wire of not less than 12 gauge having openings not greater than 6 inches by 6 inches with at least two means of access provided in the fence, and the fence posts may be of wood, angle iron, pipe or equivalent, spaced not more than 10 feet apart and set securely.

(3) Light shall be provided to illuminate storage tanks, tank control valves, and other equipment when propane is loaded or unloaded during other than daylight hours.

(4) Roadways or means of access for wheeled fire-extinguishing equipment, or fire department apparatus shall be provided.

(5) No part of a container filling building shall be used as a boiler room, and no part of a container filling building shall have open flames or similar sources of ignition.

(6) The container filling room shall be located not less than,

(a) 10 feet from a bulk storage tank;

(b) 25 feet from,

(i) buildings, other than pump or compressor buildings,

(ii) a property line that can be built upon, or

(iii) tanks or containers of flammable liquids or combustible gases, other than propane;

- (c) 10 feet from pumps or compressors that are housed in separate buildings; or
 - (d) 10 feet inside the fenced area, except as provided in subsection 1 of section 106.
- (7) Tank truck filling station outlets shall be located not less than,
- (a) 25 feet from a property line that can be built upon;
 - (b) 10 feet from pumps or compressors that are housed in separate buildings;
 - (c) 25 feet from containers of flammable liquids or combustible gases, other than propane;
 - (d) 10 feet from storage tanks to the vehicles loading or unloading propane;
 - (e) 25 feet from a source of ignition;
 - (f) 10 feet from a container filling location or a container filling scale location; or
 - (g) 10 feet inside the fenced area, except as provided in subsection 1 of section 106.
- (8) Pumps and compressors may be located in the container filling room or building, and where housed in one or more separate buildings shall be located not less than,
- (a) 10 feet from bulk storage tanks;
 - (b) 25 feet from,

- (i) a property line that can be built upon,
- (ii) tanks or containers of flammable liquids or combustible gases, other than propane, and
- (iii) a source of ignition other than a propane tank truck arriving or departing;

- (c) 10 feet from a container filling location or a container filling scale location; or
- (d) 10 feet inside the fenced area, except as provided in subsection 1 of section 106.

DISPENSING LOCATIONS OR SERVICE STATIONS

106.—(1) Tanks and all dispensing equipment used in dispensing locations or service stations shall,

- (a) be fenced as described in subsection 2 of section 105; or
- (b) be protected by crash rails or guards to prevent physical damage,

unless the tanks and dispensing equipment are protected because of their location.

(2) A manual shut-off valve and an excess flow check valve shall be downstream of a pump and be located ahead of the hose of the dispensing equipment.

(3) A remote control shall be provided to permit the shutting off of the power to the dispensing equipment in the event of fire or other accident.

(4) Propane dispensing equipment shall not be installed within or attached to buildings but may be located under a weather shelter or canopy if the weather shelter or canopy is not enclosed on more than two sides, and where the enclosing sides are adjacent to each other, the weather shelter or canopy shall be ventilated.

(5) A vehicle fuelling outlet shall be located not less than,

- (a) 10 feet from bulk storage tanks;
- (b) 10 feet from pumps or compressors that are housed in separate buildings;
- (c) 10 feet from a container filling location or a container filling scale location;
- (d) 25 feet from a property line that can be built upon;
- (e) 10 feet from the nearest masonry walled building;
- (f) 25 feet from the nearest building of other than masonry construction; and
- (g) 25 feet from any opening in a building.

(6) Tanks shall be located in accordance with the Table to subsection 2 of section 103.

(7) While propane is being transferred from one container to another container, the distributor or a person designated to act in his behalf, shall be in attendance at the container being filled.

PAINTING

107. Tanks shall be kept painted to prevent rust and deterioration.

PERMISSIBLE PRODUCT

108.—(1) Tanks equipped for propane use shall not be used for anhydrous ammonia.

(2) Tanks equipped and used for anhydrous ammonia shall not be used for propane without the written permission of the Chief Inspector.

FILLING PLANTS SERVED BY RAIL

109.—(1) Where a distributing facility or container filling plant is located upon railroad property, the distributing facility or container filling plant shall, in addition to the requirements of this Regulation, meet the BTC requirements as published in BTC General Orders O-31 1965, E-16 1965 and E-10 1965.

(2) A distributing facility or container filling plant that is located on private property and that is served by rail shall meet the requirement of sections 103 to 105 and of subsections 3 to 13 of this section.

(3) Loading or unloading railway tracks at the loading or unloading site shall be,

- (a) not less than 50 feet from a filling plant property line that can be built upon;
- (b) not less than 50 feet from the main railway track;
- (c) not less than 20 feet from the nearest adjacent railway track that does not serve the loading or unloading site; and
- (d) not less than 20 feet from any storage tank or building,

and distances required by clauses *a*, *b*, *c* and *d* shall be measured from the gauge side of the nearest rail of the nearest adjacent railway track that does not serve the loading or unloading site or the main railway track to the centre line of the unloading or loading track.

(4) A storage tank shall be located not less than 20 feet measured from the gauge side of the nearest rail of any railway track to the nearest point on the tank shell.

(5) The distances from the gauge side of the nearest rail of the main railway track to the nearest point on the tank shall be in accordance with the following Table:

TABLE

Water Capacity of Tank in U.S. Gallons	Minimum Distance in Feet
0 to 2,000	20
2,001 to 10,000	75
over 10,000	100

(6) Any portion of,

(a) the overhead loading or unloading structure or equipment that is more than 4 feet above the top of the rail shall be not less than 6 feet from the gauge side of the nearest rail of the loading or unloading railway track; and

(b) the structure that is 4 feet or less in height above the top of the rail shall be not less than 3 feet 7 $\frac{3}{4}$ inches from the gauge side of the nearest rail of the loading or unloading railway track,

and where the loading or unloading railway track is curved, the clearance distance shall be increased by one inch per degree of track curvature.

(7) Loading or unloading terminals or structures of an overall height that is not less than 4 feet above the top of the rail shall be located not less than 6 feet from the gauge side of the nearest rail of the loading or unloading railway track.

(8) Pumps and compressors shall be designed for use with propane.

(9) A sign stating "Tank Car Connected" shall be located at the active end or ends of the siding while the tank car is connected for unloading.

(10) While tank cars are on a side track for unloading, the wheels of the tank car at both ends shall be blocked on the rails.

(11) The distributor, or an employee of the distributor authorized by the distributor, shall be in attendance while the tank car, tank cars or tank trucks are being unloaded.

(12) The piping connecting the tank car unloading hoses shall be equipped with a back flow check valve to prevent discharge of the propane from the receiving tank and piping in case of mechanical failure of piping hose or fittings.

(13) Where the filling plant piping, hoses or connections have a flow capacity of less than the rated flow capacity of the excess flow valve in the tank car being unloaded, secondary excess flow valves of the required flow capacity shall be installed in each connection to the tank car.

TRANSPORTS AND TANK TRUCKS AND THE TRANSPORTATION OF PROPANE

110.—(1) Sections 110 to 121 and subsection 2 of section 97 apply to tanks and equipment mounted on tank trucks, tank semi-trailers and tank trailers used for the transportation of propane.

(2) Tanks shall be filled in accordance with section 102.

(3) All tank truck, tank trailer and tank semi-trailer tank loads, shall be gauged by weight or by a fixed liquid level or rotary gauging device.

(4) All tank trucks, tank trailers, and tank semi-trailers shall, when being filled, be parked on a firm, level pad or area and the driver of the truck shall be in attendance at the container being filled.

(5) Gauging devices that require bleeding propane to the outside air shall be so designed that the bleed valve opening is not larger than a No. 54 drill size opening, unless the gauging device is equipped with an excess flow valve.

(6) Gauging devices shall have a design working pressure of not less than 250 psig.

(7) A gauging device that is used to determine the maximum allowable filling limit of a cargo tank of a trailer or tank semi-trailer shall be located as near as practicable to the mid-point, front-to-rear, of the cargo tank, and where a variable type gauging device is used, a fixed tube gauging device set in the range of 85 per cent to 90 per cent WC of the tank shall be provided to check the accuracy of the variable gauge, and the capacity indicated by the fixed gauge shall be marked on or near the fixed tube gauging device, which shall be secured so as to prevent tampering with the setting.

(8) The discharge from the tank safety relief valves shall be vented from the tanks in an upward and unobstructed manner to the outside air in such a way as to prevent any impingement of escaping propane upon the tanks, and the size of the discharge lines from the safety relief valves shall not be smaller than the nominal size of the relief valve outlet connection.

(9) The discharge outlet from a safety relief valve shall be provided with a rain cap or other protector to keep water and dirt from collecting in the safety relief valve, and the protector shall not reduce the flow through the valve and, where a safety relief valve is installed in a well in the top of a tank, the well shall be kept painted or otherwise protected to reduce corrosion and shall be kept free of water and dirt.

(10) A hydrostatic safety relief valve shall be installed between each pair of shut-off valves located on liquid propane piping so that the hydrostatic relief valve relieves to a safe location in the outside air and the start-to-discharge pressure setting of a hydrostatic safety relief valve shall not be in excess of 500 psig and the minimum setting of a hydrostatic safety relief valve installed in the liquid propane piping connected to a tank shall not be less than 350 psig.

(11) All connections to tanks, except safety relief and liquid level gauge connections, shall be equipped with,

- (a) back check or excess flow valves; or
- (b) quick-closing internal valves.

(12) All primary valves, except during delivery operations, shall be closed and, where control mechanism for the primary valves is provided with a secondary control that is remote from the delivery connections, the control mechanism shall be equipped with a fusible section having a melting point not less than 220° Fahrenheit that will cause the primary valve to close in case of fire.

(13) The tank filling connection shall be fitted with,

- (a) a combination of a single back-pressure check valve and an excess flow valve;
- (b) one double or two single back-pressure check valves; or

- (c) a positive shut-off valve used with,
 - (i) an internal excess flow valve, or
 - (ii) an internal back-pressure check valve.

(14) Subject to subsection 15, liquid discharge openings in tank trucks or cargo tank trailers shall be equipped with a remotely controlled internal shut-off valve and the valve shall be located so that,

- (a) the seat of the valve shall be,
 - (i) inside the tank, or
 - (ii) in the opening nozzle or flange, or
 - (iii) in a companion flange bolted to the nozzle or flange;
- (b) all parts of the valve inside the tank, nozzle or companion flange shall be made of material that is not subject to corrosion or other deterioration in the presence of propane;
- (c) the arrangement of the parts of the valve shall be such that damage to the parts outside the tank will not prevent effective seating of the valve; and
- (d) the valve shall be provided with a remote means of closure, both mechanical and thermal, in at least two places located at each end of the tank diagonally opposite each other on tanks of 3,500 U.S. gallons WC or over, and the thermal control mechanism shall have a fusible element with a melting point not less than 220° Fahrenheit and only one remote control station shall be provided for tanks of less than 3,500 U.S. gallons WC and the actuating means of closure shall be mechanical.

(15) Tank trucks and cargo tank trailers existing when this Regulation comes into force shall comply with the requirements of subsection 14, on or before the 31st day of December, 1967.

(16) Each cargo tank truck shall be provided with an opening that affords complete drainage of the tank.

PIPING, FITTINGS AND HOSE

111.—(1) Piping, tubing and fittings shall be securely mounted and protected against damage and breakage.

(2) Piping, tubing and fittings shall be designed for a pressure of not less than 250 psig and pipe shall be at least Schedule 80 if joints are threaded, or threaded and back welded, or if joints are welded or welded and flanged, the pipe shall be at least Schedule 40, CSA Standard B63-1949 or ASTM-53-61T.

(3) Each cargo tank shall be equipped with a pressure gauge.

(4) Flexible metallic hose connectors used to compensate for stresses and vibrations shall not exceed 3 feet in length.

(5) Flexible connections shall be made by using approved flexible metallic hose connectors or approved hose with stainless steel reinforcement.

(6) Hose used for transferring liquid from one container to another shall be approved for the purpose and shall be equipped with a shut-off valve at the discharge end and where provision has been made to prevent excessive hydrostatic pressure in the hose, a hydrostatic safety relief valve shall be installed in accordance with subsection 10 of section 110.

(7) Piping or hose used for loading or unloading propane shall be provided with bleeder valves for relieving pressure before disconnection.

PUMPS OR COMPRESSORS

112.—(1) Pumps or compressors shall be designed for use with propane and be protected from physical damage, and may be,

- (a) mounted upon propane tank trucks, tank trailers or tank semi-trailers; and
- (b) operated by using the truck power take-off unit or by using an internal combustion engine having a shielded ignition system or by devices operated by hand, mechanical, hydraulic or electrical means.

(2) Piping systems on trucks when equipped with a positive displacement pump, shall include a recirculating device that limits the differential pressure on the pump, under normal operating conditions, to the maximum differential pressure rating of the pump and the discharge of the piping system shall be protected so that pressure does not exceed 350 psig and if a recirculation system discharges into the supply tank and contains a manual shut-off valve, a secondary safety recirculation piping system that cannot be rendered inoperative shall be used.

(3) Manual shut-off valves in a recirculation piping system shall be kept open except during an emergency or when repairs are being made to the piping system.

MOUNTING CARGO TANKS ON VEHICLES

113.—(1) The means of attachment of a tank to a cradle, frame or chassis of a vehicle shall be designed to withstand loading, from any direction, equal to four times the weight of the tank when filled with propane.

(2) Devices used to hold down a tank when used, shall anchor the tank in a safe manner to the cradle, frame or chassis so that no undue concentration of stress will result and such devices shall have positive means for drawing the tank down tight in order to stop or anchor movement between tank and framing resulting from stopping, starting, or changes in direction of the vehicle.

(3) The frame or chassis of the vehicle shall be designed and maintained in a manner that will prevent cracking or distortion of frame members resulting from concentration of stress, load or vibration.

(4) Where a vehicle is designed and fabricated so that the cargo tanks constitute in whole or in part the stress member used in lieu of a frame, the cargo tanks shall be designed to withstand the stress imposed in addition to the stress design for which the cargo tank was designed.

(5) Tank trucks, tank trailers, and tank semi-trailers shall not be equipped with illumination other than from an electric source, and lighting circuits shall have over-current protection, and the electric wiring shall have sufficient current-carrying capacity and mechanical strength to accommodate the load and shall be secured, grommetted and protected against physical damage.

(6) Electric motors, wiring, switches, and lighting equipment, enclosed in a cabinet shall be of the type approved for Class I, Division II Locations.

TANK TRAILER AND TANK SEMI-TRAILERS

114.—(1) Every tank trailer shall be firmly and securely attached by means of draw bars supplemented by safety chains to the vehicle towing the tank trailer.

(2) Every tank trailer or tank semi-trailer shall be equipped with a reliable system of brakes capable of being effectively operated from the driver's seat of the vehicle towing the tank trailer or semi-trailer.

(3) Four-wheeled tank trailers shall be of a type of construction that will prevent the tank trailer from whipping or swerving from side to side and will make the tank trailer follow directly in the path of the vehicle towing the tank trailer.

(4) Tanks transported on a public road by use of a two-wheel or four-wheel trailer towed by a truck shall not be used to carry propane unless the tank is mounted in accordance with section 113.

115.—(1) The truck exhaust system shall be directed to the outside of the frame and skirting, away from the fuel system and combustible materials and from any tank, valve, pump or piping.

(2) A muffler cut-out shall not be used.

PROTECTION AGAINST COLLISION

116. Every tank truck and tank trailer or tank semi-trailer shall be provided with attached steel bumpers or chassis extensions attached so as to protect the tank, piping, valves and fittings in the event of collision and all valves shall be safeguarded against physical damage resulting from collision, overturning or other accident.

117.—(1) Tank truck drivers and their assistants shall not smoke or permit smoking within the vicinity of the truck, while,

- (a) the tank truck or tank trailer is in motion or parked on the highway as defined in *The Highway Traffic Act*;
- (b) the truck is delivering propane;
- (c) the tank or tanks are being filled with propane; or
- (d) repairs are being made to the tank truck or tank trailer.

(2) Every tank truck, tank trailer or tank semi-trailer shall be provided with not less than one ULC approved portable dry chemical fire extinguisher of not less than 16-B, C rating, and where more than one fire extinguisher is provided, each extinguisher shall have not less than a 6-B, C rating.

(3) Chock blocks shall be,

- (a) provided for the rear wheels of and chained permanently to the tank truck;
- (b) stored in carriers when not in use; and
- (c) placed at the rear wheels when the tank truck is parked for the purpose of loading, unloading and delivery of propane.

(4) Where propane is used in a truck engine, the fuel system shall be installed in accordance with sections 122 to 134.

(5) Cargo tanks, other than any lettering on the tank, shall be painted with a finish coat of light-reflecting paint.

(6) Every tank truck and tank trailer shall be marked legibly on both sides and on the rear with the word "Propane" in letters not less than 4 inches in height on a background of a contrasting colour.

(7) Every tank truck or tank trailer shall bear the tank serial number,

- (a) on a permanent metal plate; or
- (b) painted in legible letters not less than one inch in height on a background of a contrasting colour.

(8) Portable lights used in connection with the storage and handling of propane shall be of the battery-operated flashlight type or of approved explosion-proof type.

MOVEMENT OF TANKS NOT DESIGNED FOR TRANSPORTATION OR DELIVERY OF PROPANE

118.—(1) Tanks,

- (a) not designed for transportation of propane; or
- (b) not permanently attached to a vehicle,

shall be secured so as to prevent movement during transportation and the tanks being transported shall not contain propane in excess of 5 per cent WC.

(2) Tanks shall be protected against physical damage while in transit by the use of a trailer designed for the transportation of tanks.

(3) The lifting lugs on a tank referred to in this section shall not be used as the only means of lifting the tank where the tank contains propane in excess of 5 per cent WC.

(4) Tanks referred to in this section shall not be refilled on a highway as defined in *The Highway Traffic Act*.

PARKING, SERVICING OR REPAIRING OF TANK VEHICLES

119.—(1) When parked, a loaded tank trailer or tank semi-trailer shall be positioned so that the relief valve communicates with the vapour space of the tank.

(2) Vehicles that are used for the purpose of transporting propane in cylinders or by tank truck shall not,

- (a) except in the event of an emergency; or
- (b) except where the driver of the vehicle is absent from the vehicle for the purpose of,
 - (i) making a delivery of propane,
 - (ii) obtaining a meal, or
 - (iii) a stop for rest,

be left unattended on any highway as defined in *The Highway Traffic Act* or in an unprotected place.

(3) Where it is necessary that the cargo tank, primary valves, relief valves or gauging devices of a bulk tank vehicle be repaired within a building, the cargo tank shall, before the repair work is commenced, be completely purged in a safe manner outside the building of all propane whether in liquid or vapour form by the use of water or an inert gas.

(4) Where it is necessary that service or repair of other than the cargo tank, primary valves, relief valves or gauging devices of a bulk tank vehicle be performed within a building,

- (a) the owner of a bulk tank vehicle or a person authorized by the owner of a bulk tank vehicle,
 - (i) shall gauge the cargo tank outdoors to ensure that it is not filled beyond the permissible filling capacity,
 - (ii) shall close all primary shut-off valves and vent all liquid and vapour propane in the hose and piping system in a safe manner outdoors immediately prior to the vehicle being taken indoors,

- (iii) shall check the tank and equipment on the vehicle for any propane leaks and ensure that any propane leak that he finds is repaired before the vehicle is taken indoors, and
- (iv) shall inform the persons responsible for the service or repair of the bulk tank vehicle of the nature of the cargo contents and instruct these persons that the tank valves or fittings are not to be tampered with by anyone; and

(b) the vehicle, when within the building,

- (i) shall not be less than 10 feet from any open flame or other source of ignition or in a location where the temperature of the propane will be raised above 100° Fahrenheit, or
- (ii) shall not have repair work performed on the tank, tank valves or tank fittings if the cargo tanks contain propane.

120. Tank trucks or cargo tanks equipped for propane use shall not be used for anhydrous ammonia and tank trucks or cargo tanks equipped and used for anhydrous ammonia shall not be used for propane without the prior written permission of the Chief Inspector.

TRANSPORTATION OF CYLINDERS AND PORTABLE TANKS

121.—(1) All containers shall be transported in the manner described in section 88.

(2) All trucks transporting cylinders or portable tanks shall have not less than one dry chemical ULC approved fire extinguisher of at least an 8-B, C rating.

(3) Cylinders used as a part of servicing equipment that are carried on service vehicles shall not be parked in a public garage but may be parked in a private garage, so long as the total propane capacity of the cylinders does not exceed 100 pounds for each vehicle.

PROPANE AS AN ENGINE FUEL

122.—(1) This section and sections 123 to 134,

- (a) apply to internal combustion engines, containers, and equipment for the use of propane as an engine fuel; and
- (b) do not apply to containers used for the transportation of propane.

(2) Containers and equipment for internal combustion engines that use propane, where that installation is of the stationary type, shall conform with sections 84 to 89 and sections 97 to 102.

(3) Propane may be taken from the cargo tanks of a tank truck while in transit, but shall not be taken from the cargo tanks on trailers or semi-trailers while in transit and propane from cargo tanks may be used to operate stationary engines if the wheels of the tank truck, tank trailer or tank semi-trailer are securely blocked.

(4) Industrial tractors and lift trucks equipped with permanently mounted containers shall be filled outdoors and the filling shall be done in the manner described in sections 87 to 102.

DESIGN WORKING PRESSURE AND CLASSIFICATION OF FUEL CONTAINERS

123.—(1) Motor fuel tanks shall be designed, fabricated and tested in accordance with *The Boilers and Pressure Vessels Act, 1962-63*, and the regulations thereunder and tanks used indoors shall be of the type 250, having a working pressure of 312.5 psig.

(2) Cylinders shall be BTC or ICC, authorized for propane.

(3) All motor fuel container inlets and outlets other than safety relief valves and gauging devices shall be so labelled as to designate whether the inlets and outlets communicate with the vapour or the liquid space in the container, and the labels may be on the valves.

CONTAINERS ON VEHICLES

124.—(1) Engine fuel containers,

- (a) shall be so located as to minimize the possibility of physical damage to the container;
- (b) that are located in the rear of trucks and buses and that are protected by substantial bumpers shall be deemed to conform with clause a;
- (c) on passenger-carrying vehicles shall be installed as far from the engine as practicable and the passenger-carrying space and the space containing radio equipment shall be sealed from the container space;
- (d) located in the container space shall be vented to the outside air; and
- (e) that are mounted near the engine or the exhaust system shall be shielded against heat radiation.

(2) Containers shall be installed with a maximum road clearance that is not less than the minimum road clearance of the vehicle under maximum spring deflection, and the minimum road clearance of the vehicle shall be measured between the bottom of the container, or the lowest fitting on the container or the container housing, whichever is the lower, and the surface of the road.

(3) Containers for engines on buses and automobiles shall be permanently installed.

(4) Containers shall be anchored or secured with a container bracket that will prevent the container from jarring loose, slipping or rotating.

(5) Containers shall be secured in place on the vehicle by fastenings designed and constructed with a minimum factor of safety so as to withstand loading, in any direction, equal to four times the weight of the container when filled with propane.

(6) Field welding, where necessary, shall be made only on saddle plates, lugs, or brackets that were applied by the manufacturer of the container.

(7) Containers that are equipped for vapour propane withdrawal only shall be installed and equipped with connections designed to prevent the withdrawal of liquid propane.

VALVES AND EQUIPMENT

125.—(1) Container valves and equipment shall have a rated working pressure of not less than 250 psig and shall be approved for propane service.

(2) The filling connection,

- (a) on a fixed container shall be equipped with,
 - (i) a double back-pressure check valve, or
 - (ii) a shut-off valve in conjunction with and internal back-pressure check valve; and
- (b) on a removeable container may be a hand-operated shut-off valve having an internal excess flow valve.

(3) The shut-off valves on the container shall be accessible.

(4) All connections to containers, other than filling connections equipped with approved back-pressure check valves and safety relief valves or connections referred to in subsection 3 of section 126, having openings for the flow of propane in excess of a No. 54 drill size opening shall be equipped with an approved excess flow valve to prevent discharge of propane.

LIQUID LEVEL GAUGING DEVICES

126.—(1) Liquid level gauging devices that require the venting of propane to the air shall not be used on containers located on industrial tractors and lift trucks that are used within a building.

(2) Permanently mounted containers shall be equipped with a fixed liquid level gauge.

(3) Where containers are mounted on farm tractors, the containers shall not be filled at a place that is less than 50 feet from any building and the fixed liquid level gauging device on containers may be so constructed that the outward flow of propane exceeds the flow passed by a No. 54 drill size opening, but shall not exceed the flow passed by a No. 31 drill size opening, and the fixed liquid level gauge having a No. 54 drill size opening shall be marked to show the size of the opening.

(4) All valves and connections on containers shall be protected from physical damage.

(5) On removable type containers the protection for the fittings shall be permanently attached to the container.

(6) Provision shall be made in the fuel system to minimize the escape of fuel when containers are exchanged, by,

- (a) the use of an approved automatic quick-closing coupling, being a coupling closing in both directions when uncoupled in the propane line; or
- (b) closing the valve at the container and allowing the engine to run until the fuel in the line is consumed.

PIPING, TUBING, HOSE AND FITTINGS

127.—(1) The propane supply line from the motor fuel container to the first stage regulator shall be,

- (a) not less than Schedule 80 wrought iron or steel pipe;
- (b) brass or copper pipe;
- (c) type K copper tubing having a minimum wall thickness of 0.032 inch;
- (d) brass or steel tubing having a minimum wall thickness of 0.049 inch; or
- (e) an approved flexible hose connector or high-pressure hose.

(2) All pipe, tubing and hose shall be protected against exterior corrosion and physical damage.

(3) Where removable containers are employed, an approved flexible hose connector shall be used between the container and the propane supply line to the first stage regulator.

(4) All piping shall be installed, braced, supported and grommetted so that vibration, strain or wear is reduced to a minimum.

SAFETY RELIEF VALVES

128.—(1) Safety relief valves of the spring loaded internal type shall be used on all motor containers, and on tank type 250 the relief valve setting shall be 312.5 psig.

(2) The discharge outlet from a container safety relief valve shall be equipped with a rain cap and shall be,

- (a) located on the outside of an enclosed space;
- (b) located as far as practicable from any possible source of ignition; and
- (c) vented upward in a manner that prevents the impingement of escaping propane upon other containers or parts of other vehicles.

(3) Where a discharge line is used from a container safety relief valve, the line shall be of metal other than aluminum, and shall be sized, located and maintained so as not to interfere with the required flow of propane from the safety relief valve and the line shall be able to withstand the pressure resulting from the discharge of vapour when the safety relief valve is in the full open position and, where flexibility of the line is required, only flexible metal hose or tubing shall be used.

(4) The liquid fuel line between a container and vapourizing equipment shall be protected by a hydrostatic relief valve.

(5) The liquid fuel line, valves and fitting shall have,

- (a) a greater capacity than the rated flow of the container excess flow valve; or
- (b) a properly sized excess flow valve installed in the fuel line.

(6) The discharge setting of the hydrostatic relief valve shall not be in excess of 500 psig, and where hydrostatic relief valves are installed in liquid fuel lines connected to,

- (a) tanks, the minimum setting shall not be less than 350 psig; or
- (b) cylinders, the minimum setting shall not be less than 400 psig.

(7) The discharge outlet of the hydrostatic relief valve shall be located as far as practicable from any possible sources of ignition and shall be vented in such a manner as to prevent impingement of escaping propane upon containers or parts of the vehicle, and a rain cap or other protector shall be used.

VAPOURIZERS FOR INTERNAL COMBUSTION ENGINES

129.—(1) Vapourizers and equipment subjected to container pressure shall have a design working pressure of not less than 250 psig.

(2) Every vapourizer shall have a valve or plug that will permit complete draining of the vapourizer.

(3) Vapourizers shall be securely fastened to the engine, chassis or fire-wall.

(4) Every vapourizer shall be permanently marked at a visible point,

- (a) with the design working pressure of the propane-containing portion in psig; and
- (b) with the WC in pounds of the propane-containing portion of the vapourizer.

(5) Exhaust gases shall not be used as a means of heat supply for the vapourization of propane.

(6) Vapourizers shall not be equipped with fusible plugs.

PROPANE REGULATING AND MIXING EQUIPMENT

130.—(1) Approved pressure-reducing equipment shall be installed in a secure manner between the supply container and the propane-air mixer.

(2) An approved solenoid shut-off valve shall be provided in the propane supply line at a point between the container valve and the inlet of the propane-air mixer and shall be designed to prevent the flow of propane to the mixer when the motor ignition is off, and where industrial trucks and stationary engines operate in buildings, other than buildings used exclusively to house stationary engines, the solenoid valve shall close if the engine stops and an atmospheric type regulator, commonly termed zero governor, may be used instead of a solenoid valve only for outdoor operation.

131. A single container,

- (a) used on passenger-carrying vehicles shall not exceed 165 U.S. gallons WC; and
- (b) used on vehicles, other than vehicles referred to in clause *a*, that are operated on a highway as defined in *The Highway Traffic Act* shall not exceed 250 U.S. gallons WC, except as provided in subsection 3 of section 122.

132.—(1) Removable containers on industrial trucks or farm tractors,

- (a) shall be filled by weight or by a liquid level gauging device of the fixed-length, dip-tube type; and
- (b) shall be filled outdoors in the manner described in section 87 and section 102.

(2) Engines on vehicles shall be turned off while the engine fuel containers are being filled.

STATIONARY OR PORTABLE ENGINES IN BUILDINGS

133.—(1) An engine within a room shall be ventilated at the floor level and shall take air for combustion directly from the outside air.

(2) Where engines are installed within a room that is below grade level, floor level mechanical exhaust ventilation shall be provided and operated continuously, or means shall be provided to purge the room before the engine is started and the mechanical ventilation shall be in operation when the engine is running and the room shall be ventilated before and during any repairs to the engine.

(3) A room in which an engine is located shall have fire-doors at openings that communicate with other sections of the building.

(4) Exhaust gases shall be discharged from the building to the outside air in a manner that will not create a fire or any other hazard.

(5) Exhaust gases shall not enter a chimney or vent serving another appliance.

(6) Regulators and pressure relief valves installed in buildings and rooms containing engines shall be vented to the outside air and the discharge shall terminate not less than 5 feet from any opening in a building but such venting is not required for combination engine propane-vapourizing, propane-reducing or propane-metering devices, if an automatic shut-off valve is installed immediately ahead of the device.

(7) An approved flexible hose connector not in excess of 3 feet in length shall be installed at the engine end of the propane fuel line and shall be installed in a manner so as to eliminate the possibility of damage from vibration.

(8) Before stationary engines are installed within boiler rooms located in institutional buildings or other places frequented by persons, the prior approval of the Chief Inspector shall be obtained.

GARAGING PROPANE FUELED VEHICLES OTHER THAN PROPANE DELIVERY TRUCKS

134.—(1) Propane fueled vehicles may be stored or serviced inside garages if there are no leaks in the propane system and the containers are filled in accordance with sections 87 and 102.

(2) Propane fueled vehicles being repaired in garages shall have the container shut-off valve closed except when propane is required for engine operation.

(3) Vehicles referred to in subsections 1 and 2 shall not be parked near sources of heat, open flames or other sources of ignition or near open pits unless the pits are ventilated.

VAPOURIZERS

GENERAL

135.—(1) This section and sections 136 to 139 do not apply to,

- (a) engine propane vapourizers; or
- (b) integral vapourizer-burners that are used as weed burners or as tar-kettle burners.

(2) Vapourizers shall have, at or near the discharge service piping, a safety relief valve providing an effective rate of discharge in accordance with the Table to subsection 12 of section 97 and shall be located so as not to be subjected to temperatures in excess of 140° Fahrenheit.

(3) All electrical equipment in vapourizer buildings shall be of the type approved for use in Class I, Group D, Hazardous Locations and shall be installed in conformance with the requirements of Ontario Regulation 378/66, being the Ontario Electrical Code.

(4) Open flames or other sources of ignition shall not be permitted in vapourizer buildings, other than buildings housing direct fired vapourizers.

(5) Direct fired vapourizers shall not be used in pumphouses or container filling rooms.

(6) Vapourizers,

- (a) shall not be provided with fusible plugs;
- (b) shall not have communication with drains, sewers, sumps or pits;
- (c) shall be provided with means to prevent liquid passing from the vapourizers to the propane vapour discharge service piping; and
- (d) used with a container shall be designed and approved in accordance with the requirements of sections 136 and 137, and vapourizing devices, other than approved vapourizers, used to increase the vapourization capacity of a container, shall not be used.

INDIRECT FIRED VAPOURIZERS

136.—(1) Indirect fired vapourizers shall be of a unit type approved for the purpose.

(2) A device that supplies the required heat for producing steam, hot water, or other heating medium may be installed in a building, compartment, room or lean-to that is ventilated to the outside air near floor line and the roof, and shall be located in a place that is separated from all compartments or rooms containing

propane vapourizers, pumps, and central propane-mixing devices by a wall having not less than a 2-hour fire-resistive rating and shall be of vapour-tight construction.

(3) The heating medium piping connected to the vapourizer shall be provided with means for preventing the flow of propane into the heating system.

(4) Heating coils shall not be installed within a container.

DIRECT FIRED VAPOURIZERS

137. Direct fired vapourizers shall be of a unit type approved for the purpose.

138.—(1) Where a building, room, shed, or lean-to is used only for vapourizing or mixing of propane, it shall be of non-combustible construction and well ventilated near the floor line and near the highest point of the roof.

(2) Relief valves on vapourizers within a building shall discharge in an upward direction to the outside air.

(3) Vapourizers may be connected to the liquid section or the vapour section of the container, or to both, but there shall be, in each connection, at the container, a manually operated valve to permit the complete shutting off, when necessary, of the flow of propane from the container to the vapourizer.

(4) The location of vapourizers shall be in accordance with the following Table:

TABLE

Vapourizer Capacity in Gallons per Hour	Minimum Horizontal Distance in Feet	
	To the Container	To the Nearest Buildings or Properly Line that can be built upon
Up to 35	5	10
Over 35 to 100	10	25
Over 100	15	50

(5) Vapourizers shall be provided with a manual means for turning off the propane supply to the main burner and pilot.

(6) Vapourizers shall be equipped with automatic safety devices to shut off the flow of propane to main burners where the pilot light fails to operate and, where the flow through the pilot exceeds 2,000 BTUH, shall be equipped with an automatic safety device to shut off the flow of propane if the pilot flame is extinguished.

(7) Pressure regulating and pressure reducing equipment shall not be located within 10 feet of a direct fired vapourizer that is within a building or structure unless the prior permission of the Chief Inspector has been obtained.

(8) A direct fired vapourizer shall not raise the pressure within a container in excess of 215 psig.

DIRECT FIRED TANK HEATERS

139. Direct fired tank heaters shall not be used.

CYLINDER SYSTEMS FOR HIGHWAY MOBILE VEHICLES

GENERAL

140.—(1) Sections 84 to 109 and sections 140 to 148 apply to propane systems installed for cooking, refrigeration, heating, or lighting in trucks, tractor trailers, mobile homes and coaches, travel trailers, mobile libraries, canteen trucks and passenger carrying vehicles.

(2) Where a vehicle referred to in subsection 1 ceases to be used as a highway mobile vehicle, the propane system for the vehicle shall comply with the requirements of sections 84 to 109.

LOCATION OF CYLINDERS AND SYSTEMS

141.—(1) Except for self-contained hand-torches, lanterns or similar equipment with cylinders having a WC not in excess of 2½ pounds, cylinders shall not be installed, transported or stored, in any vehicle unless the installation, transportation or storage conforms with the requirements of this section.

(2) A cylinder installation located within a vehicle shall be,

(a) in a recess that is of metal construction and that is vapour-tight and accessible only from, and vented to, the outside air; or

(b) in a metal cabinet that is vapour-tight and is constructed and secured in such a manner that it is capable of withstanding loading in any direction, of not less than 2½ times the combined weight of the cabinet and the cylinder or cylinders and the cabinet shall be vented by a tube of not less than 1¼ inches, inside diameter, that extends from the bottom of the cabinet to a point outside the vehicle and shall be directed away from any source of ignition.

(3) Subject to subsection 2, where cylinders that are used on a commercial mobile vehicle and that have a capacity in excess of 100 pounds of propane by weight are used, the cabinet or recess shall be vented at the top and bottom and the combined vent area shall be not less than 5 square inches.

(4) Cylinder installations located outside the vehicle shall be mounted and secured firmly to the chassis of the vehicle,

(a) as close to the hitch as practicable, on a substantial bracket or base; or

(b) secured within a ventilated metal cabinet,

and shall not project beyond the side wall of the vehicle.

(5) Hoods, domes, or portions of cabinets required to be removed for replacement of cylinders shall have means for being clamped firmly in place, preventing them from working loose during transit.

(6) There shall be no propane fuel connection between vehicle units.

(7) The cylinder or cylinder carrier shall be secured in place on the vehicle by fastenings designed and fabricated with a minimum safety factor to withstand loading in any direction equal to four times the weight of the cylinder when filled with propane.

CYLINDER VALVES AND EQUIPMENT

142.—(1) Cylinder valves in the assembly of a two-cylinder installation shall be arranged so that replacement of cylinders can be made without requiring the shutting off of the flow of propane to the appliances.

(2) Shut-off valves on the cylinders shall be protected in transit, in storage, and while being moved into final use by,

- (a) being set into a recess of a cylinder so as to prevent the possibility of being struck if the cylinder is dropped; or
- (b) a ventilated cap or collar that is fastened to the cylinder and capable of withstanding a blow, from any direction, that is equivalent to the impact resulting from a 30-pound weight dropped 4 feet, and the fabrication shall be such that a blow will not be transmitted to the cylinder valve.

EXCESS FLOW VALVES

143.—(1) When appliances are installed on mobile vehicles, and are designed to be in operation during transit, an excess flow valve shall be provided at the cylinder or cylinders and be installed so that if the propane supply line breaks upstream of the regulator, the excess flow valve will close.

(2) An excess flow valve that forms part of the regulating equipment connected directly to the cylinder outlet valve shall comply with subsection 1.

SYSTEM DESIGN AND SERVICE LINE PRESSURE

144.—(1) Cylinder installations shall be of the propane vapour-withdrawal type.

(2) Propane vapour, at a pressure not in excess of 18 inches W.C. shall be supplied into the service piping servicing the appliances.

ROAD CLEARANCE

145.—(1) Where the cylinder support is used inside the frame members of trailer coaches, the maximum depth of the cylinder support shall not be in excess of 7 inches from the top of the chassis so that sufficient road clearance is provided but the road clearance shall not be less than the clearance of the vehicle.

(2) In the case of a commercial vehicle, the system shall be installed with a road clearance that is not less than the minimum road clearance of the vehicle under maximum spring deflection.

PIPING, TUBING, HOSE FITTINGS AND EQUIPMENT

146.—(1) Regulators shall be provided and shall be connected directly to the cylinder valve, or shall be mounted securely by means of a support bracket and connected to the cylinder valve or valves with an approved high pressure flexible connector.

(2) An approved flexible hose connector shall be used between the regulator outlet and the propane service piping.

(3) Piping, tubing, hose and fittings shall comply with the requirements of sections 19 to 47.

(4) The propane supply line shall be firmly fastened and protected under the vehicle and outside and below any insulation or false bottom, and the fastenings shall prevent abrasion or damage to the propane supply line resulting from vibration and, where the propane line passes through structural members or floor, a rubber grommet or equivalent shall be installed to prevent wear.

(5) The propane supply line shall be installed so as to enter the vehicle through the floor directly below or adjacent to the appliance that it serves, and, where a branch line is required, the tee connection shall be in the main propane supply line and located under the floor and outside the vehicle.

(6) All parts of the installation assembly shall be so designed and secured so as to prevent the parts from working loose during transit.

(7) Individual shut-off valves for appliances will not be required when the cylinder shut-off valve is readily accessible.

(8) Leak testing of systems shall be in accordance with the requirements of section 46.

APPLIANCES

147.—(1) All propane-fired heating appliances, including water heaters, shall be designed and installed to provide complete separation of the combustion system from the atmosphere of the space provided for living, and the combustion air inlet and flue gas outlet assemblies that extend to the outside air shall be components of the appliance.

(2) Provision shall be made to ensure a supply of air for combustion.

(3) Propane-fired appliances, installed in a cargo space, shall be located as to be readily accessible.

(4) Appliances shall be so protected as to reduce to a minimum any damage or impaired operation resulting from the shifting or handling of cargo.

(5) Appliances inside a vehicle shall be so located that a fire at an appliance will not block the exit of persons from the vehicle.

GENERAL PRECAUTIONS

148. A metal caution plate shall be provided on the outside of the mobile vehicle adjacent to the propane container and shall read as follows:

WARNING PLATE

1. Be sure all appliance valves are closed before opening cylinder valve.
2. Connections at the appliances, regulators and cylinders shall be leak tested periodically with soapy water.
3. Never use a lighted match or other flame when checking for leaks.
4. Except for propane systems equipped with excess flow valves, the cylinder valves shall be closed when the vehicle is mobile.
5. This installation is designed for use with propane only. Do not connect natural gas to this system.

PART 4

DOCUMENTATION AND PROCEDURE

REGISTRATION, LICENSING AND CERTIFICATION

CONTRACTORS

149.—(1) Every person, on becoming a contractor, shall apply for registration by filing with the Minister an application for registration in Form 301 and paying with the application a fee of \$10.

(2) Every registered contractor shall apply annually for renewal of registration by filing with the Minister an application for renewal in Form 301A and paying with the application a fee of \$10.

(3) A certificate of registration in Form 302 shall be issued to a contractor who has applied for registration under subsection 1 and annually to a contractor who has applied for renewal under subsection 2.

(4) A registered contractor shall display his certificate of registration in a conspicuous place in his business premises and shall notify the Minister immediately upon any change of his business address.

PROPANE FITTERS APPLICATIONS

150.—(1) An application for certification of a person as a Propane Fitter Class 3 shall be in Form 318.

(2) An application for certification of a person as a Propane Fitter Class 2 shall be in Form 305.

(3) An application for certification of a person as a Propane Fitter Class 1 shall be in Form 304.

(4) The fee for filing an application under subsection 1, 2 or 3, including any examination, is \$5.

FITTERS CERTIFICATES

151.—(1) The certificate of a Propane Fitter Class 3 shall be in Form 317.

(2) The certificate of a Propane Fitter Class 2 shall be in Form 311.

(3) The certificate of a Propane Fitter Class 1 shall be in Form 310.

(4) A person who has paid the fee under subsection 4 of section 150 and qualifies for certification is exempt from payment of a fee for his certificate for the year for which it is issued.

(5) A certified propane fitter shall notify the Minister within six days of any change in his registered address.

RENEWALS

152.—(1) An application for renewal of a certificate referred to in section 151 shall be in Form 315 and the fee therefor is \$5, but a person who, in addition to being a propane fitter, is also a gas fitter, shall, upon payment of \$5, be issued a renewal dual certificate in Form 316, instead of a separate propane fitter's licence and a separate gas fitter's licence.

(2) A person who is registered under section 149 or certified under section 151 and who has lost his certificate may apply for a duplicate thereof by filing with the Minister a statutory declaration setting out the reasons for the loss and paying a fee of \$2.

(3) Registrations and certificates are not transferable from one person to another.

(4) Every registration under section 149 and every certificate under section 151 expires with the 31st day of December of the year for which it was issued or made, unless the registration or certificate bears a term or condition to the contrary.

(5) A person who does not hold a certificate for the year prior to the year for which he is applying for a certificate shall not be issued a renewal certificate but may apply for re-examination.

LICENCES

153.—(1) An application for an annual licence to distribute propane to a consumer shall be in Form 207.

(2) The fee for filing an application under subsection 1 is \$20 for each location from which propane is distributed.

(3) An annual licence to distribute propane shall be in Form 208.

(4) A quarterly licence to distribute propane to a consumer shall be in Form 210.

(5) Quarterly licences shall be issued for any three consecutive months selected by the applicant.

(6) An application for a quarterly licence to distribute propane to a consumer shall be in Form 209.

(7) The fee for filing an application under subsection 6 shall be \$6 for each branch or location from which propane is distributed.

(8) An application for a licence to transfer propane from one container to another container shall be in Form 211.

(9) The fee for filing an application under subsection 8 is \$55 for each location where propane is transferred from one container to another container.

(10) A licence to transfer propane from one container to another container shall be in Form 212.

(11) An application for a licence to transport propane by tank truck, tank trailer or tank semi-trailer shall be in Form 213.

(12) The fee for filing an application under subsection 10 is \$5 for each tank truck or tank trailer.

(13) A licence to transport propane by tank truck or tank trailer shall be in Form 214.

(14) A renewal application for a licence to transport propane by tank truck or tank trailer shall be in Form 214 R.

EXEMPTIONS

154.—(1) A professional engineer registered under *The Professional Engineers Act* is exempt from being a propane fitter under subsection 4 of section 7 of the Act.

(2) A person is exempt from being a contractor under subsection 3 of section 7 of the Act in respect of an appliance he owns in his own dwelling.

(3) An appliance is exempt from inspection under subsection 6 of section 7 of the Act while being used only for the purpose of testing or examination of the flame.

(4) A person who transfers propane from one container to another container for his own use is exempt from clause f of subsection 1 of section 7 of the Act.

(5) A person who distributes propane in or transfers propane to a container having a capacity of 1 pound of propane by weight or less is exempt from clauses d and f of subsection 1 of section 7 of the Act in respect of the container.

(6) A person who transports propane by a two-wheel or four-wheel tank trailer for his own use is exempt from subsections 11, 12 and 13 of section 153.

CONSERVATION AND USE OF PROPANE

155. When a distributor's supply of propane is not sufficient to supply the requirements of the consumers to whom the distributor supplies propane, the distributor shall supply the propane in the following order of preference:

1. To a hospital that does not have equipment to use a fuel other than propane.

2. To an institution building that does not have equipment to use a fuel other than propane.
3. To a consumer for residential purposes.
4. To a consumer for commercial purposes.
5. To a consumer for industrial purposes.

ACCIDENT REPORTS

156.—(1) Every distributor shall,

- (a) report to an inspector in person or by telephone or telegraph immediately upon the fact becoming known to him,
 - (i) any fatality,
 - (ii) any fire or explosion resulting in property damage estimated to exceed \$250 in amount, or
 - (iii) any fire or explosion that results in an injury to a person or persons and that requires treatment,

where the fatality, fire or explosion was caused or appears to have been caused directly or indirectly by propane transported, distributed or stored by the distributor;

- (b) report forthwith to the Minister in writing the information required under clause a;
- (c) on the request of the Minister or an inspector supply such additional information as is required by the Minister or the inspector concerning the fatality, fire or explosion; and

(d) on the request of the Minister or an inspector, make available such equipment, appliances and records as are required concerning the fatality, fire or explosion.

(2) No distributor, company, consumer, or the agent of a distributor, company or consumer or an employee of a distributor, company or consumer other than a person authorized by law shall in any way tamper with or remove any equipment, appliance or container involved in a fatality, fire or explosion, without the prior permission of an inspector.

157.—(1) A tag attached to a work, appliance or tank truck under section 3 of the Act shall be in Form 601.

(2) The permission of the Minister to lay an information under section 9 of the Act shall be in Form 602.

158.—(1) Where a person is requested to file a record, return or report and fails to do so he shall, upon the written demand of the Minister, file the record, return or report within such time as the Minister stipulates in his written demand.

(2) A demand under subsection 1 that is mailed by registered mail addressed to the last known address of the person upon whom the demand is made, shall be deemed to be adequate notification of such demand.

REVOCATION

159. Ontario Regulation 336/64 is revoked.

- but does not include a person who is engaged in,
- (iii) the manufacture of equipment or the assembly of a unit prior to delivery to a building, structure or site, or
 - (iv) the repair and maintenance of the installations in an operating industrial plant.

2. The trade of lather is designated as a certified trade for the purposes of the Act.

3. An apprentice training programme is established for the certified trade and shall consist of three periods of training and instruction of 1800 hours each,

- (a) at full-time educational day classes provided at a Provincial Institute of Trades in the courses contained in Schedule 1; and
- (b) in practical training and instruction provided

by an employer of the apprentice in the courses contained in Schedule 2.

4. The rate of wages for an apprentice in the certified trade, whether for his regular daily hours or for hours in excess of his regular daily hours, shall be not less than,

- (a) 40 per cent for the first period of training and instruction;
- (b) 60 per cent for the second period of training and instruction; and
- (c) 80 per cent for the third period of training and instruction,

of the hourly rate of wages or its equivalent for a journeyman employed by the same employer in the certified trade and with whom the apprentice is working.

5. The number of apprentices who may be employed by an employer in the certified trade shall not exceed,

- (a) where the employer is a journeyman in the trade, one apprentice plus one additional apprentice for every five journeymen employed by that employer in the trade and with whom the apprentice is working; and
- (b) where the employer is not a journeyman in the trade, one apprentice for the first journeyman employed by the employer plus one additional apprentice for each additional five journeymen employed by that employer in the trade and with whom the apprentice is working.

6. A progress record book shall be issued, by the Department of Labour, to each apprentice for the purpose of recording work experience and related training time and the apprentice shall be responsible for the safe-keeping of this progress record book.

7. The subjects of examination for an apprentice in the certified trade are the subjects set out in schedules 1 and 2.

8. Any person who is engaged in the certified trade is exempt from subsections 2 and 3 of section 10 of the Act.

9. A holder of a certificate of qualification in the certified trade is exempt from the provisions of sections 21 and 22 of Ontario Regulation 279/64.

THE TEACHERS' SUPERANNUATION ACT

O. Reg. 179/67.

General.

Made—May 11th, 1967.

Filed—May 16th, 1967.

REGULATION MADE UNDER THE TEACHERS' SUPERANNUATION ACT

1. Clause *a* of section 2 of Regulation 553 of Revised Regulations of Ontario, 1960 is amended by striking out "card".

2. Section 6 of Regulation 553 of Revised Regulations of Ontario, 1960, as amended by section 2 of Ontario Regulation 30/65, is revoked.

3. Section 7 of Regulation 553 of Revised Regulations of Ontario, 1960 is revoked.

4.—(1) Subsection 1 of section 8b of Regulation 553 of Revised Regulations of Ontario, 1960, as made by section 1 of Ontario Regulation 229/61, is revoked and the following substituted therefor:

- (1) Any contribution authorized by section 8 or 8a may be made without interest if made within one year of the return to duty or the re-employment, as the case may be, or with interest if made after the expiration of such one-year period but within two years of the return to duty or the re-employment.
- (2) The said section 8b, as amended by section 1 of Ontario Regulation 8/62, is further amended by adding thereto the following subsections:
 - (5) Where a person has commenced but has not completed his payments into the Fund under this section and withdraws from the profession or dies, he or his estate, as the case may be, is entitled to a refund without interest of an amount equal to the amount so paid in.
 - (6) Any amount paid into the Fund under this section as interest shall not form part of any refund.
5. Section 9 of Regulation 553 of Revised Regulations of Ontario, 1960, as amended by section 2 of Ontario Regulation 8/62 and section 1 of Ontario Regulation 91/65, is revoked and the following substituted therefor:

CREDITS FOR OUTSIDE SERVICES

- 9.—(1) A person who has been employed within the meaning of the Act for at least ten years may include, for every purpose relating to an annual allowance, similar service not exceeding ten years, in any province of Canada, or in any other part of the Commonwealth, or in any school maintained by the Government of Canada for children of members of the armed forces of Canada, for Indians, or for inmates of penal institutions, if he is not or will not be in receipt of a pension from another pension fund for that period of service, and
 - (a) if within ten years from the date he completed such service or before he goes on pension, as the case may be, he has paid into the Fund for each year of that service after the 1st day of April, 1917, a sum of money calculated on the rate of salary actually received during the first year of service in Ontario following his return to employment after his service outside Ontario, or, if he does not return to service in Ontario following his period of employment outside Ontario, then on the rate of salary received during his last year of employment in Ontario or \$2,000, whichever is the greater, and at a rate equal to the total of the rate applicable to a teacher employed in Ontario and the rate paid by the Treasurer of Ontario on his behalf in the year or years concerned, with interest; or
 - (b) if, where he has credit in the Fund for at least twenty days in a school year before the 1st day of September, 1940, and has not made the payment referred to in clause a, he has paid into the Fund, or has agreed to pay through a reduction in his annual allowance, an amount equal to the reserve that would have been accumulated in the Fund for a person of the same age, for the same period of employment, as certified by the actuary.
- (2) A person who has been employed within the meaning of the Act for at least ten years of his service may include, for every purpose

relating to an annual allowance, teaching or inspectorial service, not exceeding ten years, in a foreign country, or in the International Development Assistance Programme of Canada, administered by the External Aid Office of the Government of Canada,

- (a) if such service has been approved by the Commission;
 - (b) if he did not contribute in respect of such service to any other pension fund; and
 - (c) if within ten years from the date he completed such service or before he goes on pension, as the case may be, he has paid into the Fund for each year of such service after the 1st day of April, 1917, a sum of money calculated on the rate of salary actually received during the first year of service in Ontario following his return to employment after his service outside Ontario, or, if he does not return to service in Ontario following his period of employment outside Ontario, then on the rate of salary received during his last year of employment in Ontario or \$2,000, whichever is the greater, and at a rate equal to the total of the rate applicable to a teacher employed in Ontario and the rate paid by the Treasurer of Ontario on his behalf in the year or years concerned, with interest.
- (3) In every case under subsection 1 or 2, if the person has more than ten years of service in any province of Canada, in any other part of the Commonwealth, in any school maintained by the Government of Canada for children of members of the armed forces of Canada, for Indians, or for inmates of penal institutions, in a foreign country or in the International Development Assistance Programme of Canada administered by the External Aid Office of the Government of Canada, payment shall be made for the last ten years of such service, and, if the person has less than ten years of service, payment shall be made for all of such service.
 - (4) A person who is a contributor to the Fund may include, for every purpose relating to an annual allowance, teaching service in any designated private school,
 - (a) if he was qualified at the time of such service as a teacher under the Acts and regulations administered by the Department; and
 - (b) if within ten years from the date of designation of the school or from the date on which the person became a contributor to the Fund subsequent to the date of designation of the school he has paid into the Fund for every year of such service after the 1st day of April, 1917, a sum of money calculated on the rate of salary received during the first year of contribution to the Fund following the period of service for which he is obtaining credit or on \$2,000, whichever is the greater, and at a rate equal to the total of the rate applicable to the teacher and the rate paid by the Treasurer of Ontario on his behalf in the year or years concerned, with interest.

- (5) In every case under subsection 4, the total of all service in any designated private school shall be included.
- (6) Where a person has completed or has commenced but not completed his payments into the Fund under this section and withdraws from the profession or dies before being employed for at least the minimum period prescribed in this section, he or his estate is entitled to a refund of an amount equal to the amounts paid in together with interest thereon at 3 per cent per annum compounded half-yearly.
- (7) Where a person has commenced but has not completed his payments into the Fund under this section and has been employed for at least the minimum period prescribed in this section, and he or his dependant becomes entitled to an allowance under the Act before the expiration of the period of time in which such payments are to be made, the full period in respect of which the payments under this section are being made shall be included in the calculation of the allowance and an actuarial deduction made from the allowance in respect of the unpaid portion of such payments.
- (8) Where a person has commenced but has not completed his payments into the Fund under this section and is employed on the expiration of the period within which the payments were to be made, the agreement under which the payments were being made is void and a refund shall be made on that date of an amount equal to the amounts paid in together with interest thereon at 3 per cent per annum compounded half-yearly.
6. Section 10 of Regulation 553 of Revised Regulations of Ontario, 1960 is revoked.
7. Section 11 of Regulation 553 of Revised Regulations of Ontario, 1960 is revoked.
- 8.—(1) Clause *c* of subsection 2 of section 12 of Regulation 553 of Revised Regulations of Ontario, 1960, as made by section 1 of Ontario Regulation 316/62, is amended by striking out "fifteen" in the second line and inserting in lieu thereof "ten".
- (2) Subsection 2 of the said section 12, as made by section 1 of Ontario Regulation 316/62, is amended by striking out "last ten years" in the twenty-second line and inserting in lieu thereof "seven years during which his salary was highest and".
- (3) Subsection 3 of the said section 12, as made by section 1 of Ontario Regulation 316/62, is amended by striking out "last ten years" in the forty-second line and inserting in lieu thereof "seven years during which his salary was highest and".
9. Subsections 1 and 2 of section 14 of Regulation 553 of Revised Regulations of Ontario, 1960 are revoked and the following substituted therefor:
- (1) Every person who was on active service in Her Majesty's forces in World War I or World War II and who is employed is, on producing proof of such service, entitled to credit in the Fund in respect of the period of such service as if it had been a period of employment if he or his board on or before the 31st day of August, 1975, or within ten years of the date of employment following the period of active service, whichever is the later, pays into the Fund an amount in respect of the period of such service subsequent to the 1st day of April, 1917, equal to the contributions he would have made if he had been employed, calculated on an annual salary of \$2,000 or at the rate of annual salary received upon employment following the period of active service, whichever is greater, with accumulated interest.
- (2) Every person who has been on active service in the armed forces of Canada since World War II and who is employed is, on producing proof of such service, entitled to credit in the Fund in respect of the period of such service up to a maximum of five years as if it had been a period of employment if he or his board within five years after the commencement of his post-service employment or before the 1st day of July, 1968, whichever occurs first, pays into the Fund an amount in respect of the period of such service calculated on an annual salary of \$2,000 or on the annual salary he was receiving before he entered such service, whichever is greater, with accumulated interest.
10. Subsection 1 of section 15 of Regulation 553 of Revised Regulations of Ontario, 1960 is revoked and the following substituted therefor:
- (1) Every person who was on special war service in World War II and who is employed is, upon producing proof of such service, entitled to credit in the Fund in respect of the period of such service as if it had been a period of employment if he or his board before the 1st day of July, 1968, pays into the Fund an amount in respect of the period of such service equal to the amount of the contributions he would have made and those that the Treasurer of Ontario would have made on his behalf had he been employed, calculated on an annual salary of \$2,000 or on the annual salary he was receiving before he entered such service, whichever is greater, with accumulated interest.
11. Section 16 of Regulation 553 of Revised Regulations of Ontario, 1960 is revoked and the following substituted therefor:
16. Where the whole of the amount due under section 14 or 15 is not paid into the Fund within the specified time limit, the amount paid in shall be refunded without interest.

THE MILK ACT, 1965

O. Reg. 196/67.

Grade A Milk—General.

Made—May 23rd, 1967.

Approved—May 25th, 1967.

Filed—May 30th, 1967.

REGULATION MADE UNDER THE MILK ACT, 1965

1. Section 46c of Regulation 432 of Revised Regulations of Ontario, 1960, as made by section 1 of Ontario Regulation 86/66 and amended by section 6 of Ontario Regulation 76/67, is further amended by adding thereto the following clause:

(aa) where the applicant fails to deposit the security required under section 54;

2. Clauses *d* and *e* of subsection 1 of section 46d of Regulation 432 of Revised Regulations of Ontario, 1960, as made by section 1 of Ontario Regulation 86/66, are revoked and the following substituted therefor:

(d) the holder of the licence pays the producers on or before the following dates according to the cash or credit basis filed with the Commission:

1. Where grade A milk is purchased on a daily cash basis,

(a) the day on which the grade A milk is received, or

(b) where the price of the grade A milk is deposited each day in a bank account established for the payment of producers only, the 25th day of any month for grade A milk received during the first half of the month, and the 10th day following the end of the month for grade A milk received during the remainder of the month.

2. Where grade A milk is purchased on a weekly credit basis, the Monday following the end of any week for the grade A milk received during the week.

3. Where grade A milk is purchased on a bi-weekly credit basis, the 10th day following the end of any two-week period for the grade A milk received during the period.

4. Where grade A milk is purchased on a twice-a-month credit basis, the 25th day of any month for grade A milk received during the first half of the month, and the 10th day following the end of the month for grade A milk received during the remainder of the month.

5. Where grade A milk is purchased on a monthly credit basis, the 15th day following the end of any month for grade A milk received during the month;

(e) where the licence was issued subject to the deposit of security under section 54, the holder of the licence deposits and maintains the security in accordance with sections 54 and 55;

(f) where any payment is made to producers under *The Farm Products Payments Act, 1967* and the regulations thereunder for grade A milk purchased by the holder of the licence, the holder of the licence complies with the provisions of such regulations respecting repayment.

3. Section 49 of Regulation 432 of Revised Regulations of Ontario, 1960, as remade by section 9 of Ontario Regulation 76/67, is amended by inserting after "location" in the fourth line "and shall be deemed to be a separate distributor in respect of each such location".

4. Section 52, section 53 as amended by section 12 of Ontario Regulation 76/67, section 54, section 55 as amended by section 1 of Ontario Regulation 343/65, and sections 56 and 57 of Regulation 432 of Revised Regulations of Ontario, 1960, are revoked and the following substituted therefor:

52.—(1) Grade A milk shall be purchased from producers,

- (a) on a daily cash basis;
- (b) on a weekly credit basis;
- (c) on a bi-weekly credit basis;
- (d) on a twice-a-month credit basis; or
- (e) on a monthly credit basis.

(2) Payment becomes due for grade A milk purchased from producers,

- (a) on a daily cash basis,
 - (i) on the day received, or
 - (ii) where the price of grade A milk is deposited each day in a bank account established for the payment of producers only, on the 15th day of any month for grade A milk received during the first half of the month, and on the last day of the month for grade A milk received during the remainder of the month;
- (b) on a weekly credit basis, on the last day of any week for grade A milk received during the week;
- (c) on a bi-weekly credit basis, on the last day of any two-week period for grade A milk received during the period;
- (d) on a twice-a-month credit basis, on the 15th day of any month for grade A milk received during the first half of the month, and on the last day of the month for grade A milk received during the remainder of the month; or
- (e) on a monthly credit basis, on the last day of any month for grade A milk received during the month.

53. Where a distributor purchases grade A milk from a producer and the producer has not received payment on the date prescribed therefor in clause *d* of section 46*d*, the producer shall forthwith notify the Commission of the default in payment by the distributor.

54.—(1) Where the Commission is not satisfied in respect of the financial responsibility of a distributor who purchases grade A milk from producers, the distributor shall deposit with the Commission security in a form satisfactory to the Commission and in an amount prescribed by the Commission.

(2) Security deposited with the Commission under subsection 1 shall be applicable solely to the claims of producers for grade A milk sold to

the distributor and in respect of which payments have been made under *The Farm Products Payments Act, 1967* and the regulations thereunder.

55.—(1) Where the Commission receives notice pursuant to *The Farm Products Payments Act, 1967* and the regulations thereunder that a payment has been made to a producer from The Fund For Milk and Cream Producers in respect of a distributor who deposited security under subsection 1 of section 54, the Commission may realize upon the security or such part thereof as it deems necessary.

(2) Where security has been realized upon under subsection 1, the Commission shall pay into The Fund for Milk and Cream Producers the moneys obtained therefrom or so much thereof as is necessary to reimburse the Fund for the amount paid to the producer.

(3) Where security has been realized upon under subsection 1, the distributor shall deposit with the Commission such additional security as is necessary to comply with the amount prescribed by the Commission under subsection 1 of section 54 and, on the deposit of such additional security by the distributor, the Commission shall pay to the distributor the moneys remaining, if any, after payment is made to The Fund for Milk and Cream Producers pursuant to subsection 2.

5. Section 57*a* of Regulation 432 of Revised Regulations of Ontario, 1960, as made by section 1 of Ontario Regulation 307/66, is revoked and the following substituted therefor:

57*a*. Notwithstanding paragraph 25 of section 1 of the Act, in the case of the following territorial districts, any reference to "producer" or "producers" in sections 52, 53, 54 and 55 shall be deemed to be a reference to "The Ontario Milk Marketing Board" as constituted by section 4 of the Schedule to Ontario Regulation 202/65, as amended by Ontario Regulation 250/65:

- 1. Algoma, except the Township of Wicksteed.
- 2. Manitoulin.
- 3. Nipissing.
- 4. Sudbury.

THE MILK ACT, 1967

O. Reg. 197/67.

Milk Products.

Made—May 23rd, 1967.

Approved—May 25th, 1967.

Filed—May 30th, 1967.

REGULATION MADE UNDER THE MILK ACT, 1967

1. Regulation 434 of Revised Regulations of Ontario, 1960, as amended by Ontario Regulations 209/61, 274/63, 179/64, 48/65, 291/65 and 204/66, is further amended by adding thereto the following sections:

5a. The Commission may refuse to issue or renew a licence for the operation of a plant,

- (a) where the applicant is not qualified by experience, financial responsibility, personnel or equipment to properly engage in the business for which the application was made;
- (b) where the applicant fails to deposit the security required under section 9;
- (c) where the applicant fails to observe, perform or carry out the requirements of the Act, the regulations, any plan, agreement or award, or any order of the Commission or a marketing board;
- (d) where, in the opinion of the Commission, any material representation or information made or provided by or on behalf of the applicant is false or misleading;
- (e) where the applicant does not file with the Commission the cash or credit basis for the payment of producers for milk or cream;
- (f) where the applicant is required to and does not hold a certificate of approval for the pasteurizing of milk under *The Public Health Act* and the regulations thereunder.

5b. Every person who operates more than one plant is required to be the holder of a licence in respect of each plant and shall be deemed to be a separate operator in respect of each such plant.

2.—(1) Clauses *d* and *e*, as amended by section 6 of Ontario Regulation 291/65, and clause *f* of section 6 of Regulation 434 of Revised Regulations of Ontario, 1960 are revoked and the following substituted therefor:

- (d) the holder of the licence pays the producers on or before the following dates according to the cash or credit basis filed with the Commission:

1. Where milk or cream is purchased on a daily cash basis,
 - (a) the day on which the milk or cream is received; or
 - (b) where the price of the milk or cream is deposited each day in a bank account established for the payment of producers only, the 25th day of any month for milk or cream received during the first half of the month, and the 10th day following the end of the month for milk or cream received during the remainder of the month.

2. Where milk or cream is purchased on a weekly credit basis, the Monday following the end of any week for the milk or cream received during the week.

3. Where milk or cream is purchased on a bi-weekly credit basis, the 10th day following the end of any two-week period for the milk or cream received during the period.

4. Where milk or cream is purchased on a twice-a-month credit basis, the 25th day of any month for milk or cream received during the first half of the month, and the 10th day following the end of the month for milk or cream received during the remainder of the month.

5. Where milk or cream is purchased on a monthly credit basis, the 15th day following the end of any month for milk or cream received during the month.

6. Where milk or cream is purchased on a basis other than a basis set out in paragraph 1, 2, 3, 4 or 5, on such day or days as are approved by the Commission;

- (e) the holder of the licence observes, performs and carries out the provisions of the Act, the regulations, any plan, agreement or award, or any order of the Commission or a marketing board;

- (f) the holder of the licence complies with the provisions of *The Public Health Act* and the regulations made thereunder;

- (g) every person grading or testing milk or cream received at a plant or milk at a farm bulk tank is the holder of a certificate under this Regulation;

- (h) where the licence was issued subject to the deposit or security under section 9, the holder of the licence deposits and maintains the security in accordance with sections 9 and 10; or

- (i) where any payment is made to producers under *The Farm Products Payments Act, 1967* and the regulations thereunder for milk or cream purchased by the holder of the licence, the holder of the licence complies with the provisions of such regulations respecting repayment.

(2) The said section 6 is amended by adding thereto the following subsection:

- (2) The Commission may suspend or revoke a licence in Form 4 for any failure to comply with the terms and conditions upon which it is issued.

3. Section 7, as amended by section 6 of Ontario Regulation 291/65, section 8, and sections 9 and 10, as amended by section 6 of Ontario Regulation 291/65 of Regulation 434 of Revised Regulations of Ontario, 1960 are revoked and the following substituted therefor:

7.—(1) Milk or cream shall be purchased from producers,

- (a) on a daily cash basis;
- (b) on a weekly credit basis;
- (c) on a bi-weekly credit basis;
- (d) on a twice-a-month credit basis;
- (e) on a monthly credit basis; or
- (f) on any other basis approved by the Commission.

- (2) Payment becomes due for milk or cream purchased from producers,

(a) on a daily cash basis,

(i) on the day received, or

(ii) where the price of the milk or cream is deposited each day in a bank account established for the payment of producers only, on the 15th day of any month for milk or cream received during the first half of the month, and on the last day of the month for milk or cream received during the remainder of the month;

(b) on a weekly credit basis, on the last day of any week for milk or cream received during the week;

(c) on a bi-weekly credit basis, on the last day of any two-week period for milk or cream received during the period;

(d) on a twice-a-month credit basis, on the 15th day of any month for milk or cream received during the first half of the month, and on the last day of the month for milk or cream received during the remainder of the month;

(e) on a monthly credit basis, on the last day of any month for milk or cream received during the month; or

(f) on any other basis approved by the Commission, on the day or days so approved.

8. Where an operator of a plant purchases milk or cream from a producer and the producer has not received payment on the date prescribed therefor in clause *d* of section 6, the producer shall forthwith notify the Commission of the default in payment by the operator.

- 9.—(1) Where the Commission is not satisfied in respect of the financial responsibility of the operator of a plant, the operation of which includes the purchase of milk or cream from producers, the operator shall deposit with the Commission security in a form satisfactory to the Commission and in an amount prescribed by the Commission.

- (2) Security deposited with the Commission under subsection 1 shall be applicable solely to the claims of producers for milk or cream sold to the operator of the plant and in respect of which payments have been made under *The Farm Products Payments Act, 1967* and the regulations thereunder.

- 10.—(1) Where the Commission receives notice pursuant to *The Farm Products Payments Act, 1967* and the regulations thereunder that a payment has been made to a producer from The Fund for Milk and Cream Producers in respect of the operator of a plant who deposited security under subsection 1 of section 9, the Commission may realize upon the security or such part thereof as it deems necessary.

- (2) Where security has been realized upon under subsection 1, the Commission shall pay into The Fund for Milk and Cream Producers

the moneys obtained therefrom or so much thereof as is necessary to reimburse the Fund for the amount paid to the producer.

- (3) Where security has been realized upon under subsection 1, the operator of the plant shall deposit with the Commission such additional security as is necessary to comply with the amount prescribed by the Commission under subsection 1 of section 9 and, on the deposit of such additional security by the operator, the Commission shall pay to the operator the moneys remaining, if any, after payment is made to The Fund for Milk and Cream Producers pursuant to subsection 2.

4. Regulation 434 of Revised Regulations of Ontario, 1960 is further amended by adding thereto the following section:

108.—(1) Every operator of a plant shall furnish to the Commission within three months after the end of his fiscal year three copies of the financial statement of his operations during the fiscal year, including the balance sheet and profit and loss statement, in respect of each plant operated by him in Ontario.

(2) Every financial statement furnished by the operator of a plant under subsection 1 shall be certified by his auditor.

(3) Every operator of a plant shall, in addition to the information or returns required under subsection 1, furnish to the Commission such information or returns as the Commission from time to time determines.

(4) Producers and transporters of milk and cream shall furnish to the Commission such information or returns as the Commission from time to time determines.

THE FARM PRODUCTS PAYMENTS ACT, 1967

O. Reg. 198/67.

General.

Made—May 25th, 1967.

Filed—May 30th, 1967.

REGULATION MADE UNDER THE FARM PRODUCTS PAYMENTS ACT, 1967

1. In this Regulation,

(a) "cream" means cream separated from milk on the farm on which the milk is produced and supplied to a creamery in Ontario for manufacture into creamery butter;

(b) "creamery" means premises in which cream is manufactured into creamery butter;

(c) "dairy" means premises in which milk is processed into fluid milk products;

(d) "distributor" means a person engaged in selling or distributing fluid milk products directly or indirectly to consumers;

(e) "grade A milk" means milk designated as grade A milk by section 1 of Ontario Regulation 280/65 under *The Milk Act, 1965* and supplied to a distributor or dairy in Ontario.

(f) "industrial milk" means milk designated as industrial milk by section 2 of Ontario Regulation 280/65 under *The Milk Act, 1965* and supplied to an industrial milk plant in Ontario;

(g) "industrial milk plant" means a cheese factory, concentrated milk plant, cream receiving station or milk receiving station as defined in *The Milk Act, 1965* and includes premises in which milk is manufactured into creamery butter;

(h) "milk" means milk from cows;

(i) "producer" means a producer of milk or cream.

2. There is hereby established a fund for producers of milk or cream to be known as "The Fund for Milk and Cream Producers", hereinafter referred to as the "Fund".

3. The Milk Commission of Ontario is designated as the Board to administer the Fund, and is hereinafter referred to as the "Board".

4. Milk and cream are designated as farm products.

5. The Ontario Milk Marketing Board, as constituted under *The Milk Act, 1965*, is designated as a producer.

6.—(1) Every dealer who is a distributor or operator of a dairy shall pay to the Board a fee of \$4 for each \$1,000 or part thereof of the average value of grade A milk purchased from producers.

(2) Every dealer who is the operator of an industrial milk plant shall pay to the Board a fee of \$4 for each \$1,000 or part thereof of the average value of industrial milk purchased from producers.

(3) Every dealer who is the operator of a creamery shall pay to the Board a fee of \$4 for each \$1,000 or part thereof of the average value of cream purchased from producers.

(4) Every dealer shall pay the fee or fees prescribed by subsections 1, 2 and 3,

(a) in the year 1967,

(i) on or before the date on which the dealer's licence as a distributor or operator of an industrial milk plant or operator of a creamery, as the case may be, becomes effective, and

(ii) on or before the 1st day of December; and

(b) in each year after 1967, on or before the date on which the dealer's licence as a distributor or operator of an industrial milk plant or operator of a creamery, as the case may be, becomes effective.

(5) For the purposes of subsection 6, the average daily value of,

(a) grade A milk;

(b) industrial milk; or

(c) cream,

shall be the amount obtained by dividing the value of the grade A milk, the industrial milk or the cream, as the case may be, that was delivered to the dealer by producers during the previous calendar year by the number of days in the year or part thereof on which such milk or cream was delivered.

(6) The average value of grade A milk for the purposes of subsection 1, of industrial milk for the purposes of subsection 2, or of cream for the purposes of subsection 3, as the case may be, shall be,

(a) where producers are paid on a daily cash basis, the amount obtained by multiplying the average daily value by seven;

(b) where producers are paid on a weekly credit basis, the amount obtained by multiplying the average daily value by fifteen;

(c) where producers are paid on a bi-weekly or twice-a-month credit basis, the amount obtained by multiplying the average daily value by thirty;

(d) where producers are paid on a monthly credit basis, the amount obtained by multiplying the average daily value by forty-five; or

(e) where the dealer is commencing business, such amount as the Board determines.

(7) The average value of,

(a) grade A milk for the purposes of subsection 1;

(b) industrial milk for the purposes of subsection 2; or

(c) cream for the purposes of subsection 3,

shall not exceed \$100,000 in each case in respect of any one dealer.

7.—(1) An application for payment from the Fund shall be made to the Board in Form 1.

(2) A separate application shall be made to the Board in respect of each dealer against whom a producer has a claim.

(3) An application in Form 1 shall be made not later than the 30th day next following the date on which,

(a) the payment in respect of which the application is made became due; or

(b) the whole or any part of the dealer's assets has been placed in the hands of a trustee for distribution under the *Bankruptcy Act* (Canada) or *The Bulk Sales Act*.

8. On receipt of an application under section 7, the Board shall,

(a) give notice to the dealer by registered mail of the producer's claim for payment; and

(b) notify The Milk Commission of Ontario.

9. Where the Board determines that a claim is not valid, it shall refuse payment of the claim and shall give notice of the refusal by registered mail to the producer and to the dealer, and shall also notify The Milk Commission of Ontario.

10. Where the Board determines that a claim is valid, it shall,

(a) make payment to the producer from the Fund; and

(b) notify the dealer and The Milk Commission of Ontario.

11.—(1) Where the Board makes a payment from the Fund, the dealer in respect of whom the payment is made shall,

(a) pay to the Board; or

(b) commence to pay by instalments in accordance with an undertaking approved by the Board,

the amount paid from the Fund, less the amount, if any, paid to the Board from the sale of security deposited by the dealer with The Milk Commission of Ontario under Regulation 432 or Regulation 434 of Revised Regulations of Ontario, 1960.

(2) Where a dealer fails,

(a) to comply with the provisions of subsection 1; or

(b) to make any instalment payment as it becomes due under an undertaking referred to in clause b of subsection 1,

the Board shall notify The Milk Commission of Ontario.

12.—(1) The Board may refuse to make payment in respect of a claim,

(a) subject to subsection 2, where a producer claims payment in respect of a dealer who is not the holder of a licence under Regulation 432 or Regulation 434 of Revised Regulations of Ontario, 1960;

(b) where any cheque received by a producer from a dealer is dishonoured by non-acceptance or non-payment unless the producer has presented the cheque for payment within ten days of the date on which he received it;

(c) where a producer fails to make his application in Form 1 within the time prescribed by subsection 3 of section 7; or

(d) where a producer has made an arrangement with the dealer whereby the time on which payment becomes due is extended.

(2) A producer may be paid from the Fund where his claim is made in respect of milk or cream delivered to a dealer prior to the date on which he received notice from The Milk Commission of Ontario that the licence of the dealer had been suspended or revoked or had not been renewed.

13. The Board, having regard to the circumstances of a case, may make payment from the Fund where a claim for payment is made in substantial conformity with subsection 3 of section 7.

14. The amount that may be paid out of the Fund to a producer on any application shall not exceed the payment due for milk or cream for a period of sixty days.

THE APPRENTICESHIP AND TRADESMEN'S
QUALIFICATION ACT, 1964

O. Reg. 199/67.

Cement Masons.

Made—May 18th, 1967.

Filed—May 30th, 1967.

REGULATION MADE UNDER
THE APPRENTICESHIP AND TRADESMEN'S
QUALIFICATION ACT, 1964

CEMENT MASONS

1. In this Regulation,

(a) "certified trade" means the trade of cement mason;

(b) "cement mason" means a person who,

(i) does concrete finishing by hand or with mechanical equipment including the application of curing and surface treatments,

(ii) does all phases of waterproofing and restoration of concrete,

(iii) does rubbing-up and repairing of hardened concrete surfaces,

(iv) places and finishes epoxy, plastic and other composition materials, and

(v) finishes and exposes aggregate in pre-cast and architectural concrete.

2. The trade of cement mason is designated as a certified trade for the purpose of the Act.

3. No person shall become an apprentice in the certified trade unless he has Grade 8 standing or, in the opinion of the Director, has equivalent academic qualifications.

4. An apprentice training programme is established for the certified trade and shall consist of three periods of training and instruction of 2000 hours each,

- (a) at full-time educational day classes provided at a Provincial Institute of Trades in the subjects contained in Schedule 1; and
- (b) in practical training and instruction provided by the employers of the apprentice in the occupational skills contained in Schedule 2.

The total hours of related training and work experience shall be assigned as shown in Schedule 1 and Schedule 2.

5. The rate of wages for an apprentice in the certified trade, whether for his regular daily hours or hours in excess of his regular daily hours, shall be not less than,

- (a) 60 per cent for the first period of training and instruction;
- (b) 75 per cent for the second period of training and instruction; and
- (c) 90 per cent for the third period of training and instruction,

of the rate of wages or its equivalent for a journeyman employed by the same employer in the trade and with whom the apprentice is working.

6. The number of apprentices who may be employed by an employer in the trade shall not exceed,

- (a) where the employer is a journeyman in the trade, one apprentice plus one additional apprentice for every four journeymen employed by the employer in the trade and with whom the apprentice is working; and

- (b) where the employer is not a journeyman in the trade, one apprentice for the first journeyman employed by the employer plus one additional apprentice for each additional four journeymen employed by the employer in the trade and with whom the apprentice is working.

7.—(1) Notwithstanding subsection 2 of section 7 of Ontario Regulation 279/64, every hour worked by an apprentice in excess of his regular daily hours of practical training and instruction shall be included in computing the hours spent in training and instruction.

(2) A progress record book shall be issued by the Department of Labour to each apprentice for the purpose of recording work experience and related training time and the apprentice shall be responsible for the safe-keeping of this progress record book.

8. A contract of apprenticeship shall be entered into by every apprentice with the local apprenticeship committee for the trade established under the Act in the area in which his apprenticeship originates and the apprentice shall be responsible for preparing the reports of his work experience and instruction as prescribed in his progress record book for submission to the local apprenticeship committee.

9. The local apprenticeship committee shall be responsible for periodic review of the progress of each apprentice and for ensuring that the apprentice obtains the range of work experience and related training as prescribed in this Regulation.

10. The subjects of examination for an apprentice in the certified trade are the subjects set out in column 1 of schedules 1 and 2.

11. Any person who is engaged in the certified trade is exempt from subsections 2 and 3 of section 10 of the Act.

12. A holder of a certificate of qualification in the certified trade of cement mason is exempt from the provisions of sections 21 and 22 of Ontario Regulation 279/64.

THE CROP INSURANCE ACT (ONTARIO),
1966

O. Reg. 200/67.

Spring Grain Crop Insurance Plan.

Made—March 29th, 1967.

Approved—March 30th, 1967.

Filed—May 31st, 1967.

REGULATION MADE UNDER
THE CROP INSURANCE ACT (ONTARIO), 1966

1. The plan in the Schedule is established for the insurance within Ontario of spring grain.

Schedule

The Crop Insurance Act (Ontario), 1966

PLAN

1. This plan may be cited as "The Ontario Crop Insurance Plan for Spring Grain".

2. The purpose of this plan is to provide for insurance against a loss in the production of spring grain resulting from one or more of the perils designated in section 4.

INTERPRETATION

3. In this plan,

- (a) "normal expected yield" means the expected yield of seeded acreage for a crop year as forecast on the basis of acreage production records of the insured person or on such other basis as the Commission approves;
- (b) "mixed grain" means any seed mixture that includes both oats and barley, the combined weight of which equals at least 75 per cent of the total, but the individual weights of either of which do not exceed 75 per cent of the total;
- (c) "spring grain" means,
 - (i) oats,
 - (ii) barley, and
 - (iii) mixed grain.

DESIGNATION OF PERILS

4. The following are designated as perils for the purposes of this plan:

- 1. Drought.
- 2. Excessive moisture.
- 3. Excessive rainfall.
- 4. Flood.
- 5. Frost.
- 6. Hail.
- 7. Insect infestation.
- 8. Plant disease.
- 9. Wind.

DESIGNATION OF CROP YEAR

5. The crop year for spring grain is the period from the 1st day of March in any year to the 15th day of October next following.

CONTRACT OF INSURANCE

6. For the purposes of this plan, the entire contract of insurance for spring grain shall be deemed to be comprised of,

- (a) the contract of insurance in the form prescribed by Ontario Regulation 29/67;
- (b) an endorsement for spring grain in Form 2;
- (c) the application for insurance;
- (d) the final acreage report for each crop year; and
- (e) an amendment to any document referred to in clauses a, b, c or d agreed upon in writing.

7. An application for insurance shall,

- (a) be in Form 1;
- (b) be accompanied by a premium deposit of at least \$15; and
- (c) be filed with the Commission,
 - (i) in respect of acreage situate in a county, not later than the 1st day of April, and
 - (ii) in respect of acreage situate in a territorial district or the Provisional County of Haliburton, not later than the 1st day of May,

in the crop year in respect of which it is made.

DURATION OF CONTRACT

8.—(1) A contract of insurance shall be in force for the crop year in respect of which it is made, and shall continue in force for each crop year thereafter until it is cancelled by the insured person or the Commission in the manner prescribed by subsection 2 or is terminated in accordance with the regulations.

(2) A contract of insurance may be cancelled by the insured person or the Commission by notice in writing to the other party,

- (a) in respect of acreage situate in a county, on or before the 15th day of March; and
- (b) in respect of acreage situate in a territorial district or the Provisional County of Haliburton, on or before the 15th day of April,

in the crop year during which the cancellation is to be effective.

COVERAGE

9.—(1) For the purpose of computing total guaranteed production, the number of bushels declared as the normal expected yield shall be converted to pounds.

(2) The conversion into pounds mentioned in subsection 1 shall be made on the basis that,

- (a) a bushel of oats weighs 34 pounds;
- (b) a bushel of barley weighs 48 pounds; and
- (c) a bushel of mixed grain weighs 40 pounds.

10.—(1) The coverage provided under a contract of insurance shall be,

- (a) 60 per cent;
- (b) 70 per cent; or
- (c) 80 per cent,

of the normal expected yield computed in pounds of the total acreage seeded to spring grain by the insured person in accordance with the regulations.

(2) The number of pounds determined under subsection 1 constitutes the total guaranteed production under a contract of insurance.

11.—(1) Subject to subsection 2, the percentage of the normal expected yield selected by an applicant at the time a contract of insurance is made applies in each succeeding crop year during which the contract is in force.

(2) Where,

- (a) the insured person applies therefor in writing,
 - (i) in respect of acreage situate in a county, on or before the 15th day of March in a crop year, and
 - (ii) in respect of acreage situate in a territorial district or the Provisional County of Haliburton, on or before the 15th day of April in a crop year; and

(b) the Commission consents in writing,

any percentage designated in subsection 1 of section 10 may be substituted for the percentage selected by the insured person at the time a contract of insurance is made or any percentage substituted in lieu thereof under this subsection.

12. The maximum amount for which the Commission is liable under a contract of insurance shall be the amount obtained by multiplying the total guaranteed production determined under section 10 by the established price per pound prescribed by section 13.

13. For the purposes of this plan, the established price for spring grain is 2.2 cents per pound.

PREMIUMS

14.—(1) The premium payable by an insured person for acreage in a county or territorial district named in column 1 of Table 1 for each \$100 of liability determined under section 12 is the amount set opposite the name of the county or territorial district,

- (a) in column 2 where the percentage under section 10 or 11 is 60 per cent;
- (b) in column 3 where the percentage under section 10 or 11 is 70 per cent; and
- (c) in column 4 where the percentage under section 10 or 11 is 80 per cent.

(2) Notwithstanding subsection 1, the minimum premium payable by an insured person in each crop year is \$15.

(3) The premiums prescribed by subsections 1 and 2 are in addition to such payments in respect of premiums as may be made by,

- (a) the Government of Canada under the *Crop Insurance Act* (Canada); and
- (b) the Treasurer of Ontario under subsection 2 of section 7 of the Act.

15.—(1) Where a contract of insurance is in force, a premium shall be paid in respect of each crop year in which the insured person seeds acreage to spring grain.

(2) Where a premium is payable in respect of a crop year, the insured person shall pay the premium, less the premium deposit, if any, to the Commission at the time he files the final acreage report prescribed by section 16.

FINAL ACREAGE REPORTS

16.—(1) Every insured person shall file with the Commission in each crop year a final acreage report in Form 3 within ten days after the seeding of acreage to spring grain is completed.

(2) A final acreage report filed with the Commission shall not be amended without the consent in writing of the Commission.

17.—(1) The Commission may revise the final acreage report in any or all respects and adjust the premium accordingly and, in such case, shall notify the insured person in writing forthwith respecting such revision and adjustment.

(2) The insured person shall be deemed to have agreed with the revision of the final acreage report and adjustment of premium made by the Commission under subsection 1 unless, within ten days from the mailing or delivery of the notification by the Commission, he notifies the Commission in writing that he rejects such revision and adjustment.

(3) Where the Commission receives notice from an insured person under subsection 2, it shall notify the insured person in writing that the contract of insurance does not apply for the crop year in respect of which the final acreage report was filed and shall refund any premium or premium deposit paid in respect of that crop year.

(4) A final acreage report revised under this section shall, failing notice under subsection 2, constitute the final acreage report for the crop year.

18.—(1) Where an insured person in any crop year fails to file a final acreage report in the form and manner prescribed by this Regulation, the Commission may,

- (a) prepare the final acreage report; or
- (b) declare the insured acreage to be nil.

(2) Where the Commission prepares a final acreage report under subsection 1, the Commission shall mail or deliver a copy of the report to the insured person.

(3) Every insured person shall pay the premium for the crop year in respect of which a final acreage report is prepared by the Commission within ten days from the mailing or delivery to him of a copy of the report.

19.—(1) Where the Commission has not revised the normal expected yield stated by the insured person in a final acreage report, the Commission may, on the adjustment of a claim for a loss in production of spring grain in the crop year, require the insured person to satisfy the Commission that such normal expected yield was based on a reasonable assessment of the productivity of the seeded acreage under normal growing conditions.

(2) Where the insured person fails to satisfy the Commission under subsection 1, the Commission shall determine the normal expected yield and shall reduce accordingly the total guaranteed production determined in accordance with section 10 and the maximum amount of indemnity for which it is liable under section 12, but no portion of the premium shall be refunded.

FINAL DATE FOR SEEDING

20. For the purposes of this plan, the final date for seeding spring grain in a crop year,

- (a) in respect of acreage situate in a county is the 31st day of May; and
- (b) in respect of acreage situate in a territorial district or the Provisional County of Haliburton, is the 15th day of June,

or such other date as may be determined from time to time by the Commission.

FINAL DATE FOR HARVESTING

21. For the purposes of this plan, the final date for harvesting spring grain,

(a) in respect of acreage situate in a county is the 15th day of September; and

(b) in respect of acreage situate in a territorial district or the Provisional County of Haliburton, is the 15th day of October,

or such other date as may be determined from time to time by the Commission.

22. For the purposes of the crop year commencing on the 1st day of March in the year 1967, the final date for filing an application for insurance under section 7 in respect of acreage situate in a county shall be the 1st day of May, 1967.

The Crop Insurance Act (Ontario), 1966

SPRING GRAIN ENDORSEMENT

WHEREAS the insured person has applied for crop insurance for spring grain under The Ontario Crop Insurance Plan for Spring Grain, hereinafter referred to as "the plan", and has paid the deposit premium prescribed thereunder;

NOW THEREFORE, subject to *The Crop Insurance Act (Ontario), 1966* and the regulations made thereunder, the contract of insurance between The Crop Insurance Commission of Ontario and the insured person is hereby extended to cover spring grain.

CAUSES OF LOSS INSURED AGAINST

1. This endorsement insures against a loss in the production of spring grain in a crop year resulting from drought, excessive moisture, excessive rainfall, flood, frost, hail, insect infestation, plant disease and wind.

DURATION OF INSURANCE

2. The contract of insurance for spring grain is in force for the crop year in which it is made and continues in force for each crop year thereafter until it is cancelled or terminated in accordance with the regulations.

COVERAGE

- 3.—(1) For the purpose of computing total guaranteed production, the number of bushels declared as the normal expected yield shall be converted to pounds.

(2) The conversion into pounds mentioned in subsection 1 shall be made on the basis that,

- (a) a bushel of oats weighs 34 pounds;
- (b) a bushel of barley weighs 48 pounds; and
- (c) a bushel of mixed grain weighs 40 pounds.

4. The coverage provided for spring grain in each crop year is such percentage of the normal expected yield computed in pounds, of the total acreage seeded to spring grain as is selected by the insured person in his application or such other percentage as may be selected by him from time to time with the consent of the Commission.

TOTAL GUARANTEED PRODUCTION

5. The number of pounds determined in accordance with paragraph 4 is the total guaranteed production of spring grain for a crop year.

INDEMNITY

6. The maximum indemnity payable for a loss in production of spring grain in a crop year is the amount obtained by multiplying the total guaranteed production by the price per pound established in the plan.

PREMIUM

7. For each crop year in which the insured person seeds acreage to spring grain, an annual premium shall be paid, the amount of which shall be determined in the manner prescribed by the plan.

FINAL ACREAGE REPORT

8. In each crop year in which the contract of insurance is in force for spring grain, the insured person shall file a final acreage report in the form and manner prescribed by the plan.

CROP YEAR

9. The crop year for spring grain is the period from the 1st day of March in any year to the 15th day of October next following.

FINAL DATE FOR SEEDING

10. The final date for seeding spring grain in a crop year,

(a) in respect of acreage situate in a county, is the 31st day of May; and

(b) in respect of acreage situate in a territorial district or the Provisional County of Haliburton, is the 15th day of June,

or such other date as may be determined from time to time by the Commission.

HARVESTING OF SEEDED ACREAGE

11.—(1) All acreage seeded to spring grain in a crop year shall be harvested unless the Commission, upon application therefor in writing, consents in writing to,

(a) the use of the seeded acreage or any part thereof for another purpose; or

(b) the abandonment or destruction of the insured crop or any part thereof.

(2) The harvesting referred to in subparagraph 1 shall be completed not later than,

(a) in respect of acreage situate in a county, the 15th day of September; and

(b) in respect of acreage situate in a territorial district or the Provisional County of Haliburton, the 15th day of October,

or such other date as may be determined from time to time by the Commission.

EVALUATION OF LOSS

12. For the purpose of determining the loss in production of spring grain in a crop year, and the indemnity payable therefor,

(a) the actual production of all acreage harvested of oats, barley and mixed grain shall be combined, and in no case shall the production of oats, barley or mixed grain be taken into account separately; and

(b) the value of the crop shall progress through the stages prescribed in paragraphs 13, 14 and 15.

STAGE 1

13.—(1) Stage 1 comprises the period from the date on which the seeding of acreage to spring grain is completed to and including the 15th day of June in the crop year.

(2) Where loss or damage occurs in Stage 1, the Commission, upon application therefor in writing by the insured person, may consent in writing to the use of the damaged acreage for any other purpose or to the abandonment or destruction of the insured crop on such damaged acreage and, in such case, the Commission shall determine the number of damaged acres and the potential production thereof.

(3) Where the damaged acreage is used for any other purpose or the insured crop thereon is abandoned or destroyed in accordance with subparagraph 2, the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total seeded acreage shall be calculated by multiplying,

(a) 30 per cent of the guaranteed production for the damaged acreage; or

(b) the difference between the guaranteed production and the potential production determined under subparagraph 2 for the damaged acreage,

whichever is the lesser, by the established price per pound.

(4) Where damaged acreage is not used for any other purpose or the crop thereon is not abandoned or destroyed after the Commission has consented thereto, the amount of loss calculated under subparagraph 3 shall not be taken into account in the final adjustment of loss.

STAGE 2

14.—(1) Stage 2 commences on the 16th day of June in the crop year and, with respect to any part of the seeded acreage, ends with the completion of harvesting of such part.

(2) Where loss or damage occurs in Stage 2, the Commission, upon application therefor in writing by the insured person, may consent in writing to the use of the damaged acreage for any other purpose or to the abandonment or destruction of the insured crop on such damaged acreage and, in such case, the Commission shall determine the number of damaged acres and the potential production thereof.

(3) Where damaged acreage is used for any other purpose or the insured crop thereon is abandoned or destroyed in accordance with subparagraph 2, the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total seeded acreage shall be calculated by multiplying the difference between,

(a) 90 per cent of the guaranteed production for the damaged acreage; and

- (b) the potential production determined under subparagraph 2 for the damaged acreage,

by the established price per pound.

(4) Where damaged acreage is not used for any other purpose or the crop thereon is not abandoned or destroyed after the Commission has consented thereto, the amount of loss calculated under subparagraph 3 shall not be taken into account in the final adjustment of loss.

STAGE 3

15.—(1) Stage 3 applies to seeded acreage with respect to which harvesting has been completed.

(2) Where the actual production of the harvested acreage is less than the guaranteed production for such acreage, the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total seeded acreage shall be calculated by multiplying the difference between the guaranteed production and the actual production by the established price per pound.

FINAL ADJUSTMENT OF LOSS FOR TOTAL SEEDED ACREAGE

16. The indemnity payable with respect to the total seeded acreage in the final adjustment of loss shall be the sum of all Stage 1, Stage 2 and Stage 3 loss calculations applicable to such acreage, but where

the actual production of any harvested acreage exceeds the guaranteed production of such acreage, the indemnity otherwise payable shall be reduced by the amount obtained by multiplying such excess by the established price per pound.

INCORRECT ACREAGE IN FINAL ACREAGE REPORT

17.—(1) Where the actual seeded acreage of spring grain in a crop year is less than the seeded acreage declared on the final acreage report, the guaranteed production and the amount of insurance shall be reduced proportionately.

(2) Where the actual seeded acreage of spring grain in a crop year exceeds the seeded acreage declared on the final acreage report, the guaranteed production per acre shall be reduced proportionately.

IN WITNESS WHEREOF The Crop Insurance Commission of Ontario has caused this endorsement to be signed by its general manager but the same shall not be binding upon the Commission until countersigned by a duly authorized representative thereof.

THE CONSUMER PROTECTION ACT, 1966

O. Reg. 207/67.

General.

Made—June 8th, 1967.

Filed—June 8th, 1967.

REGULATION MADE UNDER
THE CONSUMER PROTECTION ACT, 1966

GENERAL

INTERPRETATION

1.—(1) In this Regulation, "branch office" means a place at which the public is invited to deal in the conduct of the business of an itinerant seller.

(2) For the purposes of subsection 1 of section 16 of the Act, "warranty or guarantee" means a warranty or guarantee that is enforceable by a buyer against a seller.

EXEMPTIONS

2.—(1) The provisions of the Act do not apply to a person who,

- (a) borrows in the course of carrying on business or who lends to a person who borrows in the course of carrying on business;
(b) buys goods or services for purposes of resale in the ordinary course of trade or for use in the further production of goods or services; or
(c) who sells goods or services to a person referred to in clause b.

(2) The provisions of section 16 of the Act do not apply to a buyer or seller under an executory contract under an agreement for variable credit for which the borrower incurs no cost of borrowing.

(3) The provisions of subsection 1 of section 3 of the Act do not apply to,

- (a) a used car dealer registered under *The Used Car Dealers Act, 1964*; or
- (b) an insurer, insurance agent or an insurance broker licensed under *The Insurance Act*.

(4) The provisions of section 19 of the Act do not apply to a seller who acquires title to a trade-in under an executory contract.

(5) Where a seller wishes to exclude an implied condition, warranty or guarantee under *The Sale of Goods Act* from an executory contract to which Part II of *The Consumer Protection Act, 1966* applies, the executory contract shall state that such implied condition, warranty or guarantee under *The Sale of Goods Act* is excluded.

PART 1

REGISTRATION

3.—(1) An application for registration as an itinerant seller by a person other than a corporation shall be in Form 1.

(2) An application for registration as an itinerant seller by a corporation shall be in Form 2.

(3) An application for registration as an itinerant seller shall include the address of each branch office, if any, of the applicant.

FEES

4.—(1) Fees payable to the Registrar are as follows:

- 1. Upon application for first registration as an itinerant seller \$40
- 2. Upon application for renewal of a registration \$25

(2) Every registration that is subsisting and in force on the 31st day of December, 1967 shall be deemed to be renewed for one year from the 31st day of December, 1967 and no fee is payable for the renewal.

5. An itinerant seller shall obtain a separate registration, on application, for each trade name under which he carries on business as an itinerant seller.

BONDS

6.—(1) Every application for registration shall be accompanied by the prescribed fee and a bond in such amount and form as is prescribed.

(2) The bond shall be,

- (a) the bond of a guarantee company approved under *The Guarantee Companies Securities Act*;
- (b) a personal bond accompanied by collateral security; or
- (c) the bond of a guarantor, other than a guarantee company, accompanied by collateral security,

and shall be in the principal amount of \$5,000.

(3) The classes of negotiable security that may be accepted as collateral security for a bond are,

- (a) bonds issued or guaranteed by Canada; or
- (b) bonds issued or guaranteed by any province of Canada.

(4) The market value of the collateral security referred to in subsection 3 shall be posted and maintained at an amount not less than \$5,000.

(5) The bond shall be in Form 3, Form 4 or Form 5, as the case may be.

TRUST FUNDS

7.—(1) All moneys received by a seller under an executory contract to which Part II of the Act applies and that is subject to rescission shall be retained by the seller in trust for the buyer until the contract is rescinded under section 18 of the Act or until the period for rescission has expired, whichever is the later.

(2) Where money is paid, whether by way of deposit or otherwise, on account of the proposed purchase of goods or services but no binding contract is entered into in respect of the goods and no delivery of the goods or any part thereof has been made to the buyer or no performance of the services has been made, the seller shall retain the money in trust for the buyer until,

- (a) the goods are delivered or the services performed;
- (b) the buyer requests the refund in full of the moneys paid; or
- (c) subject to subsection 1, a binding contract is entered into.

(3) Every seller shall maintain a ledger account in which shall be entered full details of all trust moneys so received and disbursements therefrom and shall keep all trust moneys retained by him separate and apart from his own moneys.

FORFEITURE OF BONDS

8.—(1) The Registrar may declare a bond forfeited,

- (a) where a registered itinerant seller, including any member of a partnership, in respect of whose conduct the bond has been conditioned has been convicted of,
 - (i) an offence under the Act, or
 - (ii) an offence involving fraud or theft or conspiracy to commit an offence involving fraud or theft under the *Criminal Code* (Canada);

(b) where judgment based on a finding of fraud has been given against a registered itinerant seller, including any member of a partnership, in respect of whose conduct the bond is conditioned;

(c) where proceedings by or in respect of a registered itinerant seller, including any member of a partnership, in respect of whose conduct the bond is conditioned, have been taken under the *Bankruptcy Act* (Canada) or by way of winding up and a receiving order under the *Bankruptcy Act* (Canada) or a winding-up order has been made; or

(d) where a registered itinerant seller has been a party to civil proceedings resulting from a sale, or sales, of goods or services made in the course of his business as an itinerant seller and judgment has been given against the itinerant seller,

and such conviction has become final or such judgment or order has become final and remained unsatisfied for a period of thirty days, and thereupon the amount thereof becomes due and owing by the person bound thereby as a debt due the Crown in right of Ontario.

(2) A bond may be cancelled by any person bound thereunder by giving to the Registrar and the itinerant seller named in the bond at least two months' notice in writing of intention to cancel and it shall be deemed to be cancelled on the date stated in the notice, which date shall be not less than two months after the receipt of the notice by the Registrar.

(3) For the purpose of every act or omission occurring during the period when the bond was in effect prior to termination, every bond shall continue in force and the collateral security, if any, shall remain on deposit for a period of two years after the termination of the bond.

9. Where a bond secured by the deposit of collateral security is forfeited under section 8, the Treasurer of Ontario may sell the collateral security at the current market price.

10. Where the Crown in right of Ontario becomes a creditor of a person in respect of a debt to the Crown arising from the provisions of section 8, the Registrar may take such proceedings as he sees fit under the *Bankruptcy Act* (Canada), *The Judicature Act*, *The Corporations Act* or the *Winding-up Act* (Canada) for the appointment of an interim receiver, custodian, trustee, receiver or liquidator, as the case may be.

11. The Treasurer of Ontario may,

- (a) assign any bond forfeited under section 8 and transfer the collateral security, if any;
- (b) pay over any money recovered under the bond; or
- (c) pay over any money realized from the sale of the collateral security under section 9,

to any person in respect of a claim arising out of a sale, or sales, of goods or services, or to the accountant of the Supreme Court in trust for such persons as may become, in respect of claims arising out of a sale, or sales, of goods or services, judgment creditors of the person bonded or to any trustee, custodian, interim receiver, receiver or liquidator of such person, as the case may be.

12. Where a bond has been forfeited or cancelled and the Treasurer of Ontario has not received notice in writing of any claim against the proceeds of the bond or such part as remains in the hands of the Treasurer of Ontario within two years of the forfeiture or cancellation, the Treasurer of Ontario may pay the proceeds or part remaining to any person who made a payment under the bond or who assigned the collateral security realized, after first deducting the amount of any expenses that have been incurred in connection with any investigation or otherwise relating to the itinerant seller in respect of whose conduct the bond was conditioned.

PART 2

DISCLOSURE

13. In this Part,

- (a) "annual percentage rate" means for the purposes of sections 14 and 15 a percentage that is 365 times greater than a daily percentage rate that, when multiplied by the balance of the principal sum outstanding at the end of each day during the term of the contract will produce a sum that equals the cost of borrowing, or sums, the total of which equal the cost of borrowing;
- (b) "approximately" means an interval or amount that does not vary from the average interval or amount by more than 10 per cent;

(c) "median amount" means an amount that is half way between one amount and another amount;

(d) "payment period" means the number of days that elapse between the dates upon which a payment is required in an agreement;

(e) "principal sum" means the sum stated in clause *a* or clause *c* of section 21 of the Act, which shall be deemed to be unpaid or outstanding for at least one day, and the unpaid balances thereof from time to time outstanding but does not include any amount or amounts that are components of the cost of borrowing;

(f) "regular payment contract" means a contract in which payments are required at approximately equal intervals and in approximately equal amounts during the term of the contract.

14. The percentage required by clause *e* of section 21 of the Act shall be calculated, expressed and applied with respect to an extension of credit in the following manner:

1. Subject to paragraphs 4 and 5 and to section 15, the percentage that a lender shall disclose with respect to an extension of credit shall be the annual percentage rate applicable to the contract.
2. The annual percentage rate shall be deemed to have been charged not in advance on the principal sum from time to time outstanding, so long as the payments required to be made by the borrower are made as they become due and such payments are applied first to the reduction of the accrued cost of borrowing.
3. For the purposes of paragraph 2, the cost of borrowing shall be deemed to be charged daily and summed until the next succeeding payment becomes due and the accrued cost of borrowing is that amount which is so charged and summed at any given time.
4. Where a contract provides for approximate monthly payment periods, the rate that shall be deemed to have been applied monthly under paragraphs 1 to 3 shall be one-twelfth of the annual percentage rate.
5. Where a contract provides for payments at periods other than approximately monthly, the rate that shall be deemed to have been applied under paragraphs 1 to 3 with respect to each payment shall be the same fraction of the annual percentage rate that the payment period is of one year.

15.—(1) In this section, "amount of the credit" means the sum stated in clause *a* or *c* of section 21 of the Act.

(2) The annual percentage rate required to be disclosed under section 14 may be a rate that differs by not more than one per cent from the annual percentage rate that the cost of borrowing bears to the amount of the credit, except that a greater arithmetic difference may be permitted in a regular payment contract, in which case the annual percentage rate required to be disclosed may be the actual annual percentage rate that the cost of borrowing bears to an amount that differs by not more than \$5 from the amount of the credit.

(3) In addition to the tolerance permitted by subsection 2, where the due date of the first instalment in an extension of credit having approximately monthly payments and a term of six months or more is not less than fifteen or more than forty-five days after the credit is advanced, it may be deemed by the lender,

for the purposes of the statement required by section 21 of the Act, that the credit was advanced on a date not more than thirty-one days immediately prior to the due date of the first instalment.

16.—(1) Subject to subsections 2, 3 and 4, the annual percentage or scale of annual percentages that a lender shall disclose pursuant to clause *a* of subsection 2 of section 22 and to section 23 of the Act shall be the rate or scale of annual percentage rates that, when applied in the manner prescribed in subsection 2 or 3 of this section to the unpaid balance at the end of the preceding month or period, will yield a sum that equals the cost of borrowing, or sums, the total of which equals the cost of borrowing.

(2) Where a contract for variable credit provides for monthly payments, the percentage rate that shall be applied monthly under subsection 1 shall be one-twelfth of the annual percentage rate.

(3) Where a contract for variable credit provides for payments at periods other than monthly, the percentage rate that shall be applied under subsection 1 with respect to each payment period shall be the same fraction of the annual percentage rate that the payment period is of one year.

(4) For the purposes of subsection 1, the cost of borrowing may be computed within a range,

- (a) not in excess of \$10 on the median amount in a selected range of outstanding balances, where the largest amount in the range is not more than \$1,000; or
- (b) not in excess of \$20 on the median amount in a selected range of outstanding balances where the smallest amount in the range is more than \$1,000,

so long as the cost of borrowing is applied to all outstanding balances within the range.

17.—(1) In this section,

- (a) "denominator" means the sum of the balances of the obligation at the end of each period in accordance with the schedule of payments required as originally scheduled;
- (b) "lender" includes any assignee of the lender;
- (c) "numerator" means the sum of the balances unpaid at the end of each period up to the date of full payment of the total obligation;
- (d) "period" means an interval of time not in excess of thirty-one days.

(2) Subject to subsections 4, 5 and 6, where an amount, due under an extension of credit wherein the cost of borrowing is precomputed, is paid in advance of the due date, the lender may retain a proportion of the cost of borrowing calculated, when the amount of the obligation is fully paid, by dividing the numerator by the denominator, so long as the period in the numerator is equal to the period in the denominator, to produce a fraction, which fraction shall be multiplied by the cost of borrowing and the resultant sum is the amount to be retained by the lender.

(3) Where the original term of the transaction is varied by one or more extensions of payment, the extended payment or payments shall be deemed to have been made as originally scheduled.

(4) Subject to subsections 5 and 6, the lender shall allow the borrower a rebate of the cost of borrowing less the retention allowed the lender under subsection 2.

(5) Except where the prepayment is made under an arrangement for refinancing or for the extension of additional credit, the lender is entitled, in addition to the amount allowed under subsection 2, to retain an amount equal to not more than \$20 or one-half of the rebate as computed in subsection 4, whichever is the lesser, and the borrower is entitled to a rebate of the remainder of the cost of borrowing.

(6) Where the rebate required to be given under subsection 4 is less than \$2, the borrower is not entitled to the rebate.

18.—(1) Where a lender represents, or causes to be represented, in print his charge for credit, the lender shall provide an example of the calculation of the charge and the rate represented thereby.

(2) The representations required to be made by a lender under subsection 26 of the Act,

- (a) shall, in the case of a lender who advertises in a place other than his business premises, be printed on the advertisement;
- (b) may, in the case of a lender who advertises in his business premises, be omitted from the advertisement, so long as a statement is printed on the advertisement that the charge for credit and the calculation therefor and the other terms of the credit transaction may be obtained from a source on the lender's business premises; and
- (c) shall, where the advertisement is printed on a page in a catalogue, refer to a page or pages in the catalogue where the charge for credit and the calculation therefor and the other terms of the credit transaction may be obtained.

(3) Where a lender represents, or causes to be represented, orally his charge for credit by radio or television broadcast, or otherwise, the lender shall provide an example of the calculation of the charge and the rate represented thereby.

19.—(1) The provisions of section 26 of the Act and of subsection 1 of section 18 of this Regulation do not apply to an advertisement printed in a catalogue published before section 26 of the Act comes into force.

(2) Subsection 1 expires on the 29th day of February, 1968.

20. This Regulation comes into force on the 31st day of July, 1967.

"In Her Majesty's name, the Honourable the Lieutenant Governor doth assent to these Bills."

Mr. Speaker then said:—

MAY IT PLEASE YOUR HONOUR:

We, Her Majesty's most dutiful and faithful subjects, the Legislative Assembly of the Province of Ontario, in Session assembled, approach Your Honour with sentiments of unfeigned devotion and loyalty to Her Majesty's person and Government, and humbly beg to present for Your Honour's acceptance a Bill intituled, "An Act for granting to Her Majesty certain sums of money for the Public Service for the fiscal years ending the 31st day of March, 1967, and the 31st day of March, 1968."

¶ To this Act the Royal Assent was announced by the Clerk of the Legislative Assembly in the following words:—

"The Honourable the Lieutenant Governor doth thank Her Majesty's dutiful and loyal Subjects, accept their benevolence and assent to this Bill in Her Majesty's name."

The Honourable the Lieutenant Governor was then pleased to deliver the following gracious speech:—

Mr. Speaker and Members of the Legislative Assembly of Ontario:

The Fifth Session of the Twenty-seventh Parliament of Ontario is about to end. I wish to commend the Honourable Members for their hard work and constructive discussions in the consideration and approval of the many matters of business which were brought before this Legislature.

We have met during a year of especial significance to Canadians. The Centennial of Confederation is being successfully observed. Ontario, as one of the original partners of Confederation, continues to accept its responsibilities in the developing of our great country. The pride of the people of Ontario in their participation in the building of Canada is evident in the many celebrations being held throughout the Province. This was also demonstrated by the Honourable Members during the historic discussions of the future of Confederation and the approval of a resolution respecting the convening of a Confederation of Tomorrow Conference.

I thank the Honourable Members for making provision for the funds necessary to carry on the business of the Government. The economic growth of our Province and its excellent financial standing will enable the necessary funds to be raised.

Many measures dealing with the health, well-being and rights of our people have been passed. Of special note are the many statutes enacted to increase the protection given to consumers and investors. Depositors and those who lend money to loan corporations and trust companies were assured the protection of their investment through insurance. A Bill incorporating major revisions in The Corporations Act has been placed before you for consideration prior to the next Session of the Legislature. The new Legal Aid Plan has come into operation. A Consumer Credit Bureau has been instituted.

The Honourable Members have considered and approved the largest, most imaginative and most ambitious educational program ever undertaken in Canada. It reflects the rapid expansion of our school population, the number of schools required to accommodate this population, the introduction of the new system of Colleges of Applied Arts and Technology, the growth of our universities and the many changes and improvements made in the quality and diversity of the educational programs and educational opportunities in Ontario.

Legislation has been passed to make provincial maintenance allowances available to a larger number of persons, to establish a uniform needs test and to base the amount of payment on the requirement of the family unit. As well, the rate of allowance has been increased.

Measures have been implemented to expand our housing program, including the HOME Plan.

Amendments to the Ontario Medical Services Insurance Plan have enabled the increase in fees to be met out of the Plan, in order that the impact of this increase would not fall on members enrolled in OMSIP. A new registration system for both health and medical insurance is being developed. The new Air Pollution Control Act provides for provincial control of air pollution in Ontario. A major social advance in the care of the mentally disturbed will come about through The Mental Health Act enacted in this Session. The Ontario Human Rights Code has been extended. A Union-Management Council is being established to provide a forum for discussion and the examination of responsibilities in the public interest.

Provision has been made to relieve the municipal tax burden on our people by increasing by \$1.50 per capita the unconditional grants paid to the municipalities, thus reducing the tax rates levied. In addition, municipalities have been authorized to provide a tax credit to senior citizens for municipal and school taxes.

Important measures have been passed to extend protection for our farm population and to increase the income they receive. A new capital grants program makes funds available for many farm purposes. The coverage under the crop insurance program is being extended.

Programs have been introduced to provide more and better hunting and fishing opportunities for the public at a lower cost, to improve deer range and habitat, and to accelerate forest management and reforestation programs to provide increasing volumes of wood of the most desirable types to meet the needs of Ontario's forest industries. To further enhance the popular Provincial Parks system, new parks will be provided, while those presently existing will be further developed to meet the ever-growing needs of our people and our visitors.

Many of the recommendations of the Select Committee on Mining have been embodied in amendments to The Mining Act.

The Reports of the Select Committees on Aging, Youth, Company Law and Conservation Authorities were presented to the Legislature. They are being studied by my Government.

In declaring the Legislature prorogued, I am pleased to note that the affairs of the Government are in excellent order and that its financial position is sound.

I pray that under the guidance of Divine Providence our Province will continue to provide an increasing measure of satisfaction and prosperity for all our people.

The Provincial Secretary then said:—

Mr. Speaker and Members of the Legislative Assembly:

It is the will and pleasure of the Honourable the Lieutenant Governor that this Legislative Assembly be prorogued and this Legislative Assembly is accordingly prorogued.

RODERICK LEWIS, Q.C.,
Clerk of the Legislative Assembly
of Ontario.

Miscellaneous Notices**ASSOCIATION OF ONTARIO LAND SURVEYORS PROVINCIAL MINIMUM TARIFF**

BY-LAW No. 78

BE IT AND IT IS HEREBY ENACTED, as follows: That the tariff of fees set out in this by-law shall be the minimum tariff for surveys performed by an Ontario Land Surveyor in the Province of Ontario.

1. SCHEDULE A:

All fees shall be calculated at the rate of salary costs plus one hundred and fifty (150) per cent.

For the purpose of this section, salary costs shall mean the actual salaries exclusive of fringe benefits.

A principal of a firm shall be charged at a rate commensurate with the duties performed.

2. SCHEDULE B:

Specific minimum charges are provided for certain services as follows, but in no case shall the charge be less than that calculated under Schedule A.

(a) Boundary surveys,

Survey to mark the limits of any lot or parcel of regular shape in a registered plan of subdivision 3 unit hours.

Additional charge for each adjacent lot or parcel 1½ unit hours.

(b) Title surveys,

(1) A survey for the purpose of monumenting and showing on a plan the limits of any regular shaped lot or parcel, the position of the fences, buildings etc., on the said lot or parcel and the position of adjacent buildings 4 unit hours.

- (2) A survey for the purpose of showing on a plan the limits of any regular shaped lot or parcel, the position of the fences, buildings etc., on the said lot or parcel and the position of adjacent buildings where the parcel has been previously surveyed and the stakes are in position 2 unit hours.

Additional charge for each adjacent lot or parcel 1 unit hour.

(c) Subdivisions,

Residential Subdivisions of 100 lots or less.

Survey to mark out a new plan of subdivision, excluding the boundary survey, in accordance with the draft plan, as approved by the Minister of Municipal Affairs, the survey to include,

- (1) monumenting the streets, lanes, street widenings, lots and block corners, using such monuments as are approved by *The Surveys Act*, *The Registry Act*, *The Land Titles Act* and the regulations made thereunder; and
- (2) preparation of the original linen plan of subdivision, in accordance with the requirements of *The Planning Act*, *The Surveys Act*, *The Registry Act* and *The Land Titles Act*,

Per residential lot 1½ unit hours.
plus a charge for parklands, greenbelt, school blocks, industrial or commercial blocks, etc. lying within the boundaries of the subdivision per acre of 1 unit hour.

For the purpose of the fees described in Schedule B, a unit hour is the total salary cost plus one hundred and fifty (150) per cent of one (1) Ontario Land Surveyor, plus two (2) field assistants, plus one (1) draftsman.

3. For surveys of commercial, industrial, or high class residential properties, hourly rates, plus one-tenth of one percent of the assessed value of the land and building, and not to exceed two hundred per cent of the calculated fee based on the preceding sections.

4. Disbursements,

In addition to all other charges, the surveyor shall be reimbursed the actual cost of disbursements made by him for expenses incurred in the performance of his services. Without limiting the generality of the foregoing, these shall include travelling and hotel expenses, mileage, meals, iron bars, stakes and registry office fees.

By-law No. 42 of the Association of Ontario Land Surveyors is hereby repealed.

J. N. E. BRADBURY,
Secretary-Treasurer.

THE PUBLIC HOSPITALS ACT

O. Reg. 213/67.

Capital Grants for Teaching Hospitals.

Made—June 8th, 1967.

Filed—June 15th, 1967.

REGULATION MADE UNDER THE PUBLIC HOSPITALS ACT

CAPITAL GRANTS FOR TEACHING HOSPITALS

1. In this Regulation,

(a) "approved cost" means the cost of,

- (i) the construction of new buildings and facilities or the renovation of existing buildings and facilities to be used for a teaching hospital, research institute, research facilities or the teaching component in a university-affiliated hospital,
 - (ii) fees that are approved by the Commission and paid to an architect for his services and the services of his consulting engineers,
 - (iii) fees that are approved by the Commission for consultants, other than those paid through the architect,
 - (iv) necessary basic equipment and furnishings and the installation thereof, including elevators and air-conditioning in operating rooms, labour and delivery rooms, nurseries and any other areas of the teaching hospital, research institute, research facilities or the teaching component in a university-affiliated hospital approved by the Commission as requiring air-conditioning,
 - (v) land surveys and soil tests,
 - (vi) necessary paving and sodding,
 - (vii) financing charges,
 - (viii) working capital, and
 - (ix) land acquisition, demolition of existing buildings and other clearance of the site,
- but does not include the cost of,
- (x) contingency allowances,
 - (xi) chapel furnishings,
 - (xii) landscaping, gardens, works of art, murals, busts, statues and similar decorations, or
 - (xiii) facilities for ancillary revenue-producing operations;

- (b) "basic equipment" means all equipment approved by the Commission which is necessary and reasonable to enable a teaching hospital, research institute, research facilities or a teaching component, as the case may be, to commence its function as determined at the time of its completion and includes all such equipment which is installed and ready for use not later than twelve months from the date of completion of the hospital, institute, research facilities or teaching component;
- (c) "renovation programme" means a plan to provide adequate accommodation therein by the major renovation or alteration of a hospital, an organized out-patient department, auxiliary services accommodation, research facilities accommodation, or any part thereof that has become obsolete or otherwise inadequate;
- (d) "research facilities" means facilities in a teaching hospital provided for research in the health fields associated with the teaching of under-graduate or post-graduate students in the health professions for the purpose of carrying out scientific research, under public support or sponsorship, contributing to the

whole body of health knowledge, together with other areas of the hospital to the extent that such other areas service or support the research facilities;

- (e) "research institute" means an institution affiliated with a teaching hospital, the sole purpose of which is research in the health fields associated with the teaching of under-graduate or post-graduate students in the health professions for the purpose of carrying out scientific research, under public support or sponsorship, contributing to the whole body of health knowledge, together with auxiliary areas of the institute to the extent that such areas service or support the research facilities;
- (f) "teaching component" means a designated area of a university-affiliated hospital providing facilities for giving instruction to under-graduate or post-graduate students in the health professions in which the treatment of the patient is the function of a team of staff members, including the attending staff physician, a resident physician, an intern physician and a clinical clerk, and for which each member of the medical staff of the teaching unit and the head of each medical department of the teaching unit are jointly appointed by the university with which the hospital is affiliated and the board of directors of the hospital; and
- (g) "teaching hospital" means a hospital providing facilities for the instruction of under-graduate and post-graduate students in the health professions in which the treatment of the patient is the function of a team of staff members, including the attending staff physician, a resident physician, an intern physician and a clinical clerk, and for which each member of the medical staff and the head of each medical department of the hospital are appointed jointly by the university with which the hospital is affiliated and the board of directors of the hospital.

2.—(1) The capital grant under subsection 2 shall amount to the approved cost.

(2) Where the contract for the construction of new buildings or the renovation of existing buildings for a teaching hospital, research institute, research facilities or a teaching component was signed on or after the 1st day of January, 1966, the Commission shall pay a capital grant to a teaching hospital for the construction or renovation programme.

(3) The Commission shall retain any hospital construction grants or other moneys paid by the Department of National Health and Welfare and any grants authorized by Ontario Regulations 308/63 and 303/66 in respect of the new construction and renovation.

(4) A teaching hospital receiving a capital grant under this Regulation shall not be paid capital financial assistance under Ontario Regulation 302/66.

3.—(1) Where a capital grant is requested for the construction of new buildings or the renovation of existing buildings for a teaching hospital or a research institute, the approved cost shall include the full cost of land acquired on or after the 1st day of January, 1966 for the teaching hospital or the research institute.

(2) Where a capital grant is requested for the construction of a teaching component, research facilities or research institute for a university-affiliated hospital, the approved cost shall include 100 per cent of the cost of that area of the land acquired for the hospital on or after the 1st day of January, 1966 which bears the same relation to the total area of the land acquired for the hospital on or after the 1st day of January, 1966 as the

approved cost of the teaching component, research facilities or research institute bears to the total cost of the new construction and renovation programme of the hospital.

4. Where the actual cost of the construction or of the renovation programme differs from the total approved cost of the construction or renovation programme as approved by the Commission, the Commission may make any adjustment in the amount of the capital grant that the Commission deems proper.

5.—(1) The Commission may pay to a teaching hospital fees approved by the Commission for consultants required prior to the preparation of the architect's preliminary sketch-plans for the planning of the teaching hospital, research institute, research facilities or teaching component, as the case may be.

(2) When the architect's preliminary sketch-plans of the teaching hospital, research institute, research facilities or the teaching component, as the case may be, have been approved by the Commission, the fees earned by the architect and approved consultants may be paid by the Commission to the teaching hospital.

(3) When the architect's working drawings of the teaching hospital, research institute, research facilities or teaching component, as the case may be, have been approved by the Commission, the fees earned by the architect and approved consultants may be paid by the Commission to the teaching hospital.

(4) Where moneys have been paid under subsection 1, 2 or 3, the balance of the capital grant shall be paid to the teaching hospital in instalments as provided in subsection 5.

(5) A capital grant under this Regulation shall be paid to a teaching hospital in instalments as follows:

1. One-twentieth when one-twentieth of the work is completed.
2. One-twentieth when one-tenth of the work is completed.
3. One-twentieth when three-twentieths of the work is completed.
4. One-twentieth when one-fifth of the work is completed.
5. One-twentieth when one-quarter of the work is completed.

6. One-twentieth when three-tenths of the work is completed.
7. One-twentieth when seven-twentieths of the work is completed.
8. One-twentieth when two-fifths of the work is completed.
9. One-twentieth when nine-twentieths of the work is completed.
10. One-twentieth when one-half of the work is completed.
11. One-twentieth when eleven-twentieths of the work is completed.
12. One-twentieth when three-fifths of the work is completed.
13. One-twentieth when thirteen-twentieths of the work is completed.
14. One-twentieth when seven-tenths of the work is completed.
15. One-twentieth when three-quarters of the work is completed.
16. One-twentieth when four-fifths of the work is completed.
17. One-twentieth when seventeen-twentieths of the work is completed.
18. One-twentieth when nine-tenths of the work is completed.
19. One-twentieth when nineteen-twentieths of the work is completed.
20. The balance when the approved construction of new buildings or renovation programme is completed and the buildings and facilities are equipped, furnished and ready to receive and treat patients or are ready to carry on the scientific research for which the research institute or the research facilities are intended, as the case may be.

6. This Regulation is deemed to have come into force on the 1st day of January, 1966.
